### Seen & Heard Around MURRAY

Well James and John Parker put the little pot in the big one so to speak.

Yesterday they invited twenty four local folks out to the Triangle Inn and fed them a fine meal.

When the meal was over they showed a film on a Ford experimental car then took everybody across the street to the Murray Plaza Motel where they had twenty four new 1965 Fords lined up on the circle there.

Each person was given the keys to one of the cars with instructions to keep the car for a week. Drive it anywhere they said, to New York if you want to, but drive it.

Nineteen of the new Fords were Galaxie LTD's and four of them were Mustangs, red as a huckleberry.

The Mustangs were reserved for the younger folks in the group of 24 and we were automatically out of that category.

We got a blue 1965 Hardtop Ford Galaxie LTD with Vinyl top. Pretty spiffy.

We rode around town for a while yesterday feeling like a king. The car has plenty of get up and go and when we stepped on the brakes it reminded us that the brakes on our own car must be wearing out or something. If you don't want to stop you should keep your foot off that brake, because the car stops and has.

It'll stop on a dime and you know a 1964 dime is pretty small.

As everybody left the Murray Plaza (Continued on Page 6)

Mrs. Isaac Hardeman of Louisville is the new president and Mrs. Paul Hale of Hopkinsville is the new first vice-president.

### Parker Motors Turns Keys Over To 24 New Fords Yesterday

If the market seems to be flooded with new 1965 Fords, that's right. James and John Parker of Parker Motors, local Ford dealer, started a new car promotion yesterday with a dinner at the Triangle Inn, after which they turned over the keys to twenty four new 1965 Fords to twenty four local business and professional men.

The twenty four are to keep the new cars for an entire week, drive anywhere, then return them next Tuesday to Parker Motors.

Present at the dinner meeting at noon yesterday were Harry Schultz, Car Merchandising Manager of the Louisville District, Y. L. Brown, Service Representative of the Louisville District, and Lynn Timmel, Field Manager for the Murray area. James and John Parker and Carlos Jones of Parker Motors greeted the guests as they entered the private dining room.

Following the dinner, served "boarding house style", Mr. Schultz made a short talk concerning the promotion. He pointed out that the Ford Motor Company spent \$425 million dollars to produce the new 1965 Ford. The 1965 model has 22,000 parts which are different from the 1964 model.

With the economy of the nation strong, Ford expects to get his share of the new car business," Schultz continued.

A short film on the Ford GT, an experimental car designed to compete with other racing cars, was shown to the group. Mr. Schultz said that it literally is a laboratory for performance measure. The GT can attain speeds of up to 200 miles per hour.

"We are proud of Ford and what it is today," he continued. "It is no 'tin lizzie' today," he concluded. Envelopes were handed to the 24 business and professional men present containing information about the new Fords and they were taken across the street from the Triangle and given the keys to "their" car.

### Murray Meets Tilghman On Friday Night

One of the big games of the season is on tap this week when the Murray High Tigers take on the Tilghman Tornado Friday night at 8 o'clock in Holland Stadium.

On the basis of comparative scores the game is considered a toss-up and the team in the best mental and physical condition could be the winner.

"One big IP for Murray, according to Coach Ty Holland, "is the angle of Steve Doran which was sprained in the first quarter of the Bowling Green game week before last." If Doran can play, and how much he is handicapped by his ankle, is very important to the Tiger cause.

Other boys with slight injuries are Steve West and Larry Sparks. Both are expected to be in contention by Friday night.

The Big Blue is led by Barker, quarterback, and Lamb, a guard line-man. As usual the Paducah aggregation has ample reserve strength.

The Tigers upped their prestige by the victory over Bowling Green but scouting reports say it will take an even better game to beat Tilghman Friday night.

Seats for 2000 people are now available in Holland stadium. Admission prices will be 75c student and \$1.25 adult.

### Murray State Registers An All Time High

Murray State college's record-breaking enrollment of 4,851 this year includes 1,971 freshmen, the largest undergraduate class ever enrolled at MSC, according to Mr. Wilson Gantt, dean of admissions. The all-time high of 4,851 students is an increase of 23.5 per cent over last year's enrollment. Included in this figure are 4,450 fulltime students and 404 part-time.

