

# I Am

*Among my body  
you found everything  
you ever longed for*

*fruitful  
divots and mounds  
acres of flesh*

*ripe with passion  
vulnerability perceived invaluable  
now only misshapen*

*simply a figure  
wilted from apathy  
hope exploited*

*more than a body  
to experience  
and still not enough*

*simply forgotten*
