[Hospital/clinic Name Here]

## What to do if you might have COVID-19

Don't go to work.

Send this as
your sick note

You need to self-isolate:

- If you had close contact with someone sick or recent travel: for 14 days
- If you have symptoms: for 14 days from when symptoms started
- If you were tested: until you hear from public health on what to do

Most people feel sick (like the flu) and recover well. Only some people get very sick. **You can save lives by staying home.** 

## What you can do to feel better

For sore throat
Eat **soft foods**(soup / smoothies)

Take 6 long, deep breaths a few times a day

If congested lift your head when sleeping

Medications you can safely take

Acetaminophen (Tylenol): (Adults) Every 6 hours take

two 325 mg tablets

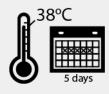

OR

take two 500 mg tablets

## You should feel better in 14 days

OR

## What if you feel worse?

Fever over 38°C (100.4°F) for 5 days

Shortness of breath, even when walking

OR

Feel **too sick to get up** or watch TV
