## Making Grammar Fun

### Grammar Challenge:

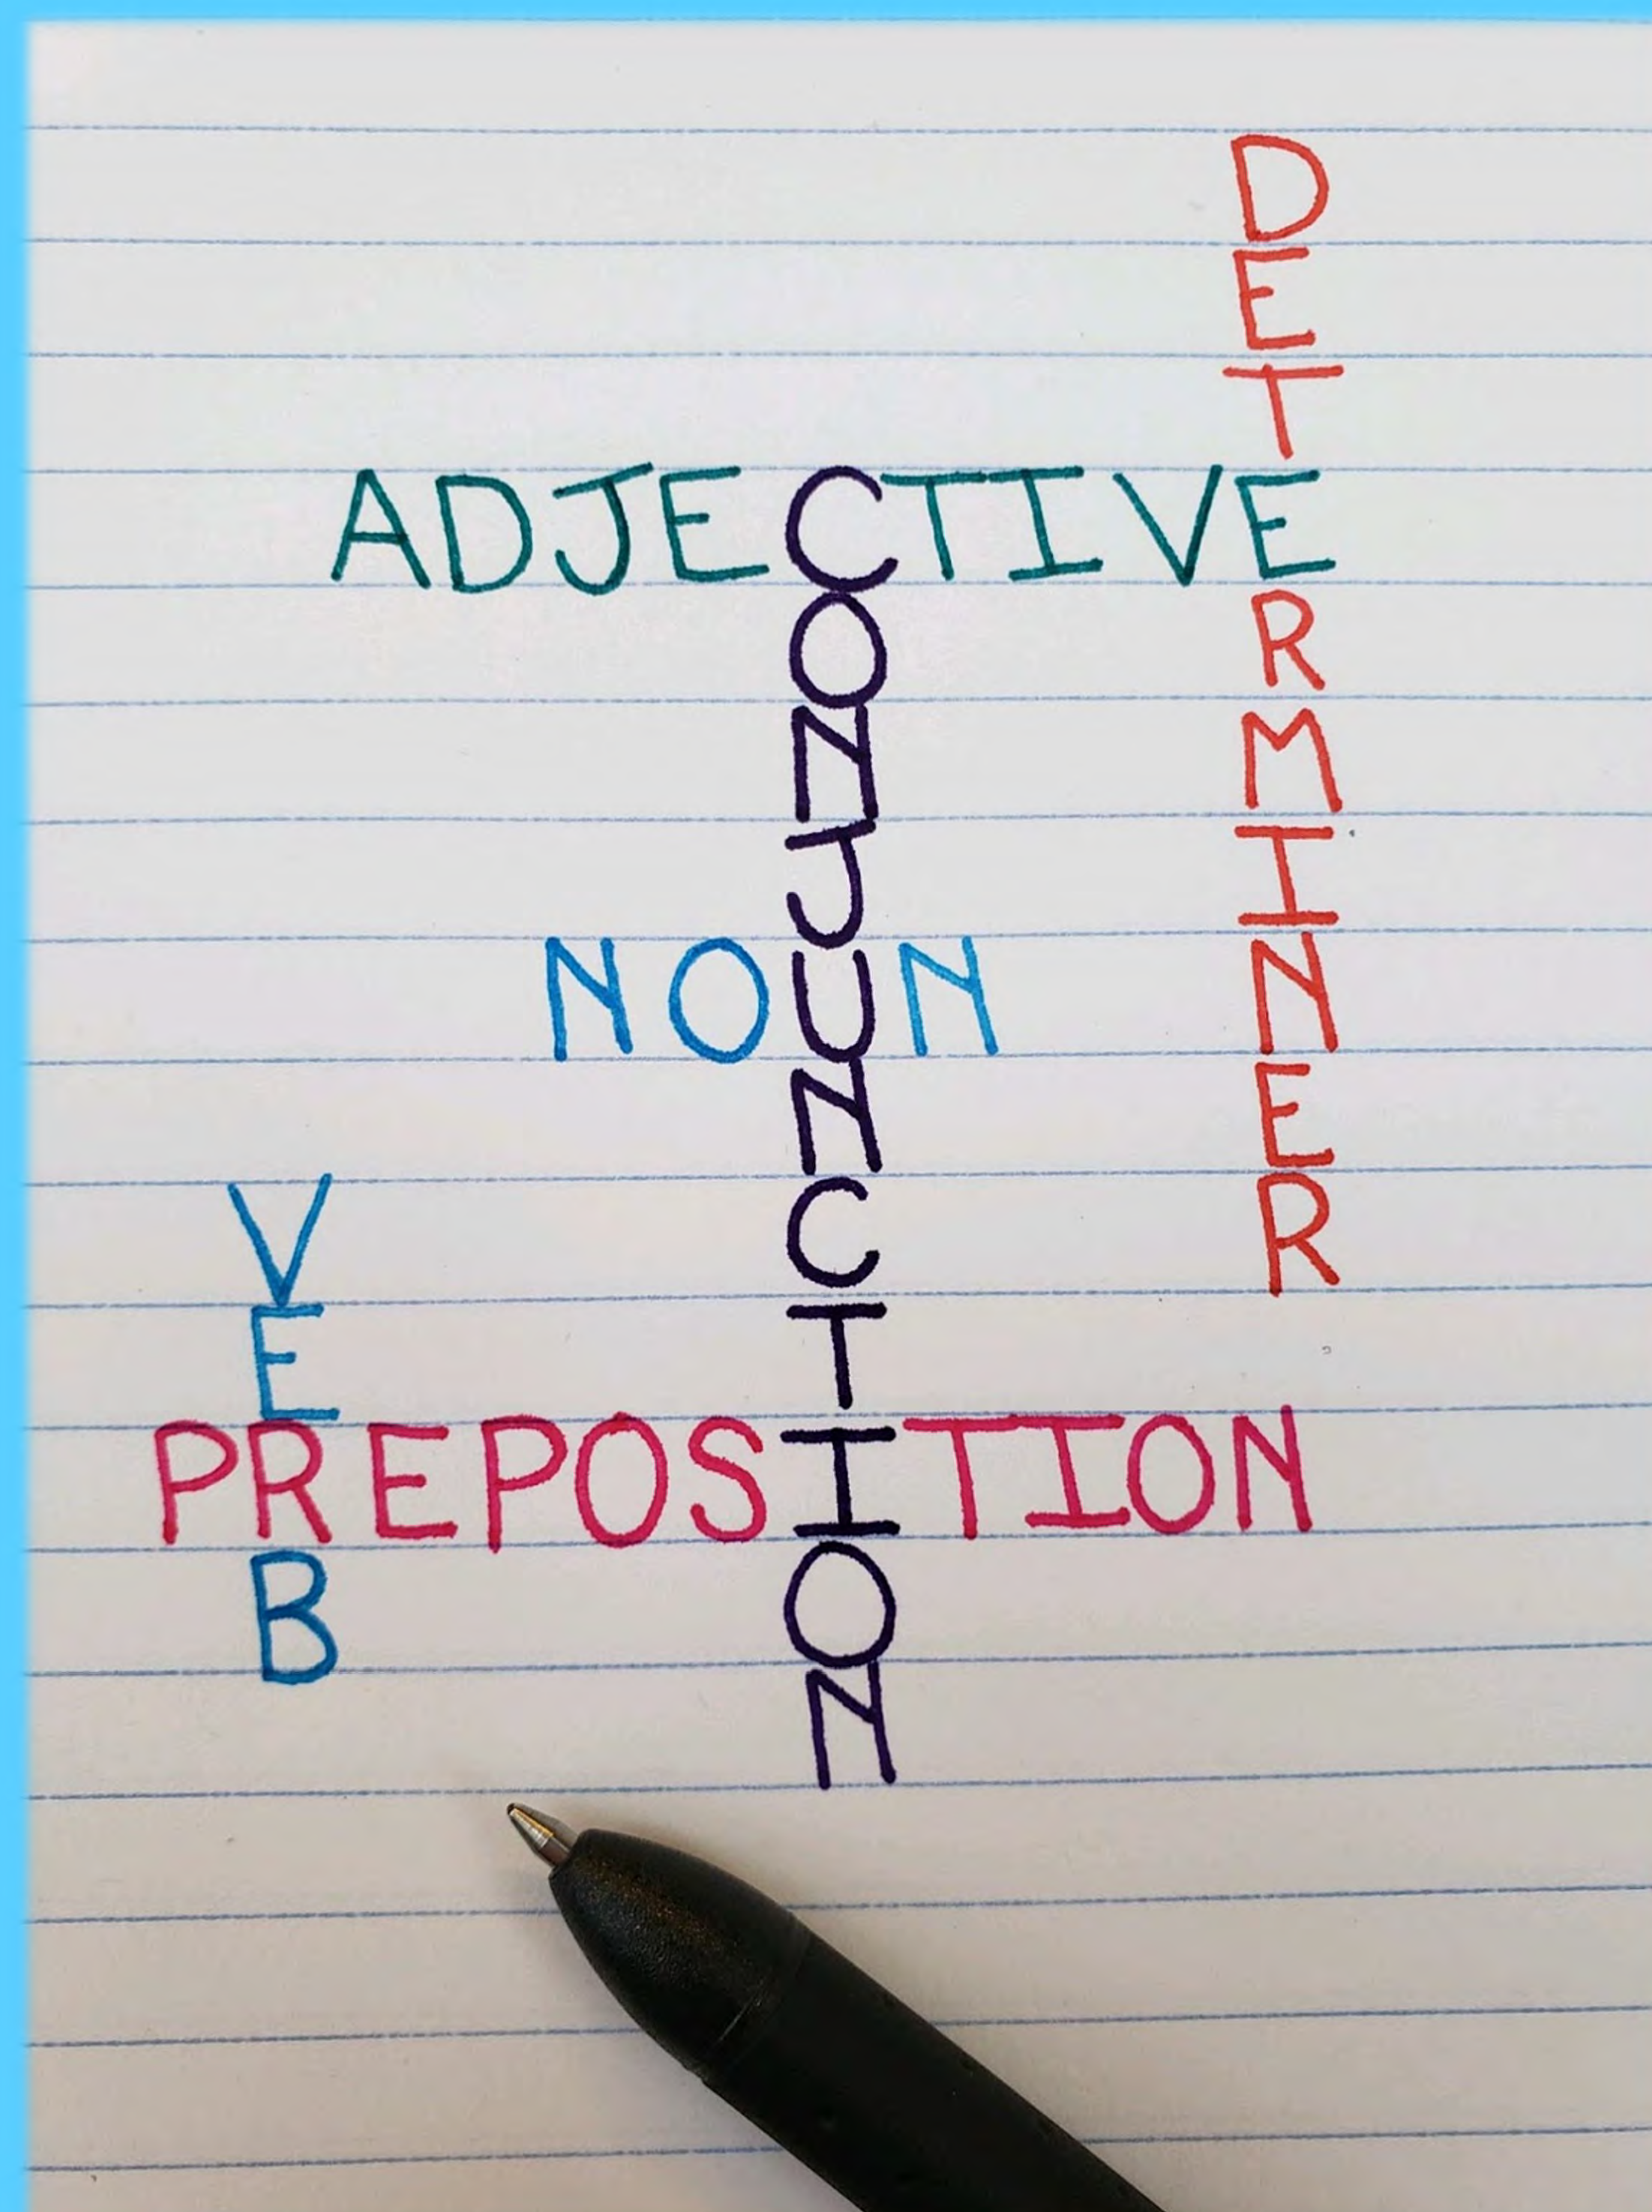

- Grammar learned through playing games is essential to communication skills children use throughout their lives.
- Games give children an entertaining and competitive way to learn grammar more successfully than traditional classroom settings.
- Targeted toward 1<sup>st</sup> and 2<sup>nd</sup> grade students who are able to read and learning proper grammar principles.

### Game Concept:

- Designed to help players learn to construct complete sentences, as well as learning proper word order and functions of each of the parts of speech, which will further the development of communication skills.
- Game board is designed to look like train tracks.
- Players create sentences that will resemble a train as it grows along the tracks.

### How to Play:

- Players roll dice to move around game board, visiting *Noun Town*, *Verb Ville*, *Preposition Plaza*, *Adjective Avenue*, and more along the way.
- Players collect parts of speech from each area while moving around board to create complete and correct sentences.
- As players advance, sentences become more complex, adding subordinate clauses, relative clauses, etc.
- Game designed for two or more players.
