Martha Wright	
A Metrical Analysis of Fuzhou Tone and Vowel Changes.	245

It is with great pleasure that we present the seventh volume of the University of Massachusetts Occasional Papers series. The papers in this volume have been contributed by faculty, students and ex-students from the Linguistics Department at UMass, and represent some of the various areas of research in which the department engages.

We are very thankful to the reviewers, to the faculty and students who contributed, directly and indirectly, to the production of this volume, and to Martha Wright, for typing the manuscripts.

Deirdre Wheeler
