AND OKANAGAN ORCHARDIST

VOLUME 28

Kelowna, British Columbia, Thursday, April 7th, 1932

NUMBER 35

PROSPECTS GOOD FOR MUSICAL FESTIVAL

Entries Coming In Freely—Choirs Are Expected To Provide Outstanding Feature

The seventh annual Okanagan Valley Musical Festival, to be held here on April 28th, 29th and 30th, promises to be as interesting and entertaining as the previous competitions have been. Entries have come in well and, as late entries are being accepted until April 9th, it is expected that there will be close to the average number this year.

The high lights of the Festival this year promise to be the mixed choir and ladies' choirs, in which classes seven have entered to date. The mixed choir performance is also being arranged for again. The ladies' elocution class has a record number of entries for the valley. Vernon City Band will be here again, and it is expected that another band will be competing. Vernon school is sending a junior orchestra and a primary class choir, and the Penticton Orchestral Society will again give a short programme as well as compete.

Individual entries will be representative of the valley. Some of the little dancers are coming from points as far distant as Sugar Lake school and Lavington. One of the most interesting of the new classes will be the dramatic group for young students, for which the Penticton Women's Institute has donated a trophy.

The objects of the Festival are: To bring together all lovers of music and the allied arts, whether teachers, conductors, singers or players, for the purpose of advancing the arts of music, elocution and dancing.

To encourage the diligent study and practice of these arts.

To bring the young and talented to the front.

To assist competitors to recognize their strong and weak points by comparing their performances with those of others.

To strengthen the interest of the public in good music, the dramatic art and folk dancing.

It is interesting to note that, in spite of or because of the difficult times through which we are passing, the value of the musical festival is more fully realized and is receiving the most encouraging support. In Saskatchewan alone there will be ten district festivals and two provincial. Music offers the brighter side of life to most people—and at minimum cost.

PROPOSED TAX ON ANGLERS STRIKES SNAG

VICTORIA, April 7.—Attorney General Pooley's bill to place an annual tax of \$1 on all anglers struck a snag in the Legislature last night when Tom Uphill, of Fernie, and Dr. Wrinch, of Skeena, pointed out that under it jobless men and pensioners who fish for food would be taxed. The bill was withdrawn for amendment.

NEWFOUNDLAND PREMIER REFUSES TO RESIGN

ST. JOHN'S, Newfoundland, April 7.—Defying the jobless and political demonstrators who mobbed him in the Parliament Buildings on Tuesday and threatened to throw him in the harbour, the Premier, Sir Richard Squires, today refused to resign. His resignation had been advised by members of his cabinet.

COMMONWEALTH TO SEIZE NEW SOUTH WALES FUNDS

MELBOURNE, April 7.—The Commonwealth Government is issuing a proclamation immediately authorizing the seizure on Commonwealth account of certain of the channels of revenue of the State of New South Wales, which will be taken over in compensation for amounts disbursed by the Commonwealth on the State's account as the result of the State's default of debt payments in London.

NEWFOUNDLAND RIOTS MAY BRING BRITISH WARSHIP

LONDON, April 7.—The Evening Standard states today that a British warship has been ordered to St. John's, Newfoundland, as the result of recent disorders there. The Admiralty declines to confirm the report.

People will talk and dogs will bark at the moon.

ROSSLAND REUNION HELD IN VANCOUVER

Greetings From Former Rosslanders Now Resident In Kelowna

About three hundred pioneers of the Rossland district attended a reunion in the White Rose ballroom, 1236 West Broadway, Vancouver, on Friday evening of last week, when old times in the Kootenay city were recalled and acquaintances were renewed. Reminiscences were indulged in freely by those who knew the mining town in its heyday in the late nineties, and cards and dancing rounded out a delightful social function.

As none of the Rossland old-timers of Kelowna and district was able to attend the reunion, the following telegram was despatched by Messrs. C. B. Winter and G. S. McKenzie and was read to the gathering:

"Rossland old-timers at Kelowna send greetings to the sourdoughs gathered at Vancouver:

R. M. Grogan, 1895 to 1900; Mrs. Dr. Keller, 1897 and 1898; Mrs. F. W. Groves, 1897 to 1899; George S. McKenzie, 1897 to 1899; George H. Dunn, 1902 to 1906; Mr. and Mrs. C. B. Winter, 1902 to 1908; Miss Mona Winter, a native daughter; E. F. Morris, 1908 to 1922.

"May even your wild cats assay heavy in the pay ore of fun and good fellowship!"

A letter in reply to the telegram, received this week from Mr. Wm. McQueen, voiced appreciation of the good wishes expressed and regretted that old-timers now resident in Kelowna could not attend the reunion.

Ross Thompson, after whom Rossland was named, owing to a badly injured leg, attended the reunion on crutches.

It was decided to organize under the name of the Rosslanders' Association and to make the event an annual one. The following committee was named to look after the affairs of the association: Mr. A. H. MacNeill, K.C., and Mrs. MacNeill, Mr. and Mrs. Frank E. Woodside, Mr. and Mrs. Frank Raymer, Mr. and Mrs. William McQueen, Mr. and Mrs. W. P. Dockerill, Mr. and Mrs. Leslie Bruce, Mr. and Mrs. Harold Marshall and Mr. and Mrs. Charles Sangster.

BIGGER AND BETTER FISH STORIES THIS YEAR

Northern Waters Now Open To Anglers—Local Lakes Open May 1st

The rod and reel come into their own again and fish stories, if not the fish, should be bigger and better than ever this year. Already disciples of the immortal Walton, of which Joe Spurrer is one of the ring-leaders, have been casting the fly and otherwise behaving in the manner of the best trout fishermen.

On Friday, April 1st, opening day for such bodies of water as Shuswap Lake, Mabel Lake, Mara Lake, Little River and Adams River, a party trekked to Adams River to try their luck with the fly. The morning was bright and the fishing fairly good, but the change of weather in the afternoon was disappointing. Fishing should show improvement in this vicinity on or about the middle of the month, when the small fry trout feed on will be spawned.

The roads at present are in very bad shape, the Salmon Arm section particularly, which is almost impassable. Any one making the trip to Adams or Little Rivers at this time should travel via Kamloops and Monte Creek, on to the South Thompson River and by way of Chase. The roads should be in far better condition in a week or two.

On May 1st the following lakes will be thrown open to anglers: Okanagan, Penant, Beaver, Chute, Sugar, Paul and Knuff Lakes.

Streams do not open until June 1st, consequently Mission and Mill creeks cannot be fished legally prior to that date.

This year all anglers over the age of eighteen years are required to take out a fishing licence, which costs only \$1. This fee is not excessive and there are few who will object to paying it, especially if they are assured of good fishing grounds. If the monies collected are used for the development of rearing ponds and the propagating of fish, as is promised, then sportsmen will certainly be assured of their money's worth.

Remember the annual dinner meeting of the Kelowna Rod & Gun Club, to be held in the Royal Anne Hotel tomorrow (Friday) at 7.30 p.m. Many matters of importance will be discussed and a good attendance is requested.

OTTAWA BUDGET MEETS MIXED RECEPTION

Doubt Expressed In East As To Revenue Producing Powers—British Opinion Favourable

TORONTO, April 7.—The proposals for new taxation in the Rhodes budget, introduced in the House of Commons yesterday, were accorded a mixed reception today.

The heads of British and foreign insurance companies licensed by the Canadian provinces are said to be contemplating representations against the proposal to tax their policy holders 15 per cent of the gross premiums or to compel the companies to keep on deposit with the Government money equal to their liabilities to policy holders.

Business men are inclined to treat the budget as inevitable and generally as a good one, although in many quarters doubt is expressed regarding its effectiveness to produce the required revenue in the face of depressed prices and incomes. Some commentators see it as a blow to business, while others think the effect upon trade will be negligible. Pacific Coast business men see in it no threat to business, while some on the prairies think it will be a severe load for business to carry. In the east it has had a mixed reception. The increase in the sales tax from four to six per cent was seen by W. A. Black, president of the Ogilvie Flour Mill Co., as providing possibly a negligible increase in revenue, due to the depressed dollar value of sales. R. R. Brown, chairman of the Retail Section of the Toronto Board of Trade, states that the increase in sales tax is preferable to a turnover tax.

LONDON, April 7.—"It is highly gratifying to find another Empire country balancing its budget" was the consensus of opinion in Threadneedle Street today as the new Canadian budget was studied. One banker attributed the satisfactory result largely to the courage and experience in big business of Premier Bennett, and expressed the opinion that it showed Canada was ready, despite influences nearer at hand, to follow the lines of financial principles in London. The increase in sales tax was generally expected. Bankers are interested to learn more about the graded increase in stamp taxes, especially regarding cheques, for, considering the fact that every cheque here bears four cents stamp tax, it is held that Canada so far has been easygoing concerning such an impost.

"Having regard to the fact that most English people pay such an income tax that they work three months in the year for the state alone, Canadians may consider themselves happily placed," was another comment.

A FLORAL GREETING FROM HARTFORD, CONN.

Mayor Of Eastern City "Says It With Flowers"

The slogan of the Florists' Telegraph Delivery Association is "Say It With Flowers," hence the occasion of the gift to The Courier, through the medium of the Richter Street Greenhouses, of a handsome calceolaria potted plant, crowned with a striking display of bloom. A card accompanying the gift afforded the following explanation:

"Upon this occasion, the opening in our city of the thirteenth International Flower Show, it is with pleasure that I extend the good will of the people of Hartford to the people of your city by saying it with flowers by wire the F. T. D. Mercury way. This flower token is made possible through the world-wide organization of bonded members of the Florists' Telegraph Delivery Association.

WM. J. RANKIN, Mayor of Hartford, Conn., Saturday, April 2, 1932.

In returning thanks, The Courier reciprocates, on behalf of Kelowna, the good wishes conveyed by Mayor Rankin and hopes that the International Flower Show is a huge success.

FRANK HAWKS SERIOUSLY INJURED IN CRASH

WORCESTER, Mass., April 7.—Captain Frank Hawks, famous aviator, well known in British Columbia through his B.C.-Mexico record flights, was critically injured here today when his machine crashed as he was making a take-off.

GROUP TEACHING OF MUSIC IN SCHOOLS

Method Advocated By Canadian Bureau For Advancement Of Music

Mr. J. S. Atkinson, Director of the Canadian Bureau for the Advancement of Music, of Toronto, a philanthropic organization which has for its aim the encouragement of the study of music among Canadian school children, was a visitor to the city on Tuesday when he conferred with local music teachers, members of the Kelowna Board of School Trustees, the principals of the Kelowna schools and Mrs. H. W. Arbuckle, President of the Parent-Teacher Association. With the aid of a motion picture machine in the Royal Anne Hotel, he showed them the method advocated by the Bureau for the teaching of music—chiefly in the schools after hours—a method which is becoming universally adopted throughout Canada. The motion pictures were taken in Canadian schools and showed children receiving instruction and performing.

The plan followed by the Canadian Bureau for the Advancement of Music in the organization of piano classes is to first give a course of instruction to music teachers in the various centres who are not familiar with the group or class method of teaching music to pupils. By the class method the pupils naturally lose somewhat in individual attention from the teacher, but this method, on the other hand, offers them many splendid advantages such as the opportunity to compare their work and progress with that of others; the privilege of hearing others' work criticized, commended, etc.; but the great advantage lies in the group enthusiasm and friendly competition which is engendered.

In the piano classes in the school, for instance—and the classes are usually limited to eight or ten pupils—there is one piano in the room and each pupil has a dummy keyboard on his desk. The pupils, one at the piano and the others at their keyboards, all play the same exercises or tunes together and count together. While the dummy keyboards give no sound, the key is sounded on the piano by the pupil there, so that each pupil, even at his desk, hears the note although he is only pressing a dummy key. Very careful attention is paid to hand position, fingering, etc. Theory is very much more easily taught in classes and, as a result, much more theory is taught, and these pupils have a more thorough training in the fundamental principles of music.

The Canadian Bureau for the Advancement of Music has no pecuniary interest in these music classes. It is supported entirely by voluntary contributions and exists solely for the purpose of bringing thorough musical instruction within the reach of every boy and girl in Canada. Classes are conducted at no expense whatever to the School Boards, but a nominal fee of twenty-five cents per lesson is collected from the pupils by the local teachers.

In the city of Nelson violin and piano classes are being successfully conducted in this way, and success has also been achieved at Vernon. The method has received the endorsement of the various Provincial Departments of Education throughout Canada and is regarded as a valuable addition to the school curriculum.

To date, nothing has been definitely decided as to whether or not the method will be adopted in Kelowna. Decision rests largely with the music teachers, who would be required to take special instruction from the Bureau in group teaching.

FERGUSON DENIES BEAUHARNOIS GRAFT

OTTAWA, April 7.—Having come from London for the purpose, Hon. Howard Ferguson, High Commissioner for Canada, told the Senate committee investigating the Beauharnois scandal yesterday that he had no knowledge whatever of \$125,000 in bonds having been paid to John Aird, Jr., for Ontario Conservative party purpose as a result of the award of the power contract to the Beauharnois Company by the Ontario Hydro Commission.

TORONTO NATIONALS WIN ALLAN CUP

MONTREAL, April 7.—The Allan Cup was won by the Toronto Nationals in the final game against Fort William here last night by one goal to nothing.

A real way to face a problem is to put your back into it.

WORK RESUMES AT KELOWNA OIL WELL

Drill Started Operating Once More On Tuesday, With Prospects Favourable For Continuance

Since the public meeting held under the auspices of the Board of Trade on February 25th, Mr. E. G. McKenzie and his associates of the Okanagan Oil & Gas Co., Ltd., have been doing much hard work to secure sufficient support to warrant resumption of operations at Kelowna Oil Well No. 1. They were determined to make sure that enough money would be forthcoming to carry on drilling to a depth of three thousand feet, if necessary, before resuming work, and their labours have been crowned with success, so that it was possible to clean out the bore and start the drill again on Tuesday.

Everything was in good order except that the bore, of course, was full of water, and in addition to cleaning it out a depth of three feet was gained during the afternoon, making the total depth 2,365 feet at the close of the day. The rock, although still hard marine limestone, seems to be of a more porous nature and large bubbles of gas were in evidence, welling up to the top against the terrific pressure of 1,200 lbs. to the square inch exerted by the column of water in the bore. No fewer than seven strata containing water have been passed through in process of drilling, and the quantity is sufficient to fill a one and one-half inch pipe with a continuous flow. Later, it may be necessary to cement off these strata and drill through the cement, but so far, as the rock is hard, the water has not produced any caving conditions below the casing, and it is proposed to drill for another hundred or two hundred feet without extending the latter.

Mr. McKenzie, who returned from Vancouver on Saturday, feels reasonably assured that there will now be no interruptions, with the exception of unforeseen mishaps, to the work of carrying the test bore down to the three thousand foot level, or even deeper, should it be thought advisable to continue, if oil or gas is not encountered by then. His dogged courage in carrying on the enterprise in the face of adverse economic conditions is most praiseworthy and should bring him all the possible support the Okanagan Valley can give him.

