"The Voice of the Students of Prairie View"

VOLUME 38, NO. 2

Prairie View A. & M. College, Texas

OCTOBER 11, 1963

United Student Aid Fund Established

Prairie View is now participating in the College Reserve Program of the United Student Aid Fund. This means that deserving students in the upper three classes may borrow up to \$1000 per year to help with school expenses.

A total of \$37,500 is now available for loans to needy students who are in good standing. Loans are to be repaid beginning four months after graduation.

tion in \$30.00 monthly installments.

United Student Aid Funds developed the college reserve program to make available an adequate supply of low-cost, long-term bank credit to Prairie View's needy students. The college is required to deposit 8 percent of the total amount available for loans.

Houston Endowment, Inc., the college's largest scholarship

donor, gave \$2000 to be added to \$1000 supplied by the college, making a total of \$3000 for deposit in the program. This amount represents eight percent of \$37,500.

Application forms for these loans may be secured at Dr. T. R. Solomon's office, Dean of Students, Room 202, Memorial Center.

President Evans Is Invited to Trade Symposium in Amsterdam

PRAIRIE VIEW — Dr. E. B. Evans, president of Prairie View A&M College, has received an invitation from Secretary of Agriculture Orville Freeman to participate in an international symposium on the subject of European-American trade relations which will take place in Amsterdam, The Netherlands on November 11-15.

The Symposium is being conducted in connection with the largest food trade fair ever developed by the United States Department of Agriculture. Participants will include recognized European and American leaders representing industry, labor, education, consumers, science, economics, government, and agriculture.

Dr. Evans was a participant in the World Forum held last year in Washington, D. C. He served as chairman of the second plenary session at this international meeting. His interest and experience in world food

problems dates back many years, particularly to the time he represented the United States in studying and proposing ways of increasing the food supply in underdeveloped countries.

He spent several weeks in 1953 visiting countries in the Middle East and has served in an advisory capacity to the American government since this time. He has also served on the Commission of Education and International Affairs and on the committee in charge of leaders and specialists in programs of international relations.

PV Coed Attends National Meet

Carol Ann Parker, senior elementary education major at Prairie View represented the college at the National Conference on Problems of Rural Youth held September 22-25 Oklahoma State University, Stillwater.

From various reports, Miss Parker made an unusually good impression on the officials and other delegates to the conference. Mrs. A. C. Preston, professor of education and advisor to Miss Parker stated that several persons had written her concerning the Prairie View representative. "A Howard University dean offered to help her get a graduate scholarship", Mrs. Preston reported.

Miss Parker served on an informal youth panel, discussing the topic - "As Youth See It." Miss Lois M. Clark, assistant director of Rural Services, National Education Association served as moderator. Miss Parker is a native of Beaumont, Texas.

Winthrop Rockefeller, well-known Arkansas farm and ranch owner and brother of New York governor Nelson Rockefeller, served as chairman of the conference. Mr. Rockefeller began his address by saying "hard work is the secret to success". He feels that today's youth are challenged with an experience that exceeds that of past generations.

The four-day conference was sponsored by the National Committee for Children and Youth. Its objective was to place national focus on the complex problems of young people who are displaced by changing economy in rural areas.

Over five hundred delegates represented fifty states.

Big Weekend Enjoyed in Dallas

Hundreds of students and faculty members made the annual trek to Dallas to enjoy the many festivities over the weekend, including the 39th Annual State Fair Football Classic.

A large number of persons were scheduled to ride the fleet of buses heading north early Monday morning. While missing several activities set for Sunday and the parade early Monday, the group had plenty of time to see the World's biggest Fair Monday afternoon and the major event Monday night.

Prairie View-Wiley Day at the State Fair of Texas on October 14 promised to be the most colorful in the 39 year history of this major event.

Thousands of high school students and teachers and followers throughout Texas and the Southwest joined with Prairie View and Wiley fans in making this day one of the biggest of the year. Most of the students from the two Texas colleges made the trek to Dallas, many participating in the numerous activities of the day.

The main attraction was the football classic in the Cotton Bowl at 8:00 p.m. between the Wiley Wildcats and Prairie View's Panthers. Always a real battle, the game this year was a real thriller. Both teams are fairly evenly matched and have shown good form in their first outings.

The annual parade scheduled at 9:30 a.m. Monday morning opened the day's events. Prairie View's 100-piece band played at the State Fair grounds both Sunday and Monday and again at the game. Wiley and Prairie View shared the pre-game and halftime show which was extra special this year.

Co-Eds in The News — Miss Lovie Hall (top left) was recently named MISS ROTC for 1963-64. Carol Ann Parker (right) was on the program of the National Conference on Problems of Rural Youth. Bottom: (left) Miss Junior title went to Cuney Robins. (right) Betti Poindexter has been voted President of the Memorial Center program board.

Prairie View Now Operates On Integrated Basis

Prairie View A&M College will accept white students on the same basis as others, President E. B. Evans announced.

The Board of Directors of the Texas A&M University System authorized Dr. Evans to accept white students at his discretion. This action was taken during the Board's September meeting.

The College faculty was desegregated in September when three white professors joined the staff.

Prairie View is no longer a Negro college. Like most of the state supported institutions in Texas, it is now open to all.

NEWS IN BRIEF

NATIONAL NEWSPAPER WEEK OBSERVED

National Newspaper week will be observed on October 13-19. Freedom of the Press is always a central theme for this annual observance.

PV SCIENCE PROF. EVALUATES PROPOSALS

Dr. E. E. O'Banion, head of the department of Natural Sciences, served on a National Science Foundation panel in Dallas recently to evaluate proposals for 1964 Summer Science Training programs for talented students.

FRESHMAN CLASS PLANS TALENT SHOW

Freshman class leaders are seeking top talent within their group for the annual Freshman Talent Show which is expected to be scheduled within the next few weeks.

N. A. S. A. OFFICIALS VISIT CAMPUS

Four officers of the National Aeronautics and Space Administration from Houston visited the campus last week to work with college personnel in paying the groundwork for more effective use of Prairie View students and graduates in this huge installation which is rapidly developing only 45 miles away.

BAND FUND DRIVE TO GET UNDERWAY

The committee to raise funds

for the 120-member college band is making plans to initiate the big drive in the near future. Dr. T. P. Dooley, dean of Arts and Sciences, is chairman of the Committee.

