The evolution of RADAR

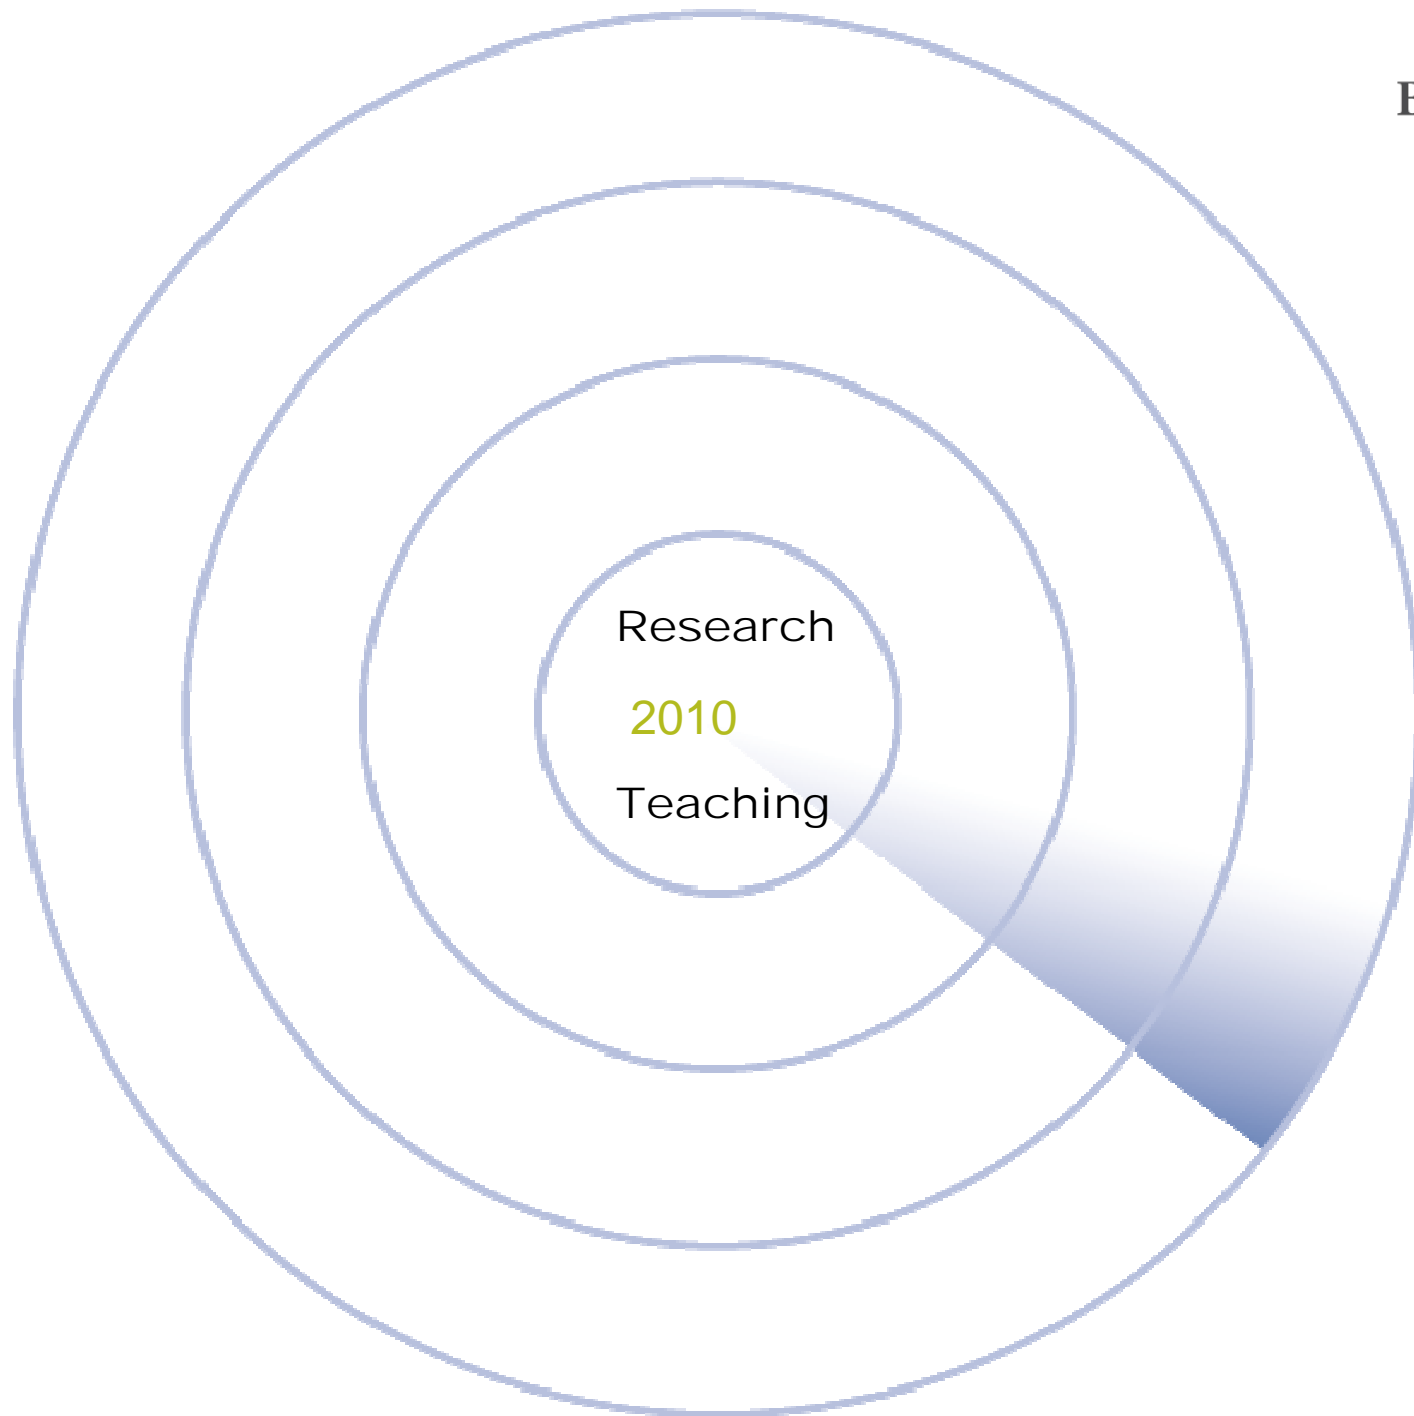

Steve Burholt and Rowena Rouse

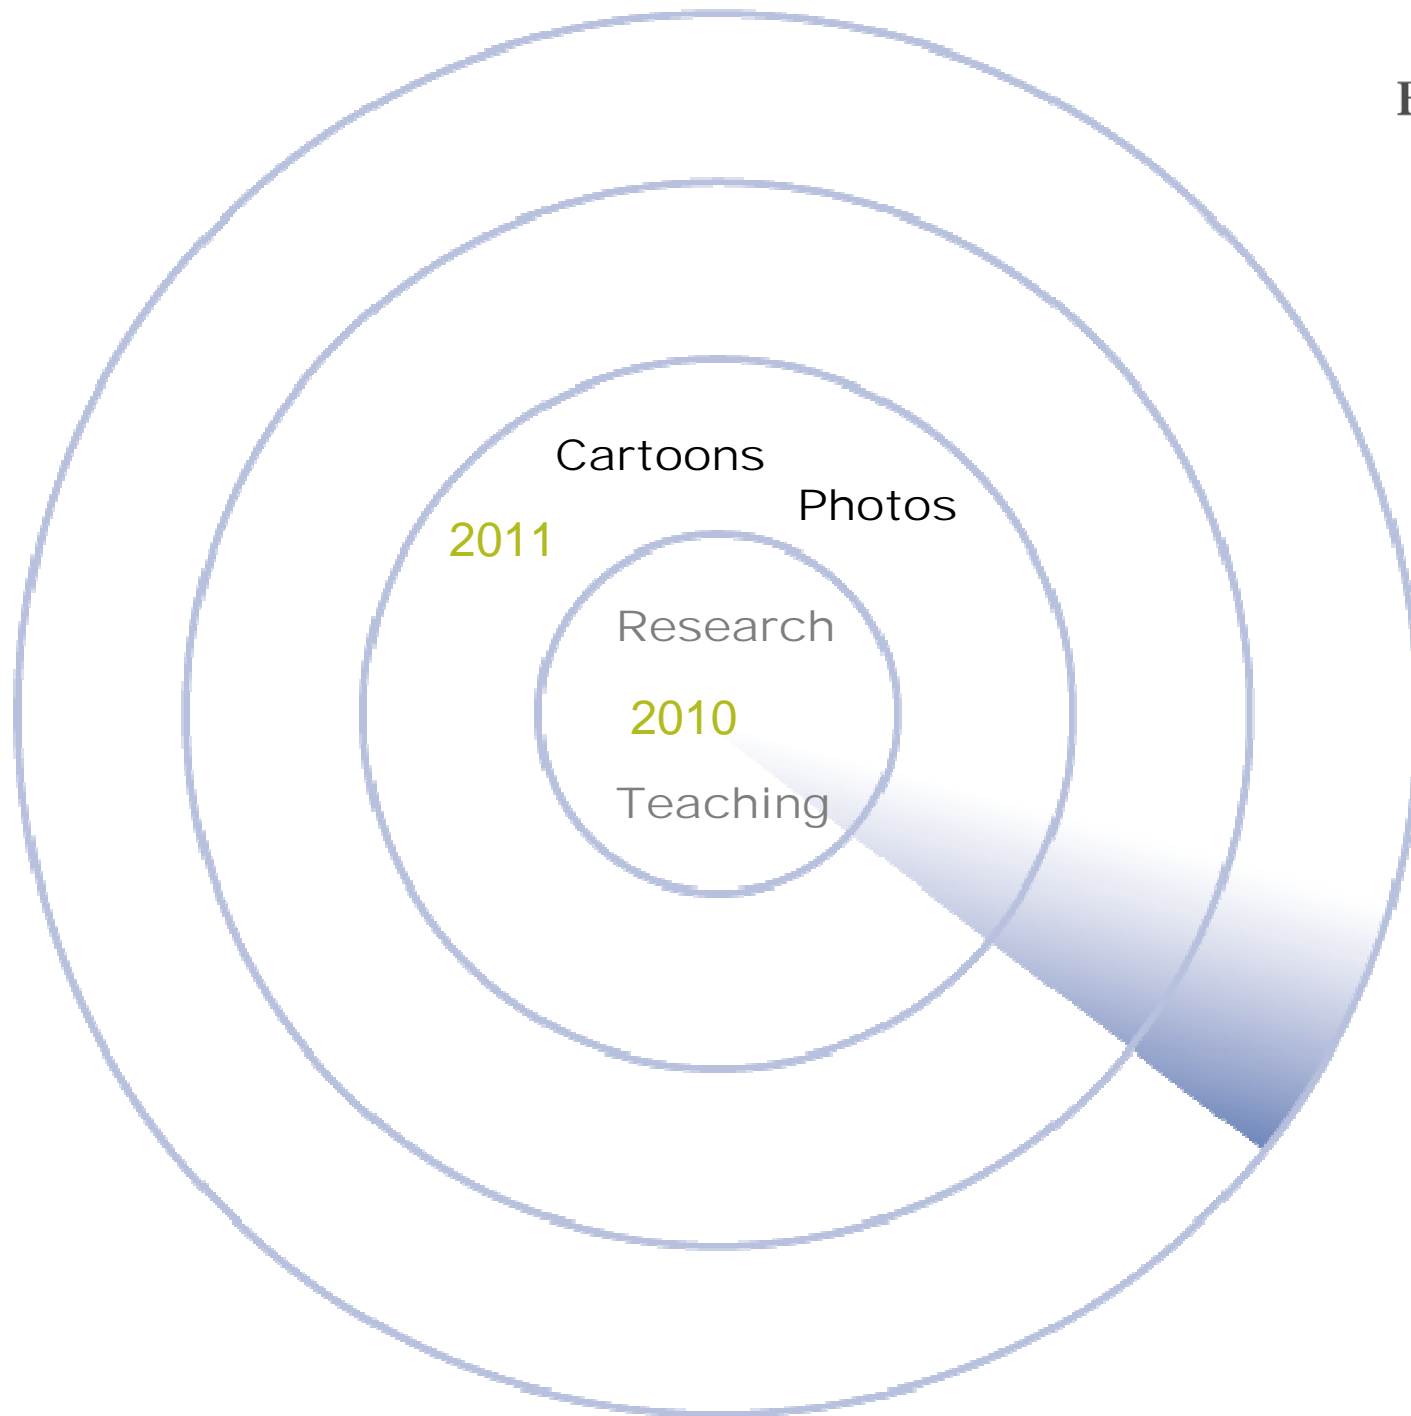

EQUELLA Customer ADVISORY BOARD MARCH 2013

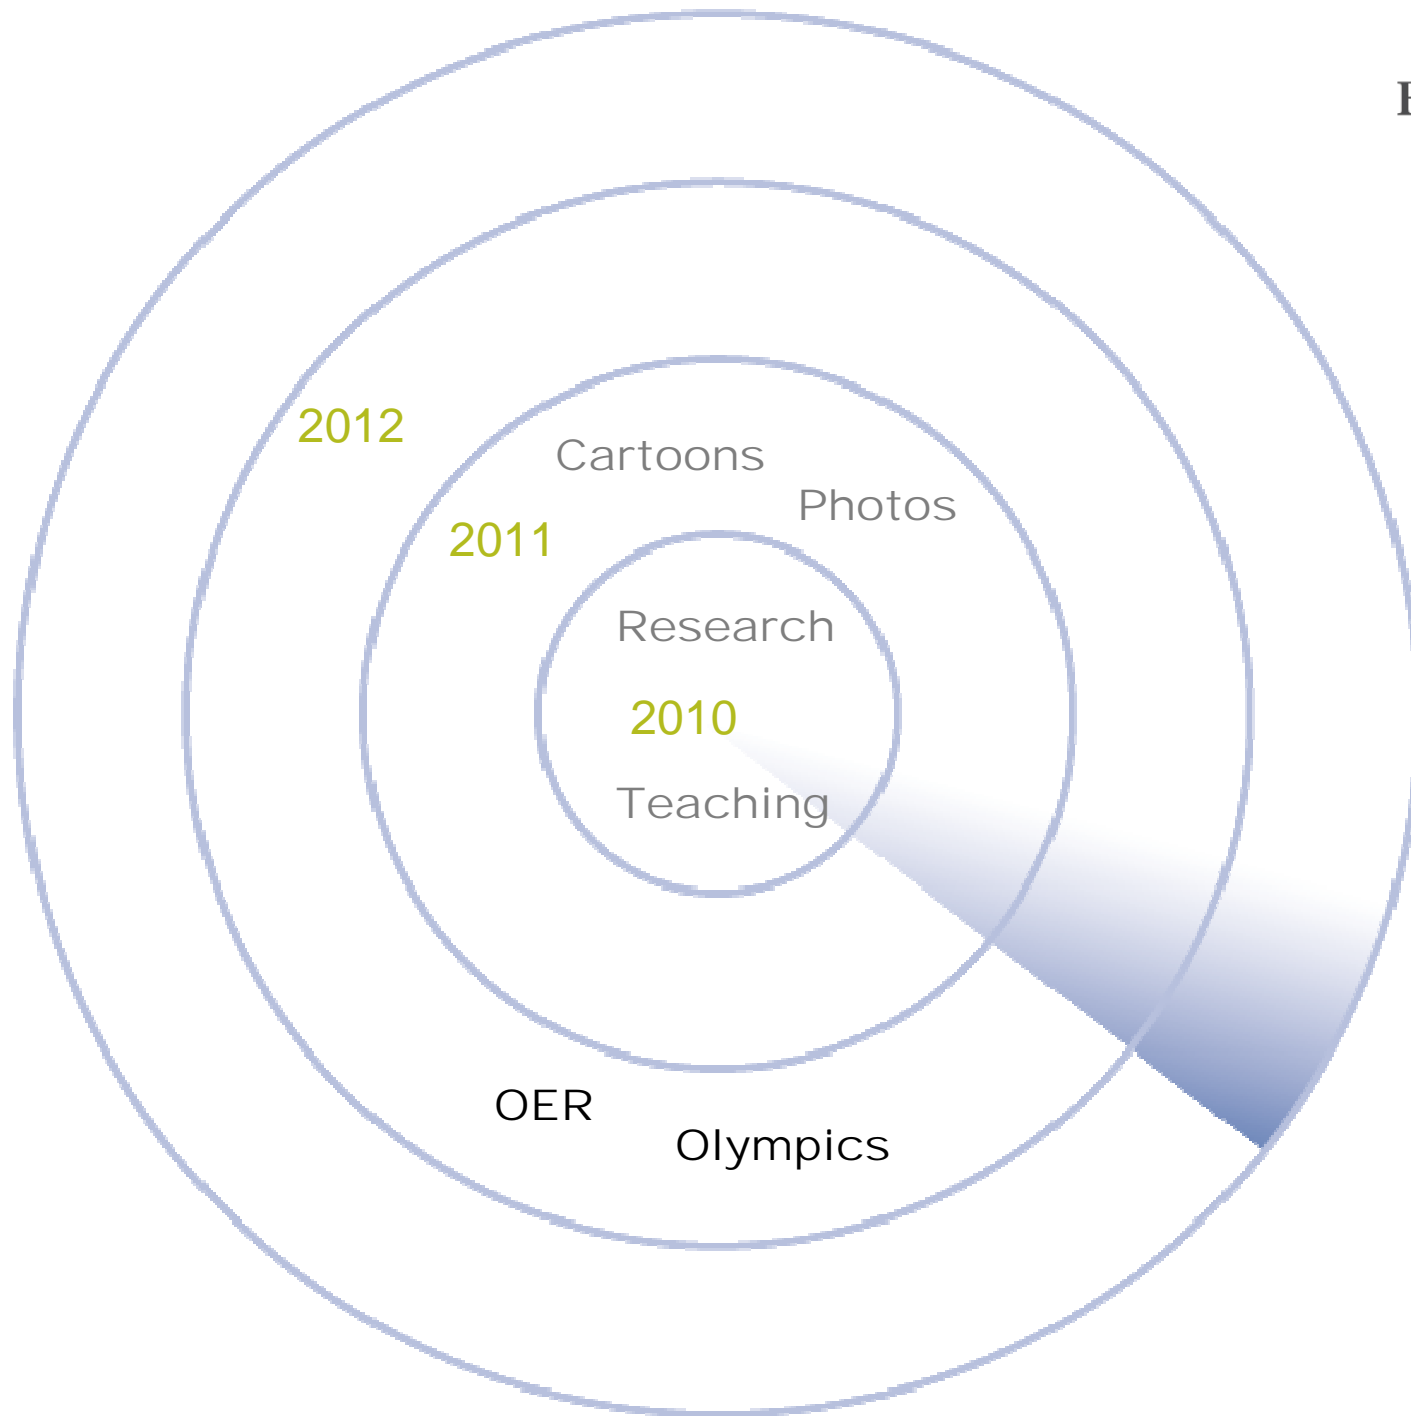

The screenshot shows the RADAR website interface. At the top left is the Oxford Brookes University logo. On the top right, it says "Logged in as publicuser" with a lock icon and a "log out" link. A navigation menu on the left includes "Home" with sub-links for RADAR Home, Research archive, Teaching collection, Open Educational Resources, and Special collections; "Search ALL" with a search box and a "GO" button; and "About RADAR" with sub-links for Project webpage, FAQs, Policies, Harvesting (OAI-PMH), and Contact us. The main content area features a "WELCOME TO RADAR" section with a description of the resource bank and a link to a one-page guide. To the right, a blue box displays "5000 resources including 1370 research items, 530 photos, and 250 Olympics resources". Below this is a "Latest additions" section with links to "Radar screen illustration", "A Study of Production", and "Methods in...". At the bottom of the main content area is a "Teaching collection" section with a link to "A wide range of resources created by Oxford Brookes staff for use in teaching more...". A diagram of a cell membrane is visible in the center, showing phospholipids and a yellow channel protein with a red diamond-shaped substrate passing through it. Labels include "outside", "substrate", and "Teaching collection".
