#### ACKNOWLEDGMENT

In the name of Allah, the Most Gracious and the Most Merciful Alhamdulillah, all praises to Allah for the strengths and His blessing finally I can finish the blueprint report for a Technology Entrepreneur (ENT600) project. This task had been done with all afford even though a few problems had happened. Luckily, all the problems can be settled down and adapt properly.

Besides that, big thanks I address my lecturer, Madam Yusrina Hayati Binti Nik Muhammad Naziman because without her guide maybe my report cannot be done properly. She always gives me supports and guidelines to me on what and how to do the project. So, a good outcome will be produced from the research that has been studied.

Next, thanks to my friends that always been together to conduct this project with all afford. I hope that all afford will give a lot of advantages to me and my project. Last but not least, thanks to my classmate to give us some ideas and comments about my project so that, our project can be improved.