JONES EXPLAINS INCOME TAX CHANGES

Farmers Will Be Exempt Up To \$1,000 Only

VICTORIA, April 7.—Explaining the income tax changes, Hon. J. W. Jones, Minister of Finance, revealed in the Legislature yesterday that all co-operative farm marketing organizations will be exempt, but individual farmers only up to \$1,000.

The deductions of one per cent during last year are to be deducted from the amount owed, but if the wage tax deductions exceed the amount owed, there will be no refunds.

Starting next year, all returns must be in by the end of February with one-quarter of the amount due, the rest payable in instalments at six per cent interest, with a penalty of four per cent on overdue payments.

Only one \$500 exemption for husband and wife is allowed.

All individuals deriving incomes from outside the province are to be taxed.

After the Act goes into force employers must deduct one per cent from salaries.

All employees' exemptions are abolished.

R.C.M.P. NOT TO POLICE BRITISH COLUMBIA

VICTORIA, April 7.—Attorney General Pooley made it clear in the Legislature yesterday that he is not contemplating following the example of some of the other provinces so far as turning over the policing of British Columbia to the Royal Canadian Mounted Police. Forty-five per cent of the work of the Provincial Police was for Provincial Government departments, he said, and, if the federal police were brought in, all that work would have to be paid for separately.

Major George Walkem, Vancouver, thought that, with the Royal Canadian Mounted Police, municipal police, provincial police, city police, Harbour Board police and railway police operating, there were too many different police forces in the province.

BURGLARS BUSY IN BUSINESS QUARTER

Loot Of Little Value Except In Case Of The Kelowna Club

Until early Tuesday morning, when the premises of the Kelowna Club were invaded by marauders and goods valued in excess of \$100 were stolen, the spring epidemic of housebreaking and burglaries had yielded little in the way of returns to the adventurers in crime. During the past two weeks several of the packing houses and the Junior High School have been broken into, and on Sunday night or early Monday morning of this week the lock on the door of the government office was broken and the doors at the front of the Empress Theatre were tampered with. Nothing was stolen, however, from the government office or the theatre.

It is believed that the gang guilty of the offences of recent weeks was responsible for robbery of the Kelowna Club on Tuesday morning, when entrance was effected to the building through the reading room door at the east end, the glass in which was broken to enable the culprits to reach the lock on the inside. In order to gain access to the liquor supply, the burglars were forced to break through the locker room door, which they did. They obtained sixteen bottles of liquor, one hundred and thirty-four packages of cigarettes retailing at twenty-five cents the package, and \$4 in cash, the total value of the haul being in excess of \$100.

If the partners in crime expected to find rich loot in the safe they were very much disappointed. The safe is left unlocked and no cash is kept in it. Possibly the burglars are still wondering where the money was kept they were "cheated" out of as, in addition to the loose change they picked up, there was some \$200 secreted elsewhere in the building.

Although no one sleeps on the premises, a night light is left burning in the building, and it was one o'clock or later before the club was closed to members on Tuesday morning.

PRINCIPAL CHANGES IN DOMINION TAXATION

Increases Solely In Direct Taxation—No Alteration In Tariff

OTTAWA, April 6.—The following are the principal changes in taxation contained in the budget, introduced in the House of Commons today by Hon. E. N. Rhodes, Minister of Finance:

Income tax exemptions are reduced: married men, from \$3,000 to \$2,400; single men, from \$1,500 to \$1,200.

Sales tax is increased from four per cent to six per cent.

The excise tax on all goods entering Canada is increased from one per cent to three per cent.

A five per cent surtax is levied upon all salaries over \$5,000.

The corporation tax is increased to eleven per cent.

The tax on cheques over \$5 to \$100 is increased to three cents from two.

A five per cent tax is levied upon all telegraph, cable, radio and long distance telephone messages.

No changes are made in the tariff.

The year's deficit is \$51,000,000.

OBJECTION TAKEN TO WAGE CUT EXEMPTIONS

Certain Recipients Of Dominion Pay Held To Be Unduly Favoured

OTTAWA, April 7.—Such strong objections to exemption of judges, provincial lieutenant-governors, soldiers and sailors from the ten per cent salary cut for civil servants developed in the Commons committee yesterday that the bill was reported without progress.

A. W. Neill, member for Comox-Alberni, stated that the time was opportune for abolition of the host of lieutenant-governors.

Members hinted that an attempt to develop a situation such as had occurred last year amongst British naval ratings.

R. A. Gardiner, Progressive, declared that all exemptions should be wiped out and everybody should bear their share of the necessary reductions.

A man was rapidly losing his memory—so he went out and borrowed all the money he could.

When a married man loses his hair the suspicion is that his wife has had a hand in it.

What embarrassment is conscience, and how happy one might be without it!

ENTRANCE FEE SUSPENDED BY TENNIS CLUB

New Members May Enter This Year On Payment Of Annual Subscription Only

In order to increase its membership, the Kelowna Lawn Tennis Club, in annual meeting in the Board of Trade Room on Thursday evening last, resolved by extraordinary resolution to suspend the entrance fee for new members for the current season. This means that, instead of being required to pay \$20 for the year, new members may join for the subscription fee of \$10.

With about twenty-five in attendance, the meeting opened at 8 p.m., under the chairmanship of Mr. F. W. Pridham, President, who, in his report, stated that the past season had been extraordinarily hard to finance on account of a drop in membership. But for the fact that the Secretary had taken care of the grounds and so economized, things might have been worse. He mentioned that the visit of Mr. Verley, the Vancouver tennis instructor, had been a success, and he hoped that his visit would become an annual event in order to improve the standard of play, especially amongst the junior members.

In submitting the balance sheet and financial statement, Mr. H. G. M. Gardner, Secretary-Treasurer, drew the attention of the meeting to the fact that the club revenue was down not only in membership fees but in receipts from the Interior Tournament, and that it was only through exercising strict economy that they had been able to make ends meet. Collections had been more difficult than usual and there were still some fees outstanding, but these, happily, would be sufficient to meet accounts payable. The exhibition games given here by Jack Wright and Marcelle Rainville could have been made to bring in more money if a longer period had been allowed for advertising. The generosity of Mr. Alfred Carruthers in making the club a present of his \$100 worth of debentures had lessened their liabilities. As a matter of pride the club had always paid its obligations of 7 per cent interest on its debentures, and he hoped that they would always be in a position to do so, although it had sometimes been quite a struggle.

There being no other nominations, the following officers were declared duly elected, with applause: President, F. W. Pridham; Vice-President, W. Metcalfe; Committee, Mrs. J. Cummings, Messrs. O. St. P. Aitkens, W. B. Bredin, A. E. Hill and D. K. Penfold, there still being one vacancy for another lady to be appointed by the Committee; Secretary-Treasurer, H. G. M. Gardner.

It was resolved by extraordinary resolution to suspend the entrance fee for new members for the current season. This will mean that, instead of \$20, a new member will only have to pay \$10 for an entire season's play.

In the matter of the date for the Interior Tournament, Mr. Metcalfe presented a letter from Mr. F. D. Nicholson, President of the B.C.E.T.A., which stated that every date in July had already been booked by other tournaments, and that Kelowna would have to have either the last week in June or the first week in August. It was decided to try for the latter date, provided it did not interfere with the Regatta.

Mr. Aitkens was elected as Honorary Auditor and thanks were extended for his services last season. Mr. H. C. Mangin was also thanked for his past services on the Committee and regret was expressed that he had left the city.

Mr. Bredin urged members to get in touch with prospective members and induce them to join.

Mrs. A. Davidson brought up the question of the strict rule in regard to members wearing white clothes on the courts as being inconvenient for those who wished to take time off from their business to get some recreation and to return to their work afterwards. After discussion it was moved that the Committee be recommended to amend the By-laws to allow coloured clothes of a suitable nature to be worn.

The meeting then adjourned.

SON OF BRITISH PEER IS SUICIDE

LONDON, April 7.—Cecil Arthur Campbell, son of the third Baron Stratheden and uncle of the present peer, was found shot to death today with a revolver beside him.

Keep that drain clear...

this easy way

**Gillett's Lye dissolves
clogging grease and
never harms enamel**

DON'T run up a plumber's bill every
time your drain pipes clog. Fix
them yourself... this easy, workless way.

Just sprinkle Gillett's Pure Flake Lye
down your drains and toilet bowls each
week. Use it full strength, for Gillett's
Pure Flake Lye will not in any way
harm the finish of enamelled sinks or
bathtubs.

Grease and dirt dissolve like magic.
Germs are killed. Odors banished. Your
drains run free and clear. And... there's
no plumber's bill afterwards!

Tell your grocer it's Gillett's Pure
Flake Lye you want. This powerful
cleanser and disinfectant saves hours
of scrubbing. Try a tin.

GILLETT'S LYE
Never dissolve lye in hot
water. The action of the lye
itself heats the water.

1st Kelowna Troop
Troop First! Self Last!

Edited by S.M.
April 5th, 1932.

Orders for the week ending April
14th, 1932:
Duties: Orderly patrol for the week,
Otters; next for duty, Beavers.
Rallies: The regular weekly meeting
will be held on Monday, the 11th inst.,
at 7.15 p.m. There will be the regular
basketball practice on the Friday pre-
vious, at 7 p.m.

The meeting on Monday was not
very well attended and when the "Fall
In" was blown only 50 per cent of the
total strength was on parade, however,
there were several late comers. The
basketball practice next Friday will be
the last of the season and commencing
with next week we will start preparing
for the entertainment in earnest. Under
these circumstances, it will be neces-
sary to have 100 per cent attendance
at all parades.

We intend working in a few lessons
on the First Class tests during the next
few weeks in hopes that we may have
one or two First Class badges to pre-
sent at the coming Entertainment. We
have now on hand the new Proficiency
Badge Reference Books, which sell for
ten cents. However, the cry seems to
be that they are too expensive, consid-
ering their size, etc. Doubtless the de-
pression is responsible for this attitude,
for in spite of its tiny size, this little
book is packed with much useful in-
formation, concerning badges, their re-
quirements and how to wear them.

We have also purchased four patrol
flags and four copies of the Handbook
for Canada, so that these books would
be available to Patrol Leaders when
conducting patrol corners.

The marks for attendance, neatness
and conduct at the last meeting were:
Beavers, 60; Wolves, 55; Otters, 52;
Eagles, 36. This leaves the patrol com-
petition: Beavers, 323; Wolves, 411;
Eagles, 398; Otters, 369.

Scout Notes Of Interest

With the consent of the Quebec gov-
ernment, the Minister of the Interior
has by proclamation made Mystery Is-
land, the permanent Boy Scout camp
near Ottawa, a bird sanctuary. There
are several such Scout wild life sanctu-
aries in various part of Canada.

Last year 673 Canadian Scouts re-
ceived fire prevention training and
qualified for the Scout Firemen's Badge.
The training in most cases is given by
fire chiefs or firemen. Since the train-
ing was started 19,698 boys have qual-
ified as Scout Firemen.

How do trees indicate varying wind
velocities? At what wind velocity does
dust rise and swirl; and loose paper
whirl into the air? At what velocity
does wind whistle in the telephone
wires? Ask a Boy Scout who has been
studying his 1932 Canadian Scout
Diary.

The name "Mystery Island" given
the permanent Scout camp being devel-
oped near Ottawa has been officially
confirmed by the Geographical Board
of Canada, and the island will be so de-
signated on a new map to be published
by the Topographical Survey.

Hamilton, Ont., Scouts are credited
by Fire Chief James with helping his
department win the 1930-31 Dominion
Fire Prevention contest, Class 1, and

SEA CADETS

Kelowna Corps 1358
"Grenville"

The inter-Watch basketball match
resulted in a walk over for the Star-
board Watch by 48 to 6, owing to most
of the Port Watch players not turning
up. Never mind, Port, make up your
minds to do better next time.

I see the opposition editor of that
yellow rag, "Lake Breezes," has taken
another crack at poor "Old Flatfoot,"
but he will be sorry one day. I shall
pick out a private crew and make him
walk the plank when the good ship "Ki
Ora" gets in commission, and we will
all eat cake while he is doing it. Any-
way he is a rotten poet; his metre is all
haywire.

The parade this week was taken up
with instruction, P.T., knots, compass,
and signals. We hope to see a few
boys passing tests next week.

Congratulations, Newton, on your
promotion to Leading Cadet, also Watt
to Able Seaman.

The vaulting horse is in working or-
der and seems to be a general favour-
ite.

I would like to remind the boys once
more about being a credit to the corps
in the little matter of courtesy. Nuff
said.

OLD FLATFOOT.

What Price Crimsoh?
President of Boxing Club: Now there
is the question of colours. Any sug-
gestions?
Member: I suggest black and blue.

GEORGE EASTMAN

Following several years of impaired
health, George Eastman, aged 77, mil-
lionaire inventor of the Kodak philan-
thropist and big game hunter, shot him-
self in his home in Rochester, N.Y.,
leaving a note in which he said he was
killing himself because he felt his work
was done. Mr. Eastman gave away
many millions of dollars for educational
and charitable purposes, yet was rated
one of the richest men in the United
States.

the Canadian Chamber of Commerce
Shield. The Scouts systematically in-
spected alleys and back streets and re-
ported fire hazards.

HONEY CONTAINERS

The producer of any food commod-
ity realizes that his success in the mar-
keting of that commodity depends upon
the willingness of the consuming public
to purchase it, and in the face of keen
marketing competition he also knows
that, in order to create and maintain
such a willingness in the mind of the
buyer, his commodity must not only
be of high class quality but it must also
be packed in clean and attractive con-
tainers. Until a commodity becomes
well-known for its quality, the type of
container in which it is packed plays a
great part in the selling of the com-
modity, for it is quite possible that an
inferior product packed in an attractive
container may find a much readier mar-
ket than a high class product in less
conspicuous packages. Containers
that are broken, dented, badly stained,
etc., are usually passed by, irrespective
of the quality of their contents.

The producers of honey are now
realizing the part containers play in the
marketing of their product. A few
years ago honey was packed in almost
anything that would hold it, but today
honey is being packed in fancy glass
bottles and lithographed tin pails. Some
producers and even some provinces
have adopted special containers for
their own exclusive use, and it was
really the success of the few who first
thought of improving the package by
making it more attractive that led to
the recent improvement along this par-
ticular line. In so far as honey con-
tainers are concerned, however, it is an
unfortunate fact that the names com-
monly used for certain sizes of them
are misleading in that the name sug-
gests more honey in the package than
it really contains; the net weight of
contents, nevertheless, is stamped on
every container, and it is this stamp
that should guide the purchaser when
buying honey, rather than the name
given the container. An effort, how-
ever, is being made to correct this con-
dition, either by changing the size of
such container or by using numbers in-
stead of names.

man knows better.

**1ST RUTLAND
TROOP**

"Do A Good Turn Daily"

Orders for the week ending April
9th:
The Troop will parade in the Hall on
Friday, at 7.45 p.m. sharp.
Duty Patrol: Kangaroos.

