Unfortunately, the following corrections are required:

1. There is a sign error in the value of C_6 which appear in Eq. 12 on page 1299

$$\rho_0(T)/\rho_c = 1 + c_1\varphi^{1/3} + c_2\varphi^{2/3} + c_3\varphi^{5/3} + c_4\varphi^{16/3} + c_5\varphi^{43/3} + c_6\varphi^{110/3}$$

The coefficient C_6 = 674694.450000 in **Table 9** (page 1300) should be **-**674694.450000.

2. Eq (9) on page 1299 used to calculate reference density needs to be corrected to accommodate the following values of the coefficient of α_{14}, α_{24} and α_{34} in the Table 10 (page 1301). The corrected equation is given below; j needs to be corrected from $j=3$ to $j=4$

$$\left[\rho_{\mathrm{ref}}(T, b) - \rho_0(T)\right]/(\mathrm{kg \cdot m^{-3}})$$

$$= \sum_{i=1}^{i=3} \alpha_{i0}\, [b/(\mathrm{mol \cdot kg^{-1}})]^{(i+1)/2} + \sum_{i=1}^{i=3}\sum_{j=1}^{j=4} \alpha_{ij}[b/(\mathrm{mol \cdot kg^{-1}})]^{(i+1)/2}\, (T/T_\mathrm{C})^{(j+1)/2}$$
