UNIVERSITY OF DALLAS

Supplement to Catalog 1957-1958

Areas of
Specialization

- I. The University of Dallas will graduate its first class in June, 1960; members of this class will receive Bachelor of Arts degrees and will have chosen their major programs within these departments:

Biology
Business and Economics
Education
English
History and Political Science
Mathematics
Philosophy
Speech and Drama

Such students may elect minors within the departments named above or in:

Chemistry
Psychology
Theology

Majors in Art, Chemistry, Foreign Languages, Music, Physics, Psychology, Sociology, and Theology will not be available until such time as these departments can be adequately developed. However, major programs within several of these departments will be available for students beginning their junior year in 1959.

Transfer
Students

- II. Transfer students who wish to graduate with the University's first class (June, 1960) should have earned a minimum of approximately 60 credits with a grade of C by the beginning of their junior year, (Fall, 1958). Students with less than 60 credits may by attending summer school be enabled to finish with the 1960 graduates.

Courses passed with grades of D are not transferable for credit to the University of Dallas, except in mathematics, composition, and foreign language. The student may receive credit for D grades in these courses by earning satisfactory scores on advanced standing examinations or by successful (C or better) work in a more advanced course of the same nature.

UNIVERSITY OF TORONTO

Faculty of Education

The University of Toronto is pleased to announce the appointment of Dr. [Name] as [Title] in the Department of [Department Name]. Dr. [Name] will be reporting to the [Supervisor] on [Date].

Dr. [Name]
[Address]
[City, Province, Canada]

This appointment is subject to the approval of the [Committee Name] and the [Authority].

[Signature]
[Title]

The University of Toronto is a member of the Association of Universities and Colleges of Canada (AUCC) and is committed to the highest standards of academic excellence and research.

For more information, please contact the [Department Name] at [Phone Number] or [Email Address].

Dr. [Name] holds a Ph.D. from [University Name] and has published extensively in the field of [Field Name].

It is probable that most transfer students will have taken few if any courses in philosophy or theology. One of the strong factors in the University of Dallas curriculum is the emphasis placed on the importance of philosophy and theology in achieving true higher education. Students with no credit in philosophy will be able to meet the University requirements by taking logic (Philosophy 101) and introductory philosophy (Philosophy 201-202) in their junior year, and one advanced philosophy course in each semester of their senior year.

Catholic students who are degree candidates must pass a two-credit course in theology for each semester in full-time residence. Other degree candidates must earn credits in Philosophy 121-122, 221-222, or may elect instead the theology sequence.

Majors

III. It is advisable and, in some cases, required that the student have completed basic courses in his major field before he begins his junior year.

Biology:

The student who wishes to major in biology should have a minimum of six credits in general biology, or a closely related course, before he begins his junior year.

Also a one-year course in vertebrate anatomy (comparable to our Biology 201-202) is desirable. However, if the student has not yet had the anatomy or a comparable course, he may take it in his junior year along with his other major courses.

Business and Economics:

The student who wishes to major in business and economics should have at the time of transfer credit for at least one course in economics, accounting, or the mathematics of finance.

Education:

The student who wishes to major in elementary education should have at the beginning of his junior year at least six credits in education courses, preferably educational or introductory psychology, or in orientation courses for the education major.

The student preparing to teach in secondary schools will preferably have had such courses by the end of his sophomore year, but he may take them in his junior year if necessary. Such students will, in addition to taking courses required for state department approval, choose an available major within some other department of the University.

The first part of the report deals with the general situation of the country and the progress of the work done during the year. It also mentions the names of the members of the committee and the places where the work was done.

The second part of the report deals with the results of the work done during the year. It mentions the names of the members of the committee and the places where the work was done.

The third part of the report deals with the conclusions drawn from the work done during the year. It mentions the names of the members of the committee and the places where the work was done.

The fourth part of the report deals with the recommendations made by the committee. It mentions the names of the members of the committee and the places where the work was done.

The fifth part of the report deals with the financial statement of the committee. It mentions the names of the members of the committee and the places where the work was done.

The sixth part of the report deals with the general remarks of the committee. It mentions the names of the members of the committee and the places where the work was done.

The seventh part of the report deals with the conclusions drawn from the work done during the year. It mentions the names of the members of the committee and the places where the work was done.

The eighth part of the report deals with the recommendations made by the committee. It mentions the names of the members of the committee and the places where the work was done.

The ninth part of the report deals with the financial statement of the committee. It mentions the names of the members of the committee and the places where the work was done.

English:

The student who wishes to major in English must have at the beginning of his junior year credit for two semesters of composition, and preferably will also have credit for two semesters of world, British, or American literature.

History and Political Science:

The transfer student who chooses to major in this department should have by the end of his sophomore year credit for at least two semesters of world, European, British, or American history.

Mathematics:

The math major should have completed by the end of his sophomore year two semesters of calculus; he should have had also courses in college algebra, trigonometry, plane analytic geometry, and solid analytic geometry.

Philosophy:

The student who wishes to major in philosophy should have completed prior to his junior year a semester of logic plus one or two semesters of other philosophy courses.

Speech and Drama:

Students choosing to major in speech and drama should preferably have at the beginning of their junior year credit for at least two semesters of speech or drama courses.

Electives

- IV. Gregg Shorthand and Typing will be offered for the first time in 1958-1959. These will be credit courses, open generally to juniors only, and taught in the Department of Business and Economics.

The student who wishes to major in
the field of the history of the
United States should take the
course in the history of the
United States.

The student who wishes to major in
the field of the history of the
United States should take the
course in the history of the
United States.

The student who wishes to major in
the field of the history of the
United States should take the
course in the history of the
United States.

The student who wishes to major in
the field of the history of the
United States should take the
course in the history of the
United States.

The student who wishes to major in
the field of the history of the
United States should take the
course in the history of the
United States.

The student who wishes to major in
the field of the history of the
United States should take the
course in the history of the
United States.

The student who wishes to major in
the field of the history of the
United States should take the
course in the history of the
United States.

Rev. Christopher S. Rabay, S.O.Cist., S.T.L., *Instructor in Philosophy and Theology*

Mrs. Ruby Nell Ruth, M.S., *Lecturer in Biology*

Rev. Damian Szodenyi, S.O.Cist., Ph.D., *Dean of Men; Associate Professor of Philosophy and Psychology*

THE MOST REVEREND THOMAS K. GORMAN, D.D., D.Sc.Hist.,
Bishop of The Diocese of Dallas-Fort Worth
Chancellor of the University of Dallas

AIMS

The University of Dallas offers to men and women of all faiths the opportunity to achieve for themselves a liberal education emphasizing Theology and Scholastic Philosophy as integrating principles in the various disciplines.