The annual entertainment now being
finished with, we will get down to
work again at a real Scouting program-
me. A special endeavour will be made
to get recruits through their Tender-
foot tests, Tenderfoot Scouts through
Second Class tests, and Second Class
Scouts on the way to First Class rank.
A new patrol competition will be start-
ed, with extra points for tests passed.
It will not be possible to decide the
final standing of the last competition
until the ticket money is in from the
concert, as points are to be awarded
for ticket selling.

The question of forming a fifth patrol
will be discussed at a meeting of the
Court of Honour shortly.

The entertainment seemed to meet
with the approval of the patrons and,
while not quite so successful financially
as in former years, was well supported
by the community, and, in view of
general conditions, the results were
very satisfactory. The Wolf Cubs de-
serve a great deal of credit for their
share of the performance, and for their
work on the ticket selling end.

RUTLAND

Mr. and Mrs. Bert Wilson and fam-
ily, of Kelowna, moved on to their
ranch here on Thursday last.

Greville Harrison was a visitor to
the district during the Easter holidays,
returning to Keremeos on Saturday to
resume his duties as principal of the
Public School.

The local basketball squad, minus
F. Hawkey and H. Thornton, lost to
Glennmore in Kelowna last Saturday by
36-18. This will no doubt be the last
game of the season. Baseball and soft
ball now will take the centre of the
stage.

The annual meeting of the Rutland
Athletic Club will be held in A. W.
Gray's packing shed on Monday next,
at 8 p.m.

A successful Well Baby Clinic was
held in the Hall on Friday afternoon
last, under Dr. Ootmar and Nurse
Grindon. Opportunity was also afford-
ed any who so wished to be vaccinated,
adults as well as children.

The Scouts' annual entertainment
was held in the Hall on Thursday last,
with an attendance of 200 or more. The
programme went through without any
undue delays, and the various turns
were well applauded by the audience,
the two plays being especially well re-
ceived, as was also the Cubs' perfor-
mance. The first play was of a Scouting
nature, illustrating the efficiency of the
well trained patrol as compared to the
theoretical "book-learning" kind of
Scouting. The main play, "Get in the
Talkies," was an amusing farce in
which no less than five Scouts attempt-
ed, with no little success, the difficult
role of female impersonation! Rumours
that a patrol of Girl Guides was recrui-
ted for the occasion are without founda-
tion.

The roles of the two Jew proprietors
of the "School for Actors" were well
taken by P.L. John Fisher and P.L.
James Mugford. A.S.M. Ken Bond
starred as the "leading lady."

Two short skits, "The Smiths At
Home," with Les. Smith as "Mr." and
E. Reser as "Mrs.," provided a good
laugh, the latter's female impersonation
being very well done. The Wolf Cubs'
share of the programme went over well,
and at the close a number of recruits
were invested and District Commis-
sioner Weddell presented badges to
various Cubs.

The camp-fire scene, while not a
new feature by any means, still seems
to be a popular item, and all the various
numbers were applauded, several re-
ceiving encores. Following is the pro-
gramme in detail.

"O Canada!" Troop and Pack; play,
"The Monkey's Surprise," Scouts (The
Monkey Scout, Kermit Eutin; Old
Gentleman, Alf. Wigglesworth; B. P.
Scout, Tony Welter; Patrol Leader,
Ralph Smith; Patrol, Art Wiggles-
worth; Maurice Soames; Roy Bush; El-
wyn Cross, Geo. Smith); vocal solo,
"Posers," A.S.M. Ken Bond; sketch,
"The Smiths at Home," Spasm I (Fred
Smith, Les Smith; Olga Smith, Everett
Reser); Wolf Cubs' period: (a) W-
Cub Alphabet, (b) chorus, "Toy Drum
Major," (c) recitation, Norman Hil-
born, (d) presentation of Badges by
District Commissioner Weddell; sketch,
"The Smiths at Home," Spasm II. In-
termission.

Play, "Get in the Talkies," Scouts
(Herman Rachhimmell, P.L. John
Fisher; Louis Schmelz, P.L. James
Mugford; Flossie Laite, P.L. Andy
Duncan; Winnie Winkle, Sec. Wm.
Shugg; Sam, T.L. Pete Ritchie; Fred,
P.L. Len McLeod; Edith; Sec. E. Re-
ser; Mrs. Jiggs, Scout E. Gibson; Dora,
A.S.M. K. Bond); Lockjaw Quartette,
Secs. G. Campbell and W. Hardie and
Scouts W. Urquhart and L. Williams.
Intermission.

Camp Fire Scene, Troop: (a) "The
Maple Leaf Forever," (b) jokes, (c)
chorus, "When the Moon comes over
the Mountain," (d) reading, (e) vocal
solo, "Loch Lomond," T.L. P. Ritchie,
(f) chorus, "Grand Old Duke of York,"
Troop, (g) jokes, (h) chorus, "Moon-
light on the Colorado," (i) vocal solo,
"When I leave the World behind," A.
S.M. K. Bond, (j) "Auf Wiedersehn,"
(k) Scout Yell, "God Save The King."

"WE DO NOT ADVERTISE"

(Editorial in Printer's Ink.)
A quaint letter has come to us. It
is a direct-mail solicitation for business.
We quote a paragraph:
"Although we are today the oldest
and largest investment counsel firm in
the United States, it is very possible
that our work may not have come to
your attention." (Very possible, in-
deed, for we are not sure whether it
has or it hasn't. We spot the state-
ment as a first-water enthusiasm.)
"We do not advertise." (This would
account for our lack of certainty.)
"Hence, our growth must depend
upon our records of accomplishment
and the good-will of our clients."—(And
so must that of advertisers unless they
wish to gamble with instead of invest
their advertising appropriations in

FLIES TO AUSTRALIA TO LECTURE ON FASHIONS

Lady Chaytor, wife of Sir Edmund Chaytor of Winton Castle, left
Brooklands aerodrome, March 18, on a flight to Australia. On arrival in Aus-
tralia, Lady Chaytor will make an aerial tour during which she will lecture on
fashions. Her pilot is Mr. R. T. Richards, who is seen with her in the picture,
which shows Lady Chaytor playing a farewell tune on her ukulele before leav-
ing Brooklands.

good-will development.)
"Because we do not advertise, we are
able to expend a relatively greater pro-
portion of our income annually upon
investment research." (The firm, which
we find is a leader in its field, practi-
cally confesses that its light is hidden
under a bushel. If it used advertising
judiciously, it might be able to invest
an even larger sum in research.)
Here is an example of a large and re-
putable concern writing business men
that it does not advertise. It is adver-
tising, though. Its letter is a solicita-
tion for business through direct mail,
but a poor example. It is apologetic.
If the firm advertised better, it could
be more certain that its existence was
known.
A lifetime of good examples is better
than a library of good advice.
Poets are born—and there doesn't
seem to be any remedy for it.
Fill your mind with knowledge and
you will avoid empty words.
Every married man thinks he would
be rich if he had remained single.

"The Proof of the Pudding"

LIFE insurance benefits... can be Proved while you are still ALIVE!

LIVING policyholders of the Sun Life were paid in benefits during 1931 \$68,000,000—THREE TIMES as much as beneficiaries of deceased policyholders.

This was due, partly, to the fact that trained Sun Life representatives, when selling insurance, counsel their policyholders how to secure a dual advantage—the maximum benefit to THEMSELVES, and the greatest protection to their DEPENDANTS.

The insured no longer have to "die to win." The wisest insurers vigilantly protect their policies and allow nothing to impair them. The Sun Life enjoys a remarkable record for the persistency of its business—largely the result of sound advice and expert service to its policyholders, by its representatives.

Sun Life representatives sold \$528,000,000 new paid-for insurance last year, making the Company's total business in force over Three Billions—an impressive reflection of public confidence.

To-day prudent men are not only taking on MORE life insurance; they are doing so after consultation with competent representatives of such a company as the Sun Life.

Consult a Sun Life representative or return the attached coupon to the local or head office of the company:

SUN LIFE ASSURANCE COMPANY OF CANADA

Head Office: MONTREAL

They say that many Hollywood hosts issue invitation cards to their elaborate parties reading: "Admit bearer and ONE wife."

A man's credit is usually good when he doesn't need it. Many a man owes his success in life to the advice he didn't take from others.

CARE DURING THE BROODING SEASON

(Experimental Farms Note)

Tests at the Central Experimental Farm have shown that better results are attained by feeding chicks early than by the methods of delayed feeding formerly in vogue. The following plan is being successfully used at the Central Farm:

When the hatch is cleaned up the chicks are either placed in well ventilated chick boxes, or, if allowed to remain in the incubator, the doors are partly opened to permit an abundance of fresh air so that the chicks will brood-off before being placed in the brooder.

The type of brooder most commonly used is the coal burning brooder stove, which is placed on a tin mat in the centre of a 10 by 12 colony house, and a guard of 1 by 4 inch lumber stood on edge, leaving about a foot clearance round the stove, is used. The space inside this guard is filled with sand to avoid all danger of fire from the stove. On the rest of the floor litter is placed to the depth of one or two inches. Plaster shavings is generally used for this purpose but clean chaff or fine gravel may be used. Where shavings or chaff is used care is taken to see that it is kept off the surface of the sand around the stove.

Four pieces of galvanized iron about three feet long by eighteen inches high are used to round the corners of the house to prevent crowding.

For the first few days a guard made of square mesh stiff wire cloth about a foot high is used to circle the stove until the chicks get used to the source of heat. Each day this circle is enlarged until finally the guard is removed entirely. Care is taken to make the enclosed circle sufficiently large so that the chicks are not kept so close to the stove as to be overheated.

Frames constructed of 1 by 4 inch material stood on edge and covered with 1/4 inch square wire mesh are used on which to stand all food hoppers and water dishes.

Hoppers of chick grit, oyster shell and charcoal are hung at a convenient height on the walls.

The chicks are kept as cool as may be for comfort but always have the source of heat where they go to rest in a temperature as high as they desire. Their actions tell at once whether they are comfortable or not. If comfortable they rest contentedly in a circle just outside the canopy of the stove; their discontented chirping and crowding to the source of heat will tell you if they are not warm enough. If too hot, they get as far from the stove as possible or go around with their mouths open panting for breath.

Feeding
The feeding is the acme of simplicity, consisting of keeping the water fountains clean and filled with fresh water, and the hoppers filled with grit, oyster shell and charcoal and a good chick starter, either commercial or home mixed. The following is a chick starter that has given excellent results at the Central Farm.

- 1 part shorts.
- 1 part middlings
- 1 part ground yellow corn
- 1 part ground groats
- 1/2 part animal feed mixture
- 3 per cent bone meal
- 1 per cent salt
- 1 per cent cod liver oil.

TWENTY YEARS AGO

From the files of "The Kelowna Courier"

"Mr. J. M. Paret arrived on Tuesday from the West Indies."

"The municipal water cart has at last made its welcome appearance, much to the relief of the business men, to whom the dust was becoming a nuisance."

"The Directors of the Aquatic Association have appointed Mr. F. J. Foot, the popular gymnastic instructor, as caretaker for the season. Mr. Foot is as experienced in water sports as he is in gymnasium work, being formerly a member of the Royal Navy, and he possesses marked fitness for his new post."

"Mr. A. E. Ashcroft, C.E., was in town on Tuesday conducting negotiations for a terminal site for the Canadian Northern. We have it on good authority that a deal has been practically closed for a site with lake frontage and ample space for yards, warehouses and other station requirements, north of Bernard Ave., on Ellis St."

The following officers were chosen for 1912 at the annual meeting of the Kelowna Tennis Club: President, Dr. A. H. Huycke; Vice-President, W. A. Peters; Secretary, H. A. Willis; Committee, Dr. Maud McNaughton, Miss Hudson, Messrs. Wilson, Metcalfe, Adams, McTavish, Rees, Whitehead and Dr. Boyce.

At the annual meeting of the Kelowna Civilian Rifle Association reports submitted showed the Association to be in a healthy condition financially, the debts, amounting to nearly \$100, incurred by the old Association which was disbanded in 1908 and assumed as an obligation of honour by the present Association, having been paid and a substantial balance of cash left on hand. A very high level of marksmanship had been attained in 1911 and some phenomenal records were made.

- 1 part middlings
- 1 part ground yellow corn
- 1 part ground groats
- 1/2 part animal feed mixture
- 3 per cent bone meal
- 1 per cent salt
- 1 per cent cod liver oil.

The animal feed mixture used is made up of equal parts ground beef scrap, fish meal and milk powder. When liquid milk can be had the milk powder is omitted.

Weather permitting, the chicks are allowed on to the ground as soon as they get used to their quarters, say by a week or ten days, and a little scratch grain is then added to the ration to keep them busy.

The brooder house is set in a clover field and is shifted weekly so that fresh green feed may always be available and the ground clean.

GEORGE ROBERTSON,
Central Experimental Farm,
Ottawa, Ont.

MAY MARRY DIVORCED WIFE

A romantic rumour has for the last six months been hovering round the venerable white head of Mr. Andrew Mellon, United States Ambassador to Great Britain. It is said, in Washington, that he intends—some even insist he has already done so—remarrying his wife whom he divorced more than 20 years ago.

including a grand possible of 105 at 200, 500 and 600 yards, by J. R. Conway, a record for the province. H. T. Gill, whose figure of merit for the season was the wonderful average of 4.71 points per shot, won the championship of the Okanagan at the annual meet of the Okanagan Rifle Association at Armstrong, together with six medals, two cups and a trophy.

The three handsome silver medals awarded by the Association for the highest four scores between September 14th and the end of the season were won as follows:

Competitors using any rifle—J. R. Conway, 102, 98, 97, 94—total, 391; average, 97.75.

Competitors using the ordinary Mark II Ross rifle, with open sights—G. N. Kennedy, 81, 81, 79, 72—total, 313; average, 78.25.

New members joining in 1911, using any rifle—A. Symonds, 101, 90, 88, 85—total, 364; average, 91.

Election of officers resulted in choice of the following: President, D. W. Sutherland, re-elected; Vice-Presidents, J. F. Burne, re-elected, and C. Haryey; Captain and Acting Secretary, G. C. Rose, re-elected; Vice-Captain, T. Allan; Executive Committee, in addition to the Captain and Vice-Captain, C. Harvey, G. H. Dunn and two to be chosen by the B. C. Horse.

The James Case

On Monday morning, April 1st a coroner's jury composed of Messrs. W. C. Blackwood, foreman, F. A. Taylor, F. M. Buckland, W. Loyd-Jones, R. A. Copeland and P. B. Willis returned a verdict at the inquest on the death of Provincial Constable Aston that he came to his death by a bullet wound in the head, believed to have been inflicted by Walter Boyd James.

The same afternoon, James appeared before Police Magistrate Boyce for preliminary hearing and, after evidence had been heard, was committed to a higher court for trial on a charge of murder.

