Self-management, self-efficacy, and secondary health conditions in people with spinal cord injury

PhD thesis

to obtain the degree of PhD at the
 University of Groningen
 on the authority of the
 Rector Magnificus Prof. C. Wijmenga
 and in accordance with
 the decision by the College of Deans.

This thesis will be defended in public on

Wednesday 30 September 2020 at 14.30 hours

by

Martijn Cornelis Johannes Maria van Diemen

born on 14 September 1969
 in Eindhoven

Supervisors

Prof. M.W.M. Post

Prof. J.H.B. Geertzen

Co-supervisor

Dr. I. van Nes

Assessment committee

Prof. A.V. Ranchor

Prof. P.U. Dijkstra

Prof. A.C.H. Geurts

Contents

Chapter 1	General introduction	7
------------------	----------------------	---

PART I: BACKGROUND INFORMATION

Chapter 2	Self-management and self-efficacy in patients with acute spinal cord injuries: a longitudinal cohort study protocol	19
Chapter 3	Associations between self-efficacy and secondary health conditions in people living with spinal cord injury: a systematic review and meta-analysis	39
Chapter 4	The validity of four self-efficacy scales used in people with spinal cord injury; issues of state versus trait self-efficacy	63

PART II: RESULTS

Chapter 5	Learning self-management after spinal cord injury: a qualitative study	85
Chapter 6	Multidimensional fatigue during rehabilitation in persons with recently acquired spinal cord injury	111
Chapter 7	Body image in persons with spinal cord injury, during inpatient rehabilitation	127
Chapter 8	Coping flexibility as predictor of distress in persons with spinal cord injury	143
Chapter 9	General discussion	159
	Summary	177
	Summary in Dutch	185
	Dankwoord	193
	About the author	199
	Curriculum vitae	201
	List of publications	202
	List of presentations	203
	Research Institute SHARE	205
