Maui Director

Hawaii Independent Physician's Association

Assistant Clinical Professor

John A. Burns School of Medicine

Mitchell A. Kaminski, MD, MBA

Program Director, Population Health

Jefferson College of Population Health

Clinical Associate Professor

Sidney Kimmel Medical College

Population Health (PopH)

is a new academic and professional field that draws upon diverse disciplines to transform the delivery of health services.

Health systems in the U.S. and around the world are shifting from volume to value. Population health professionals are on the leading edge of driving this change.

Program Features

- 100% online with no in-person or synchronous learning requirements
- Curriculum designed by and for population health professionals
- Accelerated 7-week semester format tailored to working professionals
- Courses taught by expert practitioner faculty who bring their extensive real-world experience to the classroom
- Complete a graduate certificate in one year or a master's degree in two years by taking just one course at a time