COUNCIL DISCUSSES 1964 YEARBOOK

A Yearbook for 1963-64 is the wish of many students throughout the college. This fact was expressed in the Student Council meeting last week, and President Garner appointed a committee to go into details on how this project could be accomplished.

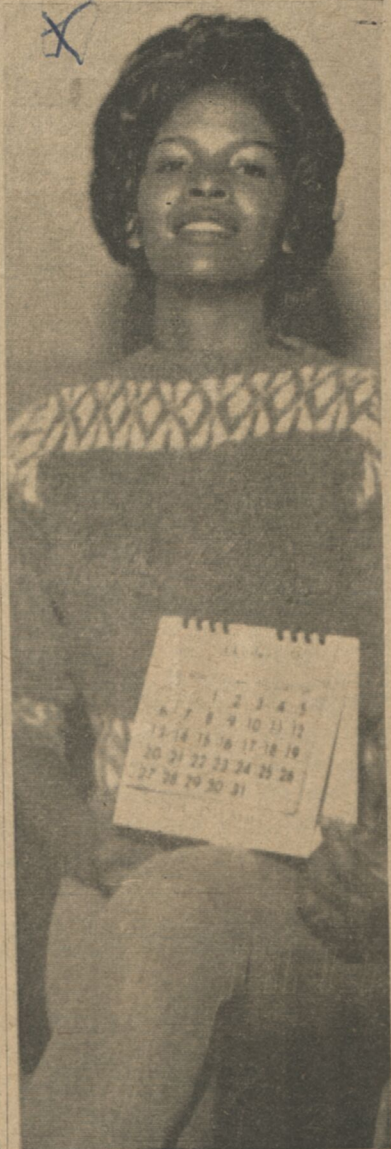

CORONATION PLANS MOVING AHEAD

Work is moving ahead on plans for the 1963-64 Coronation of Miss PV. The big event is set for November 2 and will be under the direction of Miss Arlene Pierce.

Home Economics Installation Set

Installation ceremonies of Beta Epsilon Chapter of Kappa Omicron Phi are scheduled for October 18-19, Dean Elizabeth M. Galloway announced.

The new organization at the college is the National Professional Fraternity in Home Economics. The occasion will be a historic one for the Home Economics school here.

Miss October — The Panther staff selected Donetta Beverly, a freshman from C. B. Dansby High, Kilgore, as Miss October.

New Science Prof. — Dr. Charles Urdy, University of Texas graduate is shown in Science Laboratory.

Prairie View Students Win NASA Internships

In competition with students from three other universities in the Houston area, James H. Clay, junior in political science from Corsicana, Texas; and Theodore Johnson, junior in political science from Prairie View, Texas; won internships as part-time administrative employees in the National Aeronautics and Space Agency at its Manned Spacecraft Center in Houston, Texas. A third Prairie View student, Charles Whyte, a senior in Agriculture from Jamaica, British West Indies, qualified but failed to receive an appointment due to his citizenship status. Approximately twenty students from four institutions of higher learning were given the Federal Service Entrance Examination at the Center on September 21 as part of the Space Agency's newly initiated program to train promising college undergraduates for possible permanent employment in administrative positions subsequent to graduation. Prairie View College was invited to select six of its students with academic majors outside the fields of mathematics, engineering and science to take the examina-

tion in competition with six students from each of three Houston institutions: The University of Houston, St. Thomas University and Texas Southern University.

Dr. Alvin I. Thomas, Dean of the School of Industrial Education and Technology, made the contacts with NASA which led to the opportunity for Prairie View students to participate in the competition and made all of the essential campus arrangements. The six Prairie View students were chosen through an objective screening procedure from a group of students who had been nominated by their departments as prospects for Prairie View representatives in the competition. All of the students nominated were encouraged to take part in the competition by the following members of the faculty: Mrs. Vivienne Smith of the Department of English, Mr. Richard Price of the Department of Mathematics, Dr. Thomas Miller of the School of Industrial Education and Technology, and Mr. Clarence Batie of the Department of Economics. Of the twenty students from the four schools in

NASA Interns — Theodore Johnson and James Clay

the competition, ten were selected by the Space Agency on the basis of their performance on the Federal Service Entrance Examination as administrative interns with the Agency. All of the interns scored at or above the NASA cut-off point on the examination. They began work at the Manned Spacecraft Center on September 30. In addition to Messrs. Clay, Johnson and

Whyte, three other Prairie View students survived the screening procedures on the campus and were chosen to represent Prairie View College in the competition at the Center. They were Richard Gardner, junior in the Department of Economics; Richard Lockett, junior in the department of Sociology; and Edward Garner, senior in the Department of Political Science.

Schedule of Recruiters Visits for October

October 16, 1963, Memorial Center, Agency: Office of Public Affairs, United States Peace Corps, Washington 25, D. C., Mr. Felton A. Gibson, Specialist Assistant; Recruiter: Mr. Felton A. Gibson; Persons interested in interviewing: Senior students.

October 16, 1963, Engineering Bldg., Rm. 112, Agency: Martin Corporation, Orlando, Florida, Mr. W. B. Bennett; Recruiter: Mr. W. B. Bennett; Students: Engineering, Physics and Mathematics.

October 21, 1963, Engineering Bldg., Rm. 112, Agency: Thio-kol Chemical Corporation, Longhorn Division, Marshall, Texas, Mr. F. L. Scoble, Employment Supervisor; Students: Electrical, Industrial, and Mechanical Engineering students, and Chemistry.

October 22, 1963, Engineering Bldg., Rm. 112, Agency: U. S. Army Engineer District, Galveston Corps of Engineers, 606 Santa Fe Bldg., Galveston, Texas; Recruiter: N. A. Nilson; Students: Senior Engineers.

October 24, 1963, Engineering Bldg., Rm. 112, Agency: I. B. M. Corporation; Recruiters: Messrs. J. W. Carter and B. A. Pegan; Students: Science and Mathematics.

October 30, 1963, Engineering Bldg., Rm. 112, Agency: Mason and Hanger-Tilas Mason Co., Inc., Engineers and Contractors, P. O. Box 647, Amarillo, Texas; Recruiters: M. R. Hill, Employment Section Head and/or W. R. Rollen, Personnel Supervisor; Students: Mechanical, Chemical and Industrial Engineers; Physical-Organic Chemistry.

