NUMBER 44

THE PRAIRIE FRUIT MARKETS BULLETIN

Current Prices and Market Conditions

(From the Weekly Bulletin issued by J. A. Grant, Fruit Markets Commissioner, Calgary.)

What May Result in the 1921 Apple Deal

The British Columbia apple deal of 1921 will involve the handling and selling of approximately 5,000 cars of apples. Your Market Commissioner, after taking into account the prospective crops East and West, and after hearing the views of Canadian jobbers and Western sales agents, takes this opportunity to inform the growers of the various predictions that the opposing interests have on this annual deal. We also take the liberty of expressing an unbiased opinion on the subject.

Five thousand cars is more than double last year's shipments. We have heard several Western jobbers claim that such a heavy output will not only cheapen prices but it will also force B. C. shippers to consign without reserve to them and allow them to make their own prices. They claim that the means to this end is to sit tight and refuse to buy.

Consignment is the Mecca of some jobbers. The majority prefer to buy at market prices and thereby fix selling on a uniform and healthy basis. It gives producers the market price, worked out on quality and competition from other places.

Some are outspoken enough to say, "We have them, why not improve our chance." This is only surface talk and really does not represent any one seriously.

To arrive at a decision as to what will really happen we must view the whole field of competitors and weigh up what volume of supply they are likely to handle. The state of the money market and the cost of transportation are factors which will bear on the situation. The car supply and the improved ocean service via Panama will influence Western sales.

With these factors in mind the writer is inclined to the opinion that over 1,000 cars will be shipped overseas, mostly via Panama. This is ten times last year's export from B. C. to Europe. One thousand cars may be east of Winnipeg, both in the United States and Canada, leaving 3,000 cars to supply the four Western provinces. This calculation will take care of the normal consumption of these provinces, leaving little or no margin for Eastern barrel apples or Western imported box apples, which, with the unfavourable exchange and heavy B. C. crop, it is fair to set aside.

It therefore appears that British Columbia shippers will have to find the market instead of advance selling to any considerable extent.

Our idea is that no consignments will roll out to other than the agents of the growers, and with all due respect to buyers who think otherwise we make this prediction.

The organizations of the province are in a healthy condition. They have standardized their pack and far exceeded the standard required by the Dominion act, and they have co-ordinated their shipments, leading to efficient distribution.

They fully realize that the prairie market is theirs by favour of position, but they do not take any advantage of that. Prices quoted have always been F.O.B. shipping point, so that nearness to market is an advantage to those in that position. We see no difficulty in marketing 1921 apples on these safe and sane lines. Under the circumstances, we say market conditions are favourable for the 1921 crop, only prices will be somewhat lower.

1921 Market Outlook for B. C. Berries
The 1921 season is started. Strawberry is rolling in carlots. Shipping is at least nine days earlier than last year.

The outlook for marketing the fruit crop is but with a few exceptions bright. The crop in B. C. will be a record one in small fruits.

GLENMORE.

Don't forget the rallying point for the Glenmore U. F. picnic on July 1st.

Mr. and Mrs. T. M. Ryall entertained at a card party on Thursday evening.

There was a jolly house dance on Friday evening at the home of Mr. and Mrs. Frank Benson. Mrs. Benson and Mrs. E. Moubrey were hostesses.

Mr. G. Hume motored to Naramata on Saturday, returning on Sunday with Mrs. Hume and the children, who had been visiting Mrs. Hume's mother.

Mr. W. T. Hunter, District Horticulturist, gave two practical demonstrations of "thinning" on Monday afternoon in different parts of the valley. The first on Dr. Giles' orchard and the second on Mr. Hunt's, thus giving all interested an opportunity to be present. These "field talks," (thinned) should be of value to orchardists whose fruit experience is only yet in its infancy. Mr. Hunter pointed out both the necessity and advantage of this process to the tree. Judicious thinning, a larger percentage of perfect fruit is obtained. The seeds are the important part of the fruit; therefore small apples are taking as much vitality from the tree as large ones. Thinning to eight inches, using judgment, was recommended, allowing no double fruit and taking off the end cluster entirely where there is no terminal growth. The increased size of fruit and better quality will fully compensate.

The fruit growing industry is passing through a critical period in its history, and it is to the advantage of every farmer to eliminate lower grade and cull fruit from the orchard. Such fruit is not worth the time spent on it. Was it Emerson who said, "Hitch your wagon to a star"? While doing this let us remember to study the pebbles at our feet. Judicious thinning will also help to equalize the crops from year to year.

A number of questions were asked by those present on pests and cover crops.

It has been noted in this column in previous years that some claim they have no time for thinning, and again we reiterate that they have no time to pick inferior fruit.

Mr. R. Stewart is busy placing nursery stock for spring planting in this valley, and also in the surrounding districts as far north as Armstrong.

LARGE ATTENDANCE AT GLENMORE DANCE

Two Hundred and Seventy Persons Present at Enjoyable Function

The Stirling & Pitcairn Packing House on Monday evening, when the Glenmore Amateur Athletic Club held their dance, made one recall the transformation scene of an Old Country pantomime. In its garb of evergreen, flags, lanterns, etc., and illuminated by Deico lights, made possible through the courtesy of the Deico Light Company, it had very slight resemblance to a packing house. Mr. Barrett's six-piece orchestra provided excellent music and the floor was good. A large company (about 270) were present, many coming from town, the B.C. and other outside districts. Ice cream was served during the evening and dainty refreshments at midnight. The only "fly in the ointment" seemed to be that the last dance came all too quickly, in spite of the "extras." Thanks are due to all who assisted in making it such a success, and Mrs. Todd wishes specially to express her thanks to all the helpers.

Has there ever been a dance, etc., in the valley without some unclaimed baggage? Monday was no exception. Mrs. Todd will be glad to be relieved of the same. Crockery must be very plentiful as three unclaimed plates still remain from the Christmas entertainment.

G.W.V.A. NOTES

Next Saturday, the 25th inst., is our regular meeting night and matters affecting the canteen will be up for discussion.

The disposition of the C. E. F. canteen funds, now in the hands of the government and said to amount to two million dollars, was discussed at the Provincial Convention. It was recommended for the consideration of the Dominion Convention that the following disposition be made: One million for assistance in cases of distress not covered by any government fund; seven hundred and fifty thousand to assist in educating dependents of men who lost their lives in the war; and two hundred and fifty thousand dollars to assist administrative expenses in the G. W. V. A.

For the first time in its 165 years of existence, the New Hampshire Gazette, of Portsmouth, N. H., the oldest weekly newspaper in the United States, having been established in 1756, did not issue on Saturday last, owing to a strike of its printers.

UNDUE HIGH WATER TO BE PREVENTED

BOARD OF TRADE WILL ASK DOMINION GOVERNMENT TO EXERCISE BETTER ADMINISTRATION OF CONTROL GATES ON OKANAGAN RIVER

The attendance at the regular monthly meeting of the Board of Trade, on Tuesday night, was much larger than has been customary for several months, about thirty members being present under the presidency of Mr. Rees. The following report was submitted by the Executive Council:

Report of Executive Council
One meeting was held during the month. Matters referred to the Council at the last meeting of May 17th were dealt with.

Re placing reflectors as furnished by the Provincial Government: Mr. Stirling, chairman of the Roads Committee, reported in connection with this matter, and same will be dealt with in report from his committee.

Re Kelowna Aquatic sign: On investigation, it could not be found that the Board had previously assisted in connection with the painting of the original sign and accordingly, in view of the fact that the Board had pledged the major portion of its funds in connection with publicity this year, your Council regretted it could not see its way clear to contribute anything for this purpose.

Re lending or renting chairs: At the last meeting a motion was put on the books that the chairs be rented at ten cents per chair. Your committee wish to point out that this is contrary to a resolution placed on the books at your regular meeting of December 21st, 1920, at which time it was moved by Mr. Elliott and seconded by Mr. Rattenbury, "that the chairs owned by the Board are not to be rented or moved from the building." Consequently, until this motion is rescinded any other motion dealing with same is out of order.

