**Date:** October 3, 2019 at 3:22 PM

**To:** Wofford Campus Community  
**From:** Committee on the Study of Tobacco Use at Wofford College

Last fall, Wofford College's Wellness Center received a grant from the American Cancer Society as part of its Tobacco-Free Generation Campus Initiative. President Samhat formed a committee to study tobacco/smoking products use on campus.

The grant enabled the committee to survey students, faculty and staff to collect data on their tobacco and smoking products use. In addition, the committee collected opinions on tobacco use from our community members. The committee also collected information on tobacco use policies at other colleges and universities as well as medical information about tobacco use.

The committee's work has resulted in Wofford adopting a new Tobacco and Smoking Products Use Policy effective this academic year. The policy contains specific information about the locations where such products may be used on campus and locations where their use is not permitted. The policy also outlines sanctions for violations of the policy. Enforcement of the policy and the sanctions for violating it as listed in the attached document will begin Jan. 1, 2020.

The policy also calls for the campus to be tobacco/smoking products-free effective Sept. 2, 2020.

We appreciate the time and effort the Wellness Center, Lisa Lefebvre and the committee members put into making our campus a healthier environment and considering the health and well-being of our students, faculty, staff and visitors.

Members of the committee:

Benjamin J. Bryan (staff)  
Jeffrey M. Burney (staff)  
Benjamin J. Cartwright, chair (faculty)

**Date/Time:** 10/23/2019 4:00:00 PM

**Location:** McMillan Theater

**Details:** Since 2011 Syria has been rocked by violence and bloodshed. The international press has highlighted the atrocities of ISIS, the use of chemical weapons, and the role that foreign states, such as Russia, have played. While these are all extremely important issues, they give rise to a misperception about life on the ground in Syria. Amidst violence and chaos new institutions emerged to provide public goods and governance in rebel controlled areas. In a country that had known authoritarianism for decades, some cities and towns held democratic elections, had public meetings to discuss affairs, and secured a place for women at the table. This talk will discuss this process, its effects, and some of the potential long-term ramifications of local governance in Syria.

"Siendo mujer" means "being a woman," and Estes' exhibition, "Siendo mujer: a short study of the female experience in South America" represents the conversations she shared with resilient, creative women for whom art plays a significant role in their female experiences, and vice versa--for whom the female experience plays a significant role in their art. It is further a collection of their artwork, also including her own photographs of them, their spaces, and moments which contribute to the story each is trying to tell through her work. All are invited to join us for a curator's talk with Estes on Oct. 24 at 6 p.m. in the Rosalind Sallenger Richardson Center for the Arts. This event is sponsored by the Office of the President. "Siendo mujer" will be on display in the Richardson Family Art Gallery until Dec. 20.

**Date:** October 24, 2019 at 1:04 PM

**Cc:** Wofford Staff and Faculty WoffordStaff@Wofford.Edu

---

Dear students,

The Division of Campus Life and Student Development has received questions regarding mold in residence hall rooms across campus. Because of these inquiries, the college contracted a third-party environmental expert to conduct air quality tests in a variety of residence hall rooms. While limited levels of mold are found in all human environments, results of the tests found no abnormal readings that would indicate a cause for concern. What they did find, however, are results that indicate the need for residents to make some changes in the location of furniture, including removing items that block or impede air flow from vents, and to maintain specific housekeeping responsibilities.

Wofford's Division of Campus Life and our Facilities Department team members work together to ensure that the best possible environment is offered to our residents. However, in campus housing, as in any residence, there are housekeeping responsibilities that must be performed. Wofford's Facilities Department is responsible for all maintenance and repairs as well as cleaning public living spaces. Students are responsible for personal living space housekeeping and for cleaning their own bathrooms in Carlisle, Wightman and Lesesne Halls as well as all Village apartments.