Agriculture News

Richard K. Watkins, a Junior in the field of Animal Science along with Theodore Johns, a Sophomore in Agriculture Education recently represented the chapter at the National Convention of N. F. A. in Atlanta, Georgia.

Watkins was selected to receive his Superior Farmers Degree on the basis of his achievement in the field of Agriculture. Johns, who has also attended the meeting previously, is the nations first vice-president.

Many awards have been received by Watkins in the past, as well as leadership positions. He is at present the President of the Collegiate N. F. A. chapter for 1963-64 school year. In 1959 he also received the Star Modern Farmer Award at the State Association Convention of the New Farmers of America. During this convention he represented Texas as a voting delegate.

Theodore Johns and Richard Watkins left the campus September 29.

The department of Agriculture is also honored for having so highly represented men in relationship to the R. O. T. C. advanced program. We commend Cadets John Terry. Tribute is also to be paid to Bryson Brown, Henry Bostick, Lawrence Madkins, William Wayner, and Richard Watkins for having been selected to serve in the ROTC's advanced program. All are students majoring in the field of agriculture.

The ability and the mastering of that trait is the road map to success.

Reporter
Henry A. Bostick

Homecoming Schedule

NOVEMBER 8, 9, 10, 1963

THEME: ORE — Opportunity, Responsibility, Excellence

FRIDAY, NOVEMBER 8

- 6:00 p.m. Bonfire and Pep Rally
- 6:30 p.m. Executive Committee Meeting of the Prairie View Alumni Association — Mr. A. G. Hilliard, '35, President, Room 206, Memorial Center Building
- 8:00 p.m. Board of Directors Meeting of the Prairie View Alumni Association — Mr. G. W. Adams, '32, Board Chairman, Room 206, Memorial Center Building
- 11:00- 2:00 a.m. Pigskin Revue in the Ballroom of the Memorial Center

SATURDAY, NOVEMBER 9

- 3:00- 7:00 a.m. Breakfast Dance for Alumni and Visitors — Admission \$2.00 — Memorial Center Ballroom Music by James Williams, '47 and East Texas All-Stars
- 7:00- 9:00 a.m. Breakfast for members of the classes of 1903, 1913, 1923, 1933, 1943, 1953 in the College Cafeteria
- 9:30-11:00 a.m. General Alumni Meeting — Memorial Center Ballroom, Honoring Classes of 1903, 1913, 1923, 1933, 1943, 1953
- 2:00 p.m. Homecoming Parade
- 2:00 p.m. Football Game — Prairie View College Panthers vs. Bishop College Tigers Blackshear Field Presenting — Miss Homecoming and Miss Prairie View
- 8:00 p.m. Student Dance Auditorium Gymnasium

SUNDAY, NOVEMBER 10

- 11:00 a.m. Religious Worship Service — Auditorium-Gymnasium
- 7:00 p.m. Alumni Vesper Hour — Auditorium-Gymnasium

ANNOUNCEMENTS

LODGINGS AVAILABLE

Lodging will be available in the College Hotel with the following rates: Single room, \$4.00 per night; 2 persons per room, \$3.00 per night each. The College Guest House with the following rates: Single Room, \$2.00 per night; 2 persons per room, \$1.50 per night each. For reservations please contact: Mrs. R. L. Evans, Dean of Women, Prairie View A & M College, Prairie View, Texas.

Accent on Health

It all started with Sir Walter Raleigh and a Y-shaped pipe.

The pipe was a gift to Raleigh from Sir Francis Drake — a souvenir from the West Indies, where natives put the pipe prongs in their nostrils and inhaled the smoke of a smoldering substance they called "tobacco."

Raleigh apparently set the style of his day, for when he took up smoking the practice soon became fashionable.

All this happened nearly 400 years ago — in 1586. Since then smoking has become perhaps the most deeply ingrained habit of humanity.

Today in the United States alone, more than half the men and a fourth of the women smoke cigarettes daily, and additional millions smoke pipes and cigars. And the habit is winning more and more young recruits each day.

Teen-aged youngsters in increasing numbers are succumbing to the blandishments of national advertisers who depict smokers as virile men or beautiful girls, or to the pull of "belonging" to a sophisticated group whose smoking members frown on non-smokers.

Studies by the U. S. National Institutes of Health, the British Ministry of Health, and other scientific organizations of equal prominence, purport to show a strong statistical relationship between smoking and higher death rates from heart diseases, lung cancer and other pulmonary diseases.

The position is attracting support from many organizations — among them the Texas Medical Association, the Am-

erican Cancer and Heart Association, the American Public Health Association, the U. S. Public Health Service and departments of health in most states.

Some researchers are so firmly convinced of the connection between cigarette smoking and higher death rates that they say they would support a ban on cigarettes for public sale if introduced as a new product on today's market.

A fewer number of capable researchers are unimpressed by the statistical studies, claim they are inconclusive and actually contradictory. But they are finding it increasingly difficult to defend their stand in the face of ominous facts and evidence which continues to build up.

The late Dr. William Mayo used to say cigarettes, cigars and pipes were mere "adult pacifiers," something for idle hands to play with. If true, breaking the smoking habit probably isn't as hard as it has been represented.

Should you, personally, make the effort? That's your decision, just as the decision for or against beginning to smoke must be made by teenagers themselves.

College Placement Office

There is a felt need for a keener awareness on the part of seniors and other advanced students of keeping in close touch with the College Placement Office.

Numerous agencies of the Federal Government and Industries, as well as, school personnel officers are constantly in touch with your Placement Office in search of qualified personnel.

A recent check on Placement files show that since June 1, 1963, approximately 100 graduates have been placed. In addition, many other graduates were assisted by this service by having their confidential records and other information and recommendations forwarded to employers and personnel officers throughout the country.

In 1962-63, about 40 Federal Agencies and Industries sent recruiting representatives to our campus who held interviews arranged by your Placement Service.

Elsewhere in this publication is a schedule of interviews for 1963-64 at this time. Other agencies will be added to this schedule.

These interviewers or recruiters are interested in recruiting competent personnel in the respective fields of interest.

While, as you will note, the majority of these interviewers are interested in Engineering, Science and Mathematics students, some are interested in other areas of specialization.

