**GRAND VALLEY
STATE UNIVERSITY**
UNIVERSITY LIBRARIES

A MESSAGE FROM DEAN VAN ORSDEL

Three years ago the Grand Valley State University Libraries began a tradition of recognizing faculty and staff who made contributions to scholarship, research, and creativity during the prior year. This year we celebrate over 250 works published in 2008 along with you, their creators. We hope that the libraries' resources and services contributed to your success.

The entries in this booklet are real points of pride for Grand Valley State University, and they reflect a broad and diverse array of expertise from science to business to literature and the arts. We've added listings by college or department this year, hoping that will be another meaningful way to measure our successes.

The university libraries are growing in our capacity to support, publish, disseminate, and preserve scholarly and creative works created by members of the university community, including students, and we hope you will look to us as partners in future scholarly endeavors.

Congratulations on your publishing accomplishments, and thank you for allowing us to celebrate with you!

Warm regards,

Lee C. Van Orsdel
Dean of University Libraries