Since the intellect directs the will in the pursuance of good, the primary function of the University is the intellectual formation of its students. In this way it seeks to form the true Christian "who thinks, judges and acts constantly and consistently in accordance with right reason illumined by the supernatural light of the examples and teachings of Christ."¹

To obtain this general aim, the University seeks specifically to form responsible articulate citizens who have

1. A mastery of the philosophical principles which will enable them to seek, through the intellect, ultimate truth; and to pursue, through the will, ultimate good.
2. A comprehension of theology which will show them their obligation to live in accordance with truths revealed by God.
3. An insight into the physical sciences.
4. An introduction to the heritage of civilization and the culture of the modern world.
5. An understanding of the principles governing the social, economic, and political fields, and the ability to apply these principles to existing problems of our republic.

In other words, the student who graduates from the University of Dallas knows where he stands in relation to God and to the rest of the world, can evaluate experience and achievement, and can adapt himself to, as well as shape his life within, a rapidly changing world.

¹Pope Pius XI., *Encyclical Letter on the Christian Education of Youth*.

HISTORICAL NOTES

In 1954 the need for a four-year institution of higher learning in the Diocese of Dallas-Fort Worth became evident. The project was put before the people of the Diocese and before civic and community groups, and it generated enthusiasm from the start. Thus was set up the new University of Dallas.

A thousand-acre tract of land northwest of the City of Dallas was purchased in the spring of 1955. Shortly after the purchase of the site, His Excellency, Most Reverend Thomas K. Gorman, Bishop of Dallas-Fort Worth, stated that the first freshman class would begin in September, 1956, and that the new University of Dallas would be a four-year, co-educational college, with graduate work to be added as soon as practicable. Ownership and operation of the University by the Diocese of Dallas-Fort Worth permits the widest cooperation with all religious and lay groups of the Diocese.

The Sisters of St. Mary of Namur, who participated actively in the initial efforts to launch the University, furnish both teachers and administrative personnel.

The history of the Sisters of St. Mary of Namur dates back to November 11, 1819, when the Order was founded in Belgium by Reverend Nicholas Joseph Minsart, a member of the Cistercian Order.

On August 7, 1863, five religious women of the community set sail for America, arriving at Lockport, New York. There, one month after having left Belgium, they opened their first school in the United States.

Within a decade after their arrival in the New World, the Sisters of St. Mary were invited by the Most Reverend Claude Marie Dubuis, Bishop of all Texas, to work in the South. On October 1, 1873, three of the Sisters opened their first school in Texas at Waco Village. As the Sisters continued to grow in number they opened schools in Corsicana, Denison, Sherman, Fort Worth, Dallas and Wichita Falls.

In 1930 the Sisters of St. Mary of Namur opened in Fort Worth, Texas, Our Lady of Victory College for young women. The work of this Junior College is absorbed in the University of Dallas.

Also affiliated with the University are the Cistercian Fathers.

The Cistercian Order was founded in 1098 in Citeaux, France, following St. Benedict's Rule, starting out as a reformed branch of the Benedictine Order.

The first Monastery of the Cistercian Order was established in Hungary during the lifetime of St. Bernard in 1142.

At the end of the eighteenth century, the Cistercian Order adopted teaching work in Hungary where, through the passing decades, they became a teaching and educating Order par excellence. The Cistercian Fathers had five advanced high schools (gymnasiums) and two colleges. Besides their philosophical and theological studies, all the members of the Cistercian Congregation of Hungary were required to have a Master's

Degree in non-religious subjects. In 1948, of the 155 Cistercian Fathers in Hungary, 71 had Ph.D. degrees.

Of this Congregation, after its suppression by the Communist government, a group of Fathers succeeded in coming to the United States from Communist-ruled Hungary. Here in the United States, the older Fathers continued their teaching and educational work in different universities, colleges and high schools, while the younger ones continued their work toward M.A., M.S., and Ph.D. degrees.

Also on the staff of the University are members of the orders of Our Lady of Charity of Refuge, Dallas, and the Franciscans of the Sacred Heart Province, St. Louis. Diocesan priests, lay men, and lay women complete the faculty and administration of the University.

The Sisters of St. Mary of Namur, the Cistercians, and the Franciscan Fathers are building or planning houses of study on the University campus.

GENERAL INFORMATION

STUDENT LIFE

Housing

All students not residing in their own homes or with close relatives must live in housing that is under University auspices. Students living on the campus will eat at the University cafeteria.

Discipline

The discipline of all students is under the supervision of the Dean of Men or the Dean of Women. The Administration reserves the right to request a student to withdraw for failure to meet standards of scholarship, character, or health, or for refusal to conform to the letter and spirit of University regulations.

Student Health Service

The health of the resident students is under the care of the University Medical Director who is on call on a twenty-four-hours-a-day basis. A registered nurse has regular daily hours on the campus. Her services are available to all students. The University has an arrangement with a local hospital for emergencies.

Student Counseling Service

Spiritual directors are available at all times to discuss with students problems of religious or personal nature.

Counseling is provided through divisional and special advisors who are concerned with the scholastic, vocational, and social interests of students assigned to them.

Appropriate tests and testing procedures are used and guidance is based thereon. Complete student personnel records are established and maintained.

Freshman Days

During Freshman Days a series of guidance and placement tests are administered to all beginning freshmen. Personal interviews assist the students in choosing suitable courses of study. During this time the students also become acquainted with the aims of the University and its academic and social regulations. Attendance at the Freshman Days sessions is compulsory for all freshmen.

Student Government

The Student Government, composed of all students of the University, provides due measure of student self-government, regulates all matters delegated by the University to student control, and furthers interest and cooperation among the students of the University. During the first semester of its organization, the Student Government selected the name "Crusaders" for the University's athletic teams and chose navy blue and white as the official colors of the University.

THE CAMPUS AND UNIVERSITY BUILDINGS

The University campus is located northwest of Dallas in an area known as University Crest. New highways under construction will place the University eight miles from downtown Dallas. The property consists of one thousand acres of rolling hills and flat plains. The Elm Fork of the Trinity River extends along a portion of the eastern boundary. On the campus are groves of native trees—oaks, mesquites, pecans, and willows—and landscaped terraces. Courts provide opportunities for sports and recreation. The six permanent buildings are of modern architectural style. They are entirely functional, of reinforced concrete frame with brick exterior, and completely air-conditioned.

