

SEED ROUND RAISED FOR A BROWSER-BASED MISSION MANAGEMENT SOFTWARE

Virtually Amazing Small Satellite Conference, 2020

Precious Payload is a US/UAE based SAAS company that makes sending satellites to space easy. We are creating a place where you can manage your paperwork, sort the insurance, and keep track of your mission roadmap — all from one simple, online portal. The last four months have changed everyone's attitude towards business development and networking through digital channels tremendously. Our browser software helps you plan and execute a space mission from the comfort of your desk.

PRECIOUS PAYLOAD'S SOLUTION

41% OF SATELLITE MISSIONS FAIL AND 64% GET DELAYED FOR MORE THAN 6 MONTHS

90% OF THESE ARE NEW ACTORS IN SPACE TESTING BUSINESS IDEA OR A NEW TECHNOLOGY

TYPICAL MISSION DEVELOPMENT CYCLE

Up to 80% of engineering time is spent communicating with suppliers and paperwork and yet 2/3 of missions choose unreliable suppliers

50% OF MISSION BUDGET IS NOT ENGINEERING

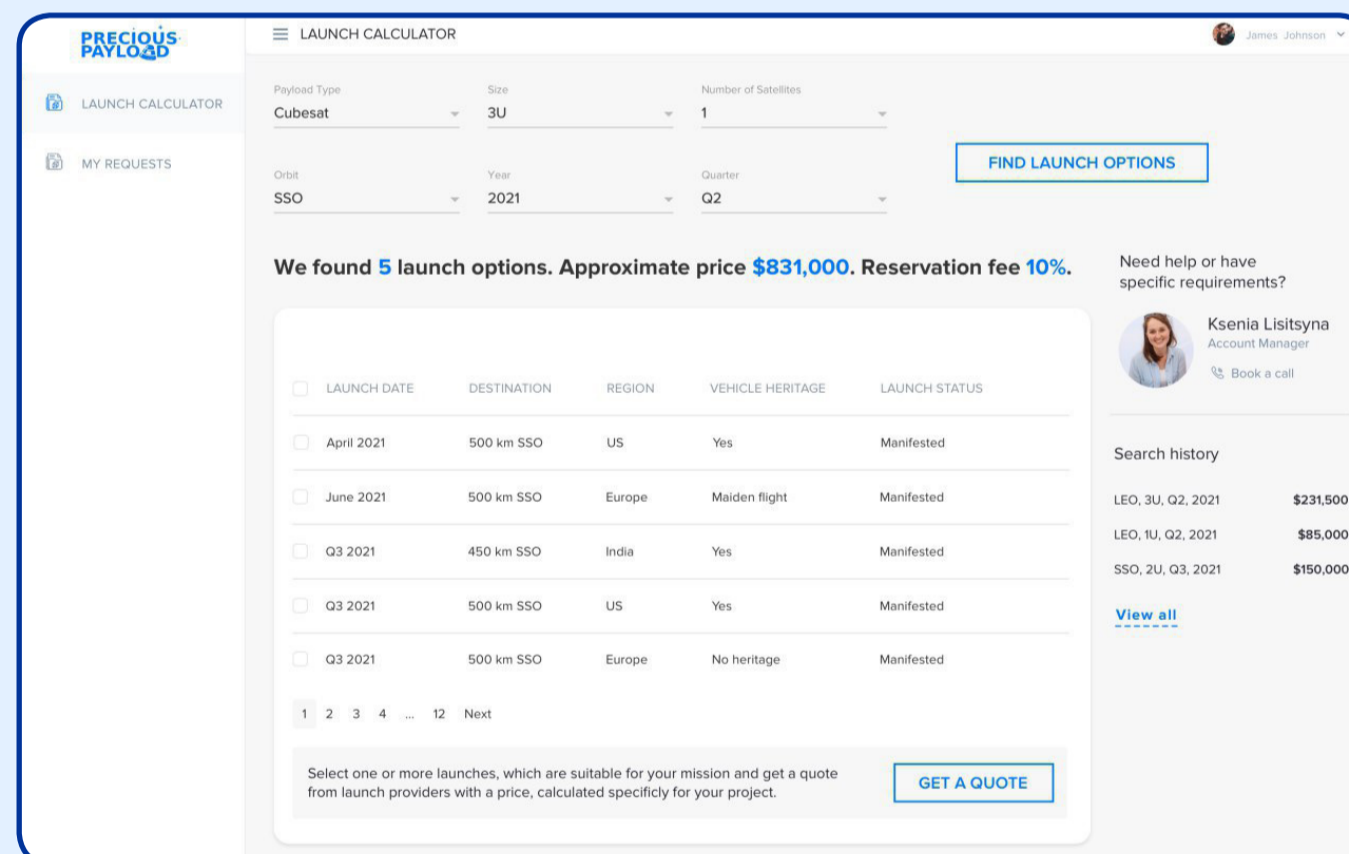

Precious Payload's solution reduces the cost and time needed to develop a satellite project from 24+ months and \$1,250K to 6 month and \$250K

