

DEAR DATA: "Patience" 2020

The situation in this week in USA is Not good, but there is some patience and optimism that a beautiful day will come.

"Aspiration And Decisions For this Week"

- D - I take a decision to not listen to much about "COVID-19"
- A - I'm research it more about the "Interior Design" because in this time I can do what I love.
- A+D - "I am not too much love to read it, because I need time, but I do not have a time with "school". But I read a story about the brand "TOMS" Topic of the book is "START SOMETHING THAT MATTERS". The title is so inspired me. And the story about him gave me more "unlimited giving".
- A - Seeing the Numbers getting bigger gave me a slap. I have been looking forward to why the numbers are increasing in USA, not decreasing. I am just wake up and sleep to see the numbers www.nytimes.com
