# About the authors

## **John Hoggett**

John Hoggett, BCom (Hons), BTh, MFM (Qld), AAUQ, FCPA, has taught accounting at several different universities in Western Australia and Queensland during his 40 years as an academic. He has taught introductory accounting, corporate accounting and accounting theory to undergraduate and postgraduate students, and written books and monographs for a variety of organisations including CPA Australia and the Group of 100. He was also involved in secondary accounting education for several years with the Curriculum Council of Western Australia.

## **Lew Edwards**

Lew Edwards is Emeritus Professor of the School of Accounting, Queensland University of Technology. Lew's career includes over 25 years teaching financial and managerial accounting to undergraduate and postgraduate students. He was head of the School (Department) of Accountancy for 18 years. He is both a chartered accountant and a CPA, and served for many years on education and technical standards committees (both state and national) of the professional accounting bodies. He has also served as a consultant to accounting firms, industry and government at both national and international levels. Lew is co-author (with John Hoggett) of the bestselling Australian accounting texts *Financial Accounting in Australia* and *Accounting in Australia*. He has also published (as author and co-author) a wide range of manual and computerised accounting practice sets.

## **John Medlin**

Dr John Medlin, PhD (UniSA), BEc (Adelaide), MEd (UNE), CA, is a senior lecturer in the School of Commerce at the University of South Australia. John began his career with Ernst & Whinney (now Ernst & Young) in the early 1980s. After a few years practical experience, John moved to accounting education where he has lectured in both financial and management accounting, accounting theory, economics and business finance. From 1998 until 2010, John coordinated a general first-year accounting subject with an enrolment in excess of 1000 students each year, 80% of whom were non-accounting majors. Since 2010, John has coordinated a second-year financial accounting subject. He has been recognised with teaching awards from the University of South Australia. His research interest is in the area of accounting education, in which he has presented conference papers and been published.

## **Keryn Chalmers**

Keryn Chalmers, BCom, Grad Dipl, PhD, is a professor of accounting and deputy dean (external and international) in the Faculty of Business and Economics at Monash University. Prior to this, Keryn was head of the Department of Accounting and Finance at Monash University. During her academic career, she has been responsible for accounting-related curriculum development, quality assurance and delivery at the undergraduate and postgraduate level. Keryn is an active researcher in the financial accounting and financial reporting area, specifically in relation to accounting policy and disclosure choices of management.

## **Andreas Hellmann**

Andreas Hellmann, PhD (Macquarie), MIB (Macquarie), Diplom-Betriebswirt (Darmstadt), CA, is a senior lecturer in the Department of Accounting and Corporate Governance at Macquarie University. He has extensive teaching experience in both undergraduate and postgraduate units. His main teaching areas are financial and international accounting with a focus on developing a passion for life-long learning and critical thinking. His research program adopts a multi-disciplinary

approach to provide theoretical, methodological and empirical evidence on ways of enhancing the comparability and quality of accounting information for decision-making purposes. His scholarly work is widely published in journals, edited collections and research monographs.

### **Claire Beattie**

Claire Beattie, BCom (1st Class Honours), PhD, is a lecturer in the School of Commerce at the University of Southern Queensland. Before becoming an accounting academic, Claire worked in New Zealand as a management accountant in the manufacturing sector. Claire has taught both financial and management accounting courses at universities in Australia and New Zealand, including the University of Melbourne, University of Canterbury and Massey University. Over the past eight years, Claire has coordinated the undergraduate and postgraduate management accounting courses at the University of Southern Queensland. Claire's research interests include the practice of performance measurement, the role and impact of management accounting in non-traditional environments and accounting education.

### **Jodie Maxfield**

Jodie Maxfield, BBus (Monash), Grad Dip Tax (UCQ), MEc (UNE), is an accounting lecturer at James Cook University (JCU). She has taught across all year levels of the undergraduate accounting major and is currently coordinating first year accounting at JCU. Jodie's research interests are in accounting education and financial accounting.

