

Mustangs Face Aztecs In Crucial Grid Battle

Aztecs Don Warpaint While Mustangs Brace For Attack

by Jack Rector

El Mustang Sports Editor

San Diego State's Aztecs invade Poly Stadium tomorrow night with upset fever running high, but the "Silver Fox's" herd is looking for its fourth win while on the way to what it hopes will be an undefeated season.

Coach "Doc" Paul Gornall's Aztecs will be out to square their series with the Mustangs, who currently hold a 5-5 edge over the team from the Border City. The Aztecs are fresh from a three-game win streak, which included wins over Pepperdine 27-7 and San Francisco State 27-6.

CCAA OPENER

The Mustangs rolled over the spirited Pepperdine Waves last Saturday night to the tune of 43-0, while wrapping up the 'Gators from San Francisco 25-7 two weeks previous. Tomorrow night's game will open the CCAA season for both

Note For Wives

Student wives can attend football games for seventy-five cents, rather than the regular \$1.75 admission, if their spouses will have their ABB cards stamped in the ASB office. Unless this card is stamped, the regular admission price must be paid.

teams and the winner will be in serious contention for this year's league title.

The Aztecs bolster a much improved team over their 1955 club, led by All-American guard Jay Gutowski. Gutowski, an outstanding defensive player, was named to eight all-opponent teams last year. In the backfield the men to watch are Hal Jackson, 165 pound ex-marine who is a draft choice of the New York Giants, and

Pregame Activities

- 7:00 Ugly Man contestants introduced in rooting section
- 7:35 San Diego State and Cal Poly come on the field. San Diego will lead the Star Spangled Banner for combined bands.
- 8:11 Cal Poly Mustang on field
- 8:15 Song Leaders introduced
- 8:18 Game starts

Jim Pyles, a 185 pound fullback, who opened the '56 season against Pepperdine by scoring 15 of the Aztecs 27 points while averaging 6.6 yards per carry.

Mustangs Have Depth

Of the 100 points the Mustangs have scored this season, 75 were (Continued on page six)

'Religion In Life' Set For Nov. 4-8

About 100 students of nearly every faith represented on campus moved into high gear this week in their cooperative sponsorship of Religion In Life Week to be held on campus Nov. 4-8. Essentially a week of religious emphasis on an inter-denominational level, the affair will be a new innovation at Cal Poly. Similar programs have proved quite successful at other state colleges and universities throughout the nation and in California.

The "RILW" program will bring several noted religious figures from throughout the country to the campus to discuss general topics of faith and religion, especially as applied to social and vocational aspects.

Included on the five-day schedule are seminar discussions conducted by the guest speakers, classroom presentations, dormitory bull sessions, and two campus-wide assemblies, according to co-chairmen Norm Corwin and John Wilkin.

Plans Underway For Mid-Year Graduation

If you are a third quarter senior completing your degree requirements in December of this year, formal commencement exercises are possible if enough prospective graduates sign up for them, disclosed Dean of Students Everett Chandler, this week.

"The entire program depends upon the number of students desiring them," added Chandler. "Time is important and mid-winter graduates should let us know immediately if they would like to participate, so that necessary arrangements can be made."

A sign-up sheet is located in the ASB Office.

Coeds Seek Homecoming Queen Crown

BEAUTIFUL ASPIRANTS . . . Fourteen coeds pictured above tossed their hats in the ring in the race for Queen of Homecoming festivities with five of the lovely lasses getting the nod as finalist. Pictured left to right: Dotty Fuller, Jan

Angel, second row; Barbara Foley, Marianne Pantagos, Sue Raney, Martha Faucett, Anne Boyson and Pat Henderson. Third row: Lorraine Bruno, Jan Lovett, Roxanne Canfield, Judy Bruce, Pat Dinmore and Elyse Studt.

McPhee Cites Values, Developments, New Era

"Your college education is worth about \$100,000 in monetary figures," according to information of the census bureau quoted by President Julian A. McPhee in his 23rd annual Convocation address last Wednesday in Mustang Stadium.

He pointed out that this figure is the additional amount that a college graduate usually earns in his lifetime over that of a high-school graduate. He hastened to explain that non-monetary values of this education are probably even greater than those which go into the bank account.

McPhee cited five recent developments unravelling "A New Era At Cal Poly". They were:

1. The largest Cal Poly "family" in its 55-year history, totaling 4,560 students and staff at San Luis Obispo and an additional 480 students and staff at the southern campus.
2. Coeds, numbering approximately 200, have been admitted for the first time since 1919.
3. Cal Poly's southern branch is now a full four-year institution and has moved into a new \$2,500,000 science building.
4. More new occupational cur-

ricula are being offered this year than in any previous five-year period.

5. A \$28,000,000 building program is in prospect for facilities at both campuses before 1961.

He called particular attention to some \$24,000,000 included in Proposition Three which is slated for Cal Poly alone, urging everyone to encourage the passage of the measure.

McPhee employed a unique technique for keeping all ears turned his way. This was by periodical announcements of the score of the world series going on at the time of his speech.