In testifying as to the discovery of Constable Aston after the shooting, S. W. Stovell, a steward on the s.s. "Okanagan," stated that when he knocked at the door of Cabin No. 34 to arouse the passengers he got no answer and he thought he heard a kind of a groan. Running round to the outside window of the stateroom, he looked in, when he saw a man lying on the floor. He secured the assistance of A. G. McDonald mate of the steamer, and H. Vince, a steward, and the inside door of the cabin being locked, they effected entrance through the door leading to the deck. Aston was found lying on his face wrapped up in rugs. Blood was on his forehead and they thought he was dead, but, on lifting him, he opened his eyes and smiled, and McDonald thought the injured man recognized him. The lower bunk was strewn with cartridges, the constable's valise had been cut open, his pipe and watch were lying on the floor beside him and his pockets had been turned out. Sets of leg-irons and handcuffs were lying in the cabin. In the upper bunk a .22 empty cartridge was found and, upon a cartridge shell being produced in court, the witness identified it as the one found in the bunk. About the time the boat reached Kelowna a large rifle was found concealed under the sheets of the top bunk. The discovery of the shooting was made between Peachland and Gellatly, between 7.25 and 8 a.m.

Frank Wilson, companion of James in his flight, repeated his version of the shooting, which was done, he alleged, by James. He was lying at the back of the bunk when James shot Aston, and the latter fell and rolled over into a corner near the door and groaned occasionally.

At the inquest Wilson testified that he was very badly frightened when the shooting took place and thought it would be good policy on his part to stay

CHURCH NOTICES

ST. MICHAEL AND ALL ANGELS
Corner Richter Street and Sutherland Avenue
April 10th, Second Sunday after Easter.
8 a.m., Holy Communion.
9.45 a.m. Sunday School, Bible Classes and Kindergarten.
11 a.m., Matins, Sermon and Holy Communion.
7.30 p.m., Evensong and Sermon.

ST. ANDREW'S, Okanagan Mission
April 10th, Second Sunday after Easter. 11 a.m., Matins, Sermon and Holy Communion.

THE UNITED CHURCH OF CANADA
First United, corner Richter St. and Bernard Ave.
Rev. A. K. McMillin, B.A., Minister.
Mr. Percy S. Hook, Organist and Choralmaster.
Mr. J. A. Lyne, Physical Director.

9.45 a.m. Church School, all departments except the Young People's.

11 a.m. Communion Service. All members are expected at this service, and a special invitation is extended to all visitors to participate. A brief communion meditation will be directed by the minister.

7.30 p.m. Evening Worship. Sermon subject: "Nonsense that turns out to be terribly true."

Tuesday, April 12th, the Church School Board will meet in full session in the Church Parlour at 8 p.m.

Gymnasium Display and Variety Entertainment, concluding the gymnasium activities for the year will be held on Thursday, April 14th. Please see Announcement in the Announcement Column of this issue.

FIRST BAPTIST CHURCH

Rev. D. J. Rowland, Pastor.

Friday, April 8th, 8 p.m. Prayer, Praise and Brief Devotional Service, followed by the Quarterly Business Meeting of the Church.

Sunday, April 10th.
10.30 a.m., Sunday School and Bible Classes. Lesson: "How Sin Begins"—Gen. ii., 15-17; iii., 1-8.

11.30 a.m. Brief Worship Period. Subject of sermon: "The Temptation and Original Transgression of Mother Eve."

A cordial invitation is extended to any or all of our services. Come and bring a friend!

BETHEL REGULAR BAPTIST CHURCH

Richter Street, Pastor, Mr. G. Thornton.

Sunday School and Bible Classes at 10.30 a.m. Morning Worship at 11.30 a.m. Gospel Service at 7.30 p.m. Praise and prayer meeting on Wednesday, at 7.30 p.m.

B.Y.P.U. meeting on Friday, at 7.45 p.m. A cordial invitation is extended to all to come and worship with us.

CHRISTIAN SCIENCE SOCIETY

Sutherland Block, Bernard Avenue, opposite Royal Anne Hotel.

This Society is a branch of The Mother Church, the First Church of Christ Scientist, Boston, Mass. Services: Sunday, 11 a.m., Sunday School, 10 a.m.; first and third Wednesdays, Testimony Meeting, 8 p.m. Reading Room open Wednesday and Saturday afternoons, 3 to 5 p.m.

SALVATION ARMY

Sunday, April 10th, being the 103rd anniversary of the founder of the Salvation Army, the general theme of the day will have bearing upon his God-honoured life.

11 a.m., Holiness Meeting.
2.30 p.m., Company Meeting.
7.30 p.m., Brother Verex, of Rutland, will deliver the Bible message.

All are heartily invited to attend these meetings.

SEVENTH-DAY ADVENTISTS

Church services every Sabbath (Saturday) at 11.30 a.m. at Rutland. All are welcome.

FULL GOSPEL TABERNACLE

Sunday School, 2 p.m. Evangelistic Service, 7.30 p.m. Conducted in First Baptist Church.

Tuesday and Friday: Cottage Prayer Meetings. Come and enjoy these services.

E. R. SCRATCH, Acting Pastor.

FREE METHODIST CHURCH

Richter St., North.

Sunday School, 10 a.m.; preaching, 11 a.m. and 8 p.m.
Song and Praise Service, 7.15 p.m.
Wednesday Prayer Meeting, 8 p.m. All are cordially invited to attend.

Rev. C. E. Stewart, Pastor.

LUTHERAN CHURCH

Orange Hall, Bernard Ave., Wm. L. Zersen, Pastor, phone 656-R.

Regular German services, Sunday, at 10 a.m., in Kelowna; at 2 p.m., in Rutland; at 3.30 p.m., in Belcarra.

In the evening, at 7.30, there will be an English service in the Orange Hall. You are cordially invited to attend.

GUILD OF HEALTH

Matthew 6: 5-15 and 7: 7-11. Rom. 12: 1-21. Acts 12: 1-17. Luke 22: 24-46. 1. Kings 8: 22-30. Psalm 61. John 17: 1-15.

The Art of Prayer

We approach this subject with a profound belief that freedom is of the essence of prayer. The soul must be free from anything that might trammel its intercourse with God. God and man are persons who in prayer are seeking to know one another, meeting face to face. Moreover, our earlier studies in prayer have led us to care less that we should learn to talk to

with James, as the latter had all the guns and was capable of shooting him at the least sign of "squealing."

Medical testimony, given by Dr. A. H. Huycke, gave the cause of Aston's death as inflammation of the brain, caused by the bullet, which had lodged in the cerebellum.

James had nothing to say, when asked if he wished to make a statement, and the magistrate then formally committed him for trial at the next competent court of jurisdiction. Both prisoners were taken to Kamloops for safe custody.

Miss Ann Adam's Recipe for Bran Muffins

1/2 cup bran	1/4 cup sugar
1 1/4 cups flour	1/2 cup milk
1/2 teaspoon salt	1 egg
3 teaspoons Magic	1/2 cup melted shortening

Mix the bran with the sifted fine dry ingredients. Make a well in the centre and pour in the milk and well-beaten egg. With the fewest possible number of strokes, blend these ingredients and stir in the shortening. Half fill greased muffin pans and bake in a hot oven, 400° F., 15 to 20 minutes. A few chopped dates, lightly coated with some of the measured flour, may be added.

Miss Ann Adam bakes her famous Muffins with Magic Baking Powder

"When selecting ingredients for my recipes," says Miss Ann Adam, cookery authority of the Canadian Home Journal, "I consider three points—economy, health value, and successful performance."

"Magic Baking Powder meets them all. I use and approve Magic, because I know it is pure, and free from harmful ingredients, and because experience has taught me that I can count upon successful results with Magic every time."

Magic Baking Powder is used exclusively by the majority of cookery experts, dietitians, and housewives throughout Canada. In fact, Magic outsells all other baking powders combined!

FREE COOK BOOK—When you bake at home, the new Magic Cook Book will give you dozens of recipes for delicious baked foods. Write to Standard Brands Ltd., Fraser Ave. and Liberty St., Toronto, Ont.

"CONTAINS NO ALUM." This statement on every tin is your guarantee that Magic Baking Powder is free from alum or any harmful ingredient.

God than that we should learn to listen while He talks to us. But we do not find that these things make us independent of the need of "ordering" our praying, and of our preparations to pray. For we have minds and bodies to consider, as well as souls; and these minds and bodies of ours exert their own tyranny over our souls unless they are themselves put under authority. Just so far as there is need to put our thoughts and desires into harness, lest we be under the domination of what has become habitual to us, and to those whose thoughts habitually influence ours, the ordering of prayer is necessary. For in so far as we are undisciplined we are the subconscious creatures of the thoughts we were thinking yesterday, and the thoughts our contemporaries are thinking and expressing today. We cannot choose whether we will be unaffected or not by our own past and present, even when we seek to lose ourselves in God; we can only choose the directions in which we fix our attention, the windows we will throw open to reality, the doors we will leave ajar for the messengers of God.

Father criticized the sermon, mother disliked the blunders of the organist, and the eldest daughter thought the choir's singing atrocious.

The subject had to be dropped when the small boy of the family, with the school-boy's love of fair-play, chipped in with the remark: "Dad, I think it was a jolly good show for a penny."

The difference between a used car and an old pair of stockings is that the stockings will run.

EXTRA VALUE ...

In This GUTTA PERCHA TIRE At No Extra Cost

GUM CUSHIONS An Extra Value

Cushions of pure gum rubber moulded in between the plies of cord fabric, making a "bearing" that reduces friction and wear at these points as effectively as ball bearings do in machinery.

COMPARE Gutta Percha Tires with any tire—point by point—tough, long-wearing tread—wide, non-skid road surface—rubber impregnated cord fabric—go on down the list—Gutta Percha Tires have everything other good tires have—PLUS GUM CUSHIONS. There's the difference—there's where Gutta Percha Tires give you EXTRA VALUE.

In ordinary tires the battering shocks of the road are pounding away on the cord fabric until it eventually breaks down. In Gutta Percha Tires these shocks are absorbed by the broad pads of pure gum rubber built in between the layers of cord fabric. The cord fabric is shielded—its life is prolonged.

You pay no more for Gum Cushions—you get this EXTRA VALUE at no extra cost when you buy Gutta Percha Tires.

GUTTA PERCHA & RUBBER, LIMITED, Head Office, TORONTO
Branches from Coast to Coast

THE GUTTA PERCHA TIRE
The Gutta Percha Tire has the tough Resisto Tread that has proved to be a revelation in resisting road wear and giving extra mileage—another extra value.

An Interesting Accessory for You FREE
Your Gutta Percha Dealer will give you FREE a handsome, polished metal service record to remind you when to change oil, when to lubricate the chassis, when to check tires, battery, etc. Conveniently small—can be fastened in your car in a jiffy—Ask him for it!

No telephone
--- SO
he didn't get
the job

"I'm awfully sorry, Bill,"
said the manager of Blank
& Co. "If you had a
telephone yesterday we
would have given you a
steady job. We had an opening
that you might have
filled nicely. But we needed
a man right away. We
couldn't reach you by tele-
phone, so we had to call
someone else and give the
position to him."

Bill was about ready to
weep. Just two days ago he
had had his telephone taken
out because he thought he
couldn't afford it. Now he
realized that he couldn't af-
ford to be without it. He
went straight to the tele-
phone office and told them
to put his telephone back in.

**BRITAIN BUYS
CANADIAN BUTTER**

The current newsletter issued by the
Branch at Ottawa contains some very
interesting figures with respect to im-
ports of butter in the United Kingdom
for 1930 and 1931. Canada has at last
come into the picture as an exporter of
butter to the extent of 8,656,900 lbs., or
0.96 per cent for 1931. While this in-
dicates a healthy movement in the di-
rection of developing export trade, it
means very little compared with the
possibilities present, as shown by the
fact that imports of butter for 1931
totalled within 15 tons of 904,000,000
lbs., an increase of some 149,000,000 lbs.
over the preceding year 1930. These
figures show that the Old Country is
importing a steadily increasing vol-
ume of butter; they also give a fine in-
dication of the potential market for
Canadian export butter.

**THE KELOWNA COURIER
AND
Okanagan Orchardist.**

Owned and Edited by
G. C. ROSE

SUBSCRIPTION RATES
(Strictly in Advance)
To all points in Canada, outside the Okan-
agan Valley, and to Great Britain, \$2.50 per
year. To the United States and other coun-
tries, \$3.00 per year.
Local rate, for Okanagan Valley only:
One year, \$2.00; six months, \$1.25.

The COURIER does not necessarily endorse
the sentiments of any contributed article.
To ensure acceptance, all manuscripts should be
legibly written on one side of the paper only.
Typewritten copy is preferred.
Amateur poetry is not published.
Letters to the editor will not be accept-
ed for publication over a "Zoom 40
plane", the writer's correct name must
be appended.

Contributed matter received after
Tuesday night may not be published
until the following week.

ADVERTISING RATES
Contract advertisers will please note that their
contracts call for delivery of all changes of
advertisement to The Courier Office by Mon-
day night. This rule is in the mutual inter-
est of patrons and publishers, to avoid con-
gestion on Wednesday and Thursday and
consequent night work, and to facilitate pub-
lication of The Courier on time. Changes of
contract advertisements will be accepted on
Tuesday as an accommodation to an adver-
tiser confronted with an emergency, but on
no account on Wednesday for the following
day's issue.
Transient and Contract Advertisements—Rates
quoted on application.
Legal and Municipal Advertising—First inser-
tion, 15 cents per line, each subsequent inser-
tion, 10 cents per line.
Classified Advertisements—Such as For Sale,
Lost, Found, Wanted, etc., under the heading
of "Miscellaneous", 15 cents per line, each
additional insertion, without change
of matter, 10 cents per line. Minimum charge
per week, 50 cents. Count five words to
line.
Each initial and group of not more than five
figures counts as a word.
If so desired, advertisers may have copies
addressed to a box number, care of The
Courier, and forwarded to their private ad-
dress, or delivered on call at office. For this
service, add 10 cents to cover postage or
filling.