If an indoor environment is created that is conducive to mold growth, indoor mold spore concentrations can increase to unsatisfactory levels causing adverse health effects in susceptible individuals. The following items can affect the indoor environment in relation to mold and allergens:

- **Air circulation:** Keep windows closed. Open windows allow unconditioned (warm, moist and spore-laden) air into living spaces. The inflow to or outflow from fan coil units should not be blocked. Keep your air vents clear of furniture and do not tape over vents or stick items such as dryer sheets into the vents. This impacts the air flow and contributes to moisture buildup. Cube doors should be left open when not in use, and the AC fans in the Senior Village 1-4 should be set to the auto, not on, position. Use discretion when using plug-in air fresheners as they can be an irritant to many individuals.
- **Dust:** Household dust harbors mold spores and allergens. It has been reported that mold spore concentrations in dusty interiors can exceed 100 percent of the concentrations outdoors, even when no mold growth is present; therefore, a thorough cleaning of the living space typically can lower spore counts to levels that are equal to or below outside levels if there is no source of moisture intrusion.
- **Bathrooms:** Bathrooms, in general, are humid areas due to the frequent use of hot water in showers. High humidity in conjunction with the presence of skin

cells, hair and dirt that is sloughed off during showering leads to the growth of mold/mildew and bacteria if regular cleaning is not performed.

As always, your residence life coordinator, along with the entire Division of Campus Life and Student Development, is eager to assist you in any way should you have a question regarding best practices for keeping your living areas clean. Wofford's Department of Facilities also is happy to help with maintenance question or concern. You may contact them by completing the form here: [fixit.wofford.edu](http://fixit.wofford.edu)

Please let me know if you have additional questions.

Go, Terriers!

Dear Wofford College students, faculty and staff,

The past couple weeks have been filled with exciting activity on campus, from the college's fall meeting of the Board of Trustees to Family and Homecoming weekends.

I want to thank everyone across the college for their extraordinary efforts to make Wofford shine, even on some cloudy days! The campus looked terrific, and families, prospective students and their families, and alumni truly experienced the meaning and spirit of the Wofford family.

In recent days the community also celebrated the naming of the Chandler Center for Environmental Studies and a successful Terrier Ball, which raised a record number of donations for student scholarships as well as two football victories over Western Carolina and UT-Chattanooga; two women's soccer victories over ETSU and The Citadel; two men's soccer victories over Mercer and VMI; and a win for volleyball over Chattanooga. Finally, at 5 p.m. today - note the time change - our women's soccer team hosts VMI in the opening round of the Southern Conference Tournament.

The college has experienced another year of growth and improvement because of the trust that the Board, alumni, foundations, businesses, the families of students, faculty, staff and other funders have in Wofford's educational experience. As a nationally ranked institution recognized for value, a strong financial aid program and an excellent *four-year* graduation rate, Wofford continues to offer transformative educational experiences for students. During its meeting, the Wofford College Board of Trustees approved tuition, fees, room and board of \$61,440 for the 2020-21 academic year. A letter to families will be sent this week, and the new fee will be updated on our website. With this fee in hand, the senior staff now begins its work on an operating budget proposal for the next fiscal year to be presented to the board at its winter meeting.

Trustees also approved the new mission statement and statement of core values originally recommended by the VIA (Visioning, Implementation and Action) Team and approved by the faculty. [Click here](#) to read the revised mission statement and statement of core values, which now includes a commitment to sustainability and the environment, in addition to the values of collaborative teaching and learning, freedom of inquiry, academic excellence, intellectual curiosity, critical thinking, community and global engagement, and diversity and inclusion.

Finally, the board's discussion at the meeting focused on the future of higher education and the future of Wofford — our purpose, our program, our people and our place. We will remain engaged in this important strategic exercise throughout the year. While things may change, we believe it is necessary to be proactive in

and, even when things may change, we must be ready to respond in the present and preparing and planning for the future.

Thank you for your extraordinary contributions to our community and to our college.

Best,  
Nayef