Federal Service Entrance Examinations are given once each month on the campus. It costs nothing to take these examinations. Advanced students are advised to take these examina-

tions. Further information about the Federal Service Entrance Examination may be secured at the Placement Office.

It is suggested that seniors watch the bulletin boards and visit the Placement Office regularly, in Room 201 of the Old Agricultural Building. The Placement Bulletin Board is just outside the door.

The 1963-64 Federal Civil Service Exams

Federal Service Entrance Examinations are to be given each month during 1963-64 at Prairie View College, Animal Industries Building Auditorium.

Applications must be Filed by:
 September 19, 1963
 October 17, 1963
 December 19, 1963
 January 16, 1964
 February 20, 1964
 March 19, 1964
 April 14, 1964

For Test to Be Given On:
 October 12, 1963
 November 16, 1963
 January 18, 1964
 February 15, 1964
 March 21, 1964
 April 18, 1964
 May 16, 1964

Pick up application form No. 5000 A-B at the Prairie View Post Office or the Placement Office, Room No. 201, Old Agricultural Building (Spence Hall).

Kindly register at the Placement Office early, if you plan to take the examination.

Mail your application to:
 Eighth U. S. Civil Service Region
 1114 Commerce Street
 Dallas 2, Texas

These examinations are free. Students desiring to secure positions with the Federal Government should take these tests until they earn a good grade.

Sunday School

All campus young people are invited to attend - - -

WHERE ARE YOU GOING THIS VOCATION?

Young scientists and engineers "going places" investigate a variety of challenging engineering avenues before selecting one best suited to their goals. And they look for a professional climate with lots of individual recognition and advancement opportunity. If you are charting your career along this course, let Ling-Temco-Vought be your guide.

As one of the nation's most versatile contributors to the aerospace, military electronics and communications sciences, LTV can offer you a personalized route to an exciting and rewarding future in such areas as **aerodynamics • avionics and instrumentation • operations analysis • dynamics • systems design • servomechanisms • stress analysis • propulsion •**

communications design • reliability/maintainability engineering • reconnaissance systems • amplifier and computer systems • microwave components design • electromagnetic interference control • electronic systems analysis • telemetry and tracking • trajectory analysis • manufacturing r&d • industrial engineering • technical administration . . . plus many others.

For a closer look at the numerous career directions available with Ling-Temco-Vought, ask your Placement Office for our brochure describing LTV projects and products, then schedule an appointment with our representative. Or write College Relations Office, Ling-Temco-Vought, Inc., P. O. Box 5907, Dallas 22, Texas. Ling-Temco-Vought is an equal opportunity employer.

HOORAY!

We've Integrated

After 86 years as a college for Negro students only, Prairie View A&M College is now open to white students — or should we say — “To All.”

We knew that this provision would soon come after Arlington, first, then Texas A&M University integrated. We are all in the same system, operating under the same Board of Directors.

Prairie View students and faculty have waited and watched for this announcement with keen anticipation. A newspaper report last summer listed only a few remaining segregated colleges in the state and Prairie View was among this group. There were eight state supported colleges in this group, now, according to reports, there are only four left — East Texas State, Sam Houston, Stephen F. Austin and Sul Ross State.

It was mighty good to get out of this list and get on the side of the “good guys”. It is rumored that this is the feeling of some of the colleges still operating on a segregated basis, most Texans seem to be ready for integrated classes on the college level at least.

The fact that we can accept white students is just as important right now as actually having some enrolled. We believe however that white students will enroll soon.

And now, after 86 years, the “Negro” stigma is erased. Being all Negro is not bad, other than the fact that it tends to denote “inferiority to many people.” The separate but equal doctrine was not all bad, but it never seemed to work. One Negro shunted off to himself to operate against nine whites will never work out. That is, for the Negro.

Prairie View's role as a Negro college was a distinguished one. It has served the state long and well. Prairie View's name stands high throughout Texas, the nation and many parts of the world. We're proud of the role we played. We hope to continue to serve the special needs of Negro citizens, but now as one of the colleges of Texas, operating in the framework of the total educational system.

Nobody likes to be different (unless he's eccentric or something). Maybe that's why we're so happy about this new development. White students and staff members at Prairie View will strengthen our Negro students and staff. This means a better faculty and better graduates — and finally better all-around citizens for Texas and the nation.

“The Closed Curtains of Defeat”

A Frenchman once said, there are “no difficulties to him that wills.” Yet, the American drama reveals many tragedies of defeats, discouragement, disheartment, and disparagement all promoting acts of agony. So many Americans have lost the art of will. Will is defined as a wish united with determination. Observing the college scene,

there are many short plays of difficulties to be faced as college students. Every minute thousands of dramas unfold—many students finding themselves putted against life, against insidious charms, and against principles so endear to him. However, the importance is whether we shall succeed to overcome these trial periods. So

FATHER DANNELLEY

Father Dannelley to Conduct Discussion Series on Campus

The Rev. Father James P. Dannelley will lead a series of weekly discussions each week for a six-week period, entitled: “Christianity in an Age of Turbulence, an Anglican (Episcopal) Perspective.” These discussions are open to all, and are sponsored by the Canterbury Association. The first discussion will be Thursday, October 17, at 7:00 p.m. in room 204 of the Memorial Center.

The discussion titles for each week are as follows: Thursday, October 17: “The Phoney God.” Thursday, October 24: “The Religious Fabric of Lies.” Thursday, October 31: “Freedom to Doubt.” Friday, November 8: “Obsolete Christianity.” Thursday, November 14: “Jesus,—the Radical.” Thursday, November 21: “Of Sheep and Goats.”

Newman Club

Every Tuesday, the Newman Club at Prairie View A&M College, Prairie View, Texas have their regular meetings from six to seven p.m.

The officers of the club are: President — Albert Bryson, Vice - President — Barbara Franklin, Secretary — Maude Ferguson, Treasurer — Carlotta Fontenau, Reporter — Sandra Stiner, Religious chairman — Gloria Carrier, Social chairman — Lucille Ozon. These persons have been elected to represent the Newman Club and to take up the responsibilities of the position they hold.

This year, the Newman Club planned a very busy schedule with the various religious, educational, and social affairs that will be sponsored by the club. Also, Newman sweat-shirts will be worn by the Catholic students who are in the club.