# Brief contents

Preface xiv  
Acknowledgements xvi

**Part 1 Accounting for decision making 1**

- 1 Decision making and the role of accounting 2
- 2 Financial statements for decision making 32

**Part 2 Accounting systems and processes 71**

- 3 Recording transactions 72
- 4 Adjusting the accounts and preparing financial statements 128
- 5 Completing the accounting cycle — closing and reversing entries 182
- 6 Accounting for retailing 234
- 7 Accounting systems 280

**Part 3 Equity in business 341**

- 8 Partnerships: formation, operation and reporting 342
- 9 Companies: formation and operations 376

**Part 4 Accounting regulation of assets and liabilities 427**

- 10 Regulation and the *Conceptual Framework* 428
- 11 Cash management and control 476
- 12 Receivables 520
- 13 Inventories 556
- 14 Non-current assets: acquisition and depreciation 600
- 15 Non-current assets: revaluation, disposal and other aspects 636
- 16 Liabilities 676

**Part 5 External reporting and performance evaluation 715**

- 17 Presentation of financial statements 716
- 18 Statement of cash flows 750
- 19 Analysis and interpretation of financial statements 828

**Appendix Time value of money 872**

## Part 1

### Accounting for decision making 1

- 1 Decision making and the role of accounting 2
  - 1.1 The dynamic environment of accounting 4
  - 1.2 Decisions in everyday life 5
    - Steps in decision making 5
  - 1.3 Economic decisions 6
  - 1.4 The nature of accounting 8
    - Accounting defined 8
  - 1.5 Users of accounting information 10
  - 1.6 Using information in economic decisions 11
  - 1.7 Accounting information and decisions 13
  - 1.8 Management and financial accounting 14
    - What is management accounting? 14
    - What is financial accounting? 14
    - Management accounting versus financial accounting 14
  - 1.9 Accounting as a profession — Australian perspective 15
  - 1.10 Public accounting versus commercial accounting 16
    - Public accounting 16
    - Accountants in commerce and industry 18
    - Not-for-profit accounting 19
  - 1.11 Ethics and accounting 20
    - Ethics in business 21
    - Ethics and professional accounting bodies 21
    - Ethics in practice 21
- 2 Financial statements for decision making 32
  - 2.1 Types of business entities 34
  - 2.2 Management functions 35
    - Role of managers 35
  - 2.3 Basic financial statements 37
    - The balance sheet 38
    - The income statement 40
    - The statement of changes in equity 41
    - The statement of cash flows 42
  - 2.4 Assumptions made and characteristics of information 44
    - The accounting entity assumption 44
    - The accrual basis assumption 45
    - The going concern assumption 45
    - The period assumption 45
    - Fundamental qualitative characteristics 45

Enhancing qualitative characteristics 46  
The concept of materiality 47  
Benefits and costs 47

- 2.5 The effects of transactions on the accounting equation and financial statements 48

## Part 2

### Accounting systems and processes 71

- 3 Recording transactions 72
  - 3.1 Transactions 74
    - Types of transactions 74
    - Transactions of a business entity 74
    - Source documents 75
  - 3.2 The accounting cycle 76
    - The ledger account 77
    - Account formats 78
    - Accounts commonly used 79
    - Accounts: balance sheet 80
    - Accounts: income statement 81
    - General ledger 82
    - Chart of accounts 82
  - 3.3 Double-entry accounting 85
    - Debit and credit rules 85
    - Normal account balances 86
    - Expanded accounting cycle 87
  - 3.4 General journal 88
    - Recording transactions in a journal 88
    - Posting from journal to ledger 89
    - Illustrative example of journal and ledger 91
  - 3.5 Trial balance 105
    - Limitations of the trial balance 106
    - Correcting errors 107
    - Use of dollar signs and decimal points 107