Re Okanagan Lake level: The Secretary was instructed to write to the Minister of Public Works, Ottawa, advising conditions and asking as to why the lake had been allowed to attain its present high level. Since our Executive meeting we have learned that the Provincial Government had stayed work on the Lake Shore road, and strongly recommend that some action be taken by the Board at this meeting to urge the Government to reconsider the decision to discontinue work, and further request other interested Boards to supplement our request.

Re subscription to the North-West Tourist Association: Request was made to your Executive by this association through one of their directors, Mr. J. W. Jones, for a subscription of \$150, being amount allocated to this district by the association, a total amount of between \$6,000 and \$7,000 being raised by the Province, which was to supplement a grant of \$12,000, made by the Provincial Government. Your Executive felt that, in view of the fact that arrangements had been made for considerable publicity work, they would not be in a position to handle this, but were disposed to contribute one-third of \$75, half of the amount asked, provided that the City Council and the Automobile Association would contribute a similar amount, and a request was accordingly sent each. To date no reply has been received.

The Finance Committee reported that further collections of membership dues in arrears brought the total collected up to \$410 and cleaned up all amounts outstanding but one, due by an absentee, who would likely send his cheque and his resignation as it was improbable that he would return to Kelowna. Nineteen received since last meeting, making a total of 72 since the first of the year and a total membership of 176, including 3 life members, the highest in the history of the Board, and likely not exceeded in the Interior. The report, which was greeted with applause by the members, concluded by urging prompt payment of unpaid dues for 1921, so as to provide the Board with funds for its various activities.

For the Roads Committee, Mr. Grote Stirling reported that they were in touch with Col. Donnelly, Assistant District Engineer, in regard to placing the road reflector signs, which had not yet arrived. They had ascertained that Col. Donnelly had already instituted a system of obtaining data as to work done daily by teams and trucks. The total amount available for the roads in South Okanagan this year was only \$25,000, and since the appropriation was made certain roads in the municipalities of Peachland and Summerland had been put under the road officials but no further grant was given. This sum had to take care of all repairs to roads, culverts and bridges up to 20 feet, and how far it would go might be illustrated by the fact that the Summerland-Peachland road had been breached in seven places by the rising of the lake and seven culverts had been demolished in the district of Naramata alone.

For the Publicity Committee, Mr. W. A. Adams had nothing to report having just returned from an absence of two weeks duration, but the committee would meet the next day and decide upon publication of the pamphlet.

Applications for membership having been received from the following gentlemen, they were all elected as members of the Board: Dr. Wilson Herald, Messrs. G. Chaplin, C. McCarty, F. W. Fridham, G. A. Barrat, W. R. Barlee, G. M. Stanley, J. G. McDonald, G. E. Ritchie, J. W. C. Thompson, S. J. Thomas, J. M. Brydon, J. N. Cushing, T. B. Mathieson, E. C. Shanks, R. Lambly, H. S. Atkinson, H. P. Dick and A. H. Charriot.

Letters were read from the Vernon Board of Trade and the Okanagan Telephone Co. in regard to telephone connection direct with the Coast. The former decreased the matter of the proposed increase in local rates of more importance, and the latter asked the Board to ascertain from local shipping firms whether they would use any line that might be installed to an extent that would warrant the capital outlay.

ELLISON

The dance held on Friday at the School was highly successful in all respects. A record crowd turned up and \$75 was netted, which is to provide the school with a bookcase and additions to the library. Our next duty will be to raise funds towards obtaining a lighter type of partition between the two rooms of the school.

Gen. A. Harman is returning home this week from Nelson, where he has been attending the Anglican Synod.

At the last meeting of the Ellison U. F. B. C., the question of Oriental ownership of land was raised. It was stated that the district of Ellison was the only one in the valley where no land was owned by Orientals. The next meeting will be held on Wednesday, 6th July, as usual, when this question will be further discussed and, if possible, a resolution passed to prevent such ownership in the future.

Plans are in full swing for a Community picnic to be held on Friday, June 24th, at Woods Lake, when the whole neighbourhood is expected to down tools and join the merry party, meeting at the School at 9.30, where a fleet of swift trucks will be waiting.

We wish to congratulate Mrs. Hitchener (nee Miss Mary Hay), on the arrival of a small Miss Hitchener on Sunday morning, and hope both are doing well.

Mrs. and Miss Janet Anderson left last week for Vancouver, where the latter is to be married to Mr. J. Owens this week.

Owing to the very changeable weather, hay operations in the district are being very much delayed and, in spite of the oldtimers' prophecy that the change of the moon on the 6th inst. would bring more settled weather, this has not materialized. The moist conditions of the weather this year have also entailed considerable more work in the orchards, owing to the prevalence of insect pests and blights.

Miss Hickson arrived at Sunset Ranch last Wednesday from London, England.

The school will be closing for the summer holidays on Friday, and Miss D. Swensky will be leaving for Vancouver early next week.

FUNDS FOR BENEFIT OF SCHOOL CHILDREN

Okanagan Mission Local U. F. B. C. Makes Apportionment of Money Raised by Dance

A special meeting of the Okanagan Mission Local of the U. F. B. C. was held on Tuesday, June 21st, and it is regretted that the persons apparently interested in the children of the district are so few in number. The attendance at this special meeting was just double that at the general meeting on Wednesday, the 15th, but the attendance at that meeting was so very small that this comparison is not so creditable as it sounds.

The agenda contained only one item but an important one, that of the summer's entertainment of the children. The object of the meeting was to determine in what particular form of entertainment for the children that purpose should be invested. It was proposed that the funds go towards the fitting up of part of the basement, which is now but a waste of space, as a more attractive lunching place for the children. As one of the members aptly described the basement, it is like a "tomb," and is therefore not a place to improve the stomachs of the children or to bring their digestions up in the way that they should go.

But, seeing that the funds under discussion were to go towards the entertainment of the children, and it is not good after all that feeding be looked upon as a form of entertainment, it was decided that the matter be left in the able hands of the School Trustees.

It was proposed by Mr. A. G. Bennett, our physical instructor, that a small part of the money be given to the Trustees to provide second prizes for his physical stunts, which proposal met with unanimous approval. The balance, it was decided, would be handed over to the School Trustees to be invested in sports equipment for the use of the children, through which investment they may be entertained for several months, rather than away in one day, on probably filling them with foodstuffs.

Nothing further has been done towards the improvement of the road at Mrs. Thomson's corner. It was deemed necessary, therefore, to again approach the responsible parties on this subject. The new road has been removed for some weeks, now, but on the completion of the survey the work stopped.

In future, and until further notice, the general meetings of the Local will be held on the third Tuesday of every month, instead of on the third Wednesday as in the past, thus dedicating the Bi-monthly picnic, which are too great an attraction.

Very sincerely sympathetic in regard to Mr. Edwin Gray in his sickness.

A. V. SURTESS, Secretary.

ANNUAL CONFERENCE OF WOMEN'S INSTITUTES

Representative Gathering Assembles At Vernon

The annual conference of the Women's Institutes of the Okanagan Valley, North Thompson and Similkameen was held in Vernon on June 13, 14 and 15, with about forty delegates in attendance. The weather throughout was ideal, and the members of the Vernon Institute were untiring in their efforts to make the conference the success it was. The meetings were held in the Institute room in the Court House, and were presided over by Mrs. McGregor, of Penticton, member of the Advisory Board.