3 WAYS TO OPTIMIZE A SPACE MISSION with Precious Payload

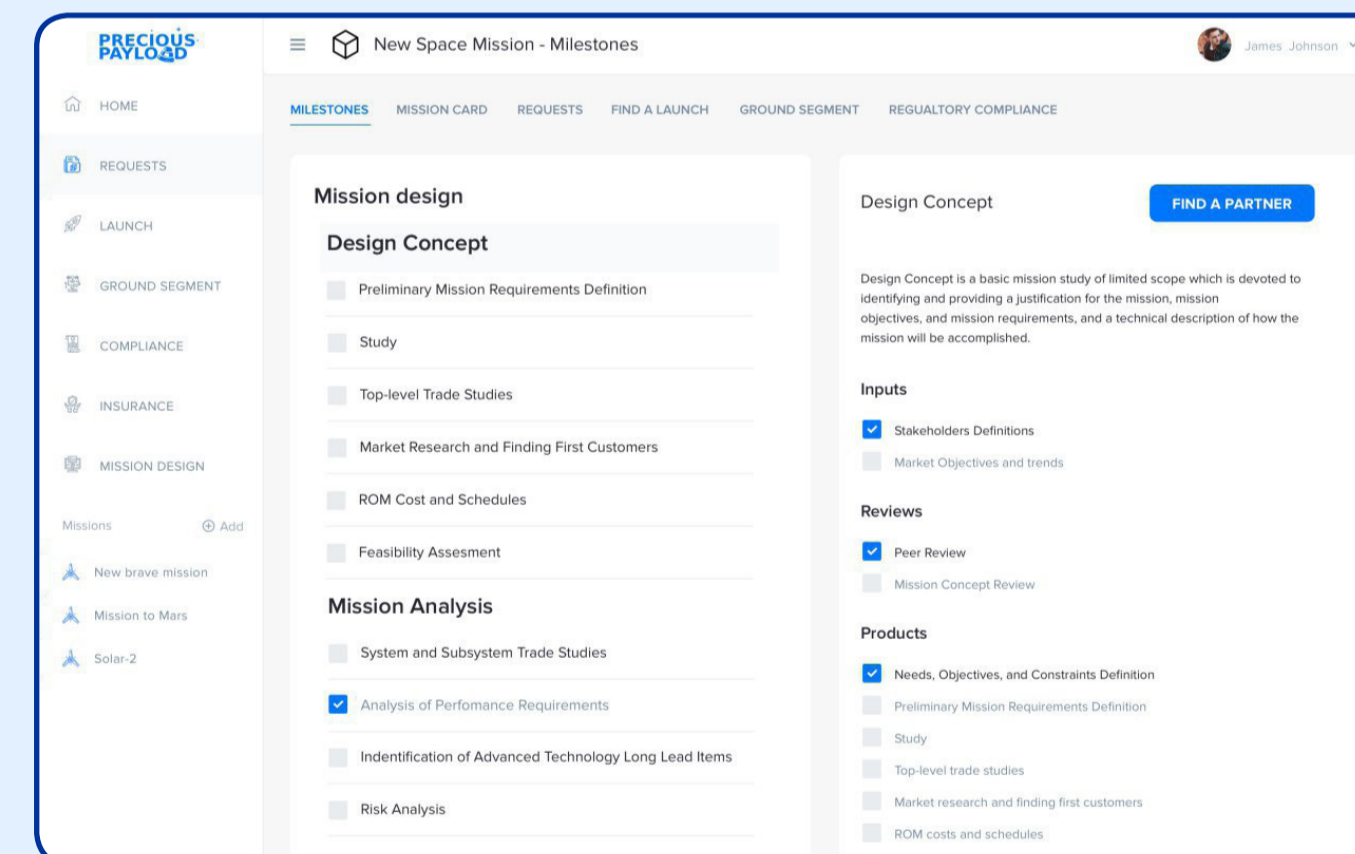

- MANAGEMENT TOOLS**
Track your mission progress, create tasks, manage payloads and keep team and partners on the same page.
- CONNECT WITH SUPPLIERS**
Identify and contract with hardware, launch, ground segment, and insurance suppliers.
- PERSONAL ASSISTANT**
Adopt best practices and outsource legal, compliance and procurement work to Precious Payload assistant.