Several minutes of his talk were devoted to praise for "a particular piece of equipment at Cal Poly"—the instructor. "That instructor who must be to his students a source of knowledge, an expert, an advisor, and a friend, is the piece (Continued on page three)

Leader's Confab Set For New Meeting Site

Site of the leadership conference, scheduled at Ocean Pines near Cambria, has been moved to Camp Pinercrest, one mile north of Cambria. The camp includes a complete kitchen, infirmary, lodge, and cabins, and can accommodate 100 people comfortably.

The conference will commence on Friday, October 26, and will end Sunday evening, October 28. Registration will begin on Friday, with a "get acquainted" meeting held that evening. The program for Saturday will consist of discussion groups and panels headed by Student Body officers. The conference will conclude with a barbeque on Sunday. Meals will be served by three of our college cooks. Meal tickets may be used but students without tickets will pay for all meals.

Those scheduled to attend the conference are all student body officers, class officers, and officers of the student affairs council. Forty reservations have been made for all students interested in college activities, including student body affairs, the college union, the major departments, and campus clubs.

Objective of the conference is to exchange ideas on problems and new ideas that have been presented before the Student Affairs Council. All students interested are urged to attend. Emphasis must be placed on the need for coeds at this conference, since one of the discussion topics will be concerned with their presence at Cal Poly. All questions dealing with the conference may be brought to the student body officers.

Fifteen Girls Compete For Homecoming Queen

Five finalists from a field of fourteen coeds have been selected to vie for the title of Homecoming Queen, according to Paul Mierach, social chairman.

All five of the girls live on campus, three coming from Heron Hall and two from Jespersen. The girls are:

Marianne Pantagos, HE; Pat Henderson, EE; Elyse Studt, EE; Jan Lovett, SS and Barbara Foley, AH. These five girls will be presented to ASB for final selection, Oct. 17, 8:15 p.m. in Crandall Gym.

Ruthie Holbrook, last year's queen, will crown Poly's first home-grown queen at the Coronation Dance, Saturday, Oct. 20. Music will be furnished by the Collegians.

Entries include: Judy Bruce, EE; Ann Boyson, EE; and Dotty Fuller, Bio Sci; all off campus coeds.

Heron Hall entries are: Lorraine Bruno, HE; Pat Henderson, EE; Elyse Studt, EE; Sally Ward, Soc. Sci.; Roxanne Canfield, HE; Marianne Pantagos, HE.

Girls from Jespersen Hall include: Jan Lovett, Soc. Sci.; Jan Angel, HE; Pat Dinmore, EE; Marty Faucett, EE; Barbara Foley, AH; and Sue Raney, EE. "Alumnus of the Year", Dr. T. J. Cunha will preside as Grand Marshal over Homecoming activities, Oct. 19-20. Dr. Cunha, head of the animal husbandry department at University of Florida, is a native of Los Banos, and attended Cal Poly from 1926 until 1930.

Bonfire

The customary bonfire has traditionally been built by the Freshmen. This year the project will be a two-fold event—bonfire and campus clean-up. The old chicken houses will be used plus all other available wood that can be found. A new angle also added this year is the dorm that has the most man hours and the biggest pile of wood will be honored with lighting the fire. Tentatively the rally will be held in the parking lot across from the ME bldg.

In the past, float trophies have been awarded to the Agriculture and Engineering divisions. A new trophy has been donated by a local merchant this year for the Arts and Science division.

Bayley, Spink Go To C.U. Conference

Yesterday Oct. 11, Bob Bay and Bob Spink left Cal Poly for Las Cruces, New Mexico to attend the fourth annual Region 10 conference of the Association of College Unions being held on the campus of New Mexico A & M.

The purpose of the conference is to get delegates of different schools together to discuss and exchange ideas on how to operate a well-organized, efficient and a cheerful College Union.

We will be learning by other colleges' doing. Cal Poly is supposed to have a new two and a half million dollar College Union by 1960, therefore the delegates will be gathering valuable information ahead of time where other schools have had to wait for the trial and error system to work.

Schools expected to participate are: New Mexico A & M, University of New Mexico, Colorado A & M, Colorado School of Mines, University of Colorado, University of Denver, Brigham Young University, University of Utah, Utah State College, University of Arizona, University of Wyoming, Arizona State, and Cal Poly.

Dance Tomorrow Night In Crandall Gymnasium

Everyone is invited to dance to the music of the Cal Poly Collegians tomorrow night in Crandall Gym, following the football game with San Diego State, according to Dallas Prust, chairman of the dance.

Sponsored by the student section of I.R.E., the dance will be held until 12:30 a.m. "There is no admission charge," added Prust.

El Corral Plans 'Pic Of The Month' Contest Says Hill

You have probably noticed the panel pictures on the walls of El Corral. Tentative plans—in the form of a "Picture of the Month" contest—are now being made to add even more pictures to this collection. All Cal Poly students are eligible to enter. All the details have not yet been worked out, but, as for now, the main idea of the contest is as follows:

Every month the best picture taken in one of the three major fields, agriculture, liberal arts, and engineering, will be chosen as the picture of the month. The winning picture will be chosen on the basis of best depicting the life and spirit of Cal Poly.

It has not yet been decided who the judges will be or how they will be chosen, but at the end of the year, one of these "Pictures of the Month" will be selected as the "Picture of the Year." This photo will then be made into a panel picture and given a select spot on the wall of El Corral.