THURSDAY, APRIL 7th, 1932

**A FINAL
WORD**

The daylight saving question has finally
evolved a flock of letters to the
editor, but all save one are in support
of the innovation, so that it is difficult
to gauge the strength of the opposition,
but the advocates of the change of time
are taking no chances in disregarding
it and will continue their work up to
the day of polling on the plebiscite,
Thursday next.
On the principle of the greatest good
to the greatest number, there is really
no valid argument against daylight sav-
ing. Undoubtedly there will be individ-
ual cases of inconvenience, but it is im-
possible to invent any of the many arti-
ficial restrictions upon human liberty
with which present day civilization abounds
without inflicting hardship upon a
few individuals.
To those who argue that there should
be no interference with the established
time, it may be pointed out that, with
five time zones across the width of
Canada, there is bound to be an arbitrary
difference between the times observ-
ed by neighbouring points. For in-
stance, Golden is only 35 miles west of
Field, yet there is an hour's difference
in time, as Mountain time begins at
the latter point. There is no shading
off in the differences of times at the
boundaries of these zones; simply an
abrupt jump of one hour, quite differ-
ent from the gradual change of astro-
nomical time according to longitude.
A simple solution would be for the
two great railway systems to operate
their summer time-tables throughout
the province on Mountain time, revert-
ing to Pacific time west of Field for
the other half of the year, and if they
could be induced to bring about this
change, daylight saving would be set-
tled without argument. Railway com-
panies, however, are slow to adopt in-
novations at the suggestion of other
than their own officials, and it may
take a long time to bring them round
to such an arrangement. Meantime,
Kelowna has a good chance to test out
daylight saving and ascertain its bene-
fits and its drawbacks, if any, by decid-
ing in its favour next Thursday, so it
is hoped that a fully representative vote
will be polled.
A very strong and practical argu-
ment on behalf of advancing time for
the summer months is that put forward
in this issue by Mr. L. R. Stephens, of
Sales Service, Ltd., which may cause
producers to regard it with more fa-
vour, as every little bit of aid to market-
ing the produce of the valley will count
for much this year.
The ballot next Thursday will ask
you: "Are you in favour of daylight
saving being in effect in the City of
Kelowna from May 1st, 1932, to Au-
gust 31st, 1932?" with spaces marked
"Yes" and "No." Mark an X opposite
YES.

Put your faith in the plodder rather
than the plottor.

PROMISING JACKPOT

A minister told his flock that he had
a "call" to go to another church. "One
of the deacons asked how much more
he was offered."
"Three hundred dollars," was the
reply.
"Well I don't blame you for going,"
remarked the deacon, "but you should
be more exact in your language; par-
son. That isn't a 'call,' that's a 'raise'."
—Boston Transcript.

ORCHARD RUN

By R. M. R.

ADVANCING THE TIME

Arguments pro and con daylight sav-
ing are contained in this issue in letters
to the editor, and the ground has
already been pretty well covered in the
editorial columns of this g.f.j. I have
been asked to express my humble op-
inion, and I will do it with brevity be-
coming a columnianic.

Opponents of the scheme take the
view that daylight saving is impractic-
able and unworkable in one lone town
in the valley. Because Vernon, Pentic-
ton and Kamloops did not look kindly
upon the Kelowna proposal many of
the original hopefuls experienced a
chilly sensation in the bottoms of their
feet. If other centres did not want the
time advanced during the summer
months then, they conceded, the Or-
chard City must have made a grievous
error. And those who continue to
think so are hastening to cover up
their confusion and show lack of cour-
age in their convictions.

Some one has said that "art is long,
time is fleeting." In this case, let us
substitute the word "work" for "art."
The well-balanced life calls for a cer-
tain amount of recreation, and in nine
cases out of ten the man who is given
time for play is a better workman than
the individual with his nose so close
to the grindstone he can not see be-
yond it. The daylight hours are re-
quired for the right kind of recreation,
so why not change the order of things
to make it possible to utilize more of
them? If it makes little difference to
you, think of the store clerks and of-
fice workers who are compelled to
spend most of the daylight hours under
cover. Don't you honestly think they
would be happier and more efficient
if they had more time to play a game
of golf, tennis, soft ball or baseball
after work—an extra hour in the gar-
den, with the children, or for an invig-
orating walk in the cool of the even-
ing?

As for rising in the morning, we do
that by the clock. Suppose, as you sit
reading tonight, your wife sets the
time ahead an hour. After a while you
yawn and look at the timepiece. It is
a little later than you thought. You
go to bed, get up the next morning by
the advanced time—and do not dis-
cover the trick your wife has played
until you get down town.

Daylight saving time works as easy
as that. Let's go to the polls and put
it over next Thursday.

SUMMER DAZE

The salubrious sunshine of approach-
ing summer, which we saw, felt and ad-
mired on April 1st (looks ominous
coming on All Fools' Day!), alterna-
tely bucked us up and put us down
in the dumps, to spika da English as
she is spoke. Violet ray (not my sister)
was welcomed with open arms if not
bare backs, and faith was at once re-
stored in our Okanagan climate, where
the sun is reputed to shine 365 days of
the year, if not more.

But spring sunshine has its draw-
backs. Things that looked clean in the
dull days are shown up in their true
and unwashed state by the searching
rays of Old Sol. You sigh and start
housecleaning earlier than you expect-
ed.

Then you next discover that blue-
suitsitis is back again. The togs looked
pretty smart until the merciless sun
made your blue pants shine like an un-
powdered nose. So you go out and get
yourself a new suit and try to keep
away from the liquid vendors often en-
ough to pay for it.

To fully enjoy yourself, you decide
that you need a new car, a speed boat,
a new golfing outfit, a new bank ac-
count and maybe a new girl. The first
hint of the summer's sun starts you
planning ambitiously for all these
things, but when the scorching days
come you are too hot and lazy to put
your plans into effect.

Which, in view of this depressing de-
pression, is just as well.

A TEARFUL TALKIE

The pathos of "Over The Hill," cry-
ing celluloid of the week-end, over-
flowed with Hollywood tears, and on
Friday night, when I sat through the
flicker, I debated the matter with my-
self of blubbering on the shoulder of
my pal Weary. But heartrending
sobs at left, right, rear and front stayed
the impulse. I decided that it would
be of little advantage to help float the
theatre to a new location.

The prancing pictures take up a cer-
tain theme and stick to it with bulldog
tenacity. We get a surfeit of murder,
of gangster gasps, of heavy drama,
of very light love—and the cycle is com-
pleted with the old and reliable tears.
I can thrill to cruel and bloody murder,
rejoice in gangster feuds, respond sen-
timentally to sticky love scenes, but the
bawties rile me. Unlike the ladies, I

A WEAK ARGUMENT

Some of the Interior newspapers have been copying an article from the Lichfield Diocesan Magazine, which purports to show us the fallacy of suffering the evil of charity sweepstakes. Some one has wasted a lot of time in compiling facts and figures relative to the Irish sweepstakes to tell us something we already know—that a large part of the receipts go to the promoters and is paid in prizes, the hospitals getting the remainder. We are told, too, that sweeps discourage endowments.

The figures argue for, rather than against sweepstakes for hospitals. In a few years Irish hospitals will be the most richly endowed medical institutions in the world. If they had depended upon voluntary donations, as our own hospitals are doing, they would probably be just as hard up as British Columbia institutions. The unalterable fact is, and we have got to face it, that Canadians will send their money abroad if they are not allowed to gamble at home. Foreign promoters and foreign hospitals, apart from the comparatively small prizes that come back to Canada, will get our money.

Why, in the name of much abused common sense, shouldn't we keep as much of that money as possible at home? Frankly, we are not worried how big a slice goes to the promoters so long as the hospitals get a share and the individual ticketholder stands a sporting chance of sharing in the distribution of prizes. In the element of chance lies the huge success of the scheme. If you won't donate you will speculate on luck.

Any one with a moral argument against sweepstakes—and there may be a moral argument—should keep away from figures.

BAD DREAMS

Imagine a newspaper man, in a cold sober state, trying to face this awful situation: Everybody is satisfied with the B. C. government—there are no complaints, no letters to the editor, no fat, succulent news items, no derogatory or eulogistic editorials; Bad Man Bagley is captured without the firing of a single shot, and he confesses that he is gentle as a child at heart; it develops that the Lindbergh baby was not kidnapped after all—it was simply on a round-the-world solo flight in a glider; de Valera is, it transpires, an Empire Loyalist; neither China or Japan want Manchuria anyway—they were simply becoming overpopulated; the five per cent increase in booze prices turns out to be a decrease; summer comes, and so on.

Oh, well—
The curfew tolls and off I go
To sleep and to my pictures,
They pass my eyes an endless show
And, man, such awful mixtures—
Mixtures, mixtures, none are fix-
tures,
As they come and go.
Thank the good Lord for that!

OVERHEARD
Divine: "The best thing in the world is a good conscience."
Legal light: "And the next best thing is a good lawyer."

OKANAGAN MISSION

The card party arranged by the Women's Institute for Thursday night last passed off very successfully. Twelve tables were occupied by bridge players and three for whist. A novel and very welcome feature was the presence of quite a good number of young people. The fact that the party was held during their Easter holidays made this possible.

Mr. Hall, as ever, made a most capable Master of Ceremonies. The prizes were presented by Mrs. M. E. Cameron (of Kelowna) and were awarded as follows:
For Bridge: Lady's prize, Mrs. Seel-ey; gentlemen's prize, Master Brian Bell; lady's booby prize, Mrs. Pare; gentlemen's booby prize, Mr. W. H. Rennie.
For Whist: Lady's prize Mrs. Carl Olson; gentlemen's prize, Mr. A. Girard; lady's booby prize, Mrs. Ivens; gentlemen's booby prize, Mr. E. Luckett.

On Friday evening the last meeting for the season of the Farmers' and Taxpayers' Association was held. There was a good attendance so far as men were concerned. Probably Thursday night's festivity accounted for the absence of the ladies of the community. Their absence is to be regretted on account of the very interesting addresses which they missed.

The first matter to be considered was the future (if any) of the Luckett Flume. Mr. Fuller was present and pointed out that the existing arrangement required payment of the full amount required for building the flume before work is begun. To date about 75 per cent has been paid in. The meeting resolved that, unless the balance is secured by April 30, the project is to be abandoned, and payments refunded to the donors.

Mr. Ivens, as Poundkeeper, then called attention to the present position with regard to the Pound. Mr. Thorneloe is willing to rent this at a small figure until he sells his property, but there is no security of tenure.

LAKESHORE HOME FOR SALE

Situated at Okanagan Mission on a beautiful lakeshore lot with natural birch and willow trees and lovely gardens. This house has been built only four years and is fully modern in every respect. The whole property is offered for less than the actual cost of the house and presents a rare opportunity to acquire lake frontage.

For details of this offer inquire from—
McTAVISH & WHILLIS, LIMITED
PHONE 217 REAL ESTATE & INSURANCE
HOSPITAL EGG WEEK — APRIL 4th to APRIL 9th

The members are unwilling to abandon their rights as a Pound District, and it was decided to pay the required rent for the Pound for this year.

Information has been received from the road authorities as to the steps necessary to secure the opening and proper maintenance of a road to serve residents such as Messrs. Raymer, J. Luckett and Girard. Mr. Raymer undertook to make the necessary application, and the request form was signed by all those present to endorse the application.

Mr. Ramsay gave a short and encouraging report of progress being made by the winery. Machinery is now being installed.

Mr. Owen Jones, of Kelowna, then addressed the meeting, speaking of the present condition of unemployment, depression and general unsettlement, and calling on all to take their full share in helping to inaugurate a new and better age, reminding his hearers that this required that everyone should care not only for his own well-being, but equally for that of his fellows.

Mr. Robinson, of Kelowna Growers' Exchange, followed with a short and practical account of the methods employed at present in the packing and storing of apples, and with some remarks on the prospects for the coming season.

Then Mr. Godfrey-Isaacs, of Oyama, explained to the meeting the proposals, or suggestions, which he has recently advocated for the efficient and profitable conduct of the whole of the fruit business, as it concerns both grower and shipper. Mr. Isaacs deprecated the title of "the Isaacs plan," saying that he offered suggestions but that the working out of details was yet to be done. Like Mr. Jones, he emphasized the need for a broader and more generous outlook on the part of individuals, as essential for the well-being of the

whole number engaged in this business. Mr. Isaacs answered various questions at the close of his address, and it was evident that those present were very favourably impressed by his proposals.

The Women's Institute enjoyed a full and varied programme at their monthly meeting at Mrs. Hall's, on Tuesday afternoon. Those interested in gardening received a generous share of flower seeds given by Summerland Experimental Station. Mrs. Grindon gave a practical and helpful talk on Home Nursing, and, after tea, Mrs. Ford made all mouths water as she manufactured the most delectable looking (and tasting) chocolates.

Saw Mill Creek is running again, and a gang is at work clearing out the creek mouth on Mr. Collett's property.

Mrs. M. E. Cameron is visiting Mrs. Francis for a few days.

Miss Owen spent part of her holidays in Vancouver, and was in Vernon for a day or two at the end of the week.

Mr. and Mrs. Surtees and John paid a short visit to Mr. and Mrs. Agur at Summerland last week.

CLOTHES MAKE A BUM

"Please ma'am, could you spare me an old coat?"
"But, my good man, the one you are wearing is nearly new."
"I know, ma'am, but it's this coat that's ruining my profession."—Answers.

BIRTH

DeMARA—To the wife of C. M. DeMara, on Friday, April 1st, at the Kelowna General Hospital, a son. 35-1c

WESTBANK

Mr. Douglas Gordon has bought the late Mr. W. Ball's house and lots.

Mr. and Mrs. F. A. Dobbin and family have moved out to their Shanton Lake ranch for the summer months.

Mrs. J. L. Dobbin is still making good progress at Kelowna Hospital.

Messrs. L. Hitcher and son have put in a lot of hard work on the Hayman lot and have planted onions and other vegetables. Mr. Mittermaier has also finished his seeding and Mr. Gates is busy preparing his land. There should be a good harvest on the lake shore lots this year, and it is hoped that the farmers will get some return for all the work and money put into this land.

On Saturday night, when Mr. Allen Gates was delivering some flour from Kelowna to a house on the Stevens lands, he found a lot of intoxicated Indians breaking in a house where four girls live. Mr. Gates, with three men, was just in time to drive the Indians off.

Mr. James Wansborough, who spent the winter with the Parkers, had a bad accident last Friday. While out walking at Peachland, he was knocked down by a car. He was rushed to Kelowna Hospital, where it was found that his ankle was broken and he had a cut on his temple. For two days he was in a serious condition, but is now improving slowly.

Miss Grace Hill, V.O.N., arrived from Calgary on Monday to take over Nurse Barton's district.

Mr. J. U. Gellatly, the nut specialist, returned from the Coast last week, where he had spent six weeks travelling on his nut nursery business.

Miss Kathleen Drought left for the Coast on Friday, where she has gone to spend some months.

Mr. Jack Garraway arrived back on Sunday from a month's visit to relatives in Saskatchewan.

On Wednesday night the Summerland basketball team played the Westbank boys in the Community Hall. It was a very good game and it was good to see the Westbank boys win with a score of 66 to 52. It was the first time that the Westbank boys have beaten Summerland.

The Basketball Club finished their season on Monday night, ending with a general meeting. It was decided to have a free dance with local music on Friday week, if the hall is not engaged. It is hoped that all the teams that have visited Westbank will be able to come and enjoy a good dance.

On Tuesday night the Men's Bridge Club played the Women's Club in the Community Hall, the ladies entertaining this time and providing a very nice supper. The result was 2,700 in favour of the men.

A jolly "hard times" masquerade was held in the Community Hall on Thursday evening, the T. T. Q. Girls being the hostesses. The costumes were very good and the judges, who were some visitors from Peachland, had quite a time deciding on the winners of the prizes. Miss Charlotte Brown, how-

Local and Personal

This is Hospital Egg Week. Mrs. H. L. A. Keller left yesterday for Kingston, Ontario.

Mrs. John Burnham returned on Friday from a trip to Vancouver.