The first afternoon was taken up with routine business. In the evening addresses were given by Dr. K. C. MacDonald, M. L. A., and Miss Mary A. McKenzie, B. A., R. N., Director of Public Health Nursing, British Columbia, and a report was presented by the committee on Child Welfare. Stress was laid on the great loss through infant mortality, 893 babies having died in one year in British Columbia, and this was compared with New Zealand, where the death rate for infants is the lowest in the world, made so by a health crusade. Over 500 of those British Columbia deaths were preventable. The statement was made that, had Great Britain begun forty years ago to care for her young as she is now doing, she would have had 1,000,000 more men to put in the firing line in the late war. While the women were not enthusiastic over saving babies to grow up for military service, they were impressed with the necessity of doing all possible to raise the standard of health, and to that end some of the Institutes have been instrumental in establishing Health Centres and in some cases school nurses have been provided.

Tuesday forenoon was occupied principally with a discussion of the advisability of effecting a provincial organization of Women's Institutes. Mrs. V. S. MacLachlan, Provincial Secretary for Institutes, introduced the question and gave a resume of discussions by the Advisory Board and conferences with the Minister of Agriculture, Hon. E. D. Barrow, and made suggestions as to the working out of the plan. Later in the session a vote in favour of provincial organization was carried unanimously. Should the other three conferences pass favourably on the question, organization will be completed and British Columbia Institutes can then become a part of the Dominion Federation, with which the other provinces of Canada are affiliated.

Mr. Laidman spoke on the "Produced in B. C." campaign now being waged, stating that, as women are the heaviest buyers, it remains for them to say whether home industry shall be encouraged or foreign markets patronized.

Mr. Calder, of Vernon High School, spoke on the work of Parent-Teachers' Associations, and Dr. R. B. Hills, of Penticton, on "The Canadian Navy."

Reports were given by committees on Home Economics, Agriculture, Legislation for Women and Children, Education and Better Schools, Immigration, Publicity, and Home Industries.

The next meeting of the conference will be held in Kelowna in June, 1922. The officers chosen are from Institutes in the vicinity of the place of meeting and are as follows: President, Miss Reekie, Kelowna; Vice-President, Mrs. T. Maxwell, Rutland; Sec.-Treas., Mrs. P. Dixon, Okanagan Centre; Directors: Mrs. Buchanan, Peachland; Mrs. Morten, Oyama, and Mrs. Shanks, Woods Lake.

Mrs. D. W. Sutherland and Miss Reekie were delegates from Kelowna.

KELOWNA DISTRICT LEAGUE

Glenmore, Wins From Kelowna

A game in the Kelowna District League was played in town on Tuesday evening. The batteries were: Glenmore, LeQue and Watt; Kelowna, Crowder, Armstrong, Shillingford and McKay. The game was won by Glenmore by a score of 19 to 8.

Kelowna blew up in the first inning, Armstrong allowing eight runs, and again in the sixth, when nine runs were scored off McKay. The feature of the game was a home run by Watt in the third inning.

CADETS TO CAMP AT SIWASH POINT

The Kelowna Cadets will go under canvas on Monday next, 27th June, at Siwash Point. This is the first occasion of the sort in the history of Kelowna, the Cadet Company being a recent formation, and it is hoped that as large a number as possible will turn out. The companies from Vernon and Penticton will also be camped at the Point.

Col. F. Homer-Dixon, D. S. O., of Victoria, will be Camp Commandant, and he has intimated that a cordial invitation is issued to all friends and relatives of cadets to visit the camp on afternoons and evenings.

E. A. MILNES TOWNSEND, Captain.
Acting C. O., Kelowna Cadet Corps.

CANADIAN FRUIT AT IMPERIAL EXHIBITION

Arrangements Are Being Made For Display Of Apples From The Dominion

A national Fruit Exhibition, which promises to be one of the most important ever held in the United Kingdom, is being arranged for the early part of November. The exhibition has been projected and is to be financed by the "Daily Mail" the technical arrangements having been placed in the hands of the Horticultural Branch of the Department of Agriculture and Fisheries. A meeting of the overseas representatives on the Advisory Committee was held at London on a recent date for the purpose of considering matters relating to the overseas section. Mr. J. Forsyth Smith, Canadian Fruit Trade Commissioner, represented Canada. Mr. S. E. Percival represented Ontario and Mr. F. G. Wade represented British Columbia and Nova Scotia. Arrangements have not yet been completed, but the following is a brief summary of those made so far.

Date of Exhibition
As the middle of November was considered the earliest date at which this show should be held in order that Canadian exhibitors could make a favourable exhibit of winter varieties, Canadian representatives urged that the opening date should not be earlier than the second week in November. This was opposed by the English growers, who preferred that the show should be opened the middle of October. It was agreed as a compromise that, provided the "Daily Mail" were able to negotiate for a later date, the Exhibition should be held from the 4th to the 12th of November.

Classes Open To Canada
The exhibition is to consist of three sections: The United Kingdom Section, Overseas Section and British Empire Section. The two latter sections are open to individual growers and associations of growers in Canada.

Packages
In all sections, including the United Kingdom Section, the package to be used is the Canadian standard box, the dimensions of which are: Length 18 inches; width, 1 1/2 inches; depth, 10 1/2 inches.

Inasmuch as the English apple-growers are now preparing to adopt the use of this box for their best apples, the package for the purpose of this Exhibition will be known as the "British Standard Box."

Size of Exhibits
In the Overseas Section six boxes to each class. In the British Empire Section twenty boxes dessert varieties and twenty boxes cooking varieties.

Varieties
For the Overseas Section: Wealthy, Snow, McIntosh, Red King, Golden Russet, Spy, Blenheim Orange, Jonathan, Cox Orange Pippin, Spitzenburg, Greening, Newtown Pippin, Stark, any other variety.

Entrance Fees
Overseas Section £1, British Empire Section, £2 10s.

Prizes
Overseas Section, cups or medals to the value of £300 are to be provided as first, second and third prizes for each of the fourteen classes named above. For the British Empire Section, cups to the value of £100, £50 and £25 each are to be provided as first, second and third prizes for each of the two classes of dessert and cooking varieties.

The question of a championship trophy for the whole of the Exhibition is being further considered by the "Daily Mail."

Rules And Basis Of Judging
At a meeting, which was to be held on May 17, the rules and the basis of judging would be considered.

Provincial Sections
No definite arrangements have been made in regard to provincial exhibits of a general character on a non-competitive basis as it is not yet known what space will be available for this purpose. It is expected, however, that a difficulty will be met in securing any required length at 5s. 6d. per square foot. The space will be fourteen feet deep.

As this Exhibition is altogether commercial, it affords an excellent opportunity for the best kind of publicity and to demonstrate the excellent qualities of Canadian grown apples.

Exporters desiring space should communicate with Mr. Howard Chapman, Imperial Fruit Exhibition De-

Did You Ever See a Deal Tree?

Canadians, whose country owes so much to wood, should pride themselves on knowing what the different timber terms mean. Sometimes persons speak of a certain article as made of deal. When they are asked what kind of tree deal is they are at a loss. As a matter of fact, deal is not a kind of tree but a piece of wood. A board is one inch thick; a plank, two inches thick; and a deal, three inches thick. The word is not used in the lumber trade in the United States, and in Canada it is used chiefly in connection with the shipment of lumber to Great Britain. It is shipped in this form because it is a convenient size for certain British woodworking industries. Since deals are chiefly made from spruce, balsam fir, pine and sometimes hemlock, a secondary use of the word in England is to indicate some kind of "soft" wood, or wood from a cone-bearing tree. In Canada, however, the word is not used in this sense, and "deal" always means a piece of wood of a certain thickness.

partment, "Daily Mail," 130 Fleet Street, London, England.

Mr. J. Forsyth Smith, Canadian Representative on the Advisory Committee, will keep the Fruit Branch informed as to developments, and anyone desiring further information may obtain same by communicating with the Fruit Branch or with the Secretary of his Provincial Fruit Growers' Association.

In connection with the proposed Exhibition, Mr. J. Forsyth Smith writes:

"I think that this Show offers special opportunities for the advertising of Canadian fruit, and that our exporters should make every effort to take full advantage of it."

