- Characters, balloons, objects provided
- Cannot import photos
- Export to Twitter, Clipboard, Photos, and iTunes for file sharing

- Select from established scenes
- Customize your personal avatar
- Add word balloon and text
- Include other Bitstrips user Avatars

A photograph of a glass of water on a table. The glass is partially filled with water. A white speech bubble with a black outline is overlaid on the right side of the glass, containing the text 'I'm really half full!'. In the background, there is a stack of old books and a green boxwood plant.

I'm really half
full!

- Free version = 1 word balloon, upgrade for more balloons

Get rid of less important details.

Back to School

3 easy steps to summarization

Keep important details.

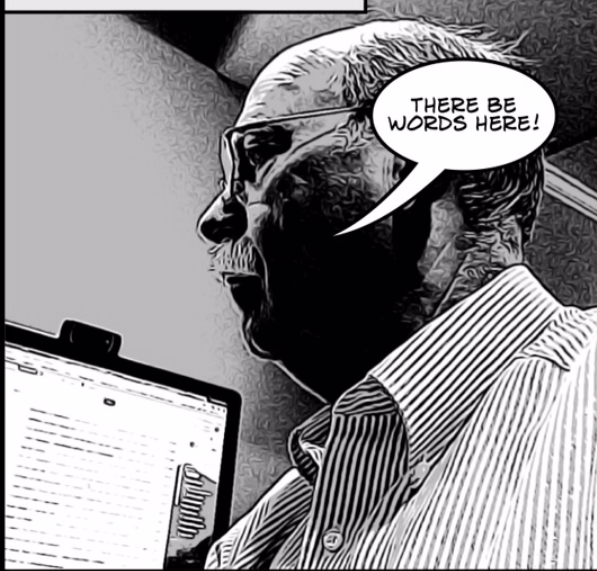

Write it in your own words!

SIDLIT IN COMICS

I'VE BECOME JUST A
CARTOON OF MYSELF.

WHAT TO DO, WHAT TO DO...

- Import from Photo Stream or Camera Roll
- Shoot images using Camera
- Multiple Templates
- Filters

PowToon

*PowToon: a Data
Visualization Tool*

PowToon

The image shows the PowToon software interface. The central stage displays a slide with a green circle containing a white person icon, the text "VS", and the title "PowToon: a Data Visualization Tool". The interface includes a top menu bar with options like New, Save, Cut, Copy, Paste, Sound, Image, Add Text, and Re-Publish. A left sidebar shows a sequence of five slides. A right sidebar contains various asset categories such as Text Effects, Image Holders, Business, Education, Signs, Money, Transport, General, Weather, Info, and Social Networks. A bottom timeline shows a 10-second duration with a playhead at 3 seconds. Red callout boxes highlight specific features: "Styles" points to the right sidebar, "Text Options" points to the text on the stage, "Objects or Graphics" points to the asset categories, "Stage" points to the central slide area, and "Timeline" points to the bottom time axis.

Notes on PowToon

- Powtoontricks.com for tutorials
- Start with a Template that closely matches your idea
- You can swap objects using the swap button
- No Undo/Redo feature
- No tweening but you can rotate objects
- Save often
- No way to move objects behind or in front of other objects
- SIDLIT attendees = 1 Classroom license (60 students) plus 150 Classroom licenses to give to colleagues at institution