THE CHAPEL

The Chapel is dedicated to Saint Thomas Aquinas. The walls and ceiling are of red cedar and Philippine mahogany in natural finish. The beauty and artistry of the chapel are accentuated by the simplicity of the altar, the wood-carved statues, stations of the cross and crucifix.

THE SCIENCE BUILDING

A two-story structure, the Science Building houses, at present, the administrative offices, faculty offices, the library, laboratories, classrooms, the clinic, the student lounge, and the bookstore.

THE LECTURE HALL

The Lecture Hall adjoins the Science Building. It is equipped with a projector and screen, a large chalkboard, a galvanometer and other specialized items. The seating capacity is 315.

THE MEN'S AND WOMEN'S RESIDENCE HALLS

The Men's and Women's Residence Halls are built on similar plans. They contain single, double, and triple rooms for students and adequate suites for supervisors. A special room and kitchenette in each Hall provide facilities for entertaining visitors and guests.

THE CAFETERIA

A covered walk connects the Cafeteria and Women's Residence Hall. The Cafeteria accommodates 125 people at a time.

ADMISSION REQUIREMENTS

Admission to the Freshman Class

PLAN A. A student may present from a secondary school approved by a state or regional accrediting agency a transcript showing that he is ranked in senior year above the lowest third of his class, that he is recommended to the University by his principal, and that he has earned 15 units of high school work distributed as follows:

English	3 Units
Mathematics	2 Units
Algebra	
Solid Geometry	
Plane Geometry	
Trigonometry	
Two units from each of two of the following:	4 Units
Foreign Language	
Natural Science	
Social Studies	
Electives	6 Units

Not more than 4 units of a vocational or professional nature will be accepted.

The University urges high school students to include in their preparatory courses at least three units of mathematics, including second year algebra and plane geometry, and two units in a foreign language. If a third foreign language unit is earned, it should be in the same language. The University also recommends that students choose their electives from the fields of English, Mathematics, Social Science, and Natural Science.

PLAN B. A student whose school record varies from the pattern described in PLAN A may be admitted by earning satisfactory scores on examinations prescribed by the Admissions Committee, and by special clearance by that Committee.

Application

The application procedure requires:

1. Submission of a completed application form obtained from the Registrar's Office.
2. Submission of a complete high school record sent directly from the principal's office.
3. Submission of a health certificate obtained from Registrar's Office.
4. Acceptance by the University.
5. Final registration on the date assigned.

Transfer Students

A student seeking admission to the University of Dallas from another college or university must submit:

1. An official transcript of credits including a summary of high school units and a statement of honorable dismissal. This transcript must be sent directly from the registrar of the college the student last attended.
2. A completed application form and health certificate. These are obtained from the Registrar's Office, University of Dallas.

A student not eligible to return to the institution he last attended because of scholastic disqualification may be admitted on probation if the Admissions Committee decides to accept him.

Courses passed with grades of D will not be accepted for credit.

Credits transferred from a junior college will not exceed the number of credits a student would earn during his first two years at the University.

A transfer student must earn at least 30 advanced credits (courses numbered 300 or above) from the University of Dallas in completing the degree requirements.

Foreign Students

In addition to fulfilling the entrance requirements, foreign students must have sufficient knowledge of the English language to pursue courses in a regular curriculum. They must also give evidence of financial ability to meet the expenses of a full course of study at the University.

Veterans

The University of Dallas is approved by the Veterans Administration for the training of Korean veterans under Public Law 550, 82nd Congress. Veterans eligible for benefits under this law should seek the assistance of a Veterans' Counselor in completing the required forms for submission to the Veterans Administration.

STUDENT EXPENSES FOR EACH SEMESTER

Application Fee

Applicable to tuition if the student is accepted; refundable, if the student is not accepted. Not refunded to accepted students who withdraw or do not complete registration.....\$ 10.00

Tuition

For full-time students (12 or more semester hours)..... 225.00
 If two or more children of one family are enrolled as full-time students simultaneously, a 10 per cent reduction in tuition is granted each.

For part-time students

7 - 11 hours, per semester hour 18.00
 1 - 6 hours, per semester hour 15.00

For auditors

Each 2-hour course..... 16.00
 Other courses..... 25.00

Resident Students

Room and board ranges from \$225.00 to \$300.00 the semester, depending on accommodations. Single rooms, at \$275.00, are available in Men's and in Women's Residence Halls. Rooms for two, available only in Women's Residence Hall, are \$245.00 for each student. Rooms for three, available only in Men's Residence Hall, are \$225.00 for each student. In the Men's Residence Hall, double rooms with connecting bath are \$300.00 for each student. These rates include all meals. There is an additional charge of \$7.60 each semester for linen service: the University furnishes each resident student with two clean sheets, towels, washcloth, and pillowcase every week. If the student changes rooms during the semester, there is a charge of \$15.00. A room reservation deposit of \$15.00 must accompany the application if the student is to reside on campus. The room deposit is applicable to the room charge if the student is accepted; it is refundable if the student is not accepted. It is not refunded to accepted students who withdraw or do not complete registration.

Other Fees

Non-Refundable

Late Registration \$ 5.00
 Laboratory fee per semester course 10.00
 Music (voice, piano)

1 lesson per week 40.00
 2 lessons per week 75.00

The general fee (required of all students taking 12 or more hours. Covers the cost of insurance, Student Government, gym towels, services of the University physician and nurse, etc.) 17.50

All beginning freshmen pay a special fee for Freshman Days. This fee defrays part of the expense of the testing, social and recreational programs. Freshmen who register late must pay this same fee to cover costs of additional test sessions. 15.00

Refundable

Science laboratory breakage fee (each course) 10.00

Dormitory key deposit 2.00

Locker deposit 2.00

Books and Supplies

Sold, for cash only, in the University Bookstore. Expenses for the semester average \$25.00.

PAYMENT

All charges must be paid at the time of registration unless special arrangements for payment have been made prior to that time.

SCHOLARSHIP PROGRAM

The Bishop Thomas K. Gorman Scholarships:

Maintained by the interest earned on a special fund contributed by Catholic and civic leaders in 1956 as a tribute to Bishop Gorman on the occasion of his Silver Jubilee and on the opening of the University. Leadership, scholarship, and need for assistance are factors considered in the awarding of these scholarships.

The President's Scholarships:

Maintained by funds raised annually for current scholarships of varying amounts and for varying periods of time. Leadership, scholarship, and need for assistance are factors considered in the awarding of these scholarships.