In addition to individual growers, or growers' associations entering for the various prize winning classes, I think that the Province and the principal exporters should secure space for fully representative exhibits on a non-competitive basis, and I do not think you will make any mistake in using all your influence to secure action in this direction. The Show will be largely attended and there will be special opportunities for the distribution of advertising literature and for general propaganda. I regard this exhibition as being in altogether a different category from the advertising standpoint, from the previous shows of the Royal Horticultural Society, which were mainly plate exhibits.

It is particularly important that we should be strongly represented in the prize winning classes, and in the British Empire Section, where we enter into competition with British apple growers. While the latter are far from being formidable from a commercial point of view, there is no doubt that they will be in a position to put up some very fine exhibits and it will be very unfortunate if the first prize in this section shall go to them.

"I think it will be necessary for some Canadian representative to be in charge of the exhibit."

"I would suggest that you urge immediate action as far as non-competitive exhibits are concerned in securing space as the space outside of that allotted to the prize winning exhibits is limited and is being taken up by the various Dominions for general display and by commercial organizations. If at all possible, space arrangements should be made within a month."

To Orchardists

THE Mathieson Fruit Co. Ltd. are now operating a Packing House in Kelowna and are prepared to purchase your crops at fixed prices or upon any other terms to suit the convenience of their clients.

Please write the Manager, P.O. Box 698.

THE PRAIRIE FRUIT MARKETS BULLETIN

(Continued from Page 1)

them and disaster. It will be recognized more every year by B.C. shippers that approaching this market through one central distribution is the sane and safe way to protect producers.

Strawberries may appear to be overgrown in B. C. districts. This is not so. In a normal year there is still room for great expansion in acreage.

Raspberries will take many years to catch up with possible markets. Blackberries are not likely to prove good sellers this year, and any increase in their acreage at present would seem unwise.

The loganberry will get a try out in the prairie market this year. They will be shipped in iced cars with raspberries; about 1-10 of the car to logans. This berry has a great future as a juice berry, and when a factory is established in B. C. to extract the juice from it, a great expansion in its acreage will then be justified, but not until then.

Marshall Strawberries From B. C. So far four cars of B. C. strawberries have been opened at Calgary and they have been disappointing. The berries were poorly packed, rough, sandy, some drowned looking and by far too green and dark glow on them. Coming after the Hood Rivers they were unpopular. The Marshall at its best is a poor shipper and these first cars will be a disappointment in returns to the shippers.

The fault of small returns is wholly due to the shipping end, principally to the wet weather prevailing last week. The Market Commissioner saw the ripe berries selling retail at 25 cents per hallock and two for 45c; while the green ones were begging at 15c to two for 25c. These berries have created an unfavorable impression and this will hurt the shipments of Magoons. It is not good policy to ship faulty berries at any time, let alone at the start of the season.

Berries, when cooled and shipped in a refrigerator car, should be nine-tenths coloured when picked.

Early Season

This time last year strawberries had only started to arrive L.C.L. At time of writing twelve cars have rolled from the Lower Mainland and Vancouver Island. L.C.L. and consignment shipments are very light this year. We look forward to seeing the mistakes made in the first cars rectified and a big prairie distribution secured. To the good of the business it would have paid our shippers to have kept these berries at home. We know that the real class will be revealed in a few days.

A housewife remarked in Calgary: "We were told to wait for B. C. berries. I don't like them, they are too green." Lower Mainland growers must straw their strawberries. B. C. real estate on the berry does not commend it.

British Market for Berry Pulp. There is a big demand for pulped berries on the British market this year. This may somewhat offset the want of a local demand for jam berries.

One Vancouver concern offered 7 cents per lb. for 75 tons of strawberries for jam making. We think that this price is ridiculously low, and if growers are compelled to accept it, a reaction will follow. If a fair price is not paid, it would be better for the industry to seek an insurance against loss by erecting a factory of their own.

Growers must expect organized buying by the jam manufacturers of Canada, but such a price as offered can have only one result.

Picking Prices for Berries, 1921

It will be noticed by the following table of prices that the B. C. berry growers' associations are not working in exact harmony:

Gordon Head Association will pay 35c per crate and 10c bonus.

Saanich Association will pay 50c and no bonus.

Chilliwack Association will pay 30c and 10c bonus.

Burnaby Association will pay 30c net.

Hatzic Association will pay 50c and 15c bonus.

Hood River paid 34c and 2c bonus; 17c for packing, 3c bonus.

Some Good Advice

The following recommendation to growers by the B. C. Berry Growers' Association may be profitably followed by all other berry shippers:

Rules, 1921. Strawberries, packing and grading:

No. 1 crated strawberries should be: of normal shape; picked at the proper stage of ripeness; of good colour, showing at least three-fourths red; firmly packed and showing at least three-eighths inch above rim of hallock; face not smaller than 5 by 5; face to represent contents of hallock; no berries less than three-fourths inch to be included; net weight of crated strawberries, including hallocks, not less than 16 lbs. per crate; hulls on stems picked off one-quarter inch from fruit.

Strawberry patches should be picked at least every second day.

Paper will not be used on shipping berries.

Berries must be delivered to local on same day as picked.

Loganberry Wine Recipe

Pulp berries thoroughly, add three gallons of boiling water to one gallon of pulp, let stand three days, then strain well; add three pounds of yellow sugar; let stand until fermentation finishes in temperature of about 60 degrees. Run off into cask and bottle after fermentation ceases.

Pointers

Shippers sending "Governor Wood" and most other varieties of early cherries to the Calgary market must be prepared to take a very low price for them. It is too early for preserving cherries and the public want fancy large Bings and Lamberts, of which there is an abundant supply on the market from California, Idaho and Washington.

There is just a fair demand for gooseberries, which are wanted in the twenty-four pint crates. They must

be of good size; small stock goes begging and should not be shipped.

The first carload of new potatoes arrived from the southern States about two weeks ago, sold at 7c a pound; another car is due Monday; price will likely be lower.

Head lettuce that has not headed has arrived from various parts of B. C. Nobody wants it. The trade has become so accustomed to what is believed to be "New York Wonderful" or "Los Angeles Wonderful" variety, which is shipped here in carload lots from California, that they will take nothing else.

THIS WEEK'S CALGARY WHOLESALE PRICES

Fresh Fruits

B.C. Strawberries, best crate, \$4.00; others according to quality. B.C. Cherries, Governor Wood, etc., 4-bskt. crates, \$1.50 to \$2.00. Cherries, imported Bings, 15-lb. lugs, \$6.75 to \$7.50. Gooseberries, 4-bskt. crates \$2.00 to \$2.75. Gooseberries, 24-pint crates, \$2.50 to \$3.00. (Small gooseberries very hard to sell, the larger ones sell best.) Rhubarb, Walla Walla and B. C., 40-lb. case, \$2.75. Apples, imported fancy Winesaps, box, \$4.50.

Vegetables

Cauliflower, imported, crate, \$3.25 to \$3.75. Ripe Tomatoes, California, 4-lb. crate, \$4.50; lug, \$6.00. Tomatoes, hothouse, B. C. 4-bskt. crate, \$8.00; local grown, lb., 40. Asparagus, Walla Walla, 10-lb. crate, \$3.00 to \$3.25. Cucumbers, doz., \$3.00 to \$3.50. New Potatoes, imported, lb., .07. Spinach, lb., .08 to .10. New Cabbage, lb., .08. Potatoes, local, ton, \$20.00 to \$25.00; potatoes, B. C., ton, \$26.00 to \$30.00; potatoes, Ashcroft, ton, \$30.00 to \$32.00. Head Lettuce, fancy California, large crates, \$6.00. (Packed with chipped ice.) Green Peas, imported or B. C., lb., .15.

tion 20 of the "Pound District Act,"
that one bay yearling filly was im-
pounded in the pound kept by the
undersigned on Glenmore Ranch,
Glenmore, on the 6th day of June,
1921.
J. N. CUSHING,
4341c Poundkeeper.

