

The New Hampshire.

Vol. 3, No. 18

DOVER, N. H. FEBRUARY 25, 1914

PRICE 5 CENTS

POULTRY DAY.

More than one hundred residents of New Hampshire contributed toward the success of New Hampshire College Poultry day, Tuesday February 17.

Addresses were made on the preparation of live and dressed poultry for the markets, what the marketable egg is, incubation, brooding, feeding of young chicks, collecting and marketing poultry products, feeding, housing and breeding for egg production. A demonstration of killing was given by Professor Mitchell. The eggs exhibited were judged by Professor Mitchell and the following awards were made.

Individual exhibits of one dozen white eggs: 1st prize, J. T. W. Ham, Dover, N. H.; 2nd prize, G. B. Hibbard, Franklin, N. H.; 3rd prize, Hillaire Farm, Nashua, N. H.

Individual exhibits of one dozen brown eggs: 1st prize, Ira S. Littlefield, New London, N. H.; 2d prize, F. I. Hibbard, Franklin, N. H.; 3rd prize, Kidder Poultry Farm, Durham, N. H.

The silver cup for the best display of brown eggs was awarded to Ira S. Littlefield, of New London, N. H.

Mr. B. P. S. Prescott, of West Rindge, N. H., entered an exhibit for the M. L. Ware Grange, which received first prize for general exhibit.

WIRELESS SQUAD FORMED.

A wireless signaling squad has been added to The New Hampshire College batallion. Six students interested in wireless telegraphy have taken up the work, and by Spring they hope to become efficient in wireless and wig-wag signaling. Lieutenant Hunt who is in charge of this work plans to have two portable stations, by means of which messages may be flashed between divisions of the batallion in the field practice in the Spring.

Lieutenant Hunt is very efficient in both wireless and wig-wag signaling, and it is expected this work will add an interesting novelty to the equipment of the batallion.

REV. F. J. LIBBY AT CHAPEL.

Students and faculty who heard him last year enthusiastically welcomed again last Wednesday at chapel the Rev. F. J. Libby of Exeter, who gave a wonderfully interesting address on the Fiji Islands. Mr. Libby is a man who has traveled extensively, and the account of his trip to this far distant quarter of the globe was listened to with the keenest interest by all who were fortunate enough to be present. The account of the conditions and customs extant in the Islands was particularly interesting, as well as the graphic description of the brown-skinned natives, in that it showed the wonderful effect that civilization has on these primitive peoples. "Especially credit is due the Methodists," said Mr. Libby, "for the wonderful things that they have accomplished in the line of missionary work with these distant tribes." Mr. Libby certainly has wonderful powers of observation and by them, those who were at chapel last Wednesday were mutually benefited.

Arrangements have been made for the printing of the new college catalog, which will soon be issued.

President Fairchild is now away on a well earned vacation.

PLAN PICTURE SHOW.

Exhibition In Early Part of Coming April.

The Camera Club, recently formed under the personal direction of Mr. Scudder, is planning to conduct a picture show in the Library in the near future. The committee in charge of the exhibition consists of Professor Perley, Mr. Heath, and Mr. Guy Hubbard. The exhibit will be opened to all, and any who have some good pictures that they wish to show are cordially invited to do so. The date of the show is soon to be decided upon, and announcement of it will appear in the next issue of The New Hampshire.

This new organization is already proving a grand success, and it is hoped that all who are interested in this sort of recreation will affiliate themselves with the club as soon as possible.

NEW BUILDING.

The steady rise of the walls of the new building gives now a clearer idea of the good proportions of the structure when it shall be completed.

The main entrance is under construction and the electrical apparatus is being installed.

The upper floors will have two fire exits and the basement will have four.

The class in Shakespearean plays, under Professor Richards, is working out admirably. The class has been divided into three companies of ten members each; The Globe Company, The Fortune Company and The Blackfriars Company.

Every other week the companies alternate in presenting some scene from the play being read in class at that time. This is proving to be of great interest to the students and it is hoped that more extensive plans can be carried out at a later date.