The University Scholarships:

Maintained by special funds set aside annually by the University of Dallas. The following scholarships are awarded to freshmen and are generally renewable during sophomore, junior, and senior years for high scholastic achievement, leadership, and need for assistance:

- (1) One full-tuition scholarship to the first or second ranking senior student scholastically in each of the Catholic high schools of the Diocese of Dallas-Fort Worth with 25 or more seniors.
- (2) One full-tuition scholarship to the first-ranking senior student scholastically in each of the Catholic high schools of the Diocese of Dallas-Fort Worth with less than 25 seniors.
- (3) One half-tuition scholarship to the first or second ranking senior student scholastically in any Catholic high school, located outside the Diocese of Dallas-Fort Worth, with 50 or more seniors.
- (4) One half-tuition scholarship to the first-ranking senior student scholastically in any Catholic high school located outside the Diocese of Dallas-Fort Worth, with less than 50 seniors.

The "Certificate" Scholarships:

Maintained by special funds set aside annually by the University of Dallas and issued through the certificate system of the Texas Council of Church-Related Colleges. These scholarships are generally renewable during sophomore, junior, and senior years for high scholastic achievement, leadership, and need for assistance:

- (1) One one-year, full-tuition scholarship available to the first-ranking senior student scholastically in any accredited public high school geographically located within the boundaries of the Diocese of Dallas-Fort Worth.
- (2) One one-year, half-tuition scholarship available to the first-ranking senior student scholastically in any accredited public high school geographically located in Texas but outside the boundaries of the Diocese of Dallas-Fort Worth.

Special Scholarships:

(1) UNIVERSITY OF DALLAS COMPETITIVE SCHOLARSHIP AWARDS — Open to senior students in private and public high schools geographically located within the Diocese of Dallas-Fort Worth.

First award—valued at \$500 per year for four years. Second award—valued at \$250 per year for four years. Original awards based on competitive examination given at the University of Dallas (1957 date: May 4; application for examination to be made no later than April 15). Continuation of grants beyond Freshman year will be based on scholastic achievement.

(2) UNIVERSITY OF DALLAS INTER-AMERICAN SCHOLARSHIPS — Two full-tuition scholarships available—one for a student from Central America, one for a student from South America. High scholastic record in previous secondary schools, sufficient knowledge of English, suitable recommendations from church, educational and state authorities, and need for assistance are the factors considered. Application must be made by May 15 for following academic year.

(3) THE LITTLE ROCK DIOCESAN COUNCIL OF CATHOLIC WOMEN SCHOLARSHIP CONTEST AWARD (Applications are restricted to those parishes affiliated with the Little Rock D.C.C.W) — one four-year scholarship, valued at \$500 per year.

(4) NATIONAL FRENCH CONTEST AWARDS (Sponsored by The American Association of Teachers of French)—two one-year scholarships, each valued at \$225.

(5) CATHOLIC HIGH SCHOOL SPEECH TOURNAMENT SCHOLARSHIP AWARD—one one-year half-tuition scholarship.

All freshman scholarships listed above will be granted only (1) upon the recommendation of the high school principal, (2) upon the approval of the Admissions Committee of the University of Dallas, and (3) provided the recipient matriculates in the University of Dallas during the first regular semester following graduation.

SCENES ON THE CAMPUS OF UNIVERSITY OF DALLAS

The University is located on one of the highest points in Dallas County and commands a beautiful view of the surrounding country. Shown above, left to right, are the Lecture Hall, the Science Building and the Women's Residence Hall.

Main entrance to the Science Building. The covered walkway at left connects with the Lecture Hall.

Women's Residence Hall and behind it, to the left, the Cafeteria. All buildings on the campus are air-conditioned.

Lounge in student Residence Hall.

The University Chapel is dedicated to St. Thomas Aquinas.

A corner of the library.

The Lecture Hall.

Students' room. Both Men's and Women's Residence Halls are attractive and well furnished.

ACADEMIC REGULATIONS

Examinations

MID-SEMESTER: During mid-semester week there is a written test in each credit course, test to be given during the regular class period on a date chosen by the instructor. Mid-semester grades are reported to the office of the Dean; they are not entered on the student's permanent record. Mid-semester grades of D and F are reported to parents or guardians.

FINAL: At the end of the semester, there is a two-hour written examination in each course. This final examination covers the work of the entire semester. No students are exempted from the final examination. Unexcused absence from a semester examination constitutes a failure.

Permission to make up an examination missed because of extenuating circumstances may be granted by the Dean. In all cases in which a special examination is required, a fee of \$5.00 will be charged.

Grades and Quality Points

<i>Grades</i>	<i>Quality Points</i>
A Superior	4
B Above Average	3
C Average	2
D Passing	1
F Failure	0

Other grades, which may be assigned by the Dean, are W, WP, and WF:

W — withdrew from course, with permission of the Dean, before the mid-semester examination.

WP — withdrew, with permission of the Dean, after mid-semester while earning passing grade.

WF — withdrew after mid-semester while earning failing grade.

Grades of FA, I, and X:

FA — This grade is assigned by the Absence Committee because of the student's failure to comply with the absence regulations. It is a failing grade and is included in grade averages.

I — incomplete. Assigned by the instructor when a student has failed to satisfy a small number of the requirements of the course.

X — assigned by instructor when student misses final examination. With permission of the Absence Committee, the student may be given a special examination and the X grade changed to the grade earned.

X and I grades not removed within four weeks after the beginning of the following semester will be changed to F.

Grade-Point Average:

The grade-point average of a student is found by dividing the total number of quality points by the total number of semester hours.

In order to obtain a degree, a student must attain an over-all average of C (2 quality points). Not more than 30 semester hours passed with a grade of D are acceptable for graduation.

SCHOLASTIC HONORS

Dean's List

A student earning 14 or more credits in a semester and achieving a grade-point average of 3.5 or higher merits the distinction of being placed on the Dean's List, published at the end of each semester.

Honor Roll

A student earning 14 or more credits in a semester and achieving a grade-point average of 3-3.49 is placed on the Honor Roll.

Probation:

If a student's grade-point average falls below 2.0, he may be warned, placed on scholastic probation, advised to withdraw, or dropped.

A student on probation may take no more than 14 credit-hours during a semester. His extracurricular activities also may be restricted. He may be removed from probation when he earns a grade-point average of 2.0 for one semester.

A student admitted to the University on scholastic probation may, with permission of the Dean, take more than 14 credit-hours.

Absences:

Students are required to file an absence report for each absence. These reports are filed at the Office of the Dean or at the Reception Desk in the Science Building as soon as possible after the absence.

Absences in excess of three in any one course, or three successive absences in a course, are reported to the Dean by the instructor. The Absence Committee may drop a student from any course and assign a grade of FA.