### Meeting On Library To Be Held Thursday

A meeting of all those interested in improved library services at the Murray-Calloway County Library will be held at the library building, 105 North 6th Street, Thursday, October 15, at 2 p.m. or 7:30 p.m. Patrons and friends of the public library are invited.

### District Scouters Meeting On Thursday

The District Committee of the Chief Chennubby District, Four Rivers Council, Boy Scouts of America will meet Thursday evening, October 15, at the First Methodist Church, Benton, starting promptly at 7:30 p.m. This meeting is for all District Committee members and Institutional Representatives of all sponsoring organizations of Scouting Units.

### Johnson Wins In MHS Mock Election

In a mock election held at Murray High School, Johnson received 268 votes and Goldwater 84 in the presidential race.

The Student Council sponsored election was held Thursday. After listening to speakers representing both sides, the students made their final decision.

Speakers for Johnson were Ed Frank Jeffrey and Bennie Humphrey. Goldwater was represented by John Pasco and Johnny Rose. In the homerooms, students had an opportunity to register. Only those registered were allowed to vote.

Voting machines were set up in the auditorium during the noon hour with the 7th, 8th, and 9th grades voting in Precinct I, and the 10th, 11th, and 12th grades in Precinct II.

The results in the first precinct were Goldwater 51 and Johnson 146. The second precinct gave 122 to Johnson and 33 to Goldwater.

### Concert For Children To Be Next Week

The Murray State College Symphony Orchestra, under the sponsorship of the Music Department of the Murray Women's Club, has scheduled the first Children's Concert of the 1964-65 season.

The concert will be presented next Wednesday, October 21, at 9:30 a.m. in the College Auditorium, and will be attended by children in grades one through six of the County and City school systems and the kindergartens.

Richard Farrell, conductor of the orchestra, has chosen a program of particular interest to children. The concert by the orchestra will be the first of a series of three concerts for children sponsored annually by the Women's Club Department.

The second concert will be presented by the Murray State College Choir, under the direction of Robert Baar. At the third concert, the children will hear the Murray State College Symphony Band under the direction of Paul Shaban.

OCTOBER 11-17 IS NATIONAL NEWSPAPER WEEK! Most of the year we take for granted something our forefathers fought and died for... a free press. The LEDGER & TIMES is as much a part of life as our job, home, or school. National Newspaper Week is set aside to honor the men and women of the press, and tell the story of the importance of newspapers to our way of life here in Murray, October 11-17, and all the year round, let's remember the part our LEDGER & TIMES plays in the democratic way of life.

IF YOUR PHONE COULD TALK, it would probably have a Southern accent! That's because an important part of most phones today is a small fluffy ball of cotton. The cotton (1/100 of an ounce!) is tucked into the hollow part of the handset to prevent vibrations and echoes from the mouthpiece reaching the earpiece. This tiny addition is just one of the reasons for the amazing clarity of voices over the telephone, whether they're coming from across the street, or across the world!

HAVE YOU EVER STOPPED TO THINK ABOUT THE WAY OUR COUNTRY'S GREAT EDUCATIONAL SYSTEM STARTED BACK IN THE DAYS OF THE ONE-ROOM SCHOOLHOUSE? There were benches for older children along three walls, and in the center sat the younger students. In cold weather there was a constant fire in the black, pot-bellied stove and a boy sat nearby with a bucket of water ready to put out stray sparks. One teacher taught all grades, and no two students had the same textbooks. Students made their own notebooks and wrote in them with quill pens and homemade ink that froze solid in the winter. Today, 3,000,000 students in 7,500 elementary and secondary schools, and thousands more in colleges, get some part of their education by television — the "Living Blackboard." Southern Bell is proud to be part of the organization that makes this great new educational medium possible in schools throughout the South.

**Ohio State Faces 2nd Week With Top Ranked Opponent**

NEW YORK (UPI) — The undefeated, second-ranked Ohio State Buckeyes face their second straight highly ranked opponent this week and the oddsmakers have installed them as one touchdown favorites to down 18th-rated Southern California.

Line Saturday Ohio State topped Big Ten champion Illinois in a stunning 26-0 upset and replaced them as the No. 2 team in the latest United Press International ratings behind Texas.

