

Creating your citation report (including h-index) in Web of Science (WoS)

- Go to WoS by using the link on the library website. If off-campus you can login using VPN

The screenshot shows the GEOMAR website's library section. The navigation menu includes CENTRE, RESEARCH, STUDY, DISCOVER, and SERVICE. The breadcrumb trail is Centre » Central Facilities » Library. The main content area is titled "The Library" and features a photograph of the library interior. A QR code is provided for library contact data. A sidebar menu lists various services, including Literature Search, Interlibrary Loan, Databases, Publications [at] geomar, Service, Team, A-Z, FAQs, and Research Vessels. A "Hot Spots" section lists several resources, with "OceanRep" and "Web of Science" circled in red. Other resources listed include Online Catalogue (OPAC), Borrowers' account of the GEOMAR Library, Online Journals (EZB), and JCR (Journal Citation Report).

- Type all the variations of your name in the search box

The screenshot shows the Web of Science search interface. The search bar contains the text "müller s OR mueller s OR muller s". The search type is set to "Author". The search button is highlighted. Below the search bar, there are options for "Add Another Field" and "Select from Index". The "TIMESPAN" section shows "All years" selected, with a range from 1945 to 2014. The "MORE SETTINGS" section indicates the search is performed on the "Web of Science Core Collection: Citation Indexes" (Science Citation Index Expanded (SCI-EXPANDED) -1945-present), with data last updated on 2014-01-10.

- Click on "search" and a list of your publications appears

- If there are other authors with the same name you can roughly “refine results” by different categories (research areas, authors, source titles, etc.)

129 records matched your query of the 41,040,449 in the data limits you selected.

- Note that you have to indicate the number of records, in order to get all pages transferred

The screenshot shows a list of research records with columns for record number, title, author, and citation counts. An 'Email Records' dialog box is open, allowing the user to specify the number of records to email (set to 1 to 129) and the recipient email address (smueller@geomar.de). The dialog also includes fields for 'From', 'Notes', and 'Email Style' (set to HTML). Buttons for 'Send E-mail' and 'Cancel' are visible.

Short description on how to create your publication list by using a “ResearcherID”

- Go to “My ResearcherID” and register to get your own ID

The screenshot shows the Web of Science search interface. The 'Search' button is highlighted, and the search options menu is open. The 'ResearcherID' option is circled in red, indicating the selection point for creating a publication list. Other options include 'EndNote®' and 'Saved Searches & Alerts'. The search input field contains the example text 'Example: O'Brian C* OR OBrian C*'. The 'TIMESPAN' section shows 'All years' selected, with a range from 1945 to 2014.

- Follow the instructions to add articles authored by you into your list (this way, you collect your papers once and you can update the list when you get new publications and the system tracks your statistics, without having to redo the search each time)