Instructors may not give to any student permission to be absent from any class, laboratory, or examination period. However, an instructor may, at his discretion, request a student to leave the classroom for the remainder of that particular class period and report the student absent on that day.

Withdrawal:

Withdrawal from any course or from the University must be with the permission of the Dean. Grades of F are assigned for unofficial withdrawals.

COURSE REQUIREMENTS FOR THE BACHELOR OF ARTS DEGREE

	<i>Credits</i>
1. Theology and Philosophy	23-31
2. English	12
3. Mathematics	6
4. Physical or Natural Science	6-8
5. Foreign Language	3-12
6. American Government (Political Science 301)	3
7. Western Civilization (History 101-102)	6
8. United States History (History 201-202)	6
9. Speech	3-6
10. Economics	6
11. Physical Education (no course credit; four semesters)	0
12. University Lectures (no course credit; four semesters)	0
13. Major subject: a minimum of 18-24 advanced credits (courses numbered 300 or higher), depending on the major subject. Minor subject: if the student wishes, he may minor in a selected field by earning a minimum of 12 advanced credits.	
14. Additional courses to make a minimum total of 128 semester hours.	

The Theology and Philosophy Requirement

An accumulation of facts, courses, or experiences does not of itself constitute a thorough or liberal education. A synthesis of these varied elements is needed if the person is to be something more than a man of bits and pieces. Such a synthesis is a matter of degree, never complete, never perfectly satisfying; obviously it must take place within the person himself and by the strivings of his own mind, not merely be worked out on paper in a curriculum termed "integrated."

The human mind by nature engages in a constant search for truth and synthesis of these truths. In this search it cannot be satisfied with human wisdom alone, or with seeing the interrelations of temporary bits and pieces; it must reach toward the source of all truth, a source not temporary and not changing, approached through knowledge as well as love. God is the ultimate explanation of the meaning of human existence; a continuing and concentrated study of Theology and Scholastic Philosophy—the study of God and what He has revealed of Himself, the study of man's destiny, acts, wisdom, and worth in temporal and eternal values—offers the student the opportunity to develop for himself depth in understanding and sureness in evaluating and synthesizing his knowledge and experiences in the University and in later life.

Catholic students who are degree-candidates must pass a two-credit course in Theology for each semester in full-time residence. All other degree-candidates must pass Philosophy 121, 122, 221, and 222. If the student wishes, Theology 101-102, 201-202 may be substituted for the 121-122, 221-222 sequence in Philosophy.

All degree-candidates must earn fifteen additional credits in Philosophy, including courses 101, 201-202.

The Foreign Language Requirement

The University believes that the study of a foreign language is an essential element of a liberal education, culturally broadening, useful and necessary for a full knowledgeable life in a late-twentieth-century world.

All candidates for the Bachelor of Arts degree must earn three credits in Language 202 (French, German, Spanish, or Latin), the second semester sophomore course. Prerequisites to this course are either

1. Language 201
- or
2. Three or more years of high school credit in the same language and a satisfactory score on the language placement test given during Freshman Days.

A student who has successfully passed the Language 202 course has demonstrated the ability to use with a reasonable degree of skill in speaking, reading, and writing, the language he has chosen.

During Freshman Days, the student should discuss with his advisors the language best suited to his needs. In general, graduate and professional schools prefer their entering students to have backgrounds in French, German or Latin.

Other details of language credits and requirements are listed herein by the Department of Foreign Languages.

The Physical Education Requirement

Physical training is obligatory for freshman and sophomore students; veterans with at least twelve months of service in the Armed Forces may request service credit for Physical Education. At present the Physical Education program includes participation in team and individual sports and intramural athletics. The University participates in recreational league competition in basketball and baseball, and plans to enter intercollegiate competition as soon as practicable.

All equipment for team sports is furnished by the University, but the individual student must furnish tennis rackets, badminton shuttlecocks, etc. if he wishes to use them. Students are required to have a regulation gym suit, which may be purchased in the University Bookstore.

Courses in Physical Education are listed by the Department of Education. In the junior and senior years, credit courses in Physical Education will be offered.

The University Lectures Requirement

The series of University Lectures, under the direction of the Dean, has a three-fold aim: to introduce the student, during his first two years of college life, to achievement in the fine arts; to direct the student's interest in current local, national, and world events; and to assist the student in his choice of a career.

To achieve this aim, the series presents lectures in art and music; concerts and films; talks by men of achievement in various fields, who are visiting or resident in or near Dallas; addresses by the President or the Chancellor; discussion of possible future careers for majors in various departments.

Freshman and sophomore students are required to attend the bi-monthly lectures. Transfer students must attend the University Lectures for a minimum of two semesters.

PROFESSIONAL AND PRE-PROFESSIONAL TRAINING

Those students who are to become lawyers, doctors, dentists, engineers, priests, or teachers, or who are to go on to graduate study in any field, should be among the University's most capable graduates, fulfilling to a high degree its stated aims. Consequently, the pre-professional curricula at the University are broad, thorough, and liberal, designed to qualify the student for entrance into graduate or professional schools as well as to give him the finest possible basis for professional study and career. Early in his sophomore year, the student should discuss with his faculty advisors the entrance requirements of the particular graduate or professional school he wishes to enter.

Pre-professional curricula in law, medicine, dentistry, and engineering are discussed below and on pages 39-41. The teacher training program is presented on pages 34, 35, 37, 38. Information concerning the nursing, medical technology, and radiologic technology programs is given on page 33.

PRE-LAW

The University recommends that the student who plans to enter law school earn, before beginning legal studies, the Bachelor of Arts degree, preferably majoring in English, History, or Philosophy. Besides satisfying the major requirements for the degree, the student should elect additional courses in accounting, political science, psychology, sociology, speech and general science. A suggested curriculum for the pre-law student is given on page 40.

PRE-MEDICINE, PRE-DENTISTRY, PRE-VETERINARY MEDICINE

The University recommends that the student who plans a professional career earn the Bachelor of Arts degree before beginning professional study, although some professional schools will admit a student with less than four years of college credit. Ordinarily, the pre-medical, pre-dental, or pre-veterinary student will major in Biology or Chemistry, taking as electives the courses needed to satisfy entrance requirements of particular schools. If he prefers, the student may elect a major in English, History, Philosophy, or some other subject, but this may add another semester to the student's four-year program.

Either German or French is recommended in fulfillment of the language requirement, but it should be pointed out that Latin, as the source of many medical terms, fulfills the entrance requirements of various medical schools.

During Freshman Days, the student should consult with his advisors concerning his course of studies here. A basic program is outlined on page 41.