"Any suggestions for the betterment of this contest," said Duke

Officers Invited To Join Law Class

Students and faculty members who are Naval Reserve officers have been invited to join the Naval Reserve Officer's School class in military justice, here.

The activities may allow officers to earn the required number of yearly points for promotion and a year of satisfactory federal service. The class meets each Wednesday evening from 7:30 until 9:30 p.m. in Sc E-33, and is taught by local attorney L. A. James W. Powell.

Seventeen officers are now enrolled, including one Coast Guard and one Marine officer. Anyone interested may get further information by contacting Commander Lewis E. Hammit or Commander Vance D. Lewis in Sc D-48, or by attending the next meeting.

Hill, originator of the idea, "would be greatly appreciated." If you have any suggestions that you would care to offer, drop a note to Mr. Hill in El Corral bookstore.

Appropriate trophies will be awarded winners.

News in Brief

Free Hearing Tests Urged By Dr. Lovett

Hearing tests are being offered in the college Health Center and Dr. Earl Lovett urges students to take advantage of the "audiogram." "It is a test of your hearing ability, is completely painless, and only takes about three minutes time," said Lovett.

"In many industries today it is a pre-employment requisite," Lovett added. "It is essential that each student know what his hearing problem is so that he can compensate for it. Ten per cent of the students may have hearing loss in the speech range and many do not realize it," he concluded.

CAMERA FANS MEET

Camera fans attending the first meeting of the newly organized Camera Guild Tuesday heard plans to build a dark room under the auspices of the College Union.

New members are being welcomed and the next meeting of the Guild will be held October 22 at 7:30 p.m. in Sc A-4.

Bulletin Board Rules

AMB Vice President Don Walker said this week that a two-week limit will be placed on all cards on the students' bulletin board in the administration building basement.

"Also," he added, "8x5 cards will be the only size permitted on the board."

Livestock Showmen Cop Top Awards At Pomona Fair

Poly livestock showmen brought home outstanding honors from Los Angeles County Fair in Pomona recently.

Tom Brown took three plaques in the swine division with his grand champion Poland China barrow, reserve champion crossbred barrow, and the reserve champion Poland China barrow.

Poly students John King, Rich Kerns, and Jim Crundall showed a reserve champion crossbred and eight U.S. No. 1 Duroc barrows.

Sheep showmen Jesse Norris, Gene Haslett, and Doug Snyder had a reserve champion lightweight crossbred, first, second, and third heavyweights; first, second, and third lightweights; first, second, and third heavyweight crossbreds; first pen of five crossbreds; and first pen of five Suffolk-Hampshires.

In the beef division, Joe Hoyer showed the champion shorthorn steer and Rodney Homer had the reserve champion shorthorn. Poly also had the champion pen and three first and two second places shown by George Putnam, Gary Rose, Watson Woods, and Frank Panero.

At the State Fair in Sacramento, sheep showmen Gene Haslett, George Ross, and Jesse Norris showed the grand champion pen of three crossbreds; individual reserve champion crossbreds; first, second and third place Suffolk wethers.

In the swine division, Poly had the reserve champion Berkshire, reserve champion Poland China, and lightweight Poland China barrow and was also the reserve champion.

Guinness Movie Tonight

"The Promoter" is tonight's feature movie sponsored by the College Union Film Committee, according to chairman Ron Halverson.

Starring Alec Guinness, the J. Arthur Rank Production will be shown in the Engineering Auditorium at 7 and 9 p.m. Describing the movie, Halverson says "Guinness plays an ingenious, young lovable rough who promotes his election to mayor of the town through a series of remarkable maneuvers."

Chico May Join Rolls As Degree Ag College

Chico State College may join Cal Poly, Fresno State, and Davis in offering a four year program leading to a bachelor of science degree in agriculture this year.

President Glenn Kendall of Chico State said the college may offer degrees in animal husbandry, general crops, farm mechanics, dairy husbandry and general agriculture. Farm instruction will be conducted on about 200 acres of land.

On the basis of applications already received, the school expects a record agricultural enrollment this year.

Inter-Faith Office Opened For Student Counseling; Announce Hourly Schedule

Inter-Faith Council has announced its regular office schedule, which will continue throughout the year.

The office, located in CuE, is available to ministers and religious advisors who are related to campus religious groups cooperating in the Inter-Faith Council. During their office hours they are available for counseling or consultation by any student.

The hourly schedule is as follows: Monday — 4 p.m., The Rev. Ray Heer, Presbyterian.

Tuesday — 10 a.m., Father William Heully, Roman Catholic; 2-4 p.m., The Rev. Glenn Midhun, Lutheran (A.L.C.); 4 p.m., The Rev. Walter Lorets, Lutheran (Missouri Synod).

Wednesday — 8 p.m., The Rev. Otto Kleeber, Baptist; 4 p.m., the Rev. William Kendall, Methodist.

Thursday — 1 p.m., Dr. F. Road, Episcopal.

Friday — 4 p.m., The Rev. Ray Heer, Presbyterian.

Grace Tabernacle will schedule hours to be announced later.

