THE ALUMNI ASSOCIATION OF THE STATE UNIVERSITY OF MONTANA

The Alumni Association of the State University of Montana was founded in 1901, six years after the founding of the University. There were seven alumni at the first meeting. These adopted a constitution and formed the basis for the Alumni Association which today has hundreds of members throughout the United States and some in other parts of the world.

In the 35 years of its existence the University has grown from a small school in a borrowed building with a faculty of seven offering both high school and college work to 135 students to a University of two thousand students taking work in twenty-five different departments in twelve modern buildings devoted to purposes of instruction. There are altogether twenty buildings on the campus.

The growth of the University and the growth of the Alumni Association have gone hand in hand. The building of institutional spirit and loyalty has been the great contribution of the Alumni Association. The support of the alumni in times of difficulty has never been withheld. From time to time groups of alumni return to renew their University contacts—on Charter Day, at Commencement, and at Homecoming.

In the fall of 1921 the Executive Committee of the Association authorized the establishment of THE MONTANA ALUMNUS as the official magazine of the Alumni Association. The first number appeared in May of the following spring, and has been published four times a year since then. The magazine has doubled in size, the circulation has grown, and the publication has established itself as an alumni institution.

Two classes of members are provided for by the constitution of the Association. Graduates of the University comprise one class of members and former students who, although they have not graduated, have completed at least one quarter of work at the State University of Montana; this second class of members have all the privileges of other members except the right to hold elective office in the association.

The Alumni Association has one business meeting in the spring of each year and such other special meetings as may be called. There is an executive committee to settle matters of policy when it is impracticable to call a general meeting of the association. The election of the officers of the association and members of the executive committee take place by mail each spring.

The annual dues for the Alumni Association are \$1.00, and the yearly subscription to THE MONTANA ALUMNUS is 75c, or both paid at the same time are \$1.50.
