PUBLIC FUNDING FOR MAPs

Cinzia Barbieri^a

^aUniversity of Torino, Via Verdi 8, 10124 Torino, Italy cinzia.barbieri@unito

The study analysed the public funding for the sector of MAPs, at the level of primary production and processing. Piedmont and Valle d'Aosta regions (Northwest of Italy), were the area of research [1]. Were considered the funding provided by the laws of the European Union (E.U.), or by national and regional laws [1]. The aim of the study were: quantify the amount of the funding for these crops; the beneficiaries; the interventions put in place. Data were drawn from regional databases [3,4], and from the national database dedicated to the agricultural sector [5]. Synthetically: government subsidies intended for MAPs were part of broader interventions related to support the rural development; public funds were especially used to develop the cultivation of MAPs, and improve the quality of production.

5th International Congress on Medicinal and Aromatic Plants (CIPAM)

ZARZIS (TUNISIA) 17 to 20 March 2014

Acceptance Letter

For

Dr. Cinzia Barbieri

University of Torino, Via Verdi 8, 10124 Torino, Italy

We are pleased to inform you that the scientific committee of the 5th International Congress on Medicinal and Aromatic Plants (CIPAM) has accepted your paper entitled:

«PUBLIC FUNDING FOR THE SECTOR OF MAPs»

Authored by

Cinzia Barbieri

For **oral presentation** during this scientific event which will be held 17 to 20 March 2014 to Zarzis - Tunisia. Given the importance of your subject, we rely heavily on your presence to participate in the discussions of the Congress sessions.

Looking forward to meet you in Zarzis-Tunisia, with our best regards

Coordinators:

Dr.HAMROUNI Lamia / Pr.ROMDHANE Mehrez