WHAT WE DO

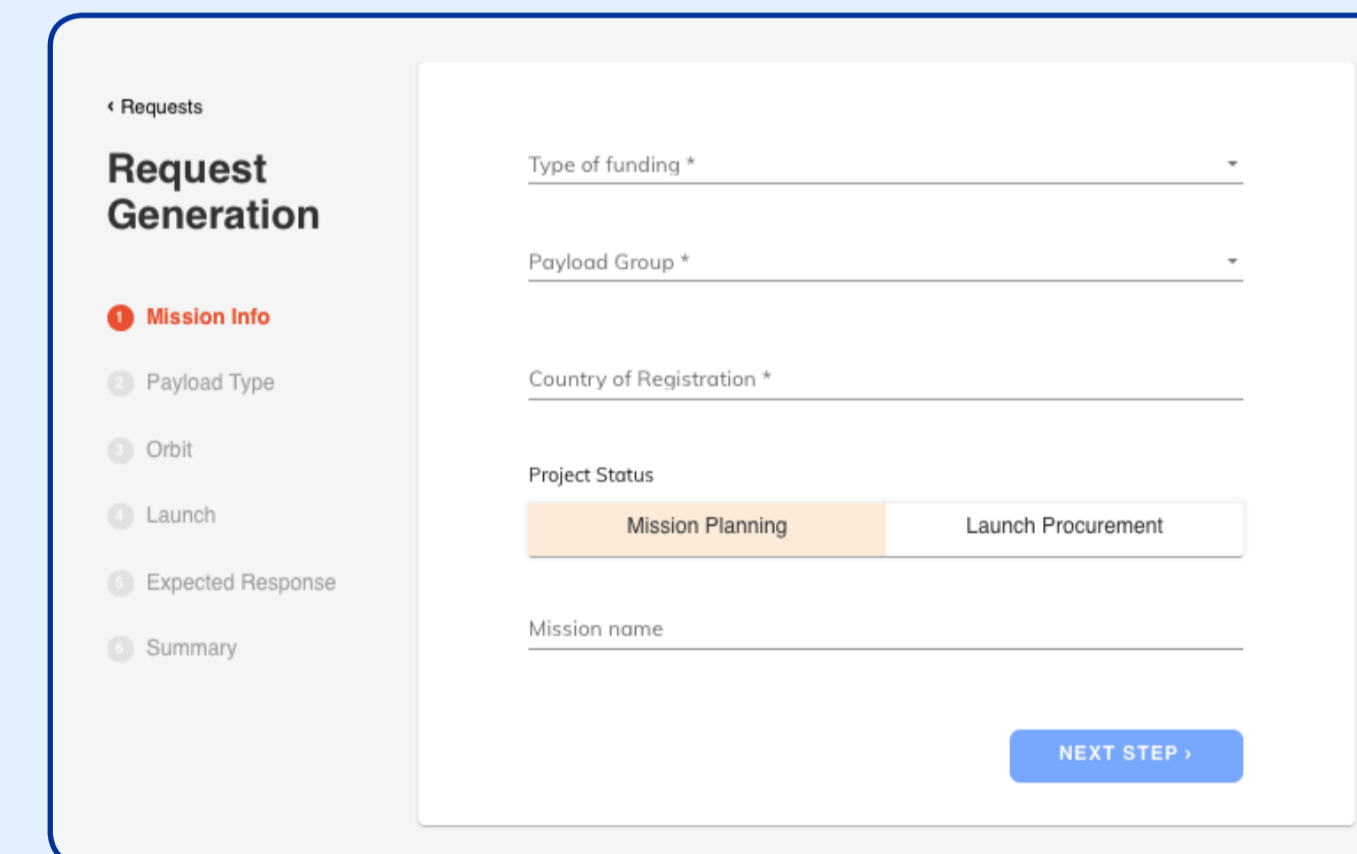

STEP 1: Interactive launch schedule that shows all the announced launch opportunities for your request

