1.2 Purpose of Business Plan

1. As a guideline for managing the business. First, and foremost, it should be used to help run your company with a more cohesive vision. It is your roadmap. By truly analyzing your plan for marketing, sales, manufacturing, website design, etc., you greatly improve your chances for success.
2. To convince relevant parties of the investment potential of the project. Tends to be the reason most clients request plan advice from SCORE. That is, a financial institution or other lender will not invest in your company unless you can demonstrate that you have a roadmap to success. Banks want to mitigate their risk of default and private investors, such as Angel's, want a realistic forecast for when they will be reaping a return on their capital.