Along with the new priest—Father Salsbury of St. Martin DePorres Church and the Newman faculty advisor — Janet Jones, the Newman Club will be very successful this year.

often we are victims of unprepared scripts and drained away by defeats and discouragements; henceforth, lacking the necessary persistence and determination to succeed. Far too often, our self apathy has suggested it is easier to stay defeated rather than strive for excellence. Those who are resigning to this self apathy really are not all content with themselves.

Realizing the rehearsal to success is hard and difficult, we need not practice and strive alone. Fortunately, it was not meant for man to design his life alone. We are endowed with a

MC President Extends Greetings

This is the time of year when many students, whether freshmen or upper classmen begin to get involved in numerous activities. Various organizations are preparing their programs for the 1963-'64 school year. Each student is striving to make a contribution for the betterment of himself and the organization.

Among the groups of organized individuals at Prairie View includes the Governing Board of the Student Memorial Center. Our board of Governors includes students from every school or department on the campus and faculty and staff members. They are a fine group of people that are seeking to find and select those things that are necessary and proper for improving and expanding the knowledge and personalities of the student body.

Many students in college the world over are guilty of leading

only “partial lives.” That is, they only strive to get something out of life, rather than giving in return. No man ever really achieves by helping only himself! I hope that this is not and will never be the case of the PVAMC student. Many of you have been selected by your dormitories to serve on the various committees of the Student Center — now you will have a chance to “give” and “get”. This is an ideal opportunity to prepare yourselves for the future as well as for a place in society by taking on responsibility.

Each one of us as a member of the student body is responsible for shaping our society. We can make it what we want.

Only by working diligently with each other, can we accomplish.

As president of the governing board of the Student Memorial Center, I welcome you to the Heart of Pantherland!

Council Seeks Longer Library Hours

Student Council President Edward Garner had a conference with Mr. O. J. Baker recently. The conference with Mr. Baker was for the purpose of securing longer library hours for the student body. Mr. Baker proposed that if the library were used more by the students the request would be placed on top priority for consideration.

The library is of primary importance to the student. For all important assignments the library is the chief source of reference. Let the library be your home away from home fellow students. In this way we may procure longer library hours and perhaps ease the burden of an already tight schedule.

I Would Like to See

by Nolan Ward

I would like to see the three dollars the New York Yankees cost me, P. V. become the National Champs, a warm hamburger in the Student Center, Louis Lomax thinking for a change, all a's on my transcript, the library open on Sundays and on weekdays longer, a warm hamburger in the Student Center, Dr. Evans start his 47th, 48th, etc. year at Prairie View, another great P. V. basketball team, Sonny Liston be accepted by the nation as the

great champ he is, Stan Musial play baseball for another year, Governor Connally speak at P. V., the downfall of the k. k. k., a warm hamburger in the Student Center, and me as a married man.

I would really appreciate seeing some kind of recognition for the P. V. R. O. T. C. Senior Cadets for their great performance in summer camp, more recognition for P. V. as the great school that it is, more school spirit, less of these foreign sweatshirts and a ten cent coke that is worth ten cents.

The Art of Marriage

by Wilferd A. Peterson
from This Week Magazine
September 29, 1963

Happiness in marriage is not something that just happens. A good marriage must be created. In the art of marriage the little things are the big things ...

It is never being too old to hold hands.

It is remembering to say “I love you”, at least once each day.

It is never going to sleep angry.

It is forming a circle of love

Creator Who never ceases being with us. He can be a comforter to us in the hours of despair, and often, He has suggested “Ask, and it will be given you ... For everyone who asks receives, and he who seeks finds ...” He has many times invited us to come unto Him and to fear not.

Let us not be troubled, discouraged, and defeated for He is able to close the curtains of defeat and premiere a never ceasing way of determination with a will to succeed and pursue our course to excellence.

“I can do all things through Christ which strengtheneth me.”
Philippians 4:13

Oliver Brown

that gathers in the whole family.

It is at no time taking the other for granted, the courtship shouldn't end with the honeymoon, it should continue through all the years.

It is doing things for each other not in the attitude of duty or sacrifice, but in the spirit of joy.

It is speaking words of appreciation and demonstrating gratitude in thoughtful ways.

It is not expecting the husband to wear a halo or the wife to have wings of an angel. It is not looking for perfection in each other.

It is cultivating flexibility, patience, understanding, and a sense of humor.

It is having the capacity to forgive and forget.

It is giving each other an atmosphere in which each can grow.

It is finding room for the things of the spirit. It is a common search for the good and the beautiful.

It is not only marrying the right partner, it is being the right partner.

It is discovering what marriage can be, at its best as expressed in the words Mark Twain used in a tribute to his wife: “Wherever she was, there was eden.”

National Market Exams Scheduled

The next administration of the National Teacher Examinations has been scheduled for Saturday, February 15, 1964. Prairie View A. and M. College is one of the testing centers which will be used on that date. At the one-day testing session, a candidate may take the Common Exams (including tests in Professional Information, General Culture, English Expression, and Non-verbal Reasoning), as well as one (or two) of thirteen Optional Exams in the candidate's field of specialization. The standard fee for the Common Exams and one Optical Exam, incidentally, is \$11.00.

It is worth noting that increasing numbers of reputable school systems are using National Teacher Examination scores in selecting, retaining, and up-grading teachers. Right here in Texas the following school systems REQUIRE prospective teachers to submit NTE scores: Abilene, Dallas, Houston, and Waco. In addition, the following school systems in Texas STRONGLY ENCOURAGE applicants for teaching positions to submit NTE scores together with their other credentials: Amarillo, Austin, Beaumont, Brazosport District, Corpus Christi, El Paso, Fort Worth, Galveston, Garland, Harlingen McAllen, Port Arthur, Richardson, San Angelo, and Tyler (and possibly others not listed here).

Obviously it is of paramount importance that this information be shared with our seniors who are currently enrolled in teacher preparation programs. These young people should make arrangements to take the National Teacher Exams on February 15, 1964 — instead of waiting to take them during the summer. It is recommended that prospective teachers who will be seeking jobs beginning with September 1964 take the Exams in February. This word of advice should be passed on generally, and we are soliciting your assistance through this memorandum.