Appendix: Introduction to the goods and services tax in Australia 108

  - The GST in practice 108
  - Accounting for the GST 110
  - Accounts for recording GST 110
- 4 Adjusting the accounts and preparing financial statements 128
  - 4.1 Measurement of profit 130
    - Cash basis 130
    - Accrual basis 130
  - 4.2 The accounting cycle — expansion to include adjusting entries 132
    - The need for adjusting entries 132

- 4.3 Classification of adjusting entries 133
  - Adjusting entries for deferrals 135
  - Adjusting entries for accruals 141
- 4.4 Adjusted trial balance 146
  - Preparation of financial statements 148
- 4.5 Distinguishing current and non-current assets and liabilities 151
  - Current assets 151
- 4.6 Preparing financial statements from a worksheet 154
  - Preparation of the worksheet 154
  - Preparation of financial statements 159
- 4.7 Financial statements and decision making 160

## 5 Completing the accounting cycle — closing and reversing entries 182

- 5.1 The complete accounting cycle 184
- 5.2 Closing temporary accounts 185
- 5.3 Using the worksheet to record adjusting entries 186
  - Recording adjusting entries 187
- 5.4 The closing process 189
  - Closing the income (including revenue) accounts 191
  - Closing the expense accounts 192
  - Closing the Profit or Loss Summary account 193
  - Closing the Drawings account 194
  - Account balances after the closing process 195
  - The post-closing trial balance 204
- 5.5 Accrual entries in subsequent periods 205
  - Reversing entries 206
  - Reversal of deferral entries 208
- 5.6 Accounting procedures applicable to a partnership or a company 210
  - Accounting for a partnership 211
  - Accounting for a company 211

## 6 Accounting for retailing 234

- 6.1 Inventory 236
  - Retail business operations 236
- 6.2 Condensed income statement for a retailer 237
- 6.3 Accounting for sales transactions, including GST 238
  - Retailing and the goods and services tax 238
  - Tax invoices 238
  - Adjustment notes 239
  - Accounting for sales transactions 240
  - Sales returns and allowances 241
  - Cash (settlement) discounts 241
  - Trade discounts 243
  - Freight outwards 244
- 6.4 Accounting for purchases and cost of sales 244
  - Perpetual inventory system 244

- Periodic inventory system 250
- Perpetual and periodic inventory systems contrasted 252
- 6.5 End of period processes 256
  - Illustration of worksheets in retail businesses 256
  - Perpetual inventory system 257
  - Periodic inventory system 258
- 6.6 Detailed income statement for a retailer 260
- 6.7 Net price method and settlement discounts 261
- 6.8 Profitability analysis for decision making 262
  - Gross profit ratio 262
  - Profit margin 262
  - Expenses to sales ratio 263
  - Inventory turnover 263
  - Ratios illustrated 263

## 7 Accounting systems 280

- 7.1 Operation and development of an accounting system 282
  - Operation of an accounting system 282
  - Development of an accounting system 283
  - Important considerations in developing an accounting system 284
- 7.2 Internal control systems 285
  - Internal control systems defined 285
  - Principles of internal control systems 286
  - Limitations of internal control systems 288
- 7.3 Manual accounting systems — subsidiary ledgers 288
  - Control accounts and subsidiary ledgers 289
- 7.4 Manual accounting systems — special journals 290
  - Sales journal 291
  - Purchases journal 293
  - Cash receipts journal 295
  - Cash payments journal 299
  - Use of the general journal 302
- 7.5 Abnormal balances in subsidiary ledgers 304
  - Account set-offs 304
  - Demonstration problem 306
- 7.6 Accounting software 312
  - An introduction to MYOB 314
  - Recording transactions in MYOB 315
  - Computerised accounting — advantages and disadvantages 316
- 7.7 Accounting cycle — manual and computerised 317