PRE-ENGINEERING

The University offers a Liberal Arts-Engineering program in which the student who plans to become an engineer spends three years at the University of Dallas taking required courses in arts and sciences and then

transfers to an engineering school of recognized quality for two years of continued training in a special field of engineering. This five-year program leads to the degrees of Bachelor of Arts, granted by the University of Dallas, and Bachelor of Science, in a special field of engineering, from the chosen engineering school.

The pre-engineering student may prefer to earn the Bachelor of Arts degree before leaving the University of Dallas. In this case he follows the four-year curriculum recommended for majors in mathematics, and takes as electives the additional courses recommended for engineering students.

A suggested curriculum for the three-year pre-engineering student is given on page 39.

NURSING

A cooperative arrangement between both St. Paul's School of Nursing of Dallas and St. Joseph's School of Nursing of Fort Worth and the University of Dallas has been developed. First-year student nurses at St. Paul's Hospital and at St. Joseph's Hospital take most of their basic courses on the campus of the University. Details of this program may be obtained by writing either St. Paul's School of Nursing, 3218 San Jacinto Street, Dallas 4, Texas, or St. Joseph's School of Nursing, 1551 South Main Street, Fort Worth 4, Texas.

The University is also considering the establishment, in cooperation with these hospitals, of a basic professional four-year program leading to the Bachelor of Science degree in Nursing. Arrangements for this program are not yet complete.

MEDICAL TECHNOLOGY

In cooperation with St. Paul's Hospital, the University is establishing a degree program in medical technology. For the degree of Bachelor of Science in Medical Technology, the student attends the University for three years and spends his fourth year in theory and practice at the hospital.

RADIOLOGIC TECHNOLOGY

The University is planning a program leading to the degree of Bachelor of Science in Radiologic Technology. The student seeking this degree attends the University for a minimum of two and one-half years, and spends approximately two years in theory and practice at St. Paul's Hospital in Dallas.

TEACHER EDUCATION

The teacher training program is an important function of the University. The program is based on a general knowledge of major areas of learning together with specialized professional preparation, and is therefore the concern of all departments. A counseling service is provided to assist students in planning individual programs leading to either the elementary or the secondary state certificate. Programs for majors in education are presented on pages 37, 38.

The special objectives of the teacher training program are as follows:

To inculcate the fundamental principles and basic assumptions of a sound philosophy of education.

To present the historical and philosophical foundations of education.

To stress an appreciative mastery of academic areas, as well as the most effective skills and techniques of teaching.

To provide for an understanding of the psychological principles of human learning and behavior necessary for effective instruction and guidance.

To enable students to meet general and state requirements for teacher certification.

To prepare qualified students for graduate studies in the fields of education.

ORGANIZATION OF INSTRUCTION

To secure cooperation between closely related departments, and to simplify administration, the University groups its departments of instruction into six major divisions:

I. Division of Humanities and Fine Arts

Department of Art

Department of English Language and Literature

Department of Foreign Languages

Department of Music

Department of Speech and Drama

II. Division of Philosophy and Theology

Department of Philosophy and Psychology

Department of Theology

III. Division of Physical and Natural Sciences

Department of Biology

Department of Chemistry

Department of Mathematics

Department of Physics

IV. Division of Social Sciences

Department of Business and Economics

Department of History and Political Science

Department of Sociology

V. Division of Education

Department of Education

VI. Division of Hospital Sciences

Medical Technology

Nursing

Radiologic Technology

COURSES OF INSTRUCTION BY DEPARTMENTS

All courses offered in the academic year 1957-58 are described in the following pages and are listed by departments, arranged alphabetically. It will be noted that in its second year of operation the University offers primarily freshman and sophomore courses only. In the academic year 1958-59 courses through the junior year will be offered. The four-year undergraduate program will be complete in the academic year 1959-60.

Courses for which there is insufficient registration will be withdrawn.

Numbering of courses:

- 01- 99 Courses for which no credit is given
- 100-199 Freshman or Sophomore courses
- 200-299 Sophomore or Junior courses
- 300-399 Junior or Senior courses

Credits

Credit given for each course is listed with the description of the course. One credit is given for each recitation or lecture period of 50 minutes a week for one semester. A laboratory period consists of one hundred or one hundred fifty minutes a week for one semester. One credit is given for each one hundred fifty minute laboratory period; one credit may be given for a one hundred minute laboratory period, depending on the nature of the subject and the course.

DEPARTMENT OF ART

Art

101. History of Art I. 3 credits
A survey of the artistical achievements of mankind outside Europe.
102. History of Art II. 3 credits
A survey of European art.
201. Introduction to the Techniques of Art I. 3 credits
The different techniques and artistic media in painting.
202. Introduction to the Techniques of Art II. 3 credits
Continuation of 201.
205. Sacred Arts I. 3 credits
Architecture and minor arts in the service of the liturgy.
206. Sacred Arts II. 3 credits
Continuation of 205.

DEPARTMENT OF BIOLOGY

Biology

101. General Biology I. 3 credits
Fundamental principles of plant and animal life. Two lectures, one laboratory period.
102. General Biology II. 3 credits
Continuation of Biology 101. Two lectures, one laboratory period.
103. Anatomy and Physiology I. 3 credits
The anatomy and physiology of the human body. Three lectures, one laboratory period.
104. Anatomy and Physiology II. 3 credits
Continuation of Biology 103. Three lectures, one laboratory period.
105. Microbiology. 3 credits
Study of micro-organisms as they affect the human body. Two lectures, one laboratory period.
108. Nutrition. 3 credits
Chemistry of nutrition. Food requirements for persons of different ages and activities based on energy values of foods. Three lectures per week.
201. Comparative Vertebrate Anatomy I. 4 credits
The structure and relationships of the classes of vertebrates, exclusive of mammals. Two lectures, two laboratory periods. Prerequisite: Biology 102.
202. Comparative Vertebrate Anatomy II. 4 credits
Continuation of Biology 201, with emphasis on the class Mammalia. Two lectures, two laboratory periods. Prerequisite: Biology 201.

DEPARTMENT OF BUSINESS AND ECONOMICS

Business

201. Principles of Accounting I. 4 credits
Introduction to field of accounting and study of basic principles.
202. Principles of Accounting II. 4 credits
Continuation of Business 201.

Economics

201. Economics I. 3 credits
Basic concepts in economic analysis.
202. Economics II. 3 credits
Continuation of Economics 201.