Those persons desiring to make application to take the National Teacher Examinations here at the College on February 15, should be directed to the Counseling Center. We expect to issue **Bulletins of Information** and application materials at a

Capt. Howell Receives Medal

“ * * * FOR MERITORIOUS ACHIEVEMENT IN GROUND OPERATIONS AGAINST HOSTILE FORCES IN THE REPUBLIC OF VIETNAM DURING PERIOD 12 MAY 1962 TO 10 APRIL 1963. ALTHOUGH EXPOSED TO HOSTILE FIRE, HE FREQUENTLY ACCOMPANIED THE VIETNAMESE FORCES ON COMBAT MISSIONS TO PROVIDE TIMELY ADVISORY ASSISTANCE”.

These words were heard by an inspired audience at Prairie View A&M College during the ceremonial presentation of the Bronze Star Medal to Captain Ernest R. Howell, Infantry, United States Army. Captain Howell is assigned to the US Army Instructor Unit (ROTC) at Prairie View.

Upon graduation from North Carolina A&T College in 1953, Captain Howell, a native of

future date. The Counseling Center will notify you when they are available. Incidentally, completed applications (accompanied by proper exam fees) must be received at Educational Testing Service, Princeton, New Jersey not later than **January 17, 1964!**

Please share these guidelines with all those who may be interested as the Collège sets out to move in accordance with a general trend toward the elevation of teaching as a professional career field.

George H. Stafford, Director
Counseling Center

Goldsboro, North Carolina, was commissioned a Second Lieutenant in the Infantry. Since then he has successfully completed the Basic Infantry Officer's Course, the Airborne School, the Infantry Officer's Career Course, and many other courses and schools of the Army. He has had an array of duty assignments in Infantry, Airborne and Armor Units, here in the states and in Germany.

Captain Howell's service in Vietnam typifies the outstanding performance of duty of US Forces personnel in that Southeast Asian Republic. While serving as Senior Training Center Advisor, Tan Hiep Self Defense Corps Training Center, Armed Forces of the Republic of Vietnam, he constantly distinguished himself by meritorious performance of duty. The Citation for his Bronze Star Medal stated that "Captain Howell displayed outstanding leadership ability, exceptional professional competence, and extreme devotion to duty".

Upon his return from Vietnam in 1963, Captain Howell was assigned to the US Army Instructor Unit (ROTC), Prairie View A&M College, Prairie View, Texas, as an Assistant Professor of Military Science. He resides with his wife, Temple, and three sons, Ernest, Jr., Michael, and Duane at Prairie View, Texas.

Special Events Committee News

The committee on special events has commenced making and carrying out plans for special occasions which are to occur this school year. Committee chairman is Betti R. Poindexter and sponsor is Miss Arlene Pierce.

Heading the list of immediate activities is Miss Prairie View's Confirmation Coffee which is to be held Sunday, October 21, 1963 in the Ballroom of the Memorial Center. This is the occasion where Prairie View royalty receive final confirmation. Miss Prairie View, Maude Ferguson, bestows upon the official leaders of the campus their royal titles for this school year.

The annual coronation of Miss Prairie View will be November 2, 1963 in the gymnasium-auditorium. All individuals who are selected to be in the royal realms of Prairie View will participate in the coronation. According to the planning committees, it will be bigger and better than ever. Detailed information will soon be released.

Committee members are urged to attend committee meetings at announced dates.

Club Crescendo

George M. Campbell, Jr.

Hello, I hope that you are planning to have a wonderful school year and make the best grades. I am proud to say that we plan to have the best there is to offer. We are proud to say that we have our own house, known as "The Pent on the Hill".

I am sure you are wondering who holds offices in this inductive organization. They are: Melvin Hayes, Potentate; Alfred Poindexter, Vice-Potentate; Leroy Holiday, Comptroller; Robert Sanders, Scribe; Roy Aycock, Chaplin; Lee Smith, Busi-

ness Manager; Johnny Hunter, Parliamentarian; Wesley Wilson, Program Chairman; Maurice Portis, Sargeant-at-arms; George Campbell, dean of Pledgees; and James Burleson, Assi. Dean of Pledgees. Behind this paramount introduction of the Eminent Cabinet members, we have forty-four competent men to back this organization. You mustn't forget our laudable sisters, "Club Twenty-Six". In our hearts they are the tops.

I shall not say any more because you never know what we will do next.

BOOM!

Today, foregoing levity, let us turn our keen young minds to the principal problem facing American colleges today: the population explosion. Only last week four people exploded in Cleveland, Ohio—one of them while carrying a plate of soup. In case you're thinking such a thing couldn't happen anywhere but in Cleveland, let me tell you about two other cases last week—a 45-year-old man in Provo, Utah, and a 19-year-old girl in Northfield, Minnesota. And, in addition, there was a near miss in High Point, North Carolina—an eight-year-old boy who was saved only by the quick thinking of his cat, Fred, who pushed the phone off the hook with his muzzle and dialed the department of weights and measures. (It would, perhaps, have been more logical for Fred to dial the fire department, but one can hardly expect a cat to summon a fire engine which is followed by a Dalmatian, can one?)

But I digress. The population explosion, I say, is upon us. It is, of course, cause for concern but not for alarm, because I feel sure that science will ultimately find an answer. After all,

Four people exploded in Cleveland

has not science in recent years brought us such marvels as the maser, the bevatron, and the Marlboro filter? Oh, what a saga of science was the discovery of the Marlboro filter! Oh, what a heart-rending epic of trial and error, of dedication and perseverance! And, in the end, what a triumph it was when the Marlboro research team, after years of testing and discarding one filter material after another—iron, nickel, tin, antimony, obsidian, poundcake—finally emerged, tired but happy, from their laboratory, carrying in their hands the perfect filter cigarette! Indeed, what rejoicing there still is whenever we light up a Marlboro which comes to us in soft pack and Flip-Top Box in all fifty states and Cleveland!

Yes, science will ultimately solve the problems arising from the population explosion, but meanwhile America's colleges are in dire straits. Where can we find classrooms and teachers for today's gigantic influx of students?

Well sir, some say the solution is to adopt the trimester system. This system, already in use at many colleges, eliminates summer vacations, has three semesters per annum instead of two, and compresses a four-year-course into three years.

This is, of course, good, but is it good enough? Even under the trimester system the student has occasional days off. Moreover, his nights are utterly wasted in sleeping. Is this the kind of all-out attack that is indicated?