NOTICE
In the Matter of the Estate of John
Powick, Deceased, Late of the Town
of Princeton, in the Province of
British Columbia.
NOTICE IS HEREBY GIVEN
that all creditors or other persons
having any claim or demand against
the estate of the above deceased, who
died on the 21st day of September,
1920, and Letters of Administration
for whose estate were granted to
Frank Thomas Powick, of Kelowna,
B. C., on the 12th day of April, 1921,
are required to send in their claims
to the undersigned or to the said
Frank Thomas Powick, at Kelowna,
B. C., on or before the 16th day of
July, next, after which date the estate
will be dealt with, having regard only
to the claims and demands then re-
ceived.

THE KELOWNA COURIER

AND
Okanagan Orchardist.
SUBSCRIPTION RATES
(Strictly in Advance)
To any address in the British Empire
\$2.50 per year. To the United
States and other foreign countries,
\$3.00 per year.
The COURIER does not necessarily
endorse the sentiments of any
contributed article.
To ensure acceptance, all manuscript
should be legibly written on one
side of the paper only. Typewritten
copy is preferred.

ADVERTISING RATES
Classified Advertisements—Such as,
For Sale, Lost, Found, Wanted,
etc., under heading "Want Ads,"
First insertion, 15 cents per line;
each additional insertion, without
change of matter, 10 cents per line.
Minimum charge per week, 30
cents. Count five words to line.
Each initial and group of not more
than five figures counts as a word.
Filing fee for box numbers, 10c.
The Courier, if desired, 10 cents
extra.

Transient and Contract Advertisements—Rates quoted on application.
Legal and Municipal Advertising—
First insertion, 15 cents per line;
each subsequent insertion, 10 cents
per line.
Contract advertisers will please note
that, to insure insertion in the cur-
rent week's issue, all changes of
advertisements must reach this
office by Monday night. This rule
is in the mutual interests of patrons
and publisher, to avoid a congestion
on Wednesday and Thursday and
consequent night work, and to
facilitate publication of The Courier
so as to reach country customers
before Saturday.

Owned and Edited by
G. C. ROSE
THURSDAY, JUNE 23, 1921
Orchard Run
SEND IN YOUR COPY EARLY
Despite our plea in last week's issue
for early delivery of copy so that
our editor-linotype operator would
have something to work on at the end
of the week, dilatory contributors
were more numerous this week than
usual, and the bulk of the material
not obtained by ourselves came to
hand on Tuesday and Wednesday.
It is impossible to publish a rural
weekly paper on time under such a
handicap, even with expert hands
on the keyboard of the linotype. The
reading matter must be set in type in
sufficient time to permit of making
up the pages of the first press run,
which is normally made on Wednes-
day. If a supply of local news is
not then available in type, which
means receiving it on Monday and
Tuesday, other material must be used.
This week, in order to use local ma-
terial which came in late, we had to
discard nearly two columns of matter
set at the end of last week, in order
to make room for what our procrastinat-
ing friends had sent us—some of
their matter being in regard to events
that had happened several days be-
fore—and had also to delay our press
work for the same reason.
A country weekly, with one type-
setting machine, is not in the same
position to cope with late news mat-
ter as a city daily, equipped with a
battery of twelve or more line
types, and again we would urge all
our contributors, if they wish to help
in the publication of a newsy paper,
to send in their copy early and not
keep their account of an event until
the day before publication or until it
is stale.

DOUBLE SUCCESS
ON THURSDAY LAST
Local Teams Win Both Lacrosse
And Baseball Games
Another day has come and gone
and our teams are still "top dog."
The day was fine, the boys were in
good shape and the crowd was better
than the previous Thursday, and every
one went away satisfied.
Lacrosse
The main attraction, of course, was
the lacrosse match between Kelowna
and Armstrong. This was expected to
be a hard game, as the visiting
team has always been a hard team to
beat and are generally going stronger
at the finish than at the beginning.
This was almost the case on Thurs-
day, as Kelowna scored the first two
goals of the game. Not to be out-
done, by real good lacrosse Arm-
strong evened up the score and it re-
quired thirteen minutes of overtime
play before McMillan of Kelowna
found the net for the winning goal.
It was one of the hardest fought
games in the history of the valley,
according to the "Old Timer," and it
was certainly one of the cleanest, only
one man drawing a penalty, for
what looked like a pure accident of
trying to make love to another man.
This isn't allowed in Kelowna.
The final score was three to two in
favour of Kelowna.
Baseball
The ball game was kind of one-sided,
but some real good ball was serv-
ed up at times. Enderby have the
makings of a good little team but one
man cannot win a game alone. Our
own team was in good shape with
the exception of a little carelessness
cropping up in spots, which, howev-
er, did no hurt but please do not
do it in playing Vernon.
Score by innings:
Kelowna 0 0 0 0 0 0 1 0-1
Kelowna 1 1 0 0 1 1 4 x-8
(EDITORIAL NOTE—We re-
gret that owing to late arrival of the
copy and lack of space, we are com-
pelled to leave out the summary of
play)

MONDAY, JUNE 27, WILL BE \$ DAY AT OUR STORE

Our counters and tables will be loaded with DOLLAR BARGAINS. Merchandise will be from our regular stock, and no goods brought in for this special Dollar Day. Every item offered is a REAL BARGAIN. So make a list of your needs and be on hand early, as there will be some surprises for you. All of the bargains are not advertised by any means, so come and see for yourself—"you will buy." We've planned to offer More Bargains and Bigger Bargains than ever before.

CHALLENGER—At the Kelowna Hospital, on 22nd inst., to Mr. and Mrs. Challenger, a son. 44-1p

DEATH

VERITY—Died on June 12th, twin sons of Harold Verity, Salmon Arm. 43-1c

A pleasing function took place last Wednesday afternoon, the 15th, at the home of Mrs. R. G. Edwards, Park Avenue, when Miss L. B. Mowat, who next month leaves the teaching of Domestic Science for the practice thereof, was the recipient of a number of useful gifts from the ladies of the Baptist Mission Circle. The presentation was made by two little girls, Miss Gwen Harding and Miss Elva Edwards, both dressed in pink and white, drawing a tastefully decorated wagon in which the gifts were placed. After the parcels had been opened and their contents duly admired, the party adjourned to the lawn, where several photos were taken. Refreshments were served, consisting of tea, sandwiches, cake and ice cream.

Mrs. Nickle, mother of the guest of honour, poured tea, and Mrs. Harding and Mrs. Burrill assisted in serving. About twenty were present for the Kelowna Regatta are Wednesday and Thursday, 10th and 11th August. The following gentlemen comprise the managing committee: Messrs. H. S. Atkinson, St. G. P. Baldwin, J. S. Boucher, J. F. Burne, W. M. Crawford, D. W. Crowley, H. B. Eyraud, J. B. Knowles, W. J. Mantle, G. A. Meikle, A. G. McCosh, W. C. Renfrew, E. C. Weddell, R. Whillis, H. G. M. Wilson, Secretary.

The Misses Amy and Ethel Burne returned on Saturday from Toronto, where they have been attending a ladies' college. Miss Mary Burne remained in Toronto to take her matriculation. 43-2c

Local and Personal

Mrs. H. McClure left for Wolsley, Sask., on Monday.

Mr. J. F. Burne went to Victoria on Monday.

Miss Jessie McMillan, of the Post-Office staff, is spending a vacation at Spokane.

Naval Cadet Taylor arrived on Friday from the Naval College at Esquimalt to spend the summer vacation with his parents, Mr. and Mrs. L. E. Taylor, Bankhead.

Mr. T. A. Tonge, of H. M. Customs, Vernon, who relieved here recently during the illness of Mr. A. Weddell, passed through on Monday on his way to take duty at Cascade for three weeks.

