Answer the questions...

Module evaluation

Mode: Anonymous
Dear Student

The feedback from this questionnaire will be very useful to us in improving the quality of your teaching and learning. The module leader and course team will carefully consider the results at the end of the semester. When we process the results of this survey we shall seek to keep your identity private by separating your user ID from your responses. In addition staff processing the survey are required by the University to comply with its Data Protection Policy.

- Please respond by ticking the appropriate box.
- There are three text boxes at the end of the evaluation form to enable you to give your views on the module in a more open-ended fashion.
- Finally, this is a module evaluation and so restrict your answers to the module being evaluated - do not use it for making comments on more general aspects of your programme.

Teaching - on this module:

- Staff were good at explaining things
 Definitely agree Mostly agree Neutral Mostly disagree Definitely disagree
 N/A
- Staff made the subject interesting
 Definitely agree Mostly agree Neutral Mostly disagree Definitely disagree
 N/A
- Staff were enthusiastic about what they taught
 Definitely agree Mostly agree Neutral Mostly disagree Definitely disagree
 N/A
- I was intellectually stimulated
 Definitely agree Mostly agree Neutral Mostly disagree Definitely disagree
 N/A

Depending on how the module leader has set the feedback activity up you will either be presented with a page of questions as in this example or one question per page with navigation buttons.

The module leader can choose to gather your name within the feedback process or to gather anonymous data. If they are not anonymising the data you will see a message stating so at the top of the feedback activity.

There are several different question types that your module leader may use. They can also choose to make some questions required and these will have a red asterisk beside them.

You may be asked to complete a captcha question before you are given access to the main questions but this is more likely on open courses than normal OBU modules.

Short and long answer questions will have a textbox where you can type your answers. These will be limited to a specific number of lines and characters.

Name three things that you found useful about the module.

Multiple choice questions can be displayed with radio buttons or a dropdown menu (for single answer questions) or checkboxes (for multiple answer questions).

What grade did you get for your assignment?*

- Not selected
 A
 B
 C
 D
 E
 F

What type of assessments were used on the module?

- Individual assignments
 Group assignments
 Quizzes
 Graded discussion forums

What grade do you think you should have received?

Numeric questions will ask you to type an answer between two displayed values.

What is the value of Pi?* (-3.145 - -3.141)

When you have completed the feedback activity, click on the **Submit your answers** button. You will then be presented with a confirmatory/thank you message (depending on how the module leader has set up the feedback activity).

If the module leader has allowed multiple attempts you can go back into the feedback activity several times and resubmit your answers. If they have only allowed one attempt you will see a red message saying you have already completed the activity.

Feedback

The Feedback module allows you to create and conduct surveys to collect feedback. Unlike the Survey tool it allows you to write your own questions, rather than choose from a list of pre-written questions and unlike the Quiz tool, you can create non-graded questions.

[Submitted answers](#)

You've already completed this activity.

[Continue](#)

If the module leader has allowed you to see the responses you will have a **Submitted answers** link above the red message that you can click on to view the group responses. The **Continue** button will return you to your Moodle course.