### Part 3

## Equity in business 341

- 8 Partnerships: formation, operation and reporting 342
  - 8.1 Partnership defined 344
  - 8.2 Advantages and characteristics of a partnership 344
    - Characteristics of a partnership 345
  - 8.3 Partnership agreement 346
  - 8.4 Accounting for a partnership 347
    - Method 1: Capital accounts that include profits and losses 347
    - Method 2: Fixed capital accounts 348
  - 8.5 Accounting for the formation of a partnership 348
  - 8.6 Allocation of partnership profits and losses 350
    - Fixed ratio 351
    - Ratio based on capital balances 351
    - Fixed ratio after allowing for interest and salaries 352
  - 8.7 Drawings and loans made by partners 355
    - Drawings 355
    - Loans or advances by partners 357
  - 8.8 Financial statements for a partnership 357
- 9 Companies: formation and operations 376
  - 9.1 Types of companies 378
    - Limited companies 378
    - Unlimited companies 380
    - No-liability companies 380
    - Special companies 380
    - Advantages and disadvantages of the corporate entity 380
  - 9.2 Forming a company 382
    - Replaceable rules and constitution 383
    - The certificate of registration 383
    - The prospectus 383
    - Administering a company 384
  - 9.3 Categories of equity in a company 385
    - Share capital 385
    - Retained earnings 385
    - Other reserves 387
  - 9.4 Accounting for share issues 387
    - Private share placements 387
    - Public share issue, payable in full on application 387
    - Public share issue, payable by instalments 388
    - Undersubscription and oversubscription 391
    - Rights issue of shares 393
    - Bonus share issues 393
    - Formation costs and share issue costs 394
    - Preference shares 394

- 9.5 Dividends 395
  - Cash dividends 397
  - Preference dividends 397
  - Share dividends 398
  - Share splits 400
  - Comparison of share dividends and share splits 400
- 9.6 Reserves 400
  - Creation of reserves 401
  - Disposal of reserves 401
- 9.7 Income tax 402
- 9.8 Preparing the financial statements 402
  - Illustrative example: Preparation of financial statements 403

### Part 4

## Accounting regulation of assets and liabilities 427

- 10 Regulation and the *Conceptual Framework* 428
  - 10.1 Regulation and development of accounting standards 430
    - Brief history of regulation 430
    - Financial Reporting Council 432
    - Australian Accounting Standards Board 432
    - Australian Securities and Investments Commission 434
    - Australian Securities Exchange 434
    - International Accounting Standards Board (IASB) 434
    - The IFRS Interpretations Committee 435
    - Financial Accounting Standards Board (FASB) 436
    - The Asian-Oceanian Standard-Setters Group (AOSSG) 436
  - 10.2 The *Conceptual Framework* 438
    - Background to development of the *Conceptual Framework* 438
  - 10.3 The reporting entity 439
  - 10.4 Objectives of general purpose financial reporting 442
  - 10.5 Qualitative characteristics of financial information 444
    - Fundamental characteristics 444
    - Enhancing qualitative characteristics 446
    - The cost constraint on relevant, faithfully representative information 448
  - 10.6 Definitions of elements in financial statements 449
    - Assets in the current *Conceptual Framework* 449
    - Assets in the proposed framework 449
    - Liabilities in the current *Conceptual Framework* 450
    - Liabilities in the proposed framework 450
    - Equity in the current *Conceptual Framework* 451
    - Income in the current *Conceptual Framework* 451
    - Expenses in the current *Conceptual Framework* 452

- 10.7 Recognition of the elements 452
  - Asset recognition in the current *Conceptual Framework* 453
  - Liability recognition in the current *Conceptual Framework* 453
  - Asset and liability recognition in the proposed framework 453
  - Income recognition in the current *Conceptual Framework* and standards 453
  - Expense recognition in the current *Conceptual Framework* 457
  - Income and expense recognition in the proposed framework 457
- 10.8 Measurement 458
  - Measurement in the proposed framework 459
  - Concepts of capital 459

