Program Change Description - Abbreviated Template

Section I: The Request

Utah State University requests approval to change name from M.S. International Food and Agribusiness to M.S. Agribusiness and restructure M.S. Agribusiness effective Fall 2019. This action was approved by the institutional Board of Trustees on .

Section II: Program Proposal

Program Change Description/Rationale

Present a brief program change description. Describe the institutional procedures used to arrive at a decision for the change. Briefly indicate why such a change should be initiated. State how the institution and the USHE benefit by the change.

The M.S. International Food and Agribusiness degree program was conducted jointly with the Royal Agriculture University (RAU) in Cirencester, UK. Students would attend the Spring Semester at the RAU and also part of a Summer term. Nine credits from the course work at RAU were transferred back to USU for our degree. The RAU has changed their MBA in International Food and Agribusiness in a manner that it is no longer compatible for USU students to be required to spend a Spring semester in that program. We are dropping "International Food" from the degree title and students will no longer be required to attend the RAU. Students will obtain the nine credits that they previously received from the RAU from course work in the Applied Economics department and/or courses from the USU Huntsman School of Business. One of those courses will be taught by an Assistant Professor in Applied Economics on firm decision strategy. The other two courses could include 5-6000 level courses in management, marketing or finance.

Consistency with Institutional Mission/Institutional Impact

Explain how the action is consistent with the institution's Regent-approved mission, roles, and goals. Institutional mission and roles may be found at higheredutah.org/policies/policyr312/ . Indicate if the program will be delivered outside of designated service area; provide justification. Service areas are defined in higheredutah.org/policies/policyr315/ . Will faculty or staff structures be impacted by the proposed change?

Utah State University is a student centered institution and this proposed change is designed with students in mind. Students will now be able to obtain the M.S. Agribusiness degree without the necessity of attending the RAU for one semester.

Finances

What costs or savings are anticipated from this change? If new funds are required to implement the change, indicate expected sources of funds. Describe any budgetary impact on other programs or units within the institution.

No changes to costs or savings are anticipated from this change.
