CO-EVALUATION TOOL CANVAS

- Has participating in your project motivated you to learn and use science?
- To what extent have you become interested in and excited about facts, explanations and models related to science and environment?

- To what extent has participating in your project fostered innovative and entrepreneurial approaches?
- Have you identified any new areas where the sensor data can be used innovatively?

This evaluation canvas is designed to assess the impact of a citizen science project under ten indicators. Please rate the impact for each indicator, 1 being the lowest impact and 7 the highest.

GROW Observatory has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 690199.

CITIZEN SCIENCE PROJECT:

• How has participating in your project enhanced your community? • To what extent has your project strengthen the communication and networks

> • How has participating in your project contributed to improving your understanding the climate issue and climate

• How has participating in your project motivated you

• Have you learned more about other practices? (eq. regenerative agriculture, biodiversity, epidemiology)

• How have your data collection and interpretation skills improved as a