The Kelowna Club was the scene last night of an enjoyable smoker, many members attending the function.

Mr. Arthur B. Godfrey, Manager of the Okanagan Telephone Company, Vernon, was a visitor to the city on Tuesday.

Mr. J. Logie, of the Kelowna High School staff, who spent the Easter holidays in Vancouver, returned to the city on Sunday.

Mr. D. Chapman, chairman of the Board of School Trustees, returned this week from a trip to the Coast in connection with school business.

Mrs. H. F. Chapin, Miss Marie Chapin and Malcolm Chapin returned on Sunday from a motor trip to Vancouver, where they spent a week.

The weather continues to be "juicy" but growth is slow and higher temperatures must come before gardens and fields show a springlike appearance.

Mrs. E. Miller, who had been visiting her daughter, Mrs. W. E. Adams, Abbott Street, left on Tuesday by Canadian Pacific for her home in Hanover, Ontario.

Miss Audrey L. MacLeod, of the teaching staff of the Kelowna schools, spent the Easter holidays with her parents, Rev. and Mrs. A. W. MacLeod, of Penticon.

Commander M. Golden, of Vancouver, arrived in the city this week to join his wife and two children, who are visiting in the city, guests of the Royal Anne Hotel.

Mr. and Mrs. W. H. McDougall left on Saturday for England, where they expect to spend three or four months. They will sail on the "s.s. Duchess of Atholl."

"Rusty" Martin, young son of Mr. and Mrs. F. A. Martin, is in Kelowna Hospital with a broken ankle. The fracture occurred this week at the United Church Gymnasium.

The marriage of Miss Margaret Turnbull to Mr. Ephraim Arthur Day, both of this city, was quietly performed on Thursday last at The Manse, Vernon, Rev. Dr. Jenkin H. Davies officiating.

For stealing a windshield from an automobile, two local youths were arraigned in the City Police Court on Tuesday morning, when fines of \$10 each were imposed by Magistrate T. F. McWilliams.

Mr. George Felker, a former Kelownian and well-known in valley sports circles, was married to Miss Teresa Nagle in Penticon on Wednesday of last week. The popular young couple will reside in Penticon.

Dr. L. R. Shier, Mrs. Shier and daughter, of The Pas, Manitoba, who had been visiting Dr. Shier's parents, Mr. and Mrs. J. A. Shier, Ethel Street, returned east this week by Canadian National. Their destination is Fort Churchill.

Mrs. Joseph Wallace, mother of Mrs. Ralph Fitzpatrick, of Rutland, passed away suddenly on Monday, March 28th, at the home of her son, Clark Wallace, in the Cranbrook district, where she had resided for thirty-two years. Besides her husband, with whom she had been looking forward to the celebration of their golden wedding anniversary next year, the late Mrs. Wallace is survived by six daughters and two sons.

Questions relative to conditions in Australia were fired in rapid succession at Mr. N. D. McTavish, who returned last week from "down under," at the regular weekly luncheon of the Rotary Club in the Royal Anne Hotel on Tuesday, and Rotarian McTavish was kept busy answering the many queries. Guests attending this interesting luncheon were Rotarian E. H. Harkness, of Vernon, and Mr. A. A. Smart, of Toronto.

LADY BESSBOROUGH REACHES ENGLAND

Lady Bessborough, wife of the Governor-General of Canada, is shown here upon her arrival in Liverpool aboard the Montclare on her first visit to England since Lord Bessborough's appointment. With her is Miss F. Fuller, lady-in-waiting.

MARRIAGE

Renfrew—Crichton

St. Michael & All Angels' Church was the scene of a wedding of interest to many in the valley on Tuesday, at 2 p.m., when Patricia Louise, daughter of Mr. and Mrs. A. H. Crichton, of Okanagan Mission, was united in marriage to Mr. Clifford Gordon Piddington Renfrew, son of Mrs. G. C. Renfrew, of Okanagan Mission, and the late Mr. G. C. Renfrew. The marriage was solemnized in the presence of relatives and friends by Ven. Archdeacon Greene.

The bride, who looked charming in her wedding gown, was attended by her sister, Miss Madge Crichton. The groom was supported by Mr. Nigel Pooley.

Mr. George Wilson, Mr. Peter Loyd and Mr. Michael Reid acted as ushers. Immediately after the ceremony a reception was held at the home of Mrs. G. C. Renfrew.

The happy young couple left on the 3 o'clock ferry by motor car to spend the honeymoon in the south.

Mrs. Robert Cheyne left on Saturday by Canadian Pacific for the Old Country. She will sail from Montreal on the "Duchess of Bedford" on April 15th.

The annual general meeting of the Kelowna Aquatic Association was held in the Royal Anne Hotel at noon today, a report of which will be published next week.

A Daffodil Tea and sale of home cooking was held in the United Church Hall on Saturday afternoon under the auspices of the Glenn Avenue Circle of the Ladies' Aid.

A meeting of ratepayers will be held in the I.O.O.F. Temple tonight, at 8 o'clock, to adopt a constitution and elect officers for the Kelowna and District Ratepayers' Association.

Capt. J. R. Mitchell, of Penticon, was a visitor to town yesterday by car. He reported the condition of the west-side road as fairly good, although somewhat rough in a few places, necessitating careful driving.

An extraordinary general meeting of Okanagan Broadcasters Limited was held in the Board of Trade Room on Monday, when the following were appointed Directors: Messrs. Charles Clark and H. B. Monk, of Vernon; Messrs. J. W. B. Browne, Charles Shayler and E. W. Barton, of Kelowna. The Kelowna broadcasting station CKOV is now owned and controlled by a public company.

The business of the M. Turnbull Dairy on Water Street was taken over on Friday, April 1st, by Mr. G. D. Cameron, who will operate under the name of the Guisachan Farm Dairy. As the high testing Grade A Guernsey milk that has been sold in the past came from the Guisachan Farm, the public will be assured of the same high quality product. Kelowna Creamery butter and strictly local products are being handled by the Guisachan Farm Dairy, whose announcement appears elsewhere in this issue.

FARM HORSES COME BACK

The present low price of oats and other feeds in contrast with the higher costs of gas and oil required in tractor operation combine, as the Dominion Animal Husbandman suggests, to indicate that the horse is rapidly regaining favour as a medium of farm power. He predicts that the next few years will see a revival in horse breeding and the use of heavy draft horses on the farms of Canada, both east and west. As he points out, under present conditions horses can be bred and reared cheaply and when they have reached working age, the charges for depreciation, fuel and repairs are surprisingly low, for the self-oiling engine has nothing whatever on the self-repairing heavy draft horse.

LETTERS TO THE EDITOR

ADVANCED TIME AID TO MARKETING CROPS

Kelowna, B.C., April 5th, 1932.

To The Editor, Kelowna Courier.

Dear Sir, Everyone will admit that the prosperity of the people of the Okanagan Valley generally rests upon the successful marketing of their fruit crops, and no stone should be left unturned to eliminate anything that tends towards inefficiency in any way.

Our markets are practically all to the east of us and every one of these markets is at least one hour ahead of us in standard time. Winnipeg is two hours ahead and Montreal and Toronto three hours ahead of us. We are anxious to do business with these markets but, operating on standard time, we arrive at our place of business (this end of the telegraph or telephone wire) one hour, two hours or three hours behind our customers. A nightletter sent to Kelowna from a buyer in Winnipeg reaches us at 8 a.m. Pacific Standard Time, but that is 10 o'clock in Winnipeg and two valuable morning hours have been wasted. A quick reply will, under normal circumstances, reach Winnipeg by 11 o'clock, which means a loss of three hours time, and in case Winnipeg is operating on Daylight Saving Time, it is midway before even a fast reply would ordinarily reach them. If all packing houses in the Valley were to operate on fast time, assembly could be made one hour earlier and thus leave one extra hour by which to make connections with mainline trains operating on Standard Time.

Let us put ourselves in position to more nearly meet the wishes of our customers by operating on Daylight Saving Time.

The failure of other towns in the Valley to adopt fast time could not possibly result in any real disadvantage to Kelowna. At least for every disadvantage which might occur there would be a corresponding benefit.

Yours very truly,

L. R. STEPHENS.

FIELD FORCE OF BEES COUNTS

C. B. Gooderham, Dominion Apiarist for the Department of Agriculture at Ottawa, calls attention to an important phase of honey production in the following statement: "The amount of honey which a colony can gather is largely dependent upon the number of bees that colony can release for field work during the period of the honey flow and upon the ability of the beekeeper to keep this force contentedly working. The total number of bees within the colony is not a reliable index as to its ability to gather honey, because it is only those bees that are above a definite age that are effective as nectar gatherers, and it is the number of bees in this force that counts in the production of surplus honey and, furthermore, the strength of this force is dependent upon the care given the colony during the previous eleven months and not upon spring management alone, as so many beekeepers fondly hope."

The Peachland community has lost three residents through death during the past week or two. Miss Minnie Smith, aged 74, a pioneer of Peachland, died on Easter Sunday while eating breakfast; John Williamson, aged 60, dropped dead from a heart attack on Saturday 26th, while at work in his orchard; and Frank Wrightson, of Trepur, aged 68, passed away on March 24th.

A wishbone is useless without a backbone.

KELOWNA LAWN TENNIS CLUB

NEW MEMBERS

will be admitted without payment of entrance fee this season.

IN THE MATTER OF THE PARTNERSHIP ACT

AND IN THE MATTER OF THE PARTNERSHIP LATELY CARRIED ON BY WILLIAM JOHN KNOX AND GORDON LOTHIAN CAMPBELL, DISSOLVED.

TO ALL DEBTORS OF THIS PARTNERSHIP:

Take notice that all accounts due the above Partnership in respect of services rendered by Dr. W. J. Knox and the late Dr. G. L. Campbell must be paid to me forthwith, or some arrangement made for future settlement. Under the terms of my appointment as Liquidator, I will have to take account to collect all accounts not paid or arranged for after a reasonable time from the date hereof.

All persons owing accounts to the above Partnership are therefore requested to make payment or other arrangements promptly following publication of this notice.

R. GEO. RUTHERFORD, Liquidator. Dated at Kelowna, B. C., this 31st day of March, 1932. 34-2c

GLENMORE IRRIGATION DISTRICT

Annual General Meeting

The Annual General Meeting will be held in the Glenmore Schoolhouse, on April 15th, 1932, at 8 p.m.

Notice of Election

Nominations for one Trustee of Glenmore Irrigation District will be received by the Returning Officer in the Board Room of the District, on April 16th, 1932, between the hours of 2 and 3 p.m.

Court of Revision

A Court of Revision of the 8th Assessment Roll of Glenmore Irrigation District, will sit in the Board Room of the District, on April 16th, 1932, at 2 p.m.

W. R. REED, Secretary to the Trustees. 35-2c

GLENMORE

Mrs. W. R. Hicks, who had been a patient at the Kelowna Hospital, returned home on Wednesday. We trust she will soon be quite well again.

A stitch in time saves embarrassing exposure.

BLACK MOUNTAIN IRRIGATION DISTRICT

Notice Of Election

In accordance with the provisions of the Water Act, the following resolutions have been passed by the Trustees, namely:—

"Resolved that J. R. Beale, Secretary, of Rutland, B. C., be the Returning Officer for the election to be held on Thursday, April 21st, 1932. "Resolved that the Returning Officer shall attend at the District Office, Rutland, B. C., between the hours of 10 a.m. and noon on Thursday, April 21st, 1932, for the purpose of receiving nominations and electing two Trustees for the term of three years, and that a poll, should such be necessary, be held at the District Office, Rutland, B. C., from 10 a.m. until 4 p.m. on Thursday, April 28th, 1932."

Nominations shall conform with the requirements of Schedule "B" of the Water Act, a copy of which may be seen at the District Office, Rutland, B. C.

J. R. BEALE, Returning Officer. Rutland, B. C., April 4th, 1932. 35-2c

BLACK MOUNTAIN IRRIGATION DISTRICT

Notice Of General Meeting

Notice is hereby given that the Annual General Meeting of the electors of the Black Mountain Irrigation District will be held in the Community Hall, Rutland, B. C., on Thursday, April 14th, 1932, at 8 p.m., for the following purposes, namely:—

(a)—To receive from the Trustees any matter in office a report on the condition of the works and a statement of the financial condition of the District.

(b)—To discuss with the Trustees any matter relating to the works or the finances of the District.

(c)—To fix the remuneration of the Trustees for the ensuing year. Dated at Rutland, B. C., this 4th day of April, 1932.

C. R. BULL, F. H. CASORSO, A. E. A. HARRISON, A. C. LOOSEMORE, A. McMURRAY, Trustees. 35-1c

SOUTH EAST KELOWNA IRRIGATION DISTRICT

NOTICE

In accordance with the provisions of the "Water Act," an election for two trustees will be held on the 15th day of April, A.D. 1932.

The following resolutions were passed at the meeting of the Trustees held on the 23rd March, A.D. 1932, viz:—

Resolved that Harry B. Everard, Secretary, Kelowna, B.C., be the Returning Officer for the forthcoming elections to be held on the 15th day of April, A.D. 1932.

Resolved that the Returning Officer attend at the District Office, McLaren Block, Kelowna, B.C., between the hours of 10 a.m. and noon on Friday, the 15th day of April, A.D. 1932, for the purpose of receiving nominations, and electing two trustees, for a term of three years, and a poll, should such be required, to be held in the Community Hall, East Kelowna, B.C., on Saturday, the 23rd April, A.D. 1932, from the hour of 10 a.m. until 3 p.m.

Every candidate for election to serve as Trustee shall be nominated in writing; and the writing shall be subscribed by two voters of the District, as proposer and seconder, and signed by their nominee, and shall be delivered to the Returning Officer at any time before noon on the 15th April, A.D. 1932, and shall otherwise conform to the requirements of the "Water Act."

HARRY B. EVERARD, Returning Officer. Kelowna, B.C., March 29th, 1932. 34-2c

HAVE YOUR SEED GRADED

CERTIFIED SEED

The Seed Branch of the Dominion Department of Agriculture calls attention to the facilities which are available throughout Canada for the inspection and grading of seeds, more particularly alfalfa, clover and grass seed. In every district where these seeds are grown there is a Seed Branch inspector who inspects seed offered for sale for seeding purposes and furnishes information relating to cleaning and grading of seed, and, under some circumstances, performs grading himself. Seed of course must be properly cleaned to remove the weed seeds and dirt before submitting it to the inspector for grading. In a large number of localities this could be done best perhaps at the local power cleaning plant designed for small seeds and which operates at a reasonable cost for the service performed. Where such is not available, however, the hand mill on the farm, when equipped with suitable screens, should do reasonably well, provided the seed does not contain certain weed seeds that require special equipment for their removal. Seed of the latter type should not be sold locally, but to a seedsmen who has the special equipment for cleaning to marketable quality, or for export.

Where there's a will there's usually a contestant.