The USC Trojans were second ranked earlier this season but suffered their lone defeat of 1964 at the hands of another Big Ten team—Michigan State and fell to 18th.

The intercollegiate clash will be telecast on television and played on Ohio State's home field at Columbus.

The Texas Longhorns take on Sooners in a conference rival Arkansas at Austin and are 13-point favorites to hand the Razorbacks their first setback after four wins. Texas hasn't lost a conference game since 1961.

Auburn will likely be without the services of quarterback Jimmy Sidle and because of it are slim one-point underdogs against eighth-ranked Georgia Tech.

Nova Dame, flying high under the guidance of new coach Ara Parseghian, is a solid 14-point favorite to take UCLA. The Irish are

**Governors Rank 3rd In OVC Standings**

NASHVILLE (UPI) — The Austin Peay State College Governors, who finished their way from the Ohio Valley Conference cellar to first place, are in third place this week, according to official league statistics.

The statistics, released today by Commissioner Art Gorse, moved Morehead State to the top position and Middle Tennessee State was in second.

The Governors, who fought the 1963 OVC champ, Western Kentucky, to a 6-6 tie at Bowling Green last Saturday, retained their position as the league's top offensive team.

In four games, Austin Peay has pushed and passed for 1,257 yards, while Morehead was second with 1,157.

In the defensive category, Middle Tennessee, which has allowed opponents 645 yards in four games, was tops. The Governors were second and Morehead came in third.

Austin Peay amazed opposing teams and statisticians with their performance so far this year. The squad, in its second season of OVC competition, had been predicted to finish in the basement once again.

The official statistics showed Charlie Forrest of Murray State leading the OVC offense for individual players. Forrest has completed 567 yards in 97 plays. He also led in scoring with two touchdowns, five extra points and one field goal for 29 points.

Pete Hunt of East Tennessee was the leader in rushing with 374 yards and teammate A. B. Cleaverger had the most talented toe. He accounted for 1,622 yards in 26 punts.

**Bow and Arrow Hunters Given Large Area**

FRANKFORT, Ky. — Approximately half of Kentucky's 39,864 square miles of land will be open for bow and arrow hunters for 32 days beginning October 15 and continuing through November 15. Minor Clark, commissioner of the Department of Fish and Wildlife Resources, has announced.

Counties open to this type hunting this year total 58 of the 120 square miles of land will be open for bow and arrow hunters for 32 days beginning October 15 and continuing through November 15. Minor Clark, commissioner of the Department of Fish and Wildlife Resources, has announced.

Most counties open to hunting this year have been stocked during the past two decades by the Department of Fish and Wildlife Resources and with the cooperation of the hunters and sportsmen's clubs in protecting the deer, excellent results have been obtained. The deer kill in Kentucky is the gun season, ranks near the top in the eastern part of the United States in ratio to the number of hunters.

Last year almost 2,500 bow and arrow hunters harvested 256 deer in a similar 32 day season and more hunters with a greater kill are anticipated this year. Only one deer may be killed by a hunter, either gun or bow and arrow, during the combined seasons and in addition to a valid hunting license the deer hunter must also have on his person a deer hunting permit, cost of which is \$10.50 for both residents and non-residents.

Other rules that must be observed by the archery hunter include: Long bows only. Arrows must be barbed with broadhead. Points must be at least 3/4 inch wide. Archery hunters may not carry firearms. Counties open are: Green, Letcher, McCreary, Laurel, Leslie, Fleming, Jackson, Lewis, Rowan, Letcher, Rockcastle, Clay, Breathitt, Knott, Estill, Greenup, Powell, Floyd, Harlan, Owsley, Menifee, Wolfe, Bath, Union, Perry, Morgan, Adams, Logan, Marion, Hancock, Taylor, Warren, Woodford and Anderson. Management Areas open: Knob State Forest, Oct. 15-Nov. 15; West Ky. Wildlife Area, Oct. 15-Oct. 31; Bluegrass Army Depot, Oct. 17-Oct. 18; Oct. 24-Oct. 25 and Oct. 31-Nov. 1; Ft. Knox, Oct. 3-Nov. 1; Ft. Campbell, Oct. 15-Nov. 15.