Rev. Heer, the Religion in Life Week executive secretary, is in the office from 2-4 on Monday, Thursday, and Friday.

Fall Assignments Made For Vo Ag Students

Student teachers from Cal Poly in vocational agriculture have been assigned for fall as follows:

Edward F. Leal, Arroyo Grande UHS; Eugene R. Paulus, Chaffey UHS and JC; Jack M. Fulton, Antelope Valley UHS and JC; Charles R. Overholzer, Lompoc UHS; Frank Espinola, Jr., Madera UHS; and James R. Barlow and William E. Walker, San Luis Obispo Sr. HS.

VA Offers Hints To Speed Checks

Officer-in-charge of the local office of the veterans administration, 804 Santa Rosa Street, has listed hints to new students which will result in speeding up their training allowance checks.

They are as follows:

1. Be sure you have secured prior authorization to attend Cal Poly or have made application for same.

2. List with the VA a local or Cal Poly address as the place you desire to have your checks received. For best service do not plan to have your checks sent to your home.

3. Give written notification to the VA of any change in dependency supply necessary certificates or documents to verify this fact. Simply telling the VA you have a new dependent is not enough.

4. If you have secured a Certificate of Eligibility from a VA Regional Office other than Los Angeles to attend college you should take steps to have your veteran's records transferred to the Los Angeles office. All veterans attending Cal Poly must have their files in the Los Angeles Regional Office before they can receive any checks.

5. Keep the VA posted relative to any change of address. A change of address with the Post Office can not be effected since a government law prohibits the Post Office from remailing veterans' benefit checks.

6. Every veteran should make necessary financial arrangements to take care of his necessary expenses for the first 2 1/2 to 3 months after school starts, as it takes about this long for VA to get his checks started if veteran's records are in proper order.

Public law 484 was passed recently by the 84th Congress for the education of war orphans, namely those whose fathers died on active and the Korean Conflict or who died during World War I, II, died later from a cause directly attributable to a service-connected disability. Beneficiaries who feel they have entitlement should contact the VA Office for information and assistance.

Photographers are needed by the news bureau. Cameramen, with experience, are needed now to do photography for college publicity. El Mustang, and El Rodeo. Those interested have been urged to contact John Henley or Jim Dearing in Adm. 21.

OPEN 6 DAYS A WEEK

1112 Garden Street San Luis Obispo

MARTIANS OFFERED \$1,000!

You've heard that November 7 is the day that we will try to contact the spacemen. But the factor that makes November 7 a possible historical date is the offer the El Rodeo staff is extending to the first "outsider" to set foot on earth.....a free copy of the 'Book-of-the-Year'.

Naturally the yearbook staff has made it possible for 'earth people,' primarily Cal Poly people, to obtain this history-book recording of '1957 at Poly.' If you are one of these 'earthlings,' then your ticket to success is the proceeds which start Oct. 18.

You may reserve a 1957 El Rodeo for only one dollar at the station in the basement of the administration building. Books may also be reserved from one of the roving salesmen, who will be selling until December.

Are you interested in selling El Rodeo? The yearbook staff offers the following prices: Highest number of yearbooks sold, \$10; second highest, \$8; thirty yearbooks sold, equals one free El Rodeo. If you wish to sell El Rodeo, contact either Mike Blackburn or Jim Luther in the journalism office, Adm. 21.

Truckdriver, Lady Style, Joins New Coed Crop Here

Trucking is at best a hazardous and a complicated venture. Men think twice before entering the trucking field and women operators are unheard of.

Unheard of, that is, except for Mrs. Beatrice Adams, a coed enrolled in the agricultural journalism department. Mrs. Adams has been an accountant, scientist and dispatcher for private concerns dealing in agricultural trucking for the past 24 years.

Not satisfied with merely working for a trucking concern, Mrs. Adams "started from scratch" and operated the Mary-Ann Trucking company. She did "everything" in the seven years she operated the firm, from purchasing and accounting to servicing the big diesel rigs.

Her drivers hauled all types of agricultural products including alfalfa, hay, gypsum and cotton.

Mrs. Adams left the trucking business to continue her education. "Going back to college has always

been one of my ambitions. I attended Northwestern state college in Oklahoma as a science education major. But with the depression my husband and I moved 'out West.'"

When asked why she chose Poly, Mrs. Adams disclosed, "I'm from a Poly family. My son-in-law, Carroll Dean Welch is a 1956 animal husbandry graduate. He is now teaching 8th grade at Delano."

Dark haired, blue-eyed Mrs. Adams classifies herself as a "rockhound" and lapidary enthusiast in her spare time. She has been active in the Girl Scout program, P.T.A. and church work.

Her present ambition is to do free lance writing on farm subjects. This will be "right in her line" since she has been associated with agriculture for many years.

Mrs. Beatrice Adams, mother, businesswoman and coed, is a very busy and interesting woman.

Construction On Campus Explained

Cal Poly's three-fold building program evidences itself all about campus as this fall quarter gets under way. It was explained for us this week by Dr. Clyde Fisher, building planning coordinator.

The engineering building site clearance program made it necessary to relocate many facilities. The site is west of the science building. Among the buildings and facilities affected by the site clearance were the aeronautical engineering department, welding shop, and the three "cottages."