## 11 Cash management and control 476

- 11.1 Cash defined 478
- 11.2 Control of cash 478
  - Control of cash receipts 479
  - Control of cash payments 481
- 11.3 Bank accounts and reconciliation 482
  - Cheque accounts 482
  - Use of electronic funds transfer 483
  - The bank statement 483
  - Bank reconciliation 484
- 11.4 The petty cash fund 490
  - Establishing the fund 490
  - Making payments from the fund 491
  - Reimbursing the fund 491
- 11.5 Cash budgeting 493
  - Need for cash budgeting 493
  - Preparation of a cash budget 494
- 11.6 Cash management 496
  - Principles of cash management 496
- 11.7 Analysing adequacy of cash flows 497

## 12 Receivables 520

- 12.1 Types of receivables 522
  - Accounts receivable 522
  - Bills receivable 522
  - Other receivables 523
- 12.2 Accounts receivable (trade debtors) 523
  - Recognition of accounts receivable 523
  - Valuation of accounts receivable 524
- 12.3 Bad and doubtful debts 524
  - Allowance method of accounting for bad debts 525
  - Estimating doubtful debts 526

- Writing off bad debts 528
- Recovery of an account written off 530
- Direct write-off method 530
- Demonstration problem 531
- 12.4 Management and control of accounts receivable 533
  - Credit policies 533
  - Monitoring credit policies 534
  - Internal control of accounts receivable 536
  - Disposal of accounts receivable 536
- 12.5 Bills receivable 538
  - Trade bills 538
  - Promissory notes 539
  - Determining due date 540
  - Calculating interest on bills and notes 540
  - Accounting for receipt and collection of bills receivable 541
  - Discounting bills receivable 542
  - End-of-period adjustments for interest revenue 543

## 13 Inventories 556

- 13.1 Determining the cost of inventory on hand 558
  - Performing a stocktake 558
  - Transfer of ownership 559
  - Goods on consignment 559
  - The cost of inventory 560
- 13.2 Assignment of cost to ending inventory and cost of sales — periodic system 560
  - Specific identification method — periodic 562
  - First-in, first-out (FIFO) method — periodic 562
  - Last-in, first-out (LIFO) method — periodic 563
  - Weighted average method — periodic 564
  - Comparison of costing methods 564
  - Consistency in using a costing method 566
- 13.3 Costing methods in the perpetual inventory system 567
  - First-in, first-out method 569
  - Last-in, first-out method 569
  - Moving average method 569
- 13.4 Comparison of inventory systems 570
- 13.5 The lower of cost and net realisable value rule 572
- 13.6 Sales returns and purchases returns 574
  - Returns using the first-in, first-out method 575
  - Returns using the moving average method 575
- 13.7 Inventory errors 576
- 13.8 Estimating inventories 578
  - Retail inventory method 578
  - Gross profit method 580
- 13.9 Presentation in financial statements 582
- 13.10 Effect of costing methods on decision making 582

- 14 Non-current assets: acquisition and depreciation 600**
  - 14.1 The nature of property, plant and equipment 602
  - 14.2 Determining the cost of property, plant and equipment 602
  - 14.3 Apportioning the cost of a lump-sum acquisition 604
  - 14.4 Assets acquired under a lease agreement 605
  - 14.5 Depreciation 606
    - The nature of depreciation 606
    - Determining the amount of depreciation 607
    - Depreciation methods 608
    - Straight-line method 608
    - Comparison of depreciation methods 612
    - Revision of depreciation rates and methods 613
    - Accumulated depreciation does not represent cash 613
  - 14.6 Subsequent costs 614
    - Day-to-day repairs and maintenance 615
    - Overhauls and replacement of major parts 615
    - Leasehold improvements 616
    - Spare parts and service equipment 616
  - 14.7 Property and plant records 618
  - 14.8 Disclosure of property, plant and equipment 619
  - 14.9 Analysis, interpretation and management decisions 620
    - Analysis and interpretation 620
    - Management decisions 621

