# Preface

The International Conference Series on Health Information Science (HIS) provides a forum for disseminating and exchanging multidisciplinary research results in computer science/information technology and health science and services. It covers all aspects of health information sciences and systems that support health information management and health service delivery.

The 7th International Conference on Health Information Science (HIS 2018) was held in Cairns, Queensland, Australia, during October 5–7, 2018. Founded in April 2012 as the International Conference on Health Information Science and Their Applications, the conference continues to grow to include an ever-broader scope of activities. The main goal of these events is to provide international scientific forums for researchers to exchange new ideas in a number of fields that interact in depth through discussions with their peers from around the world. The scope of the conference includes: (1) medical/health/biomedicine information resources, such as patient medical records, devices and equipments, software and tools to capture, store, retrieve, process, analyze, and optimize the use of information in the health domain; (2) data management, data mining, and knowledge discovery, all of which play a key role in decision-making, management of public health, examination of standards, privacy and security issues; (3) computer visualization and artificial intelligence for computer-aided diagnosis; and (4) development of new architectures and applications for health information systems.

The conference solicited and gathered technical research submissions related to all aspects of the conference scope. All the submitted papers in the proceeding were peer reviewed by at least three international experts drawn from the Program Committee. After the rigorous peer-review process, a total of 13 full papers and five short papers among 43 submissions were selected on the basis of originality, significance, and clarity and were accepted for publication in the proceedings. The authors were from Australia, Bangladesh, China, Finland, Russia, and The Netherlands. Some authors were invited to submit extended versions of their papers to a special issue of the *Health Information Science and System* journal published by Springer.

The high quality of the program – guaranteed by the presence of an unparalleled number of internationally recognized top experts – in reflected the contents of the proceeding. The conference was therefore a unique event, where attendees were able to appreciate the latest results in their field of expertise, and to acquire additional knowledge in other fields. The program was structured to favor interactions among attendees coming from many different areas, scientifically and geographically, from academia and from industry.

We would like to sincerely thank our keynote and invited speaker:

- Professor Fernando Martin-Sanchez, FACMI, FACHI, CHIA, FIAHSI, Instituto de Salud Carlos III, Spain

Our thanks also go to the host organization, James Cook University, Australia. Finally, we acknowledge all those who contributed to the success of HIS 2018 but whose names are not listed here.

October 2018

# Organization

## General Co-chairs

Yanchun Zhang	Victoria University, Australia and Fudan University, China
Wei Xiang	James Cook University, Australia
Uwe Aickelin	University of Melbourne, Australia

## Program Co-chairs

Siuly Siuly	Victoria University, Australia
Ickjai Lee	James Cook University, Australia
Zhisheng Huang	Vrije Universiteit Amsterdam, The Netherlands

## Conference Organization Chair

Hua Wang	Victoria University, Australia
----------	--------------------------------

## Publicity Co-chairs

Juanying Xie	Shaanxi Normal University, China
Ji Zhang	University of Southern Queensland, Australia

## Publication Chair

Rui Zhou	Swinburne University of Technology, Australia
----------	---

## Local Arrangements Chair

Lei Lei	James Cook University, Australia
Jiangang Ma	James Cook University, Australia

## Webmaster

Sarathkumar Rangarajan	Victoria University, Australia
------------------------	--------------------------------

## Program Committee

Uwe Aickelin	University of Melbourne, Australia
Omer Faruk Alçin	Bingöl University, Turkey
Jiang Bian	University of Florida, USA
Fei Chen	South University of Science and Technology, China

Soon Ae Chun	The City University of New York, USA
James Cimino	National Institutes of Health, USA
Licong Cui	University of Kentucky, USA
Grazziela Figueredo	University of Nottingham, UK
Yanhui Guo	University of Illinois Springfield, USA
Zhisheng Huang	Vrije Universiteit Amsterdam, The Netherlands
Du Huynh	University of Western Australia, Australia
Xia Jing	Ohio University, USA
Enamul Kabir	University of Southern Queensland, Australia
Ickjai Lee	James Cook University, Australia
Gang Luo	University of Washington, USA
Zhiyuan Luo	Royal Holloway, University of London, UK
Fernando Martin-Sanchez	Instituto de Salud Carlos III, Spain
Bridget Mcinnes	Virginia Commonwealth University, USA
Fleur Mougin	ERIAS, INSERM, U1219, Université de Bordeaux, France
Trina Myers	James Cook University, Australia
William Song	Dalarna University, Sweden
Weiqing Sun	University of Toledo, USA
Xiaohui Tao	University of Southern Queensland, Australia
Pasupathy Vimalachandran	Victoria University, Australia
Hua Wang	Victoria University, Australia
Jimin Wen	Guilin University of Electronic Technology, China
Wei Xiang	James Cook University, Australia
Ji Zhang	University of Southern Queensland, Australia
Rui Zhou	Swinburne University of Technology, Australia
Fengfeng Zhou	Jilin University, China