## Dear Abby National Customs!

Abigail Van Buren

**DEAR ABBY:** I saw the bride's shoe passed at a wedding reception after the groom's best man knocked the bride over, sat on her, took her wedding veil off and put it on the groom's head backwards. I had no idea what was going on, and neither did the bride, but she looked very frightened. Later we learned it was an old German custom. This was at our daughter's wedding. We told her we didn't want anything passed around to take up a collection, but her husband took over and did things his way. We had nothing to do with what went on at the wedding. We just paid for it. Love your column.

**BRIDE'S MOTHER**  
**DEAR ABBY:** Passing the bride's shoe is an old Polish custom. There are other customs, too. My father, Mr. B., tells me that years ago a piece of the bride's china was set up against the wall and the guests threw silver dollars at it, trying to break it. (The silver dollars went to the bride and groom.) Each nationality has its own customs. I've attended Greek weddings where candy was passed in church. Italian weddings where they threw money instead of rice at the bride and groom, and German weddings where the bride was "kissed" and the groom had to pay to get her back. Instead of criticizing these customs, we should enjoy them. It's all in fun.

### Differences Aired On Cancer Cure

SANTA ANA, Calif. (UPI) — A group of medical scientists say they have evidence that demonstrates cancer can be eliminated but orthodox medical associations say it isn't so.

The Freedom newspapers detailed these claims and counter-claims in a six-part series based on a six-month study which was published this week. The newspaper group, consisting of 13 dailies, including the Santa Ana Register, prefaced each article with a note that it makes the claim of its own re-

garding the theory or treatment of cancer outlined. The theory was proposed in 1902 by Prof. John Beard of Edinburgh University and ascribes a single basic cause to all cancers. The treatment is with a chemical substance trade-named, "Laetrile," which is derived from apricot pits but is said to be widespread in nature.

The American Cancer Society, the National Cancer Institute and the California Medical Association have said the substance is of no value.

The Freedom newspapers containing the claims of the physicians and scientists who have used "Laetrile" in cancer patients with the negative attitude of what they said was medical and scientific orthodoxy.

The Beardian claims are that the substance has "saved the lives" of

hundreds of cancer victims and has prolonged the lives of many more. Such results prove the validity of the "Beardian" or "unitarian" theory of what causes cancer, proponents told the Freedom newspapers. They said opponents were "factions within" the American Cancer Society and the American Medical Association, and "agencies of the government of the United States."

The cancer society's official position is that "Laetrile" is one of a number of "unproved methods of cancer treatment." The AMA has not taken an official position but one of its constituent bodies, the California Medical Association, investigated "Laetrile" treatments of 44 cancer patients and of experimental cancers in animals in 1952 and 1953 and found it had had no substantial anti-cancer effects.

The National Cancer Institute, which is an agency of the federal government, found "Laetrile" to be worthless against experimental animal cancers. The Federal Food and Drug Administration has refused to license the distribution of "Laetrile" in interstate commerce because it has seen "no competent, scientific evidence" that it is both safe and effective in the treatment of cancer.

On the basis of their investigation, the Freedom newspapers suggested that the unfavorable official scientific and governmental attitudes and actions against "Laetrile" come almost entirely from the findings of the 1952-53 investigation of the cancer commission of the California Medical Association and that the investigation was premature.

### Paper Makers Take Interest In Garbage

By JESSE BOGUE UPI Financial Editor  
NEW YORK (UPI) — Major paper makers in the United States, with an eye to what has been learned by their counterparts overseas, are taking a growing interest in an unappetizing but ever-present subject—garbage.

They think that there is a real sales opportunity for them in the way that home and industry prepare garbage for disposal and collection. They propose a campaign to push the use of weatherproof, heavy duty wet strength kraft paper bags.

At least a half-dozen of the big manufacturers have formed a National Refuse Sack Council to promote nationwide use of such containers, and accompanying necessary hardware. Council courses estimate that adoption on a major scale could up the use of kraft paper by 1.5 million tons a year—45 per cent of current output—with a potential market of upwards of \$300 million.

Use of these containers is not new in the United States, but it is not widespread as yet. The American Public Works Association has conducted field trials in Sarasota, Fla., Ft. Worth, Tex., Dubuque, Iowa, and Buffalo, N. Y. College Park and Riverdale, Md., have adopted use of paper sacks for garbage collection.

