Very dear Mr. Muir -
　　　　Your book
with its much-appreciated
inscription, came to me
in time to be my
travelling companion,
and has afforded me
great pleasure and
interest - also many
happy recollections of
places and times
where much of the
material of the book
gave greater pleasure to
campfire and mountains

haunt me —

My present days have
by no means the joy
of the mountains — I never
was meant for a sailor,
and though this
steady ship and fairly
smooth sea make the
trip far more comfortable
than any I have had
on the atlantic before, I
haven't the slightest
desire to prolong it by an
hour —

Mother wishes me to give
you her love and tell
you she had your
letter — She Flingler

She had given you
our address — it is

Bank of Montreal
9 Waterloo Place
Pall Mall   S. W.
London —

Letters from there will
be forwarded to us —

It looks so far as though
the weather would offer
no objection to our
landing at Queenstown —
I suppose we shall go on
to London after about
a week, and from there
start excursioning around