I say no. I say desperate situations call for desperate remedies. I say that partial measures will not solve this crisis. I say we must do no less than go to school every single day of the year. But that is not all. I say we must go to school 24 hours of every day!

The benefits of such a program are, as you can see, obvious. First of all, the classroom shortage will disappear because all the dormitories can be converted into classrooms. Second, the teacher shortage will disappear because all the night watchmen can be put to work teaching solid state physics and Restoration drama. And finally, overcrowding will disappear because everybody will quit school.

Any further questions?

© 1963 Max Shubman

Yes, one further question: the makers of Marlboro, who sponsor this column, would like to know whether you have tried a Marlboro lately. It's the filter cigarette with a man's world of flavor. Settle back and enjoy one soon.

News from the Memorial Center

Memorial Center Committees

Members of the governing board of the Memorial Center head nine activity committees. The Committee heads and sponsors are as follows: (1) Dance — George Francis, III, Mrs. Edwards, Mrs. Ragland; (2) Special Events — Betti Poindexter, Miss Arlene Pierce; (3) Religion — Marchusa Armstrong, Mr. W. Van Johnson; (4) Finance — Edward Garner, Dr. T. R. Solomon, Mr. W. Van Johnson; (5) Publications — Marjay D. Anderson, Mr. W. Van Johnson; (6) Fine Arts — Donald D. Fennell, Miss Arlene Pierce; (7) Public Relations — Barbara Shavers, Miss Arlene Pierce; (8) Calendar and Coordination — Henry Bostick, Miss Arlene Pierce (9) At Large (Records) — A. Elsinia Soders, Mr. W. Van Johnson, Dr. T. R. Solomon.

Some committees are already active and the others will commence functioning soon. Students who committed themselves to serve on various committees are urged to watch for notices of meetings and render your services wholeheartedly. Remember, "A chain is no stronger than its weakest link—".

Hospitality Committee

The Hospitality Committee of the Memorial Center elected new officers for the year. The officers and members are ready to serve as charming campus hostesses to all the conferences, and special events which are to be held here at Prairie View this year. Chairman is Barbara Kay Jones and Miss Arlene Pierce is sponsor.

Period of Adjustment

Do you succeed or fail? Do you make "A's" or "F's"? It all depends on what decisions you make and how you adjust.

According to Webster, adjustment is the establishing of a satisfactory relationship, as representing harmony, conformance and adaptation. Adjustment can be further explained as the bringing of things into proper position or condition. By definition then, this is the process through which many of you, our new students, are going through. You must, in order to succeed here, put all things that you will encounter into their proper perspectives.

During this period you as new students, will make new acquaintances, establish new relationships, encounter an attitude of conformance and meet with many situations. After this period, you may become apathetic, militant or you may survive the difficult period and become one of the fortunate ones who, through their period of adjustment, will discover their true identities.

The adjustment period is the time when you are faced with the decision of what is right for you and what attitudes will fit your needs and ambitions. It may be that the decision you make will determine whether you stay in your room and study

or play cards; stand on the cuts and loiter or do something constructive; whether, when faced with an assignment, you go to the union and forget it or go to the library and get it; you fall into an attitude of apathy and unconcern about the cultural atmosphere of the campus or become a component in the drive for cultural growth. Indeed your decision may determine whether you really succeed in college, just pass your courses or be among those who realize too late that they missed the entire meaning of their purpose here.

At the end of this semester, some of you may be on scholastic probation, others may have just passed their courses and find themselves still lost and confused, blundering from field to field to find themselves two years from now still trying to make up their minds or "find a teacher who likes them." But others will have experienced a kind of cultural, emotional, intellectual and spiritual growth. These are they who will have begun putting the final markings on their charts and setting the course for their life's journey. These are they who will have successfully survived their period of adjustment.

—Mamie Hughes

YWCA and YMCA Forum Report

The Young Men's and Young Women's Christian Associations presented a forum Sunday, September 22, 1963.

Langston Tabor, Vice President of the Prairie View YMCA, presided. A moment in recognition to all faiths was led by Oliver Brown.

The main topic of discussion was "If I Were A College Student". The speakers were as follows: Mrs. Wilma R. Smith, Teacher, English Department, Phyllis Wheatley High School, Houston, Texas; Mr. Scott Westbrook, Teacher, Harper Junior High School, Houston, Texas; Mrs. Lenola B. Allen,

Teacher, Home Economics Department, Charles Drew High School, Crosby, Texas. Each speaker gave some very good points on being college students. Do's and Don'ts of college life were expounded and an overall picture of the life of a college student was projected from various aspects.

A brief question and answer period was followed with observations by Dr. A. I. Thomas, Dean of the Industrial Education School, Prairie View A. & M. College.

Closing remarks were made by Mr. Edward Garner, Student Council President, Prairie View A. & M. College.

Leadership Committee Recommendations

A study group comprised of various campus leaders and faculty members met to consider three aspects of leadership September 20, 1963. Faculty members present were: Miss Wells; Mesdames Hunt, Phillips, Moten, and Doctors Weems and Young. The group's student and faculty leaders were Miss Paulette Pollit and Dr. Phillip Young, respectively.

A stimulating discussion of academic improvement and social improvement consumed the allotted time, thereby, leaving a third aspect of leadership, cultural improvement undiscussed. The group formulated the following recommendations on academic improvement and social improvement for campus leaders.

I. Academic Improvement: 1. It was recommended that the campus leader's academic achievement should be a basic element in the choosing of a campus leader. 2. It was recommended that a campus leader must be aware of his responsibility to himself and the needs of his organization. a. It was recommended that the campus leader make an improvement in his ability to think critically. b. It was recommended that the campus leader constantly seek ways in which to improve his communication skills (speaking and writing). c. It was recommended that leaders read wisely in order to increase their understanding of basic human needs, goals, values, and ideals. This might be accomplished by familiarizing themselves with (1) Ethics (2) History (3) Current news media. d. It was recommended that leaders attend regional and national meetings and that they put forth an

effort to take an active part in the meetings in order to become a more informed and effective leader on the local level.

II. Social Improvement: 1. It was recommended that leaders strive to be good conversationalists. (Likewise, a good listener).

2. It was recommended that leaders be sincere, i.e., in greetings (smile, handshake, etc.)

3. It was recommended that leaders exercise fair play.

4. It was recommended that leaders put forth an effort to remember and use the names of persons they meet.

5. It was recommended that leaders be aware of the necessity of good manners, for example, in introducing people, eating, proper attire. (Young men with shirt-tails out and sneakers without socks. Young ladies with short tight skirts. Both not acceptable.)

