ABSTRACT

Knowledge Management Practice is the set of management activities conducted in a firm with the aim of improving the effectiveness and efficiency of organizational knowledge resources. This research discussed on the relationship between knowledge management practices and staff performance. This knowledge practices becomes productive when combined staff performance as dependent variable. Practically, this research describes implementation of KMP expertise in staff performance in CIMB Principal Asset Management Headquarters, using the scientific method of knowledge acquisition, knowledge dissemination and knowledge utilization. The questionnaire has been adjusted to match the environment of this research and it was applied to a sample of about 137 staffs in CIMB Principal Asset Management Headquarters. It was found that knowledge management practices namely knowledge acquisition, knowledge dissemination and knowledge utilization have positive and significant relationship with staff performance.

Keywords

Knowledge Management Practices (KMP), Knowledge Acquisition, Knowledge Dissemination and Knowledge Utilization

ACKNOWLEDGEMENT

Education is the most powerful weapon which you can use to change the world (Nelson Mandela, 2003).

I owe a debt of gratitude to all my friends, relatives, work colleagues and well-wishers who helped and contributed to this study. Firstly, I extend my sincere thanks to my supervisor, Miss Norrini Binti Muhammad, lecturer at the University Teknologi MARA Kelantan, to all staffs in CIMB Principal Asset Management Headquarters and fellow friends who helped me solidify my ideas about the role of knowledge management practices in enhancing staff performance. Never forgot, my beloved family for their unwavering support through this journey.

In addition, I would like to thank those who agreed to participate in the study process for, without their time and cooperation, this project would not have been accomplished. To each of the above, I extend my deepest appreciation in making this research study a success.
