Accessibility & accommodation

- **Accessibility**
 - Built-in
 - Useful for many
- **Accommodation**
 - Added by request
 - Addresses single issues

Why Accessibility?

- ADA compliance
- Accessibility features are useful for everyone!

Universal Design for Learning

- **Universal Design**
 - “can be accessed, understood and used to the greatest extent possible by all people regardless of their age, size, ability or disability”
(National Disability Authority, 2020)
- **”Plus one” strategy**

Planning for accessibility

- It is time consuming!
- Communicate with your audience(s) to prioritize features
- Use project management techniques

Sharing your work

- Consider applying a Creative Commons or other license
- When using the work of others, plan to use similar licenses
