Dear Sir

W.N.Hurst Papers.

I have examined the contents of the Book labelled  
"W.N.Hurst - Old Diary".

The greater part consists of extracts from the Boyes Diary. These are written in clear, legible handwriting, and would be useful to anyone wishing to refer to the Diary without going to the trouble of searching the original. There is also a list of the names of persons referred to in the Diary. This would be very useful.

The rest of the contents comprise-

- a. Notes on miscellaneous subjects, including elaborate lists of burials in various cemeteries, and of memorials in several churches.
- b. Newspaper cuttings, pasted in, or fastened to the book.
- c. Newspaper cuttings not so fastened. (These should be pasted in).

I enclose a list of subjects. An Index of these in alphabetical order would be desirable.

A few odd letters (loose) have not been worth collating.

Yours faithfully

*Wilfred H. Hussepeth*

Some historical Land Grants in Tasmania

This book contains cuttings from the Mercury of a series of articles by the late Alex Hume, under the name of "Historicus", dealing with the history of Land Grants in Tasmania. There is an Index which makes the articles readily accessible. They are of great interest.

There are also a large number of loose cuttings, which should be fastened in somehow.