6. It was recommended that leaders make it their responsibility to hold clinics to help other students become aware of customs and practices that are socially acceptable.

7. It was recommended that leaders be flexible and without bias.

Population center of Texas is near Waco in McLennan Coun-

always ready to learn.

Education is more than learning; it is a way of life. A person is better equipped to take his place in community life because he can advance further in his chosen work, is at ease with other people, and is likely to earn more.

The person that has an education has a priceless quality. It is a companion which no misfortune can depress, no evil can destroy, no enemy can alienate, and no despotism can enslave. It chastens vice, it guides virtues, it gives at once grace and government to genius. Without it what is a man? A splendid slave or a reasoning savage?

In summation, education is a cultural, economic, and social necessity. To be a winner in life, education must be won. Win yourself an education now!

Education: the Determiner

by Marjay D. Anderson

In this beloved country of ours, America, the land of the free, none of the brave, education is free. But no man can give to another. Every individual must through hard work and conscientious endeavor, seek it for himself. Therefore, it behooves every young person to accept his responsibility to avail himself of his educational opportunities to the fullest extent of his own capabilities.

Education is for everyone; the poor man needs an education to rise above his poverty; the rich man needs an education to maintain his fortune. Both

poor and rich need it to develop the fullest understanding and appreciation of themselves and of their fellowmen in this vast and great, complex world.

In this atomic age with jets, missiles, and orbital flights, education is and will be essential if our great country is to survive.

The educated person usually has higher ideals, better control of his emotions, a friendly spirit, and an intelligent purpose. In a general sense, he is a better individual with whom to deal. He is open-minded, works easily with others and is

Baron's Stomp LBA's In Season Opener

The Barons, led by William M. Batts at quarterback stomped the L. B. A. as a Batts-Batts combination worked for the first Baron touchdown late in the 2nd quarter of the game. The score was set up by a Batts James Miller combination for long yardage. During the first half, the L. B. A.'s were unable to pose a scoring threat against the Baron line composed of Ol-an "Bow" Clayborne, Richard Lockett, David Belton, Elliot Guyden, and Judge Horton. The line backers were Carl Lockett, James Snell and Douglas "Blind Boy" Simmons. In safety were James White and William Batts.

The Barons kicked off in the second half at which time the L. B. A. began to move out with great vigor. However, due to the clarion voice of Robert Felix Jackson III, the head cheer leader, the Barons were able to retain the Bear attack. Once the Barons took charge of the ball, Batts completed a pass to James White for the second score.

The fourth quarter was a tight defensive battle as Frederick Batts intercepted 2 Mosley passes to put the Baron's back in scoring position. William limped off the field after a long pass play and Frederick Batts took over as quarterback. In the closing moments of the game, F. Batts completed a pass to James White for another touchdown and missed the conversion try to Douglass "Blind Boy" Simmons to end the game 19-0 for the Barons in their season opener.

PANTHERS TROUNCE TSU 44-6

The Wall — Much of the credit for Panther gridiron success goes to these stellar tackles who have given ground very grudgingly this year — they are (from left) Guidry, Price, Cartwright, Roberson, Alfred, and Chandler.

The Prairie View A&M College Panthers romped to an easy 44-6 victory over their traditional rival Texas Southern University before 25,000 at Jeppesen Stadium Saturday.

It was the third straight win for Prairie View and an important one in the tough southwestern conference race.

The Panthers scored early in the game on a 36 yard run by Ezell Seals, but the Tigers, led by Carl Zenn fought back through the first period and finally knotted the score at 6-6 with a oneyard plunge by Zenn.

Two plays afterwards, quarterback Jimmy Kearney galloped 55 yards to open the Panther scoring massacre. Kearney then heaved a 25 yard touchdown pass to Norris McDaniel and before halftime tossed another scoring pass for 47 yards to Richard Seals.

A fairly evenly matched game pursued as the second half started but a costly Tiger fumble gave Prairie View an advantage and the Panthers moved in again to score on a one-yard drive by fullback John Harris. Reserve units took up the chores in the final quarter and added two additional markers. Frank Moaning ran 10 yards to score and Leon Carr raced 8 yards to polish off the victory.

Harris attempted two kicks for conversions and made two.

threatening to take possession of the game at several points.

Coach Fred "Pop" Long of Wiley is reputed to have an aggregation this year that can put a halt to Prairie View's five consecutive victories in this contest. The Wildcats have one of the best quarterbacks in the Southwest, in Bill Henry and a powerful fullback and accomplished kicker in Bobby Nevels.

Neither team expected to have any trouble with conversions and possible field goals. Nevels and Panther John Harris are rated tops in this department.

The Wildcats other top backs include quarterback Freddie Dotson, halfbacks Billy Henry and Oscar Lambright and fullback Roland Coit.

Prairie View's scoring leaders are Jimmy Kearney, Otis Taylor, Mack Green, Ezell Seals and Billy Hall.

Prairie View's top mentor, W. J. "Billy" Nicks, is watching the Wildcats with a careful eye. "We never underrate Wiley", the veteran Panther coach said.

Scoring May Be High in PV-Wiley Classic

Prairie View A&M, and Wiley College fans will probably see a high scoring game with plenty of action when these two old rivals meet in the game-of-the-year set for the Cotton Bowl on October 14.

It may develop to be a contest between Wiley's fast rushing game versus Prairie View's passing potential. The Wildcat's ground attack has proven just as successful as the Panthers' great aerial show. Both teams have tremendous scoring potential as evidenced in their early season victories.

The 39th Annual State Fair

Classic, featuring Wiley College and Prairie View A&M, is set for Monday night, October 14, in the Cotton Bowl at Dallas.

The annual contest is one of the oldest classics in the nation and the rivalry between Prairie View and Wiley represents the beginning of Negro college football in the Southwest. The two schools are the only remaining

charter members of the powerful Southwestern Athletic Conference, organized in 1929.

Wiley's Wildcats, with two important victories to their credit, were gunning for the Panthers, hoping to seek revenge for the 26-17 defeat by Prairie View in the Cotton Bowl last year. Last year's contest was truly a thriller, with Wiley
