Inheritance Cases in the Archives of the Swedish Foreign Ministry of Swedes who Died in America

Nils William Olsson and Ted Rosvall*

Introduction

Genealogists and researchers of immigration and immigrants delight in new indices, tools that help them recover lost branches of their families or immigrants, who have disappeared in the vastness of their new country. It was therefore a moment of great satisfaction when the authors of this article discovered a name index pertaining to over 1,050 different dossiers in the archives of the Swedish Foreign Ministry (*Utrikesdepartementet*) on deposit in Sweden's National Archives (*Riksarkivet*) in Stockholm. These dossiers all concern cases where a Swedish immigrant had died without a family or heirs in the United States and where the various Swedish consulates or the Swedish Embassy in Washington had assisted in finding basic information concerning the deceased. Thanks to these investigations, there are to be found in these dossiers, many important details and clues, information that should aid researchers on both sides of the Atlantic.

The index normally provides the following basic information for each individual:

Name (surname and first names - sometimes also variant spellings or an "alias.")

Date of birth (in a number of cases).

Place of birth (usually by parish, occasionally by city or county).

Date of death.

Place of death (by city, town and state).

File number of dossier.

Additionally, there may also be information concerning "next-of-kin" in Sweden or other pertinent details.

The dossiers themselves differ in size and details, but should always be consulted for more facts and clues not necessarily revealed in the index.

*Ted Rosvall is a leading Swedish genealogist and is a contributing editor of *SAG*. He resides at Enåsen, Falekvarna, 521 00 Falköping, SWEDEN.

The dossiers concerning the United States are divided into three record groups - the New York (NY) dossiers; the San Francisco (SF) dossiers and the Washington (W) dossiers. The files themselves, however, deal with immigrants all over the U.S. A few of the cases deal with Canadian deaths, in which case the signum is (D) for *Diverse* or Miscellaneous. The group abbreviation as well as the file number (e.g. SF # 6 or W # 564) must be produced when ordering a dossier from Riksarkivet. The record group title is "UD:s Huvudarkiv Flc -Dossierer, Serie II."

This index covers a period of time from the middle of the 1860s to 1901. In 1902 the Foreign Ministry changed the dossier system, but inheritance cases like these continue up until the 1950s and there are card indices to these younger dossiers as well.