Preparation for co-education is the second part of the program. Work is nearly completed on Jessperson, Heron, and Chase dormitories for coed housing. Also, three home economics laboratories have been equipped and the health center converted for use by women students. Half of Sierra dormitory, next to the health center, has been remodeled for men's infirmary quarters.

Street lights, a \$25,000 project, is another part of the building program. They will be erected around the women's dormitory area, administration building, library and science building.

Thirdly, several site development projects are to be started soon. They include the black-topping of the mechanical engineering laboratory, or power plant, for a 225 car parking lot. Two secondary access roads will also be built to

Blue Key Tackles Float For Queen

Plans to build the Homecoming Queen's float are underway by Blue Key, National Honor Fraternity, according to co-chairman Tom Kennedy. This is an annual project for the Blue Key organization.

Three officers were elected for the group which included: Norman Nichols, vice president; Edward Chelini, reporter and Alton Pryor, corresponding secretary. President Duane Coppock and Secretary-Treasurer Steve Parrish were installed before the end of the Spring quarter.

the lot from Hathway and Crandall Way.

A temporary parking lot has been constructed on the site of the old poultry husbandry plant.

The Kellogg-Voorhis Unit, Cal Poly's southern campus near San Dimas, Los Angeles County, is also slated for an ambitious building program. Their building plans aim at a 3700 student enrollment by 1962. Recently completed there was a \$2 million science building, the first part of an \$18 million program. Already under construction and soon-to-be-started are a cafeteria, gym, ornamental horticulture, husbandry and crops facilities, and an engineering building.

The Kellogg-Voorhis Campus has now moved its administrative and most of its instructional activities into the new Science Building on the Kellogg Campus.

Flyers Win Awards

Mustang Flying association has been notified that they are the winners of two flying-safety awards, revealed President Bob Gravance. They were awarded an honorable mention in the National Safety Program for Flying Clubs and a ninth place award from the California Civil Aeronautics Commission, added Gravance. The association's news will be posted on their bulletin board in the administration building basement.

The ground maintenance office is now at the old OH unit. Bill Ford is supervising groundman.

Poly Wives Needed For Sub-Teaching

Special for El Mustang

Poly wives, source of frequent emergency assistance to the San Luis Obispo city school system, are again being sought by City Superintendent R. N. Regier.

"We need Poly wives to register as substitute teachers," he explained in a phone call to El Mustang. "They have been one of our principal sources of supply in the past and we need applications again this year."

Substitute teaching, either in elementary or secondary schools, will pay \$18.75 per day. Applicants should have regular credentials or are acceptable if they have provisional credentials, plus some experience. Those wishing to register for the substitute list should see Superintendent Regier personally.

New State VA Vouchers Today by Registrar

"The procedure for veterans' monthly attendance vouchers submitted to the state has been changed," says Leo F. Philbin, college registrar.

"The new form is to be completed at the end of each month to assure being in Sacramento by the 10th of the month following," he goes on to say. This is a departure from the previous procedure. In the past, students certified attendance by the 10th of the month, for that month. This new procedure parallels the attendance voucher plan used for PL 550 veterans under the Federal plan. Philbin urges Vets to destroy copies of the old attendance forms and complete the new yellow forms at the end of September.

Convocation

(Continued from page one)

of equipment which will help mold your future attitudes."

McPhee added that, "Our engineering enrollment of nearly 2,100 makes Cal Poly one of the two largest in undergraduate engineering students on a single campus on the Pacific Coast.

The selection of some 200 new teachers and staff members within the next five years was also labeled by the President as the most important problem facing the college today.

Square And Compass

A social meeting of the Square and Compass Club will be held in Cubicle J, rear entrance, October 24th at noon. Bring your lunch. Coffee will be served.

At the next regular meeting a guest speaker will present a talk on Masonary.

Eighty-six varsity awards were issued to Cal Poly athletes in nine varsity sports in 1956.

Letters To The Editor

Sir:

A number of years ago the undersigned, as part of the best way in which he could contribute toward our educational objectives, proposed the establishment of a campus of a botanic garden.

During the last year or so it has been observed that certain individuals, undoubtedly in ignorance of the above facts, have been committing acts of wanton destruction, such as digging soil

and rocks. Most appalling of all, a number of plants of yellow-flowered ginger, obtained with considerable difficulty and planted at the expense of much time and effort, were dug and taken away. The most unfortunate aspect of this episode, perhaps, is that local residents who have obtained this kind of plant by legitimate means are subject to unjustified suspicion of destruction.

(Continued on page five)

Coeds Unusual Item Men Allow Preview

By Marcia Will

Music fills the air these days as the department gets in full swing under the direction of "Davey," Harold P. Davidson, and a new addition this year, C. E. Caughran, Jr.

There's one group on campus we coeds can't join, although we tried, and that's our stalwart men's glee club. They sound great this year. I chanced by the room one night during practice and was pushed inside by a member who exclaimed to the other 24 fellows, "Look what I found outside!" They had their jolly for the night and then gave me a sneak preview of their talent. The 40 new voices already blend with the 45 "old pros" and the group, along with our "swinging" dance band, The Collegians, will be able ambassadors of the Poly spirit in the Southland during Spring tour.

