MICHAEL APONTE

VISIT BEAUTIFUL CALIFORNIA OIL COUNTRY

California is known for its beautiful coast, incredible sunsets, wine and.... oil. A major economic force in California for over 100 years, we often overlook the industries infrastructure that surrounds us on the central coast. While oil production has a devastating impact on our environment, the jobs and revenue it brings to many are undeniable. This photo was shot for an abstract project in art theory class. My attempt is to portray the complicated relationship we have with oil production in the middle of wine country.

ZOE MCLAUGHLIN

COLORS OF THE DESERT

These art pieces represent the study of color theory and the role it plays in human perception of the world around. They are inspired by Tucson, Arizona's beautiful desert.