DEPARTMENT OF CHEMISTRY

Chemistry

101. General Chemistry I. 3 credits
Fundamental principles of Inorganic Chemistry. Three lectures, one laboratory period.
102. General Chemistry II. 3 credits
Fundamental principles of Organic Chemistry and Bio-Chemistry. Three lectures, one laboratory period. Prerequisite: Chemistry 101.
103. Chemistry I. 4 credits
Basic laws and theories; chemical behavior of the non-metallic and metallic elements; the aliphatic carbon compounds. This course is designed primarily for science majors, pre-engineering and pre-medical students. Two lectures, two laboratory periods.
104. Chemistry II. 4 credits
Continuation of Chemistry 103. Two lectures, two laboratory periods.
201. Qualitative Analysis. 4 credits
Study and verification of the laws of chemical equilibrium, ionization and precipitation, cations and anions, analysis of salts and alloys. Two lectures, two laboratory periods. Prerequisite: Chemistry 104.
202. Quantitative Analysis. 4 credits
Volumetric and gravimetric analysis, neutralization, oxidation and reduction. Two lectures, two laboratory periods. Prerequisite: Chemistry 104.

DEPARTMENT OF EDUCATION

Physical Education

101. Physical Education I.
Required of all freshman students. Two hours each week; no course credit.
102. Physical Education II.
A continuation of Physical Education 101.
201. Physical Education III.
Required of all sophomore students. Two hours each week; no course credit.
202. Physical Education IV.
A continuation of Physical Education 201.

Education

101. Introductory Psychology. 3 credits
Treats of the nature of the human intellect, will, and memory; their activities in normal and abnormal behavior; the learning processes.
202. Introduction to Education. 3 credits
An orientation course for the student preparing to enter the field of professional education. Study of present-day educational institutions in the light of their historical backgrounds. Prerequisite: Education 101 or Psychology 101.

DEPARTMENT OF ENGLISH LANGUAGE AND LITERATURE

English

101. Composition I. 3 credits
Correct and effective writing. Practice in improving reading ability.
102. Composition II. 3 credits
Analysis of selected writings by English and American authors; the book review; the research paper. Prerequisite: English 101.
201. Masterpieces of Literature I. 3 credits
Selected masterpieces in the literature of the western world from the Greek classical period to the English renaissance. Prerequisite: English 102.
202. Masterpieces of Literature II. 3 credits
Selected masterpieces in the literature of the western world from Shakespeare to the present time. Prerequisite: English 201.

205. Advanced Writing I. 2 credits
 For students with better than average ability in writing. Primarily non-fictional prose, but other types of creative writing may be introduced, depending on the students' interests and talents. Prerequisite: English 102 and consent of the instructor.
206. Advanced Writing II. 2 credits
 A continuation of 205. Prerequisite: consent of the instructor.

DEPARTMENT OF FOREIGN LANGUAGES

French

101. French I. 3 credits
 Oral practice, grammar, elementary reading.
102. French II. 3 credits
 Oral practice, grammar, and more intensive reading. Prerequisite: French 101 or one year of French in high school.
201. French III. 3 credits
 Review of grammar, study of syntax and idioms, extensive reading. Prerequisite: French 102 or two years of French in high school.
202. French IV. 3 credits
 Composition, readings, and conversation. Prerequisite: French 201 or three years of French in high school.

German

101. German I. 3 credits
 Oral practice, grammar, elementary reading.
102. German II. 3 credits
 Oral practice, grammar, and more intensive reading. Prerequisite: German 101 or one year of German in high school.
201. German III. 3 credits
 Review of grammar, study of syntax and idioms, extensive reading. Prerequisite: German 102 or two years of German in high school.
202. German IV. 3 credits
 Composition, readings, and conversation. Prerequisite: German 201 or three years of German in high school.

Latin

101. Latin I. 3 credits
Grammar, composition, vocabulary, simple readings.
102. Latin II. 3 credits
Grammar, composition, more intensive reading. Prerequisite: Latin 101 or one year of Latin in high school.
201. Latin III. 3 credits
Composition; readings in Cicero, Livy, Tacitus, Pliny. Prerequisite: Latin 102 or two years of Latin in high school.
202. Latin IV. 3 credits
Composition; readings in Lucretius, Vergil, Horace, Ovid. Prerequisite: Latin 201 or three years of Latin in high school.

Spanish

101. Spanish I. 3 credits
Oral practice, grammar, elementary reading.
102. Spanish II. 3 credits
Oral practice, grammar, and more intensive reading. Prerequisite: Spanish 101 or one year of Spanish in high school.
201. Spanish III. 3 credits
Review of grammar, study of syntax and idioms, extensive reading. Prerequisite: Spanish 102 or two years of Spanish in high school.
202. Spanish IV. 3 credits
Composition, readings, and conversation. Prerequisite: Spanish 201 or three years of Spanish in high school.

DEPARTMENT OF HISTORY AND POLITICAL SCIENCE

History

101. Western Civilization I. 3 credits
A study of the Mediterranean World to the reign of Charlemagne.
102. Western Civilization II. 3 credits
A study of Europe from Charlemagne to the close of the Thirty Years' War.

201. United States History I. 3 credits
 A study of the United States from its beginnings through the Civil War, emphasizing the American heritage and the interrelationship of the United States and Western Civilization.
202. United States History II. 3 credits
 A study of the growth and development of the United States as a world power from Reconstruction to the present time.

Political Science

301. American Government I. 3 credits
 The structure of government in the United States; National and State constitutions, with special attention to the constitution of Texas.
302. American Government II. 3 credits
 Branches of government; political parties and elections; Municipal and County governments.

DEPARTMENT OF MATHEMATICS

Mathematics

02. Plane Geometry.
 A non-credit course required of mathematics and physics majors and pre-engineering students who did not have plane geometry in high school.
101. College Algebra and Plane Trigonometry I. 3 credits
 Fractions, equations, graphs, elements of trigonometry, solution of triangles, logarithms, progressions. Three hours per week for students with two or more high school units of algebra. Five hours per week for students with less than two high school units of algebra.
102. College Algebra and Plane Trigonometry II. 3 credits
 Continuation of Mathematics 101. Addition formulas of trigonometry, complex numbers, determinants, equations of higher order, permutations and combinations.
103. Intermediate Algebra. 3 credits
 Simultaneous and quadratic equations; binomial theorem; graphs, progressions, logarithms, probability.
104. Mathematics of Finance. 3 credits
 Interest, annuities, amortization, bonds, insurance, permutation and combination. Prerequisite: Mathematics 101 or Mathematics 103.