If you can keep your head when all about you
Are losing theirs and blaming it on you;
If you can trust yourself when all men doubt you,
But make allowance for their doubting too;
If you can wait and not be tired by waiting,
Or being lied about don't deal in lies,
Or being hated don't give way to hating,
And yet don't look too good, nor talk too wise;

If you can dream—and not make dreams your master;
If you can think—and not make thoughts your aim,
If you can meet with Triumph and Disaster
And treat those two impostors just the same,
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools,
Or watch the things you gave your life to, broken,
And stoop and build 'em up with worn-out tools;

If you can make one heap of all your winnings
And risk it on one turn of pitch-and-toss,
And lose, and start again at your beginnings
And never breathe a word about your loss;
If you can force your heart and nerve and sinew
To serve your turn long after they are gone,
And so hold on when there is nothing in you
Except the Will which says to them "Hold on!"

If you can talk with crowds and keep your virtue,
Or walk with Kings—nor lose the common touch,
If neither foes nor loving friends can hurt you,
If all men count with you, but none too much;
If you can fill the unforgiving minute
With sixty seconds' worth of distance run,
Yours is the Earth and everything that's in it,
And—which is more—you'll be a Man, my son!

Rudyard Kipling.

VISITORS

VICTORIOUS.

Quintet From Portsmouth Won Easily.

In a game replete with poor passing, wild shooting and rough-house tactics the quintet representing the Wenehasset Club of Portsmouth defeated the Freshman basketball team at the gymnasium last Friday evening by the score of 23 to 9.

Both teams played poor basketball but the exhibition of the 1917 team was more like a football than a basket ball game. The Wenehasset team passed all around the Freshmen, while the 1917 team in their attempts to shoot baskets heaved the ball several times into the gallery.

In the third period the Freshmen presented a change in their line-up and the teams were about even. None of the Freshmen showed up very well but Badger of the Portsmouth team played a fast game.

"Joe" Killorey was not present to referee the farce but he had an able substitute in Ralph Brackett who drew forth much applause, from the spectators present, for his fair decisions.

The summary:
1917 Wenehasset Club.
Ross, lf rg, Mudridge
Morgan, lf lg, Smith
Wentworth, rf, c, Sanderson
Stevens, c, lg rf, Brackett (capt)
Sussman, lg, c lf, Badger
Brown, lg
Weston, rg (Capt.)
Score: Wenehasset Club 23, New

Hampshire 1917, 9; Baskets from floor, Badger 3, Sanderson 3, Smith 2, Mudridge 2, Sussman 2, Brackett, Ross, Stevens. Baskets from fouls, Wentworth, Sanderson, Referee, Ralph Brackett; Times, Swett and Parker. Scorer, Ward. Time: Three ten minute periods.

FRESHMEN 27, ZETA EPSILON ZETA 24.

On Wednesday evening the eighteenth the Freshman Basket-Ball team played a practice game against the Zeta Epsilon Zeta team at the gymnasium.

It was a fast game, but was marred by a good deal of roughness and discussion over the referee's decisions. Ross, Wentworth and Weston starred for the Freshmen in running up the score of twenty seven against the twenty-four points made by the Zeta team.

The Lineup.

Freshmen	Zeta Epsilon Zeta
Ross, lf	lf, Hazen
Wentworth, rf	Brackett W. rf
Weston, rg	Brackett R., lg
Sussman, c	c, Sweet
Stevens, c,	rg, Reardon
Morgan, rf	
Thomas, rg	
Graham, lg	

Time three ten minute periods. Referee, Steele. Time keeper, Fuller. Scorer, Finnegan.

At meeting of the Athletic Association, Wednesday afternoon it was voted to state to The Executive Committee that it is the sentiment of the Association that the members of the Relay Team should be awarded their letters.

It was also voted that the Association set aside the sum of fifty dollars to purchase the Hockey Team suits, and that the remaining deficit should be divided evenly between the seven organizations represented here in College.

Gamache, Corriveau, and Grant were elected assistant managers of the track team.

"REBECCA'S TRIUMPH."

The Woman's League of New Hampshire College will present, "Rebecca's Triumph," a drama in three acts, next Friday evening in the chapel. Dr. Richards who is coaching the play has made a final selection of characters as follows:

Mrs. Rokeman, a wealthy lady,	
	Mrs. Onerdonk
Mrs. Delaine, a widow,	Mrs. Morgan
Rebecca, a founding,	Miss Chase
Clarrissa Codman, a spinster,	Miss Coffin

"Our Club."

