Referring in a Second Language

Studies on Reference to Person in a Multilingual World

Edited by **Jonathon Ryan**, University of Waikato, New Zealand and **Peter Crosthwaite**, University of Queensland, Australia

Series: *Routledge Studies in Applied Linguistics*

The introduction and tracking of individuals over extended discourse, known as *referential movement*, is a central feature of coherence, and accounts for 'about every third word of discourse'. Located at the intersection of pragmatics and grammar, reference is now proving a rich and enduring source of insight into second language development. This volume focuses on how L2 learners meet the challenges of reference, bringing together both eminent and up-and-coming researchers in the field of L2 acquisition and looking at the L2 acquisition of English, French, Japanese, Korean, and Spanish and cover a diverse range of situational contexts.