- 15 Non-current assets: revaluation, disposal and other aspects 636**

- 15.1 The revaluation model 638
  - Initial revaluation increases 639
  - Initial revaluation decreases 641
  - Reversals of increases and decreases 641
- 15.2 The impairment test 643
- 15.3 Derecognition of non-current assets 644
  - Scrapping non-current assets 644
  - Sale of non-current assets 645
  - Derecognition of revalued assets 647
  - Exchanging non-current assets 647
  - Exchanging dissimilar assets 648
- 15.4 Composite-rate depreciation 648
- 15.5 Mineral resources 650
  - Exploration and evaluation costs 650
  - Development costs, construction costs and inventories 650
  - Amortisation 651
  - Depreciation of related construction assets 651
- 15.6 Biological assets and agricultural produce 652
- 15.7 Intangible assets 653
  - Separately acquired intangibles 654

- Internally generated intangibles 654
- Intangibles subsequent to initial recognition 654
- Amortisation 655
- Patents and research and development costs 655
- Copyrights 656
- Trademarks and brand names 656
- Franchises 657
- 15.8 Goodwill in a business combination 657

- 16 Liabilities 676**

- 16.1 Liabilities defined 678
- 16.2 Recognition of liabilities 679
  - Why recognition is important 679
  - Criteria for recognition 680
- 16.3 Provisions and contingent liabilities 680
  - Nature of provisions 680
  - Items excluded from provisions — future costs 681
  - Contingent liabilities 681
- 16.4 Classification of liabilities 683
  - Need for classification 683
  - Basis of classification 683
  - Categories 683
- 16.5 Current liabilities 683
  - Accounts payable (trade creditors) 684
  - Bills payable 684
  - Employee benefits 686
  - Warranties 690
  - Onerous contracts 690
  - GST payable 691
- 16.6 Non-current liabilities 692
  - The types of non-current liabilities 692
  - Debentures 693
  - Other non-current liabilities 696
  - Why finance through long-term debt? 698
- 16.7 Analysing liabilities for decision making 699
  - Liquidity ratios 700
  - Financial stability ratios 701
  - Illustration of ratios 701

- Part 5**

- External reporting and performance evaluation 715**

- 17 Presentation of financial statements 716**

- 17.1 External reporting requirements 718
  - Annual financial report 718
  - Concise report 720
  - Interim financial report 721

# Preface

Our main purpose in writing this book is to provide an introductory but comprehensive description of the purpose, practice and process of contemporary international financial accounting in an Australian context. With the increased emphasis on the globalisation of business, the material is ideal for the study of introductory accounting in a broad international context.

The book is designed for tertiary students interested in an accounting career and for those wanting a general understanding of the production and use of accounting information in the business sector. This ninth edition considers more fully the need for accounting knowledge by students undertaking business studies in areas other than accounting. The book is suited to a two-semester course at both the undergraduate level and the postgraduate level as it provides a general understanding of the role of financial accounting information systems in any business sector.

The ninth edition builds on the strengths of previous editions with a strong focus on the decision-making role of accounting as well as on a student's acquisition of generic skills such as communication, analysis and problem solving, critical thinking, judgement, and an appreciation of ethical issues. The opportunity to develop these generic skills is provided by the range of end-of-chapter activities. The authors, however, believe that competency in the technical skills of accounting should remain as the core objective, and the book therefore continues to provide appropriate discussion of key technical issues. It is our belief that a person equipped with knowledge of technical material in accounting possesses a powerful tool for making economic decisions and for analysing and solving business problems. These technical skills are used in the book to provide clear and detailed explanations of the accounting concepts that form the basis of the practice of accounting. The use of the technical skills of accounting in teaching concepts gives students a practical foundation from which to build their understanding.

The book is organised in six parts as follows, with emphasis on decision making in a business enterprise before consideration of external reporting issues.