Dora Gains,	Miss McKone
Sadie Morrell,	Miss F. Dudley
Jennie Woodman,	Miss Crandall
Nellie Dunbar,	Miss Flanders
Emma Stevens,	Miss M. Dudley
Grace Greenwood,	Miss Worcester
Maria Gray,	Miss Diettrich
Gussie Green,	Miss B. Reed
Katie Conner, an Irish girl,	Miss A. Hoit
Gyp, a colored girl,	Miss Johnson
Meg, a wanderer,	Miss Murphy

Tickets are on sale at the Book-store, Edgerley's and Runletts. The first six rows of seats are reserved and tickets for these are cheap at fifty cents. Other seats sell for thirty-five cents. The proceeds of this play are to be used in providing a new rest room for the young ladies of the college.

NEW "BLANKET" TAX PLAN.

With the financial situation of the athletic association in its present deplorable condition, it seems incumbent that some plan be adopted to remedy the situation. With only approximately one third of the student body enrolled in good standing in the association, it is obvious that some measures must be taken which will successfully solve the situation, if the athletic prowess of New Hampshire College is to keep pace with her rapid growth in other departments. It is evident from the present state of the treasury and also from past experiences in the finances of the athletic association that the present means of securing student support in athletics are entirely inadequate. This, however, does not signify that the student body is unwilling to lend its support and co-operation in supporting such an important activity of the institution. On the other hand, it does signify that the means of securing this support are inadequate to bring about the necessary results.

It has been the aim and purpose of those vitally interested in the situation to formulate some feasible plan, which would secure these results and at the same time prove satisfactory to all concerned. The present proposed 'blanket' tax is the result of many hours of careful work and study. After many comparisons of figures and accurate estimates, the proposed scheme has been found to appear most feasible and incur a minimum expenditure of money per student. When it is remembered that under the new arrangement, there will be no sweaters to purchase, no season basketball tickets to

buy, no track tickets to purchase, and 'New Hampshire' to subscribe, it will readily be seen that each student will not be obliged to contribute a great deal more than he has been in the past, if he has been a loyal student and paid his share towards the support of the various activities.

It should also be borne in mind that the proposed tax is far below that required at most institutions of this size. Being a college of the people, it is only right that it should be thus. However, we should not forget that it is our duty to contribute something towards the support of our athletic teams, who probably are the greatest agency we have for advertising our institution. With this in mind, it seems that every reasonable student will heartily approve the proposed scheme. Let us remember that no great achievements, which are permanent and lasting, are attained without some sacrifice on the part of someone, and if we are to be represented on the gridiron, diamond, and cinder path by creditable teams, it will be necessary for the student body to make some sacrifices, and these sacrifices can hardly assume a higher or more lenient form than the proposed 'blanket' tax.

FRESHMAN - SOPHOMORE B. B. RULES.

At a recent meeting of the Student Council the following rules were drawn up with regard to the Freshmen-Sophomore Basket-Ball game which will be held on the seventh of March.

- 1) The use of firearms will be strictly prohibited.
- 2) No class insignia will be displayed.
- 3) No class encounters will be allowed in the Gymnasium.
- 4) The game will be stopped immediately on any infringement of these orders.

New Hampshire College is receiving some fine advertising at Brockton, Mass., by the showing of "Movies" of the fire at the Gymnasium. It is wonderful how the moving picture companies always get everything that takes place in the country.

DE LAVAL

CREAM SEPARATORS

Their Great Simplicity

THE DE LAVAL SEPARATOR EXCELS ALL OTHERS not only in thoroughness of separation, sanitary cleanliness, ease of running and durability, but as well in its great simplicity.

There is nothing about the operation, cleaning, adjustment or repair of a modern De Laval Cream Separator which requires expert knowledge or special tools.

Nor are there any parts which require frequent adjustment in order to maintain good running or to conform to varying conditions in the everyday use of a separator.

There is nothing about the machine that cannot be taken apart, removed or replaced by any one who can use a wrench or screw driver. In fact, the only tool which is needed in the use or the operation of a De Laval Cream Separator is the combination wrench and screw driver illustrated

Complete gearing of the De Laval Separator as it would appear if removed intact from the frame of the machine. Note the remarkable simplicity of construction.

below, which is furnished free with every machine. Visit the local De Laval agent and see for yourself its simplicity of construction.

Combination wrench furnished with each De Laval Separator, the only tool required in setting up, taking down or using a De Laval machine, the simplest as well as the best cream separator ever built.

BLANKET TAX.

