Message from the Demonstrations Track Chairs of ICSE 2019

The objective of the ICSE 2018 Demonstrations Track is to excite the software engineering community about new advances in our field through compelling demonstrations that help advance research and practice. The track is a highly interactive venue where researchers and practitioners can demonstrate their tools and discuss them with attendees.

The track received 59 submissions from 239 authors from 23 countries. Three members of the program committee reviewed each submission and further assessed it in the online discussion phase. The program committee accepted 30 submissions to be presented in the demonstrations sessions at the conference.

As the chairs of the ICSE 2019 Demonstration Track, we thank all authors for their submissions and the program committee members for their detailed reviews and lively discussion. We also thank the ICSE 2019 general chair Jo Atlee for her help and support.

We hope you will enjoy the demonstrations at the conference!

Justyna Petke
Demonstrations Chair
University College London, UK

Yuriy Brun
Demonstrations Chair
