TITLE

GAMBARAN AKTUALISASI DIRI MASYARAKAT PASCA TSUNAMI DITINJAU DARI KONSEP TEORI MASLOW DI DESA LAMPEUDA YA KECAMATAN DARUSSALAM ACEH BESAR TAHUN 2007

ABSTRACT

Earthquake and tsunami which destroyed in Aceh and the surrounding area on December, 26th 2004 was big calamity in the history of the world. Although, the calamity passed for 2 year ago, but effect of the calamity was felt many of human life, lost the wealth, lost the people loved, occupational and drastic change in daily activities caused troubles to run away of life to reach the better self actualization. The purpose of this research is to get description of human self actualization after tsunami based on of Maslow's theory in Lampeudaya village, Darussalam sub-district, Aceh Besar by using exploratif descriptive research design, the amount of sample were 67 respondents. Taking the sample used the random sampling technics in the research on August 16th until 23th 2007. The instrument of data collection was inquiry in likert scale form, consisted of 30 statements. The result of research showed that description of human self actualization after tsunami Based on of Maslow's theory in Lampeudaya village, sub-district Darussalam, Aceh Besat in adaptive category, about 16 to 40 years old of respondent, almost of respondents is woman and almost of the lower educate of respondents about senior high school. And was observed from acceptance factor to themselves and other people showed 50,75% of respondent in adaptive category, from perception factor was accurate to reality 59,70% of respondent in adaptive category, from the intimation factor with some people 52,23% of respondent in adaptive category, from self concentracion to troubles 56,72% of respondent in adaptive category and from of the natural life factor and spontaneity 61,19% of the respondent in adaptive category. From the data, we can conclude that the people of Lampeudaya village got the normal life and they could pass adaptation period to take changes of disaster after tsunami. In addition for all people to support in improvement the human actualization process of tsunami victim.

Keywords : Tsunami disaster, human self actualization.