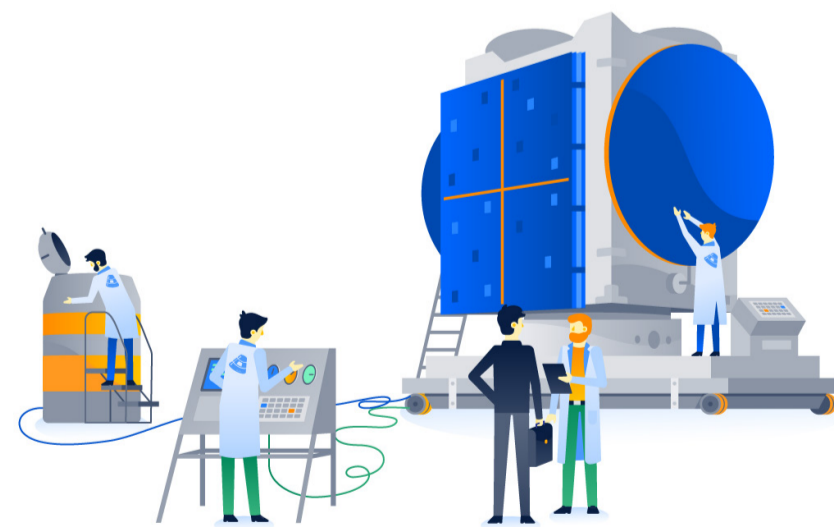

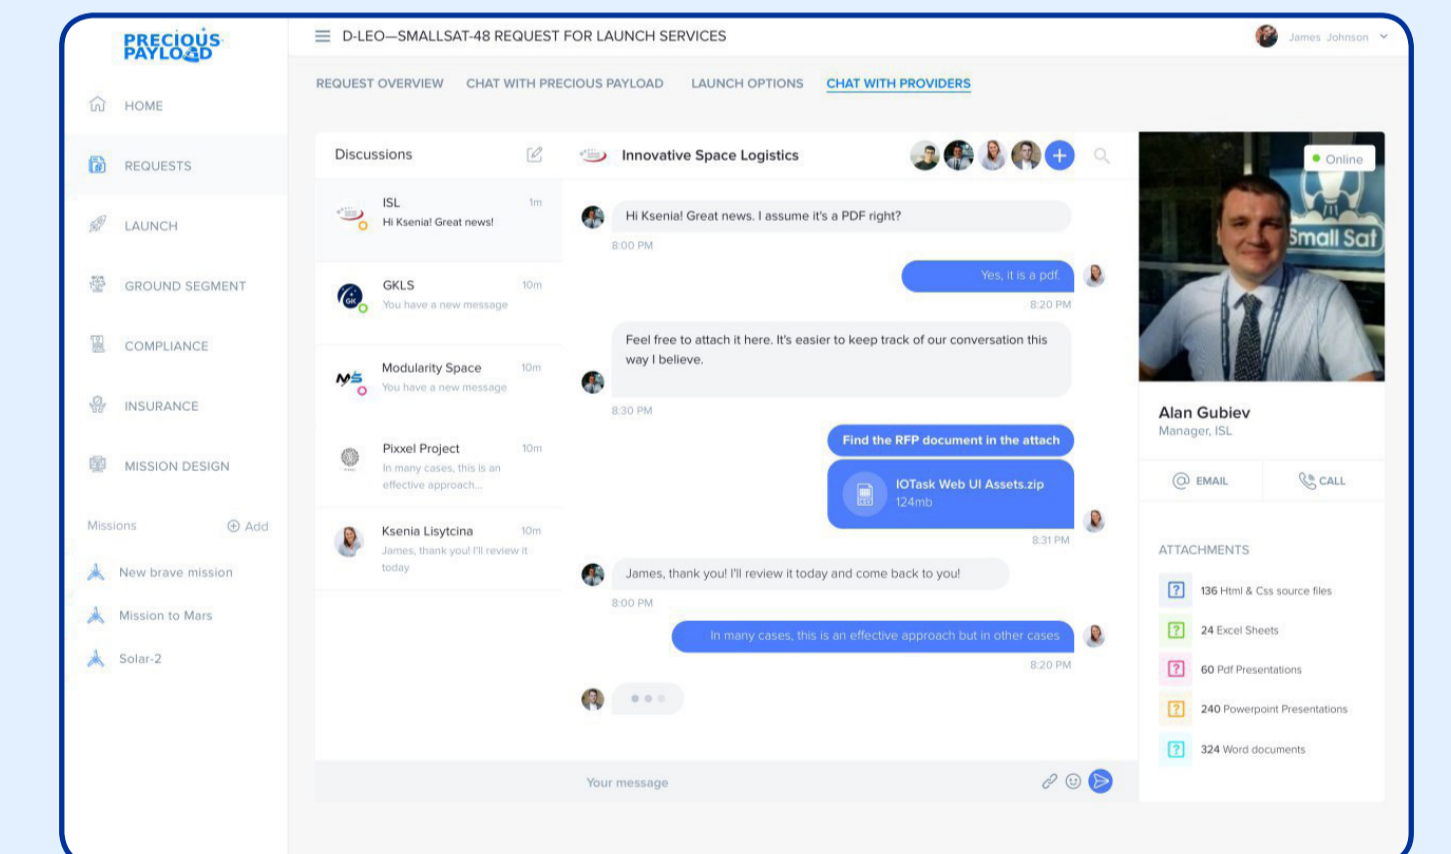

STEP 2: Mission roadmap that clears milestones tailored for your project

STEP 3: Request for proposal that you can send to dozens of suppliers in a few minutes and save weeks of networking and research

STEP 4: Chat with service providers where you can talk to them directly and negotiate the details. We will support and guide you if needed.

WE ALSO WORK WITH:

- Budgeting for any step of the project;
- Mission planning and design;
- Ground stations support;
- Compliance and regulatory questions;
- Insurance.

SUBMIT INFORMATION ABOUT YOUR SPACE PROJECT AND CONNECT WITH SUPPLIERS

We invite you to register at www.preciouspayload.com and become an early adopter to test our newest ideas and make space a better place. Don't forget to send us your feedback and subscribe for upcoming features.
