The background is a complex abstract composition. It features a variety of overlapping shapes: large, irregular polygons in shades of red, purple, blue, and green; smaller squares and rectangles in yellow, green, and blue; and several thick, black, wavy lines that sweep across the scene. A prominent black line runs diagonally from the upper left towards the lower right. In the lower right quadrant, there is a cluster of black lines forming a cross-hatched pattern, and below it, three horizontal black lines. A solid black circle is positioned near the bottom center. The overall color palette is vibrant and diverse, set against a light, textured background.

**Anti-inflammatory interventions
and biomarker identification
in Peritoneal Dialysis**
