Cultural Programme

Thiruvathirakali

A dance form originally performed by women on Thiruvathira day in the Malayalam month of Dhanu (December-January), in order to attain everlasting marital bliss, Thiruvathirakali has become a popular dance form for all seasons. The

dance, which follows a circular, pirouetting pattern accompanied by clapping of the hands and singing, is a celebration of marital fidelity and the female energy.

Mohiniyattam

Believed to have originated in 16th century, it is one of the eight Indian classical dance forms. The term Mohiniyattam comes from the words 'Mohini' meaning a woman who enchants onlookers and 'aattam' meaning graceful and sensuous body movements. The vocal music of Mohiniyattam involves variations in rhythmic structure known as 'chollu'. The Mohiniyattam dance is performed to this accompaniment by the subtle gestures and footwork of the danseuse.

Kuchipudi

Kuchipudi, which derives its name from the village of Kuchelapuram, in Andhra Pradesh, India enjoys a unique place among the Indian classical idioms in that it was originally a male dance tradition, enacting stories from Hindu mythology. It was only in the last 9 or 10 decades that women were introduced to this art form. Kuchipudi is characterized by fast rhythms and fluid movements. The music that accompanies the dance is according to the classical school of Carnatic music.

Kathakali

A stylized classical Indian dance-drama noted for the attractive make-up of characters, elaborate costumes, detailed gestures and well-defined body movements presented in tune with the anchor playback music and complementary

percussion. Kathakali has its origins almost 1500 years ago in the early ritual folk dances and dance dramas of Kerala. A distinguishing characteristic of this art form is that the actors never speak but use hand gestures (mudras), expressions (rasas) and rhythmic dancing instead of dialogue.

Ottamthullal

A dance-drama performing art form in Kerala. It was created as a medium to protest against the prevalent socio-political structure and prejudices of society. It went on to become the most popular folk art presented in Kerala temples. Ottamthullal features a solo performer and the distinguishing feature is the performer himself singing and enacting the story.

Kalaripayattu

A martial art which originated in Kerala during the 13th Century AD, it is considered to be one of the oldest fighting systems in existence. Originally practiced in northern and central parts of Kerala and the Tulunadu region of Karnataka, it is now practiced widely in Kerala and in contiguous parts of Tamil Nadu. A Kalari is the school or training hall where martial arts are taught.

Tourist Destinations

Athirappilly Falls

Located on the west-flowing Chalakudy River in the Vazhachal Forest Division, this 24 m (80 ft) waterfall and the nearby Vazhachal Falls are popular tourist destinations. Athirappilly Falls is the largest waterfall in Kerala and is nicknamed 'The Niagara of India'. About 62 km from Kochi.

Valparai

Located 3,500 ft above sea level, Valparai is a hill station on the Anaimalai Hills range of the Western Ghats. About 138 km from Kochi, the route to Valparai passes through the beautiful rain forests of the Western Ghats. While major portions of the land are covered by tea plantations, existing forest areas remain a haven for wildlife.

Munnar

Munnar is a town and hill station located in the Idukki District of Kerala at around 1,600 m (5,200 ft) above sea level, in the Western Ghats range of mountains. The name Munnar is believed to mean 'three rivers', referring to its location at the confluence of the Mudhirapuzha, Nallathanni and Kundaly rivers.

Located about 125 km from Kochi, Munnar is famous for the tea and spices grown here, in addition to the breathtaking scenery.

Thekkady

The very sound of the word Thekkady conjures up images of elephants, unending chains of hills and spice-scented plantations. The Periyar Tiger Reserve in Thekkady is one of the finest wildlife reserves in India and spread across the entire district are picturesque plantations and hill towns that hold great opportunities for treks and mountain walks. Located about 170 km from Kochi, the sanctuary is famous for its dense evergreen, semi-evergreen, moist deciduous forests and savanna grass lands. It is home to herds of elephants, sambar, tigers, gaur, lion-tailed Macaques and Nilgiri Langurs.

Varkala Beach

Located 164 km from Kochi, near the capital city of Thiruvananthapuram, Varkala beach is the only place in southern Kerala where cliffs are found adjacent to the Arabian Sea. This tertiary sedimentary formation is a unique geological feature on the otherwise flat Kerala coast, and is known among geologists as the Varkala Formation and is a geological monument as declared by the Geological Survey of India.

Alappuzha Backwaters

Famous for its boat races, beaches, marine products and coir industry, Alappuzha is a place of immense natural beauty, referred to as the 'Venice of the East'. The speciality of this land is the region called 'Kuttanad' - a land of lush paddy fields referred to as the 'Rice Bowl of Kerala' and one of the few places in the world where farming is done below sea level. This one-time prosperous trading and fishing centre is today a world renowned tourist destination popular for house boat cruises in the backwaters.