Field inspection of seed crops for certification in Canada results in the placing on the market of many thousands of bushels of seed of a quality superior to the commercial No. 1 grade. Services of this kind are rendered by Dominion Seed Branch inspectors in connection with a wide range of seed crops. With cereals and corn, inspection is made of the standing crop to determine purity of variety; with red clover, type, hardness and freedom from bladder campion; with alfalfa and sweet clover, origin and type; with alsike, origin and freedom from bladder campion; with timothy, origin and freedom from ox-eye daisy; with brome and western rye grass, origin and freedom from couch grass, and with crested wheat grass, origin and purity. Certified seed, after cleaning, is graded, tagged and sealed by government inspectors. The seed inspection certificate tag attached bears the certification as to the origin, grade and quality of the seed. The three prairie provinces provide the bulk of certified seed of cereals, flax and grasses: Manitoba and Ontario, the greater part of the certified seed of clovers, while most of the certified seed corn is of Ontario production.

Canada has had no bank failures since August, 1923.

LETTERS TO THE EDITOR

DAYLIGHT SAVING

Kelowna, B.C., April 4, 1932.

The Editor, Kelowna Courier, Dear Sir,

Noting your editorial on "Daylight Saving" in last week's issue, I heartily agree with your last proposal, that the stores should open at 7 a.m. and close at 5 p.m., that is, if the majority are in favour of such a measure.

But the plebiscite on the question will be emphatically unfair unless it includes the outlying districts. The farmers ought certainly to have their say in a matter that affects them as much as it does the citizens.

Every voter should consider this and other points as follows: Will there not be much confusion with boats, trains, mail and post-office running on standard time?

Can the schools legally adopt the new time, as it was turned down in the Legislature?

How will it affect the working classes? These people start work at 7 a.m. and get up at 6 a.m. to do it. This would be 5 a.m. new time, necessitating their retiring at 9 p.m. while it is still hot, or in the case of an engineer, put these times another hour earlier.

Could not the sports interests manage to get their extra daylight, without interfering with the convenience of the farmers and workers, by some early closing arrangement, or perhaps better still, by enjoying the lovely early hours, say from 6 to 8 a.m. for tennis, golf and so forth while it is really cool, and they are not tired out with the day's labours?

But the most important point of all is this: if, as it would appear, the plebiscite is for the municipality of Kelowna only, the measure will, if passed, entail a very great deal of confusion for residents of the outlying districts.

If, on the other hand, we expect them to come in with us on this, it is undeniable that they, too, are absolutely entitled to vote on the question.

The privilege to vote should be extended to residents within a radius of 15 miles of Kelowna.

Thanking you, Sir, for the space you have accorded me, I am,

Yours truly,
S. M. GORE.

Kelowna, B.C., April 5th, 1932.

The Editor, Kelowna Courier.

Dear Sir, It is with interest I have followed the progress and work of the Voluntary Daylight Saving Committee in your valuable paper. In my opinion this committee is doing a wonderful work in bringing this important subject before the people of this city for an expression of opinion.

Kelowna has always been a leader in progressiveness, and as such is recognized as one of the leading towns in the province. Let us again take the lead by securing advanced time during the months of May, June, July and August as advocated by the Committee. The Councils and Boards of Trade in the other Okanagan towns have been scared by the old bogey that mothers of children as well as farmers are hostile to any such change of time, and thus thinking have side-tracked any further discussion of the subject. They have failed to take into consideration the fact that people of today are not controlled by old prejudices, but are quick to grasp anything that pertains to more freedom, more enjoyment in life and greater health. There are but few people in this enlightened age who have not a hobby of some kind, be it motor-ing, golf, gardening, fishing or other form of pleasant recreation, and all would find a distinct benefit in daylight saving.

European countries have seen the advantage of the war-time measure of saving precious daylight, and now the great majority of them have adopted it permanently. Eastern Canada and the Eastern States are also largely on advanced time, and when such old conservative countries, provinces and states can see the wonderful advantages to be obtained by so doing, it is strange to think that in our aggressive Okanagan we should hesitate to undertake anything so worth-while.

Some people argue that they are early risers, and that others desiring more daylight should practice this early morning enthusiasm. This is all very well, lots of the advocates of daylight saving are early risers too, but they realize that, no matter how early one gets up in the morning, it is impossible to lengthen the evenings under our present system of time. Organized recreation in the early morning isn't practical, and we have yet to hear of the family who make a practice of loading up the old Lizzie for picnic breakfasts. We even doubt if our welcome would be cordial if we inflicted social calls on our friends at six o'clock in the morning!

Come on, Kelowna, let every man and woman on Thursday, April 14th,

BIG DEEPENING PROJECT

With a treaty about to be signed between Canada and the United States for the completion of the deep waterway to the sea, the U.S. government wishes to deepen all the channels between the upper lakes at a cost of 26 million dollars. The principal work would be in the Livingstone channel near Amherstburg, three-quarters of which is on the Canadian side of the boundary, as shown in the accompanying map. The United States has stood the entire cost of work previously done there and is asking Canada for permission to do more. While work is proceeding on the Livingstone channel the Amherstburg channel, which is wholly on Canadian territory, will have to be used by shipping.

register a vote for progressiveness and health by marking a ballot in favour of DAYLIGHT SAVING.

Thanking you, Mr. Editor, I am,

Yours very truly,
W. W. PETTIGREW.

Kelowna, B.C., April 5th, 1932.

The Editor, Kelowna Courier.

Dear Sir, During the past few days there has been some discussion with regard to 5.30 closing as a substitute for daylight saving. If, however, one sits down and musters the various points for and against, the arguments for daylight saving so outweigh those for 5.30 closing, that there can be no doubt in the mind of a thinking man as to which is the better. Let me briefly summarize a few of them.

5.30 closing only affects the actual stores and brings no benefit to office or bank employees.

5.30 closing gives only half an hour's extra freedom, whereas daylight saving gives an hour, and why be contented with half a loaf when a whole loaf is procurable?

5.30 closing cuts into the shopping time of the employees of the sawmills, canneries and packing-houses, whereas daylight saving in no way affects or interferes with it, but rather encourages this class of citizen to spend as they have more time to enter into sports, go for car rides, garden, swim, hike, or otherwise indulge in whatever hobbies they favour; and all hobbies have their attendant expenses for which the merchants cater.

The argument that 5.30 closing should be adopted because Vernon and Penticton have it and are not in favour of daylight saving is hardly a compliment to the fine independent and pioneering spirit of Kelowna's citizens. Since when has Kelowna waited for the lead from the other towns of the Valley? History seems to drive home the fact that Kelowna has always led the way and the rest have followed! If daylight saving is going to be a benefit to our city, why should we wait for the approval of the cities to the north and south of us? Surely we are masters of

THE LATE F. T. CONGDON

Outstanding Canadian lawyer and ex-commissioner of the Yukon, Frederick T. Congdon, 73, passed away March 13 at an Ottawa hospital. He had been ill for six months. The late Mr. Congdon was a member of the bars of five provinces and the Yukon territory. He had a career which extended from one end of Canada to the other. In 1905, he was elected Liberal member of parliament for Yukon.

ELISSA LANDI STARS IN "ALWAYS GOODBYE"

Screen Celebrities Support Leading Lady In Important Roles

"Always Goodbye," gripping drama of romance which comes to the Empress Theatre on Friday and Saturday, stars the glamorous and charming Elissa Landi, former leading lady of the European cinema and stage.

Supporting Miss Landi is an all-star cast headed by Lewis Stone and Paul Cavanagh in the male leads. Other celebrities portraying important roles are John Garrick, Lumsden Hare, Frederick Kerr and Herbert Hunston.

"My Sin" Supported by a large cast of well-known character players, Tallulah Bankhead, internationally famous stage actress, and Fredric March make their first joint bow to the screen world in "My Sin," the showing for Monday and Tuesday.

Miss Bankhead's appearance in "My Sin" follows quickly after her recent sensational personal triumph in "Tarnished Lady," her first motion picture role. March has been seen recently in a series of powerful roles and is popular with theatre-goers.

"West Of Broadway" John Gilbert makes a dashing American vaquero in "West of Broadway," his new starring vehicle which will entertain on Wednesday and Thursday. Beginning with a glimpse of Gilbert in A.E.F. uniform, reminiscent of his role in "The Big Parade," the new offering brims with striking action and dialogue. Gilbert's characterization is most impressive. El Brendel heads the supporting cast as Gilbert's Swedish man Friday, and Lois Moran scores as the leading lady. Madge Evans is, also in the cast.

It's not always fun being funny. Laurel and Hardy testified to this while filming "Beau Hunks," their latest extra length comedy which will be shown in conjunction with the Gilbert feature picture. For several days these two comedians drilled and tramped under a sizzling California sun with the temperature tickling 100 degrees, dressed in the heavy woollen uniforms of the Foreign Legion and packing full military packs on their backs. On top of this they spent two days in a movie-produced sand storm. At a total cost of \$3, Hal Roach put a million dollars worth of sex appeal into "Beau Hunks." That was what it cost to use photographs of Jean Harlow, the deadly platinum blonde!

AVOID LATE CUTTING OF ALFALFA

L. E. Kirk, Dominion Agrostologist, Ottawa, observes in connection with alfalfa that winter-killing due to improper management of the crop can be prevented by avoiding late cutting. During the first season the crop should not be cut at all. If it is very weedy, it may be advisable to go over the field with a mower and cut off the weeds to prevent them from maturing seed, in which case the clipping should be done early in the fall and with the cutter bar of the mower set high. In succeeding years the crop may be cut for hay once or twice according to circumstances, but if a second cutting is taken it should be made quite early in the season so that there will be sufficient time for a strong fall growth.—Dominion Department of Agriculture.

our own destiny? In Manchester, England, it is said "What Manchester says today, England will say tomorrow." So let it be said of Kelowna that "What Kelowna does today, the Okanagan Valley will do next year."

Thanking you for your space, I am,
Yours truly,
E. M. CARRUTHERS.

Kelowna, B. C., April 5th, 1932.

The Editor, The Kelowna Courier.

Dear Sir, May I encroach on a little space in your paper to express my views on this important subject of daylight saving?

The benefits of daylight saving are wide indeed, and it is rather annoying to hear some "Bosses," who are golf and tennis enthusiasts, complaining that they are unable to foresee any great benefits from daylight saving.

Don't you think that they are a little inconsiderate?

If it happens to be a dull day and business is slow, the "Boss" grabs his clubs or racquet and away he goes for nine holes of golf or a few sets of tennis—filling his lungs with good fresh air and relieving his mental business headache. This is good for the "Boss" to have and he needs it too, as he is the one who carries the responsibility.

However, daylight saving will give the clerks, stenographers, and all employees who are confined indoors from early morning, the opportunity to have the odd picnic, a little gardening, some

LEGAL PRACTITIONERS FAVOUR DAYLIGHT SAVING

Kelowna, B. C., April 5th, 1932.

The Editor, Kelowna Courier.

Dear Sir, The members of the legal profession practising in the City of Kelowna are in favour of daylight saving for the following reasons:

(1) That the early hours of the day are the hours in which the greatest amount of work, especially office work, can be accomplished.

(2) That the extra hour of daylight in the afternoon obtained by daylight saving gives an opportunity to indoor workers to forget the cares and worries of business and obtain much needed re-

creation, whether it be gardening, golf, motor-ing or other form of amusement. (3) That daylight saving will not work a hardship on any section of the community and the benefits accruing far outweigh any slight inconvenience to individuals.

(4) That the fact that other parts of the Province have not adopted daylight saving should not be a consideration in inducing individuals to oppose the plan, as visitors from outside points can without inconvenience easily adjust their affairs to suit local conditions. In any event it is felt that as daylight saving is of advantage, the citizens of Kelowna should not be afraid to take the lead in the matter.

(5) Those whom daylight saving does not materially affect should consider the benefit to the great numbers of our population and should support it for that reason.

We urge that our citizens support the proposal.

Yours truly,
E. C. WEDDELL.
T. G. NORRIS.
W. B. BREDIN.

ELLISON

Last Sunday afternoon Ellison men turned out for a work-out at softball. A pleasant afternoon was passed, but since most of the players are painfully aware of many muscles which they never knew they possessed. Softball is to be a weekly event. Judging by the number present on Sunday, it is going to be well supported and keenly enjoyed.

Last week Mr. and Mrs. Lang returned to their home here. They were driven by car from Oliver by their son, at whose home they have been spending the winter.

Mr. Bota moved his family to Kelowna, where they will make their home, after spending some years on the Bulman Ranch.

Miss Ford and Mr. Evans returned to their duties at the School here after spending the Easter vacation at their respective homes.

The attendance shield goes to Division II of the school for this month. Their average attendance was 96 per cent. Division I (Senior room) holds the award for the fewer number of "lates" during March.

WRIGLEY SPENT ALL EARLY SAVINGS FOR ADVERTISING

Persistence After Two Campaigns Failed Brought Plenteous Reward

Those who complain about the condition of their business should never forget it is precisely in periods of business inactivity that many men have laid the foundation of their fortunes.

William Wrigley, Jr., who died last month with a fortune estimated at some \$150,000,000, was such a man.

Back in the '80s Wrigley was selling soap. Affairs did not go well. Then he conceived the idea of premiums. Raising the price of soap, he offered the dealer greater profits plus the gift of umbrellas which the dealer could sell or keep for a rainy day.

The premium idea worked so well that Wrigley decided to apply it to the

GIANT POSTER IN GERMAN PRESIDENTIAL ELECTION

This is one of the giant posters used in the interests of President Hindenburg of Germany in his candidacy for re-election. Although he failed to obtain by a few thousand votes a clear majority over all his opponents, the veteran German leader had more than seven million votes over his nearest competitor, Adolf Hitler, and his election at the second ballot on April 10th is assured.

consumer. He sold baking powder and offered a cook book free with every 50-cent can. Then he bargained with a company to use its chewing gum as a premium. He quickly observed that the gum was more popular than the baking powder.

After making that observation, Wrigley lost no time forgetting about baking powder and forming a chewing gum organization. At that time the company he had originally got the

chewing gum from was mixing gum like dough, rolling wrapping and cutting it all by hand. Wrigley contracted for 10,000 boxes of one brand. This was a tremendous order since a girl could wrap and pack only twelve boxes a day. So Wrigley hired men to invent machinery for wrapping and packing.

Wrigley advertised and advertised and advertised. By the turn of the century the middle west was chewing gum and was enjoying it. But the habit had

KELOWNA VOLUNTEER RELIEF ASSOCIATION

Where To Send Donations Of Supplies Or Cash

Rev. A. K. McMinn, Chairman, has charge of the purchasing of groceries, fuel and clothing.

Mr. A. A. Ballard is Secretary-Treasurer. All donations in cash should be sent to him, and will be acknowledged by him through the medium of the press.

Mrs. H. W. Arbuckle is Convener of the Committee on Clothing. All donations of clothing should be sent to the old wooden school, Richter Street.

Mr. E. A. Willis is Convener of the Committee on Produce. All contributions should be left at the warehouse of the B. C. Shippers.

Capt. Leighton, of the Salvation Army, is Convener of the Milk and Soup Committee.