Capt. and Mrs. Cates and little daughter are visitors to Banff, for which point they left on Tuesday. They expect to be away about two weeks.

Captain Dorin and Lieutenant Sunell, who have been in charge of the local work of the Salvation Army in Kelowna, will "farewell" on Sunday. The new officers are due to arrive next week.

Three carloads of "booze" arrived at Vernon on Monday, two being destined for the government liquor warehouse there and one for Kelowna. Apparently the bibulous capacity of Vernon is rated higher than ours by the government!

A very interesting event took place Benvenuto, on Monday afternoon, at the home of Miss Chamberlain, when a miscellaneous shower was given by her in honour of Miss Johnson, whose marriage is to take place shortly. Frieda Dilworth and Grace Burtch carried in the basket laden with beautiful gifts. During the afternoon Mrs. Dilworth sang and Mrs. DeMara gave a reading.

On his way back from the annual convention of the Canadian Weekly Newspapers Association, at Vancouver, Mr. W. A. DeWolfe, editor and proprietor of the "Enterprise," of Consort, Alberta, spent Thursday to Monday in town as the guest of his uncle, Mr. T. K. Grainger. He is very much captivated by British Columbia and thinks of settling in the province if he can find a journalistic opening.

The water of the lake is rapidly warming up and bathing is in full progress. To the many attractions of the Aquatic Association there is being added this year instruction in swimming and diving, both for seniors and juniors, with the caretaker, Mr. A. Edwards, champion of many Regattas, in charge. The pleasure of bathing is greatly minimized by lack of ability to swim and dive, and those who know always enter the water head first. Parents should take advantage of this excellent opportunity to have their children taught one of the most healthful and invaluable forms of exercise, and would do well to take some lessons themselves, if they cannot swim—the need of such knowledge arises at the most unexpected times.

IMPORTANT! AUCTION SALE

Favoured with instructions by the Bankhead Orchard Co., Ltd., the undersigned will offer a quantity of desirable farm implements and a herd of splendid milk cattle by Public Auction.

EAST KELOWNA SCHOOL DISTRICT

The annual meeting of the above District will be held in the School house on Saturday, July 9th, at 7 p.m., for the purpose of electing a new Trustee in the place of R. Rowley and a new auditor in place of A. Newbold, both of whose terms of office are about to expire, and for the purpose of providing for the expenses of the District for the coming year, and for any other business that may be brought before the meeting. All ratepayers and the wives or husbands of ratepayers are entitled to vote. In view of the new school building to be erected during the summer, many matters of importance will be discussed, and a full attendance is requested.

T. L. GILLESPIE,
Secretary.
East Kelowna.

BOY SCOUTS' COLUMN

June 20, 1921

Orders by command for week ending June 30, 1921.

Duties: Orderly Patrol for week. Beavers. Further orderly duties will be as posted in Camp.

Parades: Patrols, and Scouts of each Patrol, must have their complete camp equipment on Bernard Avenue in front of the Club Room, on Tuesday, the 28th of June, at 10 a.m. They will leave for camp in cars at 10:30 a.m. on the same day. Each Patrol will parade separately before going to camp, to make final arrangements and see that they have their complete equipment, and there will probably be Court of Honour some time before the 28th inst., of which further notice will be given. Lunches must be brought for the first meal in camp.

A list of what each Patrol and Scout is required to take has been given out.

We have to thank Major Abbott, Mr. Dayton Williams and Mr. Winter, for their kind offers to lend us a tent. We have seven bell tents of our own, but unfortunately one of them has seen its best days.

We shall be glad to have any offers of car trips to camp from any of our friends who can take us out, or make trips while we are in camp. The two Visitors' Days in camp will be Sunday, the 3rd of July, when a Camp Service will be held at 3 o'clock; and Thursday, the 7th of July, when the Annual Sports will be held from 2 to 4 o'clock. We shall be very glad to see as many as possible of our parents and friends on either or both of these days.

The competitions at camp will be: Tenderfoot; Kim's Game; Mile at Scout's Pace; another Memory Game; Second-Class Semaphore Signalling, Receiving and Reading, and Second-Class Ambulance. One of the tests or games at camp also will be to go from camp for one hour and return with a field map of the route followed and a written report of the journey.

We quote the following editorial from a recent issue of the "Ottawa Citizen":

"Boy Scouts Abroad.—Ottawa boy scouts have a fine summer camping place on the Rideau at Black Rapids. During the months of July and August, possibly 400 boys will pass through the camp. The camp fee is \$3.00 per week. It would be a great investment for Canada if an arrangement could be made for boy scouts from other parts of the country to come to the Ottawa camp during the summer. Canadian boys should have the opportunity to visit their national capital, to see the new Parliament buildings, the National Museum, the Mint and other places of national interest, and perhaps be reviewed by the Governor-General. British boy scouts have developed the idea of touring abroad. A troop from the Leeds Modern School, ranging from 13 to 18 years of age, recently spent two weeks in the Pyrenees. They lived partly under canvas (in spite of the heavy rains) and partly in barns, and trekked some 35 miles, including at least two climbs to a height of over 5,000 feet. They met French scouts, who taught them some things about handling tele-carts on a mountain side. Practically every boy kept a written as well as a photographic record of the journey, and several made plans to enter into correspondence with French scouts they met. For next year, the same boys are interesting themselves in a suggested canoe voyage to Holland. Canadian boys could learn much about their own great country by following this idea. Tours by troops of Ontario boys in the Maritime Provinces, British Columbia boys in Quebec, Prairie Province boys in Ontario; a general interchange of visits among the various provinces, would tend to lay some enduring foundation stones of national unity."

THE UNDESIRABLE SCRUB BULL

That invariably defective animal, the scrub bull, is being gradually eliminated. The Live Stock Branch at Ottawa, by its policy of loaning pure-bred bulls to specially organized associations in newly settled districts and in backward sections of the older provinces, is doing much towards achieving this end. In the seven years following the inauguration of this policy in 1913, 2,531 bulls, purchased for \$368,596, an average of \$144.85 per head, had been so loaned. Of these, British Columbia has had 119, Alberta 497, Saskatchewan 539, Manitoba 220, Ontario 216, Quebec 759, New Brunswick 64, Nova Scotia 79 and Prince Edward Island 38. Returns substantiate the statement that where these bulls have been used there has been a considerable improvement in the stock marketed, and that in many districts in which bulls were loaned five or six years ago, farmers have felt warranted in buying pure-bred animals of their own. As a result, department-loaned sires are released and sent to more needy districts. This is particularly noticeable in Quebec, where the number loaned decreased from 200 in 1916 to 62 in 1919, while in Alberta and Saskatchewan the loanings had increased. It is interesting to note as evidence of the economy practised in carrying out the policy that in one year 426 bulls whose usefulness had become impaired were sold for an average of 67 per cent of their original cost.

SNUBBED

Walking through the village street one day, the widowed Lady Bountiful met old Farmer Stubbs on his way to market. Her greeting went unnoticed.

"Stubbs!" said she, indignantly. "You might at least raise your hat to me!"
"I beg your pardon, m'lady," was the reply, "but my wife ain't 'ead morn' two weeks, and I ain't 'ead lookin' at the wimmen yet!" started.

PRODUCTION COSTS IN FARMING OPERATIONS

(Experimental Farm Notes)

In the developed agricultural areas of British Columbia the average of values placed on land is considerably higher than it is in any other province. Production costs, other than use of land, are also high. With these two production factors at a high level and with a big local demand for fresh farm produce, the trend of farm acreage has been toward the smaller working unit, two acres or less, the one-man-sized farm. The per acre capitalization going higher, managing ability not generally improving, and employed labour efficiency not all that could be desired, are conditions that are having a big influence to convert many of the larger "staple food" producing farms into a greater number of "luxury food" producing farms. Hence we see a big increase in glass houses, ornamental, small fruit plantings, ornamental stocks, poultry ranches, etc., all run on the one-man or family labour scale. This small farm business will be profitable so long as it does not overtake the local market for luxury food crops, such as flowers, fruits and poultry. The small farm with its more intensive culture, with its higher percentage of human labour chargeable to each unit of production, is quite a different undertaking from the large farm where horse power and machinery may be used in a large way as an end to low cost of production.