Collegians, including eight new members, are polishing up that smooth dance style that pleases the toe tapping crowd.

Our marching band will appear at tomorrow's game. They made a colorful showing at the last home game. Say, let's give the band and cheerleaders our support by remaining to sing our Alma Mater after the games. (That goes for the team, too).

They won't let us in with the men, but we've united to form the first Women's Glee Club at Poly. Under Davey, the girls are making history as well as close harmony. Officers have been elected and the girls will have a voice on music board proceedings.

Davey seems puzzled by only one thing... Girls don't seem to appreciate his jokes.

Lands of Cal Poly total 2,822 acres: San Luis Obispo, 2,280 acres; Voorhis unit, 187 acres and Kellogg unit, 356 acres.

Who's Missing The Boat ?

Following President McPhee's delegation of authority to SAC last Tuesday to do what is right in accordance with institutional policy, there was a definite lack of two items—on SAC.

Number one, and possibly of lesser importance, was coeds.

Number two, and of vital importance to the proper administration of Student Affairs, was the lack of proper, however adequate, presentation of students on campus. At least four members of SAC admitted that they were representing an intangible group which neither met at the present time or intended to meet in the near future.

This is certainly not an attack on our Student Body officers who are merely carrying out the wishes of those people who elected them, but is an attempt to show the inadequacy of our present form of representation. There have been attempts by certain students to remedy the situation by a new form of government, which was defeated.

El Mustang does not imply that the new form of government was the answer to our problem, nor did it endorse it. We do wish to point out that there is sore need of constitutional action to change the present form of representation.

The answer is not an easy one, nor do we claim to have the answer.

We do suggest that our divisional councils could possibly be a step in the right direction. It is evident that more people are represented through their departmental activities than through any other medium on campus. Why not employ the same representation on SAC.

At the present time, each student has a share in a 116 thousand dollar budget, and without so much as a by-your-leave, have left the doling of these funds to a few individuals who are in many instances ignorant of the wants and needs of those for whom they are voicing an opinion.

While the group composing SAC are by all appearances doing the job as they honestly and sincerely believe it should be done, there is still the question—Is this a government for individuals, or is it intended to meet the needs of all the students?

The fault lies not with SAC, but with every person bearing an ASB card.

Take a 2-minute preview of your path to RCA engineering

Specialized training program

Earn a regular professional engineering salary as you work on carefully rotated assignments giving you a comprehensive view of RCA engineering. Your individual interests are considered and you have every chance for permanent assignment in the area you prefer. Your work gets careful review under RCA's advancement plan and you benefit from guidance of experienced engineers and interested management. Following training, you will enter development and design engineering in such fields as Radar, Airborne Electronics, Computers, Missile Electronics. For manufacturing engineers, there are positions in quality, material or production control, test equipment design, methods. You may also enter development, design or manufacture of electron tubes, semiconductor components or television.

Direct hire

If you are qualified by experience or advanced education, your interests may point to a direct assignment. The RCA management representative will be glad to help you. Many fields are open . . . from research, systems, design and development to manufacturing engineering . . . in aviation and missile electronics, as well as radar, electron tubes, computers, and many other challenging fields.

and you advance

Small engineering groups mean recognition for initiative and ability, leading on to advancement that's professional as well as financial. RCA further helps your development through reimbursement for graduate study under a liberal tuition refund plan.

Now . . . for a longer look at RCA

See your placement director about an appointment with an RCA engineering management representative who will be on campus . . .

FRIDAY, OCTOBER 19, 1956

Talk to your placement officer today . . . ask for literature about your RCA engineering future! If you are unable to see RCA's representative, send your resume to:

New Picnic Area Set For Campus

Plans are underway for construction of a new picnic-ground by the Agricultural Council, according to Council President Dick Wilson, agricultural engineering major.

"The ground would be available to any campus organization," said Wilson, "whether the club is engineering, liberal arts or agriculture."

Wilson said the plans would be submitted first to the Dean of Agriculture and then forwarded to proper officials for final approval before the actual construction begins. The area is located east of the fruit orchard, north of Poly Grove.

Library Gets New Man; New System

Service at the library reserve desk is being broadened to permit overnight withdrawal of certain books, disclosed Dorothy Wright, assistant librarian.

Books to be circulated overnight will be selected by the instructor concerned and are designated by a salmon colored "RESERVED BOOK" card. One infraction of the rules, added Mrs. Wright, will cause cancellation of overnight withdrawal privileges for the quarter.

In order to minimize the missing book list, Mrs. Wright said a new

check sheet is being used for students entering the stacks, and that no brief cases would be allowed in these areas.

Mrs. Wright also announced the appointment of Thomas R. White, who will act as Reference Librarian. White came to Cal Poly from University of Washington library school.

New Furniture Adorns College Union Lounge

The Temporary College Union has received a gift of new furniture from the San Luis Obispo Lions Clubs, which made the donation from their Youth Activity Fund, announced Darrel Gordon, College Union board chairman.

"The College Union maintains the lounge for use of students,"

said Gordon, "and if there are any additions that students desire to see in the lounge, the OU Board invites them to their meetings held on Monday nights in Se D87 at 8 p.m."

