GENERAL AGENTS FOR

MANHATTAN VAPOR STOVES.

You can do all your baking and washing on a vapor stove with less trouble and less annoyance from its heat, than if you use a range or cook stove.

Cream Cans and Tanks, Patent Crated Faucet Oil Cans, Tinware, etc. The DECROW FURNACE is not an experiment, but has been in successful operation since 1833. The smallest one will thoroughly warm from two to three rooms; the largest will heat a whole house. It is also admirably suited for heating Churches, Halls and School-houses and commends itself to all looking for a low priced heater. It will do the work just as well as one that costs three times its price. Send for circulars and price lists.

POSTAL RATES.

FIRST-CLASS MATTER

Mailable matter of the first class embraces letters, postal cards, and all matters wholly or partly in writing, except as hereinafter provided.

Every Letter, or written communication, any distance within the United States, 2 cents for each ounce or fraction thereof.

Drop Letters, 1 cent for every ounce or less. At offices where free delivery by carrier is established, 2 cents for each ounce.

Book Manuscript, manuscript for magazines, periodicals, newspapers, and music manuscript are now subject to full letter rates of postage, except they be accompanied by proof sheets or corrected proof-sheets, when the rate will be one cent for each two ounces or fractional part thereof.

Matter produced by the type-writer is subject to postage at letter rates.

Letters deposited at a post office for mailing with less than one full letter rate of postage—2 cents, prepaid—will not be forwarded in the mails, but will be held for postage.

Matter produced by the electric pen and papyrograph processes, which is not in the nature of correspondence, may be received and transmitted in the mails at third-class rates, when properly presented for mailing.

Matter which is in writing, or other matter containing a written inscription in the nature of personal correspondence, or representing monetary value, and matter which is sealed against inspection, is first-class matter.

SECOND-CLASS MATTER.

Mailable matter of the second class embraces newspapers and other periodical publications.

THIRD-CLASS MATTER.

Mail matter of the third class embraces books, seed, cuttings, bulbs, plants, circulars, proof-sheets, corrected proof-sheets, with manuscript copy accompanying the same, photographs and all matter of the same general character, and the rate is one cent for each two ounces or fractional part thereof.

The rate of postage on transient newspapers, periodicals, and magazines is one cent for each four ounces or fractional part thereof.

The term circular is defined to be a printed letter, which, according to internal evidence, is being sent in identical terms to several persons. A circular shall not lose its character as such, when the date and the name of the addressed and of the sender shall be therein written, nor by the correction of mere typographical errors in writing.

Upon matter of the third class, or upon the wrapper enclosing the same, may be written the name and address of the sender, preceded by the word "from;" simple marks may be made to call attention to any special word or sentence.

There may be written on the cover or blank leaves of any book or printed matter of this class, a simple manuscript dedication or inscription, that does not partake of the nature of personal correspondence. All packages of matter of the third class must be so wrapped with open sides or ends, that their contents may be readily examined by postmasters.

FOURTH CLASS MATTER.

Mailable matter of the fourth class embraces all matter not included in the first, second or third classes, which is not in its form or nature liable to injure the contents of the mail bag, or harm the person. Postage rates thereon one cent for each ounce or fractional part thereof.

Upon any package of matter of the fourth class, the sender may write or print his name and address, preceded by the word "from," and there may also be written or printed the number of articles enclosed; and the sender thereof may write or print upon, or attach to any such article, by tag or label, a mark, number, name or letter for purpose of identification. The limit of weight of package is four pounds, and must be so wrapped that its contents can be easily examined by postmasters.

But if by inadvertence any article of the third or fourth class should reach the office of delivery without being fully prepaid, double the usual rates will be charged on the unpaid portion, to be collected on delivery.

Canned goods in hermetically sealed tin cans, which do not contain any liquid, are mailable as fourth class matter

The Dexter Gazette

Aims at being the model local paper of Eastern Maine. Its splendid subscription list would seem to warrant its claims in this direction. It monopolizes no department at the expense of other features. Home, farm, story-readers, children and all are fully represented, yet the grand quest and distinguishing feature of the GAZETTE is

NEWS

HOME NEWS—From a correspondent in every town in its broad parish.

LOCAL NEWS—Of all varieties, and racily presented.

SECTIONAL NEWS—Carefully collected.

GENERAL NEWS—Concisely and succinctly given.

BRIGHT SPECIALTIES—From correspondents all over the country.

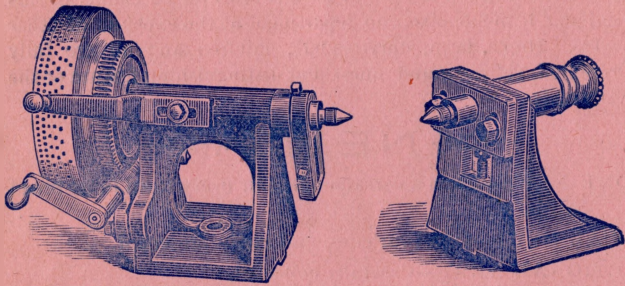

Everyone knows the GAZETTE! If you haven't tried it, follow your neighbor's advice and enjoy it. One Dollar lets you in for a year.

MOULDINGS AND PICTURE FRAMES.

Our magnificent Life-Size are well known in every town in this State as well as Massachusetts as being the finest made, at the lowest possible price for good work. Their elegant shading, soft and engraving-like appearance, together with a perfect and true likeness, have never been equaled by any other copying house. The unanimous opinion of all is that John H. Perrigo's Life Size Pictures cannot be excelled. Warranted in every case.

SODA DAYS HAVE COME! AND MOXIE TOO.

While Bangor is being agitated over the supposed impurity of her water supply—Mayor Blake spoke of it in his message—users of my soda need have no fear, for all the water used in my factory comes from the well known Broadway Mineral Spring which I own, the water from it having the highest degree of purity. You will attain perfection in the soda line therefore, if you use the article thus made, and in a Matthews' Steel Fountain.

The Direct Line to**Moosehead Lake and Vicinity.****Maine's Great Resort for Sportsmen and Tourists.**

ALSO THE ONLY LINE TO**Monson and Katahdin Iron Works.**

Both these places being noted for their proximity to as good fishing and hunting as can be found in the state. This line runs through the most fertile and picturesque part of Piscataquis County and affords access to the most beautiful part of the state; the Katahdin Iron Works, with its fine fishing and hunting, and noted mineral springs; Monson, with its noted slate quarries, fine scenery and clear atmosphere; and Moosehead Lake the largest and most noted body of water in the state. Connections are made with the Maine Central at Dover and Oldtown; with the Canadian Pacific at Greenville and Brownville Junction, and with the Monson R. R. at Monson Junction.
