Vol. 21, No. 1, 2014

---

## CONTENTS

---

◆

---

- A high precision and high resolution estimation of the spatial distribution of PM2.5 in the south area of Okayama prefecture, Japan  
Akiho OMORI, Junji YAMAKAWA..... 1
- Paleoparadoxia* from the middle Miocene of Obara, Misaki-cho, Okayama Prefecture, Japan  
Akira FUKUCHI, Shigeyuki SUZUKI..... 7
- Aerosol observation at Okayama with Skyradiometer and LIDAR  
Sinpei NAGAMATSU, Daiki EGAWA, Osamu TSUKAMOTO..... 13
- A preliminary study on the seasonal cycles of the cyclone activity and the large-scale fields in Europe at the viewpoint comparing with those in East Asia  
Yumi TAKIGAWA, Yuichi HAGA, Kengo MATSUMOTO, Kuranoshin KATO..... 23
- Precipitation characteristics and large-scale atmospheric fields on (the heavy rainfall days in the eastern part of Japan Climatological features in midsummer and the supplemental study for the Baiu season)  
Kengo MASTUMOTO, Kuranoshin KATO, Kazuo OTANI..... 33