But, in Europe, the use of such paper containers—about 3-1/2 feet high and with a capacity of 40 gallons—has spread widely through the Western nations, and has been tried in Australia and New Zealand.

The idea originated in Sweden about 1952. In 1957, about 150,000 sacks were sold in the Scandinavian nation; by 1960, the figure was up to 5.4 million, and the sales for 1964 are expected to reach 21 million by year's end.

FOR REAL—You probably thought it was a joke if you saw a photo of Barry Goldwater in railroad engineer cap a few days ago, but here he is at the throttle in Indiana, so there! He piloted for two miles going into Crown Point.

### EXECUTIVE BOARD

chapel as a gift from United Church Women.

Mrs. Crawford made a report of the recent workshop meeting of the Purchase Area United Church Women which was held in Mayfield.

Hostesses for 1965 Special Day Observances were named as follows: World Day of Prayer, March 5, Goshen Methodist Church; May Fellowship Luncheon, May 7, First Christian Church; World Community Day, November 5, First Methodist Church. Representatives to the Board accepted these appointments. Other member Church groups present at the meeting were North Pleasant Grove Cumberland Presbyterian; St. John's Episcopal, and College Presbyterian.

The next meeting of the board will be January 11 at the home of Mrs. Henry McKenzie.

Announcement was made of plans for World Community Day which will be observed November 6 at St. John's Episcopal Church, beginning promptly at 1:00 p.m. The theme for this year's observance will be "Peace? Man and Nations in a Changing World Community." Mrs.

C. S. Lowry will be the speaker and will include comments on her year's residence in Greece. New officers of the executive board will be installed at this meeting.

Individual church circles are asked to bring their customary gifts for dedication at the World Community Day and the executive board requests that the following instructions be followed. Cotton piece goods in all lengths and school bags are the items asked for this year. For making the bags, one yard of yard-wide sturdy material will make three bags by cutting the material crosswise; fold each piece in half for a bag. Sew salvage sides together. Around top, make a 1 1/2 inch hem with opening at each side on the inside of the hem. Place two one-yard draw strings in the hem.

In each bag place 4 pencils, notebooks, pads of paper, eraser, scissors, ruler, crayons or colored pencils, modeling clay and tube of paste. Add soap, comb, toothbrush or handkerchief, if possible, to help the children develop good health habits. The gifts this year are for use in Africa and Brazil.

The board meeting closed with a prayer by Mrs. Ramer.

### SEEN AND HEARD

(Continued From Page 1)

They all had grins on their respective faces, as if to say, "look at me!"

They say a person's personality changes when he gets behind the wheel of a car, so it must really change when you get behind the wheel of a new car.

At any rate we drove around all day in it and last night too.

Of course the inevitable happened. This morning wife got the car and we haven't seen it since.

Maybe we'll get another whirl at it tomorrow.

Thanks to Mrs. J. D. Wilson of Murray route two for one of the prettiest gourds we have seen.

This rasal has a long stem and ends in a big blob that has large raised veins on it and it's as green as grass.

We'll hang it up somewhere and let it get good and dry.

Mae West is in the hospital suffering from exhaustion. By golly it's about time.

Senator Barry Goldwater made the most forthright talk last night over television that we have ever heard from any presidential candidate. No belly-boo or humpus, just plain common sense.

The ground has been broken for

the new Holiday Inn at the southern city limits of Murray. Grading was underway yesterday.

The new motel just south of Hatcher Auto is coming along well also. It will have a swimming pool too.

Changing scene. The view you get looking north on 15th street from Main. Looks different than it did fifteen years ago. The street has been widened from Main to Chestnut street and a nine story building presents itself on the skyline.

### KENTUCKY SOCIETY

An author of several books, he is a graduate of Ashland College and Ashland Theological Seminary, Ashland, Ohio, and is a 32nd degree Mason. Dr. Rowsey appears at the meeting through the courtesy of General Motors.

The annual business meeting at 1:30 p.m. will feature reports on Easter Seal services and election of directors for the Society.

Board meetings of the state society and the Davies, Henderson, and Hopkins County committees will be held at 3:15 p.m.

The meeting is open to the public and representatives of county committees of the society, service clubs, health and welfare organizations, and parents of the handicapped are urged to attend. Stewart said.