There are several committees working toward the needs of every student in the College Union program, added Gordon. Committees include: dance, drama, assembly, outings, film, house, and personnel.

PLACEMENT CALENDAR

Friday, October 13	U.S. MARINE CORPS interviewing students interested in the programs leading to commissions in the U.S. Marine Corps Reserve (ground or aviation).

Sports Scraps from The Sports Desk

Southern California sport scribes have tabbed San Diego state football coach Paul Governall as the man to assume the Columbia University coaching position soon to be vacated by Lou Little.

This is Governall's first year as head football coach at the San Diego institute. He made a name for himself while co-opting for Columbia in the early '40s.

"Player of the week" awards are made each week by Riley's Department store and this week's award goes to Craig Brown, 180 pound junior who was selected by his teammates as the outstanding player in the 48-0 win over Pepperdine.

Brown joins his teammates, Jim Antoine and Willie Hudson, who have won similar honors for their performances in the San Francisco State and New Mexico A&M games.

When Poly meets Fresno November 10 in the Raisin City spectators will be seeing last Fall's number two and three nationally-ranked small college pass receivers in action. Darrell Rogers, 180 pound Bulldog end snared 33 passes last season for 850 yards and three touchdowns; while Poly's Jim Cox grabbed 32 aerials—one behind Rogers—for 613 yards and 8 TD's.

San Diego Game

(Continued from page one)
tallied by nine different backs. Only two backfield men have scored two touchdowns, which goes to prove that this year's grid machine shows scoring depth. Although there is still room for improvement in Poly's line play, we have managed to hold the opposition to 130 yards per game behind the leadership of hard charging guards Willie Hudson and John Allen.

In the Pepperdine tilt, four Mustangs required stitches, while three more Poly gridders were sidelined with leg injuries. Coach Hughes commented on this game by saying that although we took a physical beating from a team that we definitely outclassed, we showed improvement in our running attack but still need to brush up on protection for our passers and downfield blocking. All seven injured Mustangs are expected to be ready for tomorrow night's battle.

The San Diego club has thus far shown itself to be a running club, but can pass with quarterbacks Bob Moneymaker and Don Magee pegging the pigskin.

Toughest Game
Coach Hughes commented that the Poly-Aztec game will afford his gridders with the toughest competition we have faced thus far. "The Aztecs are big, fast and deep. They have run over their opponents and should be up to our boys. San Diego State will try to avenge last year's 12-6 defeat, and since they have not beaten us since the 1951 season we expect a real battle."

Under the capable field generalship of Jerry Dunann, Jack Hears and Bob Heathard, the Mustangs are favored by local odd makers to win this one, but at game time it should be a toss-up.

Record Turn-out Greet 1956 Intramural Football Program

One of the largest turn-outs in recent years highlights the intramural football season which begins its third week of play Monday. More than 225 students are participating in the activity Karl Bell, intramural sports chairman estimates.

Twenty-four teams are divided into four leagues with play scheduled for 4:10 every evening Monday through Thursday. Each loop plays the same night of the week throughout the season. Owen K. Hand is chairman of the intramural football season, which will terminate with the winners of each league meeting in play-off eliminations.

Chairman Hand advises during threatening weather that participants should consult the gym bulletin board to determine whether or not the day's activity has been postponed.

Competition has been keen thus far, Hand reports, with very few one-sided scores being posted. The Carry Overs of the Tuesday night league, however, did notch a 47-0 win in their first outing of the new season.

Not only will the intramural program include basketball, volleyball, and softball, program Chairman Bell states, but will also sponsor tennis, novice boxing and wrestling tournaments.

November 5 has been scheduled for the opening date of the tennis tournament. It will feature men's doubles eliminations as well as mixed doubles. Ed Smuts is chair-

man of this phase of the intramural program.

The novice wrestling tourney is slated for November 26 and 27; while December 5, 6, and 7 are dates selected for the novice boxing tournament. Chuck Austin is chairman of the wrestling matches and Bob Gow is handling the boxing show.

Bell says persons wishing to sign-up for activities in the intramural sports program may do so after November 1 at the gym bulletin board, where also other information concerning the activities may be obtained.

Cooks To Appear In Poly's First Rodeo

By Don Nielson

The Bud Collett Arena is all a-tacked up and ready for action. Many Cal Poly students will be out trying their luck with Manuel Cordova's famous string of "rough stock" in the first rodeo of the school year.

For the first time in Cal Poly history, Girl's Barrel Racing will be one of the events in a rodeo held here on campus. At press time four girls had signed up for the event. They were: Linda Danneberg, Deanna Dittrock, Pety Cutino, and Lilla "Butch" Hunter.

Tom Kelley and Bill Melton will do the clowning and perform one of the most important jobs in any rodeo—"bull fighting". Besides entertaining the spectators with their sassy antics throughout the first part of the rodeo, they will be faced with the task of protecting the cowboys from being gored and trampled by the bulls.

The bulls are full of fight and buck and the clowns have been trying hard to find a barrel in which they can dive if the need for protection comes. They also hope that nobody blocks the escape holes in the arena fence.

