ARGUMENT

"I cannot use Engraved Stationery because it is too costly." Yes Steel Engraved Stationery may cost more than the ordinary kind, but it is only high priced as compared with the cheap, common stationery with which the country is flooded.

Engraved Stationery is just like a better hat or a better suit of clothes; it costs more than inferior work, but it's worth more because the better quality is there.

You wish to impress your correspondents favorably, you never see the majority of them so through your letter you must impress them with the reliability and the responsibility of your firm and its business methods.

Before your correspondent sees one word of your letter he sees the stationery upon which it is written and is unconsciously impressed with its quality or lack of quality. High grade stationery helps to make a poor letter good, and a good letter still better. Steel Engraving is impressive, refined and convincing to a degree unobtainable in any other class of work.

Our facilities and experience enable us to quote the very lowest prices at which good work and material can be obtained.

We invite your inspection of the samples enclosed representing recent work done in our engraving plant at Atlanta and we will be glad to submit additional specimens with estimates, upon request.