106. Solid Geometry. 2 credits
 For mathematics and physics majors who have not had solid geometry in high school. Prerequisite: one unit of high school plane geometry or Mathematics 02.
107. Engineering Drawing. 2 credits
 Elements of drafting, instruments, constructive geometry, lettering, working drawings, sketching and tracing, symbols and conventions. Three laboratory periods each week.
108. Engineering Drawing and Descriptive Geometry. 3 credits
 Continuation of 107. Freehand drawing, special problems. Approximately one-half of this course is devoted to descriptive geometry. Four laboratory periods each week.
201. Plane Analytic Geometry. 2 credits
 Lines, circles, conics, higher space curves. Prerequisite: Mathematics 102 or registration in Mathematics 102, and Mathematics 02 or one unit of high school plane geometry.
202. Solid Analytic Geometry. 2 credits
 Figures in space, transformations of coordinate systems. Prerequisite: Mathematics 201, and Mathematics 106 or equivalent.
207. Calculus I. 3 credits
 Limits, derivatives, simple integration. Prerequisite: Mathematics 102, and Mathematics 201 or registration for Mathematics 201.
208. Calculus II. 3 credits
 Integration, multiple integrals, curvature, indeterminate forms. Prerequisite: Mathematics 207, and Mathematics 106 or equivalent.

DEPARTMENT OF MUSIC

Music

- | | |
|--|-----------|
| 101. History of Music I.
A survey of musical movements and composers to the romantic period. | 3 credits |
| 102. History of Music II.
Continuation of 101. From the romantic period to the present day. | 3 credits |
| 103. Applied Music I.
Piano or voice. | 1 credit |
| 104. Applied Music II.
Piano or voice. | 1 credit |
| 201. Elementary Theory I.
Introduction to sight reading, ear training and keyboard harmony. | 3 credits |
| 202. Elementary Theory II.
Advanced sight reading, ear training and keyboard harmony. | 3 credits |
| 203. Applied Music III.
Piano or voice. | 1 credit |
| 204. Applied Music IV.
Piano or voice. | 1 credit |
| 205. Gregorian Chant I.
Theory and history of the Gregorian Chant. | 2 credits |
| 206. Gregorian Chant II.
Continuation of 205. Advanced theory and esthetics of the Gregorian Chant. | 2 credits |

DEPARTMENT OF PHILOSOPHY AND PSYCHOLOGY

Philosophy

- | | |
|--|-----------|
| 101. Logic.
Study of principles of correct reasoning. Includes definition and division; mediate and immediate inference; the syllogism; induction. | 3 credits |
| 121. God and the World of Man I.
This course considers the basic problems of human existence, proves by human reason the existence of God, treats of the nature and attributes of God, of creation, of the purpose of human life. | 2 credits |
| 122. God and the World of Man II.
Continuation of 121. | 2 credits |

201. Basic Problems in Philosophy I: Nature and Man. 3 credits
 An introductory survey of the principal problems philosophy deals with, including the origin and development of philosophical ideas from Thales through Plato and Aristotle to St. Thomas Aquinas; principles of nature, finality, matter and form; man's place in nature; man the individual; origin and immortality of the human soul; human appetite and will; free will.
202. Basic Problems in Philosophy II: Knowledge and Being. 3 credits
 Continuation of 201, which is prerequisite. Questions in modern philosophy; Descartes, Hume, Kant; being and truth; first principles of knowledge; science and philosophy; reason and faith; God as the ultimate Principle of being and truth; origin of the world; mystery of evil.
221. Man and Morality I. 2 credits
 This course treats of the final end of man and the means thereto; norms of morality; conscience; rights of property, life, and honor; rights and obligations of domestic and civil society; origin of authority; ethics of international relations.
222. Man and Morality II. 2 credits
 A continuation of 221, which is prerequisite.

Psychology

101. Introductory Psychology. 3 credits
 Treats of the nature of the human intellect, will, and memory; their activities in normal and abnormal behavior; the learning processes.

DEPARTMENT OF PHYSICS

Physics

103. Physics I. 4 credits
 Mechanics, acoustics, heat and wave motion. This course is designed primarily for science majors, pre-engineering and pre-medical students. Three lectures, one three-hour laboratory period.
104. Physics II. 4 credits
 Continuation of Physics 103. Magnetism, electricity, and light. Three lectures, one laboratory period.
201. Physics III. 4 credits
 Continuation of Physics 103-104, with an accompanying progressive mathematical background. Three lectures, one laboratory period. Prerequisite: Physics 104 and Mathematics 207 or registration in Mathematics 207.

202. Physics IV. 4 credits
 Continuation of Physics 103-104-201. Three lectures, one laboratory period. Prerequisite: Physics 203 and Mathematics 208 or registration in Mathematics 208.

DEPARTMENT OF SPEECH AND DRAMA

Speech

101. Fundamentals of Speech. 3 credits
 Study and application of basic principles of voice production and communication.
103. Speech for the Classroom Teacher. 3 credits
 Study of basic principles of voice production and communication and their application to the classroom situation.
201. Public Speaking. 3 credits
 Prerequisite: Speech 101 or 103.
202. Debate and Discussion. 3 credits
 Prerequisite: Speech 101 or 103.

Drama

201. Oral Interpretation. 3 credits
 Prerequisite: Speech 101 or 103.
202. Stage Craftmanship. 3 credits
 Prerequisite: Drama 201.

DEPARTMENT OF SOCIOLOGY

Sociology

101. Survey of Social Problems. 3 credits
 Basic sociological theories and a study of outstanding social problems.
201. Introductory Sociology. 3 credits
 A basic study of society and an analysis of the principles, forces, and processes of social life.
202. Social Disorganization. 3 credits
 An analysis of causes, effects, prevention, and treatment of principal social problems in American society.

DEPARTMENT OF THEOLOGY

Theology

- | | |
|--|-----------|
| 101. Theology I: Fundamental and Dogmatic Theology.
Nature of Theology, true religion, the Church,
sources of revelation. | 2 credits |
| 102. Theology II: Fundamental and Dogmatic Theology.
The existence and nature of God, the Blessed Trin-
ity, creation and angels, creation and the gov-
ernance of the world. | 2 credits |
| 201. Theology III: Moral Theology.
Man's final goal, morality of human acts, man's
emotions, internal principles of right living. | 2 credits |
| 202. Theology IV: Moral Theology.
Theological and moral virtues; sin; civil, ecclesias-
tical, and divine law; divine Grace. | 2 credits |
| 203. New Testament and Christianity.
Beliefs and practices of the early Church according
to the New Testament. | 3 credits |
| 204. Scriptural Principles of Morality.
A study of natural law principles of morality in the
light of the Scriptures. | 3 credits |