Eight men have signed up for the dangerous bull riding event, and twenty or more riders expect to be in the bareback bronc riding contest which is traditionally the first event after the formal opening of the rodeo at 1:30 p.m. Some cowboys are planning to bring a tape measure to the arena to measure how far the riders fly when leaving their mounts.

Other scheduled events are: calf roping, saddle broc riding, and team roping.

Poly Phase Takes Early Lead In Bowling League

The 1956-57 Bowling Club got into the swing of things this week with Don Banks and Ed Fryk setting the pace. Don, who bowls for Mustang House, finally found the pocket in his third game to turn in the high game of the evening with a 208. Ed Fryk, Mechanical Engineering Club, turned in the high series effort with a 522.

The league will sanction for 27 more weeks at which time they will hold a banquet for presentation of individual and team awards, and also elect officers for the coming year.

Team standings to date:

IT'S FOR REAL! by Chester Field

GABRIEL DOOM

Once every month Gabriel Doom
Locked himself up in a sound-proof room;
Then he laughed out loud and rocked with glee
At a life that was funny as life could be!
He laughed at the weather, sunny on Monday
... rainy on Saturday, rainy on Sunday.
He laughed at the news so loaded with grief
that an ax murder came as a pleasant relief!
He cried, "what with worry, hurry, and strife
you couldn't ask for a funnier life!"

MORAL: In this fast-moving world
it's good to sit loose, relax and enjoy the
real satisfaction of a real smoke... a
Chesterfield. More real flavor, more
satisfaction and the smoothest smoking
ever, thanks to Accu-Ray.

Take your pleasure big!
Smoke for real... smoke Chesterfield!

Triple threat in any league

Any way you look at it, this Arrow University shirt is an eye-catcher. Collar buttons down trimly at three separate points, front and center back. And the back sports a full box pleat. Comes in subtle colors galore... 6 plus white in oxford and 5 crisp broadcloth checks. Team it up with this smart, all-silk repp tie.

Shirt, \$5.00; tie, \$2.50.

J. Paul Sheedy* Was A Lone Wolf Till Wildroot Cream-Oil Gave Him Confidence

"I'm starved for affection," wailed Sheedy, "but the girls think I'm just a cur. Whenever I paws to talk to one she makes tracks for the tall timber and hides." Poor old Sheedy felt so lousy he wanted to pack up and flea. "Don't be such a shaggy dog", said his Den Mother. "Get yourself some Wildroot Cream-Oil and spruce up." Now J. Paul's the most popular wolf in the forest, because his hair looks healthy and handsome, the way Nature intended... neat but not greasy! Try Wildroot Cream-Oil yourself, in the bottle or handy tube. You'll soon be a howling success with the girls.

*of 131 So. Harris Hill Rd., Williamsville, N. Y.

Mustang Mermen Travel North For Next Two Contests

College of Pacific's Tigers tangled with the Mustangs last night in the opening of our 1956-57 Water Polo season, and with hardy time to get dried, Coach Anderson and his charges are off on their trip north to San Jose State and the University of California at Berkeley. The next home stand for the Mustangs is set for Thursday evening October 25th, at which time our mermen tangle with the highly touted Fullerton College crew.

Spectator space at pool-side is limited. Coach Anderson points out and advises that if attendance this year compares to last season's crowds it would be well in future matches for those interested to arrive early to secure a seat.

Runner-up in last season's state college tourney, the Mustang mermen with veteran crew bolstered by talented JC transfers and promising freshmen are looking forward to a successful year.

Rooting Section Schedule For San Diego State Game

Rooting section problems are being ironed out by the Rally Committee for the San Diego State game, here, tomorrow night.

"Section K is for students only, no guests, and rooting caps are required," says John Malkasian, chairman. With a student-body of 3800, and a limited seating arrangement, this will be strictly enforced by the ushers and Rally Committee members.

Half of sections J and I, are set aside for students and one guest, student wives, and students with families. When these sections are filled, students will fill general admission seats on the extreme ends of the stadium. "The other sections are reserved, and from these," John says, "we gain our source of income."

If you do not have your rooting cap, they will be on sale at the San Diego State game.

Perry Jeter, former California Poly star, scored a touchdown in each of the first three exhibition games for the professional Chicago Bears.

Mustangs Calm Waves For Third Grid Win

With blood-soaked faces, the Cal Poly Mustangs returned home with a victory that won't casually be set aside in one dusty corner of the locker room. Coach Roy Hughes' gridiron-gladiators not only out-scored the Waves from Pepperdine, but also out-rushed them; out-passed them; and most important of all, outfought them with determination plus, the mighty Mustang turned back every wave that tried to roll him under.

During the first half the Mustangs could only come up with two touchdowns, one on a pass from Duncan to Brooks for 30 yards and the second coming on a 14 yard scamper by fullback Dick Mannini.

The second half found the Mustangs running wild scoring 5 more touchdowns. Touchdowns were registered by Danny Delgado on a 9 yards run out; Jim Antoine from 2 yards out; Bob Beathard on a quarterback sneak; Jim Mattarucci through the middle; and Craig Brown on a pass from Jack Hears. Final score—Cal Poly 48, Pepperdine 0.