Part 1: Accounting for decision making (chapters 1–2)

Part 2: Accounting systems and processes (chapters 3–7)

Part 3: Equity in business (chapters 8–9)

Part 4: Accounting regulation of assets and liabilities (chapters 10–16)

Part 5: External reporting and performance evaluation (chapters 17–19).

Based on feedback from users of the previous editions of this book, there remains in the ninth edition a strong focus on:

1. service organisations operating in the business and not-for-profit sectors
2. the use of accounting information by non-accountants, both in text examples and in end-of-chapter activities
3. the impact of the goods and services tax (GST) on business records in a number of exercises and problems
4. the effect of accounting information on decisions made in business (segments in each chapter provide links to business activities, and each chapter contains a scene setter)
5. the effect on accounting systems of improvements in information technology
6. the impact of developments in the regulation of accounting standards at national and international levels.

We have continued to improve the readability of the book without compromising the integrity of its theoretical and practical content, and have continued the policy of including detailed learning objectives.

Many chapters provide a discussion of the impact of the GST on business, especially on small business. However, instructors can ignore the effects of the GST if they wish to pay attention to the other accounting issues in each chapter. An introductory coverage of the GST is provided as an appendix to chapter 3. Many exercises and problems permit lecturers to select where GST is included and where it is excluded.

## Changes from the previous edition

The major features of this ninth edition include the following.

- Material has been extensively rewritten in relation to the new regulatory arrangements for the development of accounting standards globally and in the Australian context.
- ‘Scene setters’ at the beginning of each chapter have been updated to help students understand the relevance of the accounting material in that chapter to the issues faced by accountants in practice.
- Additional and new ‘business knowledge’ vignettes in each chapter show the relevance of accounting to the practical world of business.
- Learning checks have been added to summarise the key points from the preceding section.
- Approximately half of the discussion questions, exercises and problems in many chapters are new.
- In the end-of-chapter case material, several decision analysis cases, critical thinking cases, communication and leadership activities and ethics and governance issues are either new or updated. Web-based activities are included in several chapters. In addition, the financial analysis is based on the latest JB Hi-Fi Limited annual report, which is available on its website, [www.jbhifi.com.au](http://www.jbhifi.com.au).
- All the exercises and problems are now tagged by learning objective.

## Supplementary materials

*Financial Accounting 9th edition* is supported with an extensive teaching and learning resources supplementary package.

- *WileyPLUS* is a research-based online environment for effective teaching and learning. With *WileyPLUS*, lecturers can prepare, assign and grade accounting activities simply and in a time efficient manner. *WileyPLUS* increases student confidence through an innovative design that allows greater engagement, which leads to improved learning outcomes. For more information, contact your John Wiley & Sons sales consultant or visit [www.wileyplus.com](http://www.wileyplus.com).
- A solutions manual containing worked solutions to all end-of-chapter discussion questions, exercises, problems, case studies and activities is available for lecturers who prescribe this text. The solution manual has been thoroughly checked for accuracy and correctness.
- PowerPoint Presentation contains over 1000 slides with summaries of key concepts and processes presented in the chapter as well as key diagrams and worked examples from the text.

**WileyPLUS**

## Acknowledgements

We wish to express our appreciation of the following people and organisations who have contributed in some way to the development of the ninth edition of this book and to the refinement of our ideas. Particular appreciation is again extended to our very patient partners and to our families for their continued understanding, assistance with finding material for cases, business knowledge and profiles, and with proofreading, and for their tolerance of partners and parents who are buried in their studies for long hours at evenings and weekends.

Special appreciation is also extended to those who have contributed to the text as independent reviewers and preparers of the extensive teaching and learning resources associated with the textbook. We appreciate the contributions of Andrew Reynolds (Curtin University), Nila Latimer, Philip Johnson (University of South Australia), Peter Hall (University of South Australia) and Penny Janson (University of Western Sydney), who worked on various elements of the teaching and WileyPLUS resources.