Mrs. T. G. S. Chambers is Convener of the Committee for the Rutland district and the representative there of the Relief Association.

Mrs. J. B. Fisher is the representative of the Association for Benvoulin district.

The public are requested to work through the proper representatives of the Committee, so as to avoid overlapping, confusion and waste, and an earnest appeal is made to them to be as generous as possible with anything that they can spare which can be made of service to others who are in need of food, clothing and fuel.

GLENMORE

Will ladies remember that on Friday evening they are specially invited to be present at the debates in the School under the Glenmore Local of the B. C. F. G. A.?

The Guild meeting on Tuesday, April 12th, will be held at the home of Mrs. Loudoun.

Little Frances Mount, who was a patient at the Kelowna Hospital, was able to be taken home on Sunday.

Mrs. J. Noyes is visiting her daughter, Mrs. G. C. Hume.

At last electric light is an accomplished fact in Glenmore. Those living on the upper road are able to enjoy it.

Mrs. Humphrey Blake, sister of Mr. John Clarke, with her two sons, Humphrey and Michael, arrived on Wednesday to join her husband. They will reside on the ranch formerly belonging to Mr. J. Britton.

Come out and support the boys at their annual meeting on Monday evening. See advertisement.

Mrs. Raymond Corner and Catherine returned from the Coast this week.

But then, men who have the type of imagination which wins and which takes periods of business inactivity as an opportunity for new and bold effort, never can understand the type of imagination which loses and cries quits.—San Francisco Examiner.

W. T. Hunter, former Superintendent of the Experimental Station at Sumnerland, has been named fieldman for Western Canada for the Jersey Breeders' Association, it is reported, although the appointment has not been confirmed.

GOVERNOR'S DAUGHTER IS RIFLE EXPERT

Betty Judd, daughter of Governor Lawrence Judd of Hawaii, is a member of the co-ed rifle team of the University of Hawaii, which competes frequently with teams in the United States, the results of the matches being reported by mail. Miss Judd is seen wearing the garland of flowers which is a frequent feature of Hawaiian social life.

POULTRY—A FARM ASSET

Official records show that the poultry population of Canada has doubled each ten years during the period of the past thirty years. Each succeeding period of low prices for farm products finds the poultry flock coming to the farmer's rescue. At the present time it can easily be shown that the poultry flock, properly bred, housed, and looked after, is, from the standpoint of capital investment and feed cost, one of the best paying lines of farm effort. Each succeeding year appears to make it more clear that the farm is the logical place for the development of the poultry industry with respect to both egg and meat production. The farm flock is a useful medium for the marketing of otherwise unsaleable products in the form of eggs and poultry meat. Banks and loan companies find the farm which has a poultry flock a much better risk than the one which has none.—Dept. of Agriculture, Ottawa.

BASKETBALL SEASON CLOSED ON SATURDAY

Kelowna Pheasants Lose Sudden Death Game For Intermediate B Title

The curtain was rung down on the local basketball season on Saturday evening last at the Scout Hall, when the local Intermediate B team, the "Pheasants," took on the New Westminster entry, the McKenzie-Fraser quintette, in a sudden death game for the British Columbia championship. The local boys took the short end of the score 46-34, only after a great battle in which they had an uphill fight from the opening gong.

The hall had a very meagre scattering of fans—a great contrast from the week before—and the local organization lost money heavily on the evening's performance.

The visitors went right out after points from the outset and got them. At the same time the locals appeared to be nervous and their passing and shooting were very poor, especially during the first half. Had the home quintette played in the first period as they did in the second, they should have won the championship. Davy was the man that bothered the Kelowna boys, he was all over the lot and made some beautiful shots from many difficult angles. He was quick and used the fake pass to great advantage, thereby gathering many points.

The Kelowna boys changed their line-up considerably in the first half but nothing could stop the Royal City lads. In the second half George McKay went in on the local forward line and he was the star man of the team. He worked hard and got results, being high score on the team with eleven

points. This mark was equalled by Davy and Burns on the visitors' team. McKnight was a real threat at centre for the visitors, and Holmes and Douglas played nice ball. Hill, the local captain, could not seem to get going and only scored two points. Maclaren and Cherry played nice ball and Poole is fast following in his brother's footsteps. Ryan was erratic and missed a large number of shots that should have counted; he appeared to be over anxious. Max Oakes turned in a nice game while he was on and gathered the long-end basket of the night. It was a magnificent shot from well past centre and it sailed clean through the hoop.

The half time score read 23-11 in favour of the visitors and it looked as though the few customers that were on hand might as well go home, but that was far from the case as the last period was a real thriller.

"Tony" McIntyre handled the game alone and had his hands full. By some queer and rather uncalled for arrangement by the officials at the Coast, our excellent and popular referee, Dick Parkinson, was not allowed to officiate. This was a big blow to the local club but, according to the B. C. officials, the local association could not do anything about it. It is hoped to get this matter cleared up, as Dick has had a hard job this season, has done his work in an excellent fashion and, we will venture to say, has refereed as well or better than any one at the Coast. All Kelowna and the Okanagan Valley should be proud of the man with the calibre Dick has for doing refereeing. This matter will not be forgotten in a hurry.

Many fouls were called during the game and both teams lost two men. The McKenzie-Fraser lads had to finish the game with only four men, as they only had six.

Visitors Set Fast Pace

The game opened fast with the visitors forcing the pace and opening the scoring after only a few minutes of play. Holmes, Douglas and Davy each counted field baskets to run the score up to 6-1 for the Royal City lads in the first seven minutes, and Kelowna called time to get settled down. After the huddle things did not improve for the locals, and the visitors kept up their slaughter. The score stood at 13-2 for the visitors before Kelowna counted its first field basket, when Ryan made a long shot count. Oakes replaced Maclaren on the local line-up. Holmes counted from underneath to further increase their lead, but Hill came right back a moment later and scored on a long heave from the side. The visitors were working through the Kelowna defence without much trouble and at the same time were keeping their own defence from being penetrated. Kelowna had to rely on long shots. Burns broke through again and scored from underneath the hoop to make the score 18-6. Cherry made a foul shot good and also got in for a close shot which he made count. Holmes and Burns sagged the hemp for the Royal City boys and Oakes sent his long shot from past centre whistling through the hoop just as the gun boomed for half time. The ball was just entering the hoop when the gun went off. The half time score read 23-11 in favour of the Coast-boys. The locals were playing very poor ball, and the visitors were taking advantage of all their misdeeds.

Kelowna Pops Up In Second Half

After the interval McKay and Daynard went in on the local line-up for Hill and Oakes respectively. The visitors kept up their previous onslaught and sent the score up to 31-13 before many minutes had passed. McKay counted a field basket also a free shot. Douglas counted on a long heave. McKay again sank a beautiful long shot and the locals seemed to find themselves and started a rally which almost won them the game. Ryan made a long shot good and the score was now 37-21 and New Westminster called time out to check the rally, while there was still twelve minutes left for play. McKay converted when Kelowna was awarded a technical foul. Burns counted from under the net, but Ryan countered this when he sank a straight heave from near centre. They call such a shot the "Texas Leaguer" in baseball. Davy made a peach of a basket from the corner on a one-handed throw. McKay again scored for Kelowna and the score board now read 41-29 for the Royal City. Hill left the floor on four personals at this point, but after the tip-off Poole counted on a long shot and there was only ten points difference between the teams. New Westminster called time out with five minutes to go. Maclaren counted shortly after the tip-off and the score was now 41-33. A moment later Douglas went to the showers on four personals and half a minute later Ryan followed him. Kelowna called time out with two and a half minutes for play left. McKay counted a foul shot when McKnight made his fourth personal and had to leave the floor. This left the Royal City lads with only four men to finish the game. The locals tried to score but were unsuccessful, while McKnight-Fraser counted twice to cinch

EAST KELOWNA

The Women's Institute gave a party for children on Saturday in Easter week, at 3 p.m., an innovation which seems popular, about thirty children being present. Mrs. Evans and Mrs. Wood were in charge and served refreshments. The children enjoyed games and music with the help of some of the elder girls.

Mr. J. M. Affleck lately found a nest of young pocket gophers, two of which were perfect albinos. One of these was accidentally killed, but the other, taken in and properly cared for (the diet being bread and milk and alfalfa), has developed into an amusing little pet.

The golden winged woodpecker (Flicker), besides its usual stunt of hammering on the roof of the house in the early morning, has developed the useful habit of searching the codling bands on the trees. Perhaps we shall next hear of the nightjar taking the codling moth on the wing.

Mr. and Mrs. Curtice and family have returned to their home on the Upper Bench, after spending the winter in town.

The Gymnasium Club has arranged a gym display, with dance to follow, for Friday, April 22nd. There will be a small charge for admission and proceeds are to be divided equally between the Women's Institute and the Club.

The highest temperature for the month of March was 50 degrees; lowest, 10. Mean maximum, 45; mean minimum, 27.6; the mean for the month was 36.3. This record shows the coldest month of March for four years.

The game and the championship of the province.

The teams and scores: MCKENZIE-FRASER: Davy, 11; Anderson; Holmes, 8; McKnight, 8; Douglas, 8; Burns, 11. Total, 46.

KELOWNA PHEASANTS: Hill, 2; Maclaren, 3; McKay, 11; Ryan, 7; Poole, 2; Cherry, 2; Oakes, 2; Daynard. Total, 34.

Thus ends the local basketball season, which has been a very successful one. The teams have done well, the Senior B squad bringing home the Interior championship and also the Provincial title and the Intermediate B boys the Interior championship. This is the best showing of any Interior entry. Congratulations to the teams!

Now For Summer Sports

Next come the various summer sports, rowing, softball, baseball, etc. The Rowing Club members are warming up and the boats are being put in shape for early use. The members this year will have the advantage of having the services of a coach about two months earlier than last season. It is hoped he will be here about the first of May.

The Softball Club are going to hold their annual meeting about the 20th of this month but the meeting place has not yet been decided. The prospect of a bigger season than last is quite possible, and anybody who wishes to play or make up a team should get in touch with either the President, Dick Parkinson, or the Secretary, Hugh McKenzie, at the earliest moment possible.

The baseball boys will be getting together soon to organize for the coming season, and things look good for a big baseball year.

The next big thought is daylight saving, so now, all you sportsmen and fans, don't forget to cast your vote on April 14th on this very important question.

VOLLEY BALL

Business Men Hold Bennett Cup Against Vernon Challengers

The Kelowna Business Men's team, holders of the Bennett Cup, retained the championship trophy with comparative ease on Friday last, when Vernon Eagles came down to try to wrest the cup from the Orchard City ball handlers.

This match, which winds up the games for the season, was played in the United Church Gym.

GRASS HOCKEY

Game With Vernon Postponed Until Tuesday Next

The match with Vernon has been postponed until Tuesday, April 12th, when it will be played on the Vernon Preparatory School grounds, commencing at 2 p.m. The Kelowna team will leave here at 12.15 p.m.

There will be the usual practice for all players at Athletic Park on Sunday, at 2.30 p.m.

At a recent political meeting it was quite obvious that some hecklers were present. The candidate commenced his speech with: "I am here—"
"So am I!" shouted a voice.
"Quite so," retorted the candidate "but you are not all there."

WIN THE GAME AND THEN CRAB ON THE REFEREE

New Westminster Adanacs Show Themselves A Poor Bunch Of Sports

Evidently the New Westminster Adanacs are slightly peeved because they were denied the privilege of having things their own way in the recent clash with the Kelowna Senior B squad for the A title of the province. Accustomed to override their opponents and the umpire and referee with tactics not recognized as commendable deportment even by the most lenient code, they were, it would seem, surprised and hurt to find that the Orchard City stalwarts knew a thing or two about the game of basketball—and that the referee also had an idea as to how the game should be played without dictation from the Royal City men.

A vicious and unwarranted attack on Dick Parkinson, who refereed on one night and umpired the next with Tony McIntyre, was published last week in a New Westminster paper, presumably the British Columbian, and the "praiseworthy sportsmanship" displayed by the Adanacs prior to coming to Kelowna is well carried out in the story, which purports to give an account of the game but in reality is nothing more than ill-natured thrusts at Dick penned in the language of a petulant child, bristling with exaggerations and with little regard for the truth. It was mailed to Dick by some one who carefully underlined in pencil references to the Kelowna man's refereeing, and the address on the envelope containing the clipping was printed in ink. Here it is, in part, with the underlined words in black letters:

"The Adanacs, while defeating Kelowna by a comfortable margin in each of the two games played, would probably have won by double the 21 points if it had not been for the weird calls of Dick Parkinson, the Kelowna referee. In the final game, for instance, he disallowed six Adanac baskets, claiming that the players took steps before shooting. Stew Gifford and 'Chick' Hood each lost two baskets and Harvey McIntyre and 'Hop' Wilkie one each. Parkinson apparently set out in the final game to get McIntyre off the floor. He called three fouls in eight minutes on the Adanac forward, whereupon McIntyre was yanked and Wilkie went on. When McIntyre returned to the game in the second half he lasted fifteen seconds before he was banished on his fourth foul. 'Tony' McIntyre, judge of play, did not see any of the alleged fouls committed, although he was right on top of the play and Parkinson was on the other side of the floor. In the final game the Adanacs had fourteen personals called against them and Kelowna thirteen. Adanacs probably made six fouls during the game. Parkinson also called for toss-ups for 'held ball' time after time when the Adanacs had possession of the ball. He called a foul against Jack d'Easum when the Adanac captain was tripped and, in the second half, when d'Easum questioned a decision, he pushed the New Westminster player in the face. He didn't succeed in getting d'Easum to retaliate while on the floor, which probably would have drawn a suspension from basketball. Parkinson is a former Kelowna player."

Another paragraph states that "the Adanacs drew the home team out by pretending to stall practically throughout the second half and then worked the ball through the open Kelowna defence with ease. Disallowed baskets kept them from taking a commanding lead."

The tenor of the write-up throughout would lead the uninformed to believe that the poor Westminster chapies had their candy stolen from them by a bully. It's a bitter pill for these hard-boiled hoopsters to swallow.

PURE MAPLE PRODUCTS

This is the time of the year, with longer days, more sunshine, and the touch of spring in the air, that makes one think of that treat of treats associated with the coming of spring—maple syrup and maple sugar. The industry in Canada has been revolutionized to such an extent that it now ranks as a manufacturing art, but what is more important, under the provisions of federal legislation brought into effect last year, where any product is offered for sale or use in public, the word "maple" is required by law to mean "100 per cent pure." That is, absolutely no adulteration or modification of any kind other than those elements derived from pure maple sap itself are permitted. The bulk of maple production finds a market in the form of sugar, in great demand by tobacco interests for seasoning and curing their products. Probably the next important market is found with the ice cream trade, which now use absolutely pure maple syrup to flavour their product sold as maple ice cream.

A young man who had taken his midget car out on a very cold, wintry day was covering the engine with a blanket.

Little Boy (looking on): Don't cover it up, mister; I saw what it was.

Three may keep a secret if two of them are dead.