For some time lately the Student Council has been considering the advisability of incorporating the system of a blanket tax here as is done in many other institutions in this country. The committee, represented in the person of Gerald N. Perkins, has evolved the following plan. The fees would be increased six dollars a year, payable at the rate of three dollars a semester. This would make everyone a member of the Athletic Association, give admission to all home games including class games, and also include a subscription to The New Hampshire. Petitions for the adoption of this plan are being circulated for signatures, and apparently the sentiment of the student body is in favor of its acceptance.

SOCIOLOGICAL SURVEY.

The work being carried on by P. C. Jones '13, resident secretary of the Young Men's Christian Association at Claremont, N. H., is already attracting much attention. He has just recently completed a survey of the social conditions of Claremont, and has thereby accomplished a work which is the pioneer movement of its kind in the New England states. For scientific direction of the work, an expert was secured from New York City, and the work itself was carried on by residents of the town. The various committees, which included those on sanitation, public and personal hygiene, statistics, foreign population, amusements, schools, etc., were composed of nearly a hundred of the influential residents of the city, assisted also by a like number of high school students. Complete reports have been recorded, and the committee has been very persistent in trying to have its recommendations adopted and carried out. All public spirited citizens and especially students of social conditions recognize and appreciate the importance of this work that Jones, our former star athlete, has instigated and is carrying out.

Here are what Presiding Judge Paul J. McCormick of San Francisco, has announced as "Thirteen Mistakes of Life."

"To attempt to set up your own standard of right and wrong.

"To try to measure the enjoyment of others by your own."

"To expect uniformity of opinion in this world.

"To fail to make allowance for inexperience.

"To endeavor to mold all dispositions alike.

"Not to yield in unimportant trifles.

"To look for perfection in our own actions.

"To worry ourselves and others about what cannot be remedied.

"Not to help everybody, wherever, however and whenever we can.

"To consider anything impossible that we cannot ourselves perform.

"To believe only what our finite minds can grasp.

"Not to make allowances for the weaknesses of others.

"To estimate by some outside quality, when it is that within which makes the man."

Meals Served Up To Almost Midnight.

The Interclass Debating teams will hold an open debate in Thompson Hall Tuesday evening the twenty-fourth at eight o'clock.

The meeting will be in order of open forum, each man being allowed five minutes in which to present his arguments on the following subject: Resolved, That the Honor System, as used at Princeton, should be established at New Hampshire College next semester.

It is hoped that there will be a large attendance at this meeting in order to make the debates a success.

Lawrence A. Carlisle, who will organize boys' and girls' agricultural clubs as part of the New Hampshire state experiment station extension work, has gone into the field this week and is getting acquainted with the farmers and rounding up the boys and girls.

Director John C. Kendall of the experiment station says that the object of the clubs is to interest boys and girls in agriculture, to show them that life on a New Hampshire farm need not be a dull humdrum and profitless career. The boys and girls will be taught to grow corn and potatoes and to market their products. It is hoped to interest, to teach, and by example to stimulate parents to renewed efforts to better agricultural conditions.

Corn and potatoes, according to Director Kendall, can be grown profitably in this state and the farmer who doubts it can be shown through his son. Between now and Spring, Mr. Carlisle will organize his clubs and at special gatherings will give careful instruction in just what must be done to insure success. In the summer he will visit the club members on their farms and assist.

In February he will go to Washington, D. C., to consult there with the members of the division of the agricultural department devoted to farmers' co-operative demonstration work.

Mr. Carlisle will have as his territory, Cheshire, Hillsborough, Merrimack and Rockingham counties. He will maintain headquarters at Exeter. He is a graduate of New Hampshire college of 1908 and has since graduation taught agriculture in the high schools of Northwood and Jefferson.

The Unseen Nine Tenths

Bright, shiny utensils with a sweet, wholesome smell is but a small part of the real proof of the cleaning properties of

So thorough are the cleaning properties of this unusual washing agent that it cleans far beyond what the eye can see, removing thousands, yes millions of bacteria, the deadly destroyers of milk and butter quality.

It is because of this extra cleaning, doing what other washing agents can not do, that has given Wyandotte's Dairyman's Cleaner and Cleanser the unanimous support of Dairy Colleges and scientific Dairy experts.

In estimating the value of a dairy cleaner they do not forget the "unseen nine tenths."

Ask your dealer for a sack of "Wyandotte" or write your supply house for a keg or barrel.
