My dear Mr Muir.

Will you kindly inform  
me as to the exact title of  
Clarence King's work on geology  
(as I understood it) relative to  
the geology of the Yosemite.

If his book would not be help-  
ful perhaps you will suggest  
something in its stead, not  
too technical.

Since coming to California

030006

Your name has grown so familiar and your books have given so much pleasure to me and some friends of mine who are lovers of nature and the free untrammelled life you enjoy.

We are contemplating a journey to the Yosemite to remain perhaps thro' the summer and wish to enjoy it in the most intelligent way, at least to get a clear idea of its beauty.

Mr. Luens whom we know, has spoken of you so often that I felt that the least year in asking your assistance.

My friends have seen New Haak and I have seen Mountains of California. We would be delighted if you would suggest others you like.

With very great respect  
Kate Glesner Carrithers.

408 Kensington Place  
Pasadena Calif.  
May 21."