The small area farm does not offer sufficient room for the operation of the larger labour saving machines and power, neither will it permit such capital cost. Many products, few machines and much human energy is the requirement for the small farm.

If labour on a farm be kept fully employed and moving at a speed that will give maximum production, some hope may be entertained for profit. With labour not employed to the limit, all production will be absorbed in maintenance; there will be little or nothing in either cash or produce that can be called profit. The large farm, if well organized as a producing business, offers greater opportunity of ways and means of keeping labour employed to the limit. The size of a farm, to be profitable, must be determined by its location and the energy and ability of the individual operator. No farm should be so small as not to keep the operator and his family fully employed, using the best tools and power, during the entire year. No individual should operate a farm of larger size than his managing ability warrants.

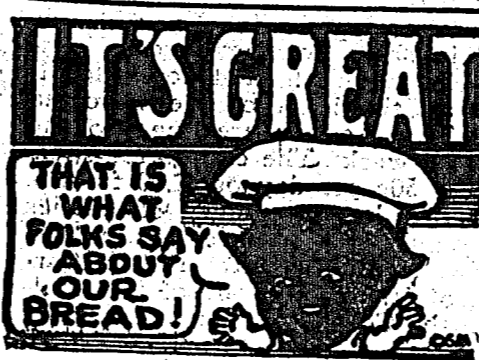

A farm business that entails too much labour for one man and is not enough for two men is out of balance and not likely to be as profitable as it should be. A farm business just large enough to keep one man fully employed, but on which the labour of two or three men is being expended, can not be profitable, since efficient use of labour can only be secured by adjusting the individual to the farm or the farm business to the individual.

L. STEVENSON,
Supt. Experimental Station,
Sidney, B.C.

THE FOOLISH MAN

There was a man in our town,
And he would never learn;
He went upon a fishing trip
And let his camp fire burn.

Oh, swiftly spread that forest fire
And many homes it burned,
And from that little fishing trip
That man has ne'er returned.

THE folks whose appetite and digestion have become acquainted with our bread, say "It's great."

It's the three-times-a-day food that hits their palate just right.

Our pastry is a fit companion for the finest meal.

WILLIAM FARNUM in "THE ORPHAN"

William Farnum again demonstrates his ability to present vividly one of the strong men of the plains. As the Orphan, he is the terror of a wild, rugged country, where he has grown up from boyhood. The scenes are laid in a typical bad-land country, one of the most picturesque shown on the screen in some time. The roads wind in and out among buttes and mountains, flanked on each side by giant cactus and desert growths of all sorts. Some great riding is done in this production, and G. Raymond Nye's handling of a six-horse stage coach is something to be remembered. A vivid tale with the star at his best.

MACK SENNETT COMEDY, "YOUTHFUL FANCY"
Sat. Matinee, 3.30, 15c and 25c. Evening (one performance), 8.15, 25c, 55c.

BEEKEEPING NOTES

Recognizing Brood Diseases of Bees

(Experimental Farms Note.)

Identification is the first step in the control and eradication of the brood diseases of bees.

There are three diseases affecting the brood of bees and usually the main characters are sufficient to determine which disease is present.

The healthy larva, up to the time it is capped over, lies curled up in the base of the cell and is of a glistening pearly white colour.

Brood affected with American foul brood usually dies after it is sealed over. The cappings covering dead brood are darker and more concave than those covering healthy brood.

European foul brood may be recognized by the fact that the larva usually dies before it is capped over. Affected larvae change from white to light yellow in colour and assume unnatural positions in the cell.

Larvae of the Sacbrood will be found in both capped and uncapped cells. The position of the larvae will be lengthwise in the cells, with the anterior end turned towards the upper wall of the cell.

The Control of Swarming

Swarming is the natural method by which bees increase, but is a hindrance to the best results in honey production; especially in this true of comb honey production.

The uncertainty of swarming, the reduction of the honey crop through a division of the working force of the colony, the possibility of losing swarms and the difficulty of controlling swarming without considerable labour, all make the control of swarming the biggest problem in bee management.

Colonies do not all require the same treatment. Swarming may often be prevented by the following manipulations: The introduction of a young queen, giving ample room for brood rearing just previous to and during the early part of the clover flow.

The destruction of queen cells every nine or ten days requires too much labour and is not always effective.

In localities where the swarming season is short, the separation of queen and brood is usually effective. All the brood is removed from the brood chamber and placed in an empty super, and the brood chamber is then filled with empty combs.

A more effective method is to remove the queen from the colony at the time the first active queen cells are found and to destroy the cells.

It is a good plan to keep the queen's wings clipped, for, should a swarm emerge, the queen will be unable to fly and will fall to the ground when she leaves the hive.

TYPES AND PRINCIPLES OF PIGGERY CONSTRUCTION

(Experimental Farms Note.)

A consideration of types and principles of piggery construction brings up a classification of swine growers, roughly, as follows: 1. The farmer who keeps two or three sows, and from which class comes the great part of Canada's hogs; 2. The farmer who specializes a little in swine growing, keeping five to six good brood sows and a boar; 3. The out and out hog-man who goes in for hogs exclusively, keeping thirty, forty, fifty or more brood sows and working, as closely as possible, on the two-litter-a-year plan.

Considering, briefly, the types of buildings required for the above classification, the following basic principles must apply to all: 1. Economy. No business can operate efficiently with too much overhead expense.

2. Dryness and Good Ventilation. These must be obtained in some way. Possibly no farm building is more difficult to ventilate than a piggery and no animal requires fresh air and dry quarters more than a hog.

The man who keeps two or three sows need, if any, special buildings. His sows are wintered in low, straw-covered sheds or shelters adjacent to the barn yard. Two summer pastures with a cheap lean-to or cabin for shelter. Two main requisites are automatically acquired: fresh air and dry quarters and exercise.

Consider the case of the next class: the man who keeps five or six sows. His breeding stock should be handled as in the foregoing. The essential building is for farrowing his sows. If his sows farrow all about the same time and if he plans for fall litters early enough for successful winter feeding, he must have heated quarters; in other words, a building all or part of which is warmly built and therefore a comparatively expensive structure.

The extensive hog man needs special buildings. Nevertheless, he must strictly follow economy in construction. Expensive or comparatively expensive construction is required only for farrowing quarters. Open sheds with straw-covered sleeping quarters have proven excellent for winter fattening of hogs.

Quality maintains economy. You may pay less per gallon for other lubricating oils, but you get more lubrication per dollar when you buy Imperial Polarine Motor Oils.

CHEAP TIRES

It is no longer necessary to send out of town for cheaper tires. The recent reduction in prices is such that it is now possible to buy a high grade, fully guaranteed

GOODYEAR OR MALTESE CROSS TIRE

at approximately the same price as a cheaply constructed mail order tire would cost you. This price, in my opinion, cannot last, so fill your requirements for the season NOW.

Quality maintains economy. You may pay less per gallon for other lubricating oils, but you get more lubrication per dollar when you buy Imperial Polarine Motor Oils.

CUTS OPERATING COSTS

THE economy of using Imperial Polarine Motor Oils extends over practically every item of motor operation.

The lubrication afforded at every friction point and the gas-tight piston-to-cylinder seal means a big saving in fuel bills and a noticeable increase of power.

Through perfect protection of all motor parts, undue repair bills are avoided and depreciation is greatly reduced. By using Imperial Polarine Motor Oils you can save dollars this year on maintenance alone.

