FISH PASSAGE 2015
22-24 June 2014. Groningen (The Netherlands)

LIFE12 ENV/ES/1140

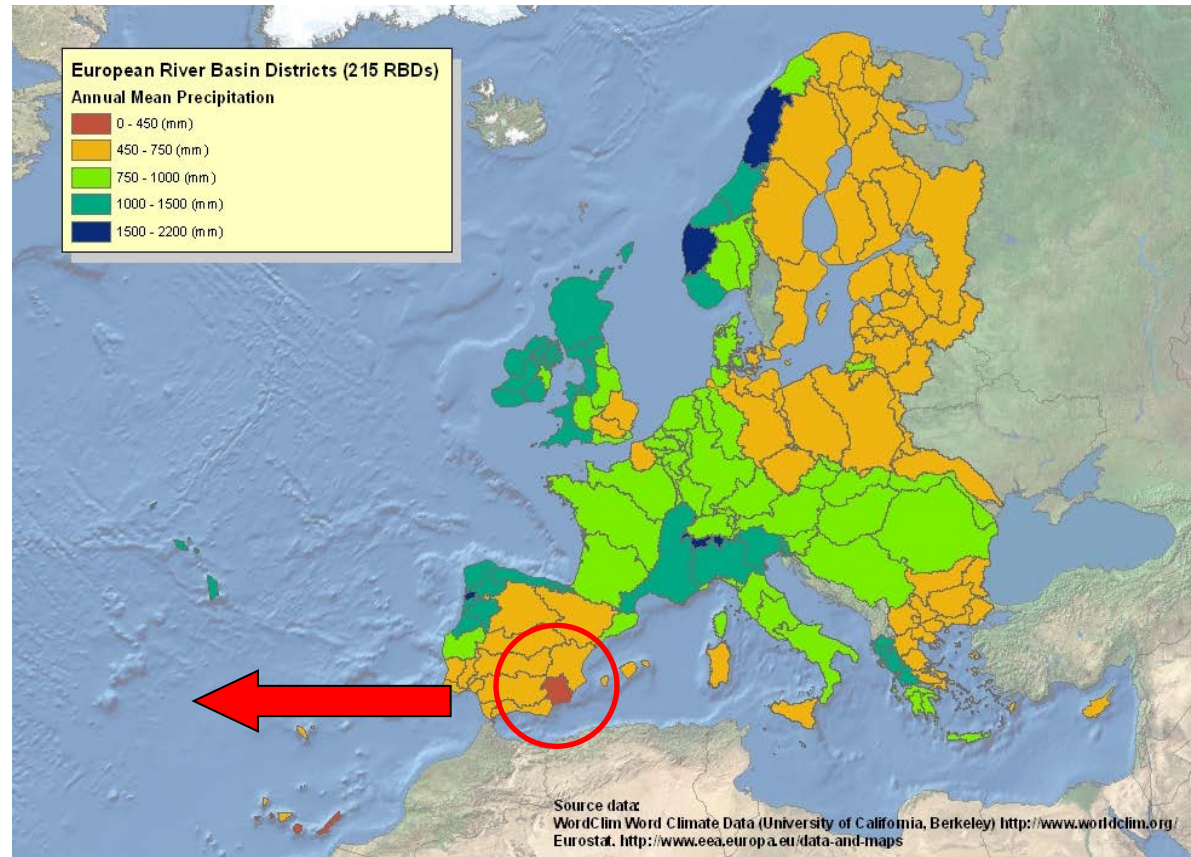

The Segura River Basin is characterized by **big climatic contrasts**: frequent droughts, torrential rains, recurrent floods, high temperatures and heavy frosts

WATER SCARCITY

IRREGULAR DISTRIBUTION IN TIME

IRREGULAR DISTRIBUTION IN SPACE

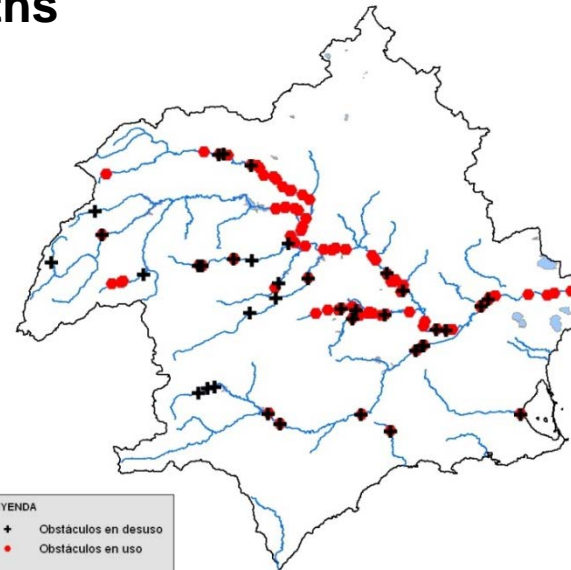

EXTREME EVENTS: DROUGHTS & FLOODS

ENVIRONMENTAL PROBLEM TARGETED

- **Geomorphic changes along the river**
- **Modification in the rivers flow regime**
- **Alteration of the water quality**
- **Creation of favorable habitats for exotic species**
- **Landscape effects**
- **Disruption of wildlifes natural motion paths**

GENERAL FACTS

BUDGET 3.424.250 € (49,83% EU)

PERIOD 01 August 2013 – 30 July 2017

LOCATION

PARTNERS

COMISARÍA
DE AGUAS

OBJECTIVES

The project aims to promote the environmental recovery of the Segura River by strengthening the connectivity between natural ecosystems in a highly fragmented river basin

At a long-term view

- ✓ Fish habitat in good ecological status
- ✓ No future deterioration in fish migration
- ✓ The green highway of the Segura River will be free of obstacles
- ✓ Increase environmental awareness

[www.fromtheseatosource.com]

MAIN ACTIONS

- ✓ Removal of an unused dam
- ✓ Eight fish passages
- ✓ Restoration of riverine vegetation

(Moratalla River, Murcia). 22 -01-2014

Pool type Fishways

Rocky ramp

Bypass channel

✓ Monitoring and socio-economic assessment

- Operative indicators at fish passage systems.
- Fish community and populations.
- Bird community and river-bank associated fauna.
- Vegetation communities.
- Water and sediments.
- Socio-economic assessment.

Indicators

- (1) Community metrics.
- (2) Population metrics of sentinel indicator species.

Level of actions

- (1) Regional – at the river sector.
- (2) Local - at river stretches next to the obstacle.

Sentinel-fishes

Gobio lozanoi (Gudgeon)

Pseudochondrostoma polylepis (Nase)

Luciobarbus sclateri (Southern Iberian barbel)

Alburnus alburnus (Bleak)

✓ Social involvement and awareness

21-24 June. Murcia

SIBIC2016

VI CONGRESO IBÉRICO
DE ICTIOLOGÍA / MURCIA

Dankjewel!
