

# Good Systems Network Meeting

**Location:** Zoom. The Zoom meeting link will be shared with you after you have signed up below.

## Agenda

### **1:00 p.m. Welcome and Announcements from Good Systems**

Kenneth R. Fleischmann

*Professor, iSchool*

*Founding Chair, Good Systems Executive Team*

### **1:05 p.m. COVID-19 Travel Impacts to US Counties**

Junfeng Jiao

*Associate Professor, Architecture*

*Director, Urban Information Lab*

*Chair-Elect, Good Systems Executive Team*

Urban Information Lab dashboard: [Impacts on Vehicle Miles Traveled in U.S. Counties During the COVID-19 Pandemic](#)

Findings featured in the Social Science Research Network: [Mapping the Intercounty Transmission Risk of COVID-19 in New York State](#)

Junfeng Jiao will present his research on the COVID-19 transmission risk between different counties in the state of New York during the first month of the pandemic. His team's findings were published May 1 by the [Social Science Research Network](#). He will also discuss the Urban Information Lab [dashboard](#) that tracks impacts on vehicle miles traveled in US counties during COVID-19, and reports key findings for Texas counties.

### **1:25 p.m. Facilitated Discussion Groups**

This is the networking part of the network meeting. Share your research and find collaborators.