Always use the grade of Imperial Polarine recommended on our Charts for your type of motor. See Charts at our dealer's or write to 56 Church Street, Toronto, for a copy of our interesting booklet, "Automotive Lubrication," which contains the complete Chart of Recommendations.

IMPERIAL OIL LIMITED BRANCHES IN ALL CITIES

WE GIVE IMPERIAL Polarine CRANK-CASE SERVICE

For a Clean, Efficient Motor

Dealers displaying this sign will thoroughly clean the old oil and the grit and the dirt out of your crank-case; will flush your motor crank-case with Imperial Flushing Oil and refill it with fresh lubricating oil.

FRUIT JAR SEASON IS HERE

This year with Sugar so cheap, you should put up just slathers of Fresh Fruit in jars.

We have "Perfect Seal" and "Wide Mouth Self Sealing" Fruit Jars. Pints, \$2.00 per dozen; quarts, \$2.25 per dozen; half gallons, \$2.75 per doz.

Nearly everyone has a lot of Economy Jars which they have been afraid to use on account of unsatisfactory caps. All the Economy caps we have this year are new stock and guaranteed satisfactory—not an old one on hand at all. Economy Caps, 40c per dozen.

Your Season For Summer Clothing

It is easy to make an ordinary Palm Beach suit.

But it requires years of technical experience to learn how to tailor these thin tropical fabrics so that they will have all the style that you are accustomed to see in your highest grade regular suit lines, and so that they will still hold their shape after being washed or dry cleaned.

In our Palm Beaches there is a something about the sleeves and arm holes, and flat English shoulders, and the waist effects, and the whole drape of the coat that gets away entirely from the "wash suit" appearance and makes them stand out like the best models we get from men's regular suit houses.

Lovely Pick and Pick Greys, Khaki, Tans, Sand, and Heather mixtures at PRE-WAR PRICES. Each - \$30.00 and stamped "Genuine Palm Beach"

Summery Lines For Men Are All Here Hats, Underwear, Belts, Shirts, Serge Trousers, Duck Pants, Grey Flannels, Lisle, silk, and cotton hosiery galore.

TOUCHDOWNS

Learn to say "no," but know when to say "yes."
"Justice, like charity, should begin at home."
If the elevator to success is stopped—try the stairs.
The only cure for laziness is to "work" it off.

The more flattery a man hands his wife, the less pin money he will have to dig up.
Let well enough alone—and there will be no progress.
If a man puts all that is in him into his business, it will give him back all that is in it.

RUTLAND

We are glad to note that Mr. Wm. Gay has sufficiently recovered from his recent illness to be up and around once more.

Mrs. Maxwell spent the greater part of the past week in Vernon, where she has been acting in the capacity of Recording Secretary to the Women's Institute conference, which was held in that city.

Please note that the days on which the Institute ice-cream parlour will be open have been changed to Tuesdays and Fridays.

Mr. E. Blenkarn, who has been for some time in the Kelowna Hospital, where he underwent several operations, has so far recovered as to be able to return home, but is still confined to his house.

The Rutland baseball nine will play the Kelowna team at Rutland on Tuesday next, at 6.15 p.m. sharp. Come and support the home team.

The home of Mr. and Mrs. Ben Hardie was the scene of a very enjoyable "shower" and reception in honour of Mr. and Mrs. L. M. Wanless on Thursday evening last. Some forty or fifty guests were present and the happy couple were the recipients of numerous useful and valuable presents. The evening was enjoyably spent with dancing and music.

There was a fair attendance to see the football game between a picked team from Rutland and Ellison and the Kelowna eleven on Monday night. The Kelowna team won, 2 to nil, though the play throughout was fairly even.

The Rutland Athletic Club will hold a meeting in the club-room, the southeast basement in the School, on Monday evening next, after baseball practice.

Mr. John Guest's tractor has been busy for some time past breaking land on the newly marketed properties of the L. & A. Co., above the Rutland ditch. The planting of orchards on the upper benches will mean a considerable extension to the Rutland district. We understand that the greater part has already been purchased, mainly by prominent Kelowna business men.

The bungalow which is being erected for the Black Mountain Irrigation Co., near the Presbyterian Church, promises to be a very neat and attractive place. It will be both an office and a residence for the Company's secretary.

Frank Guest arrived back last weekend from Kamloops with Capt. J. F. Roberts' truck, which he brought down by road.

Mr. Ben Hardie's store, the brick-venereing of which was completed some time ago, is certainly a good advertisement for the district and Mr. Hardie's business capacity. We believe it to be the only brick store in any rural district in this part of B. C.

EAST KELOWNA

Some of the Trustees of the Irrigation District paid an informal visit to company of Major Macdonald. Now the reservoir at McCulloch in the that the spring floods are over, every irrigation official in the valley breathes a sigh of relief, for after the dam at Penticton went out everyone was scared least his dam should go next. We are glad to state that our reservoir holds 950 acre-feet more than last year, and the Trustees are contemplating adding another 1,000 acre feet to its capacity, so for several years to come our District should be amply supplied with water.

Beekeeping is becoming a very popular pastime on the Benches as a hive of bees to each acre of bearing orchard is necessary to properly pollinize the fruit, and the poor setting of late years may be due to too much blossom, and too few bees. All the bees swarmed early this year. They say "a swarm in May is worth a load of hay," in which case there was quite an addition of wealth to the Lower Bench, for Mr. Powell hived three swarms, Mr. Miller two, Messrs. Nott, Gillespie and Nalder, one each.

We are glad to see Mr. "Boi" Fox back, looking quite recovered from the effects of his war services.

Mr. T. L. Gillespie has just received a letter from his father, who lives six miles from Dublin. He says he stopped up all night to see the Sinn Fein attack on Cabinteely Police Barracks. The noise was deafening and the flashes of the rifles and bombs distinctly visible. Fox Rock Golf Links runs behind his place and a few days afterwards some Sinn Feiners held up the golfers and forced them to dig a trench across the road. Along came the troops and prepared to open fire on the unlucky golfers. The situation was hastily explained and the troops retired after having made the golfers fill in the trench again.

Picking started on the Benches with a rush on Monday last, on strawberries and Governor Wood cherries. Dozens of pickers were busy, and several trucks were engaged in hauling away the fruit.

Mr. C. A. Hill has bought from Mr. Leo Hayes the five acres on which the Errington house stands.

Do unto the printed matter of others as you would have them do unto yours.

A woman that has been robbed doesn't return to the scene of the robbery.

The time to hustle for business is all the time; the less business there is the more you want to hustle.

OKANAGAN CENTRE

Mrs. Downey, of Kelowna, is visiting Mrs. F. C. Copeland.

Miss Louisa Campbell, of Rutland, who has returned for her holidays from Vancouver, is spending a few weeks with Mrs. T. A. Gray.

The Strawberry Social given by the Okanagan Centre Women's Institute was quite a success in the beautiful home and grounds so kindly loaned by Mrs. E. S. Johnston for the occasion on Saturday evening. Music and dancing were enjoyed by many. A song by Miss Coe, accompanied by Miss Blakey, was much appreciated and an encore was given. Piano and violin solos were rendered by Mrs. Pixton and Mr. Cobourn, Mrs. Robinson and sister, Mr. and Mrs. Arnold, Miss Arnold and Mr. Davison.

Miss Jennings returned on Monday to her home in Vernon.

We are pleased to learn that Rev. Mr. Campbell-Brown, who underwent an operation at Vancouver recently, is recovering successfully.

The song of the mower is heard on the hills, and our valley is giving a good crop of hay.

Miss Kathryn Brett is visiting Mrs. James Gleed.

POUND SALE

NOTICE is hereby given that, on Saturday, the 2nd day of July, 1921, at 1 o'clock, I will sell at public auction in front of the Pound at Glenmore Ranch, Glenmore, in the County of Yale and being within my Pound District, the following animal, name by one boy yearling filly with no brand.

Dated the 20th day of June, 1921.
J. N. CUSHING,
Pound Keeper.
