

The New Hampshire.

Vol. 4, No. 2

DOVER, N. H., OCTOBER 2, 1914

PRICE 5 CENTS

NEW HAMPSHIRE IS OUTCLASSED.

DEFEATED IN FIRST GAME OF SEASON
BY STRONG TUFTS ELEVEN.

OPEN STYLE OF PLAY USED.

Game Marked by Sensational Work of the
Tufts Backfield and Ends.—N. H. Plays
Clean Game, But Outweighed.

In the first game of the season the New Hampshire college football team was overwhelmingly defeated by the strong Tufts eleven at Medford, Saturday. Outweighed and outplayed, the Blue and White put up a game fight against great odds, but the score was 83 to 0.

Tufts used the open play continually, her shift plays especially fooling the visitors. A noticeable feature of the game was the clean playing of New Hampshire, Tufts being penalized five times while New Hampshire did not suffer once.

LOSE BALL BY FUMBLE

Bingham opened the game for Tufts by kicking off to Hobbs, who fumbled, Angell recovering the ball for Tufts on the 13-yard line. New Hampshire held for downs and Davis punted to his 45 yard line. A forward pass, Angell to Parks, brought the ball over the goal line but a touchdown was not called because of offside by Tufts. A few line plunges assisted by forward passes put the ball over a few minutes later, Westcott making the first score. Parks kicked the goal.

Tufts kicked off to New Hampshire and the latter held for downs, Davis punted to Tuft's 40-yard line. At this point Thompson of New Hampshire was laid out and was replaced by Huse. Tufts made first down on a pass but lost the ball on the next play, Hobbs intercepting.

HOBBS MAKES TWENTY YARDS.

Tufts was penalized for off-side. Hobbs made 20 yards around right end and then Tufts gained the ball on a fumble by Westover. New Hampshire immediately recovered the ball on a fumble on her 40-yard line and made eight yards on a fake kick. Tufts then took the ball on downs and made a 30-yard run for a touchdown.

Hobbs received the kick-off on his 22-yard line. Parker made 20 yards through tackle. Tufts was penalized for off-side. 30 yards was made around right end and then Hazen added 10 more on a shift play. Here the period ended with New Hampshire in possession of the ball in the center of the field and the score 14 to 0.

GREAT RUN BY HADLEY

At the beginning of the second period New Hampshire made first down and then was forced to punt. Hadley received the ball and ran 60 yards through a broken field for a touchdown. Hobbs received the kick-off behind his goal line and the ball was placed in play on the 20-yard line. Tufts got the ball on downs and went through for a touchdown. Davis was laid out and replaced by Willand. On a forward pass Tufts went down for a touchdown. Graves kicked off for New Hampshire and recovered the ball on a fumble. Parker was injured and replaced by Wood, and Hobbs made 20 yards for first down on Tufts' 3-yard line. Tufts then held for downs. Here the half

BIG EXHIBIT SHOWN AT THE ROCHESTER FAIR.

New Tent Proves a Valuable Asset to
Extension Service—Many Depart-
ments of College Represented.

A new and already very popular piece of equipment recently added to the Extension Department of the College made its second appearance before the public at Rochester Fair last week. This consists of a large tent, housing exhibits that represent various departments of the college, as well as many pictures of scenes about Durham, and charts giving rations for various animals. Among the exhibits, each of which occupied cases uniform in size, were chains, bolts, pincers, and gears and jacks from the forge and machine shops.

The Forestry department showed seeds of various trees and samples of various kinds of wood, while the Dairy department was represented by samples of milk record sheets, apparatus for making the Babcock test, milk scales, and types of sanitary bottle covers.

The Animal Husbandry exhibit included photographs of cattle and judging scenes, as well as charts showing feed rations.

AGRONOMY EXHIBIT.

The Agronomy cases presented for inspection samples of grass, grain, and

AGRICULTURAL CLUB GIVES RECEPTION.

ANNUAL EVENT BRINGS OUT LARGE
NUMBER OF NEW MEN.

PROGRAM SHORT BUT SNAPPY.

Both Professors and Students Speak in
Different Phases of Agricultural Work
In the College.

The reception to the freshmen of New Hampshire College by the Agricultural club was held in the college club rooms, Monday evening, the 28th. It was attended by an unusually large number of new men which should promise remarkable development for the club during the coming year.

PRESIDENT ELLIOTT.

President Elliott was the first speaker and said in the course of his remarks: "We can make the club's influence felt not only here in college, but when out the state. You new men, especially you who are taking the four year agricultural courses, do not begin to specialize in it until your Junior year. By attending the meetings of the Agricultural Club, however, you have the opportunity of hearing live up-to-date talks by able speakers upon agricultural subjects. You need the stimulation that you get from these meetings, and if you

TAO CHAPTER OF ALPHA XI DELTA IS INSTALLED.

Phi Delta Sorority Merged in Larger Or-
ganization—Reception to Grand Vice
President.

Friday afternoon the Phi Delta sorority held a reception in the parlor of Smith Hall in honor of Mrs. Ruth Libbey Haskell, Grand Vice President of Alpha Xi Delta, into which society Phi Delta has been admitted. The room was beautifully decorated with palms and cut flowers. In one corner stood the reception line consisting of Mrs. Scott, Mrs. Haskell, Miss Sheppard, Mrs. Onderdonk and Miss Coffin. The guests of the afternoon were the girls of the college. Refreshments consisted of Russian tea and wafers.

In the evening the Phi Delta sorority was installed as the Tau Chapter of Alpha Xi Delta. Among the visitors from the Lambda chapter at Jackson college were Misses Cate, Wood, Duffey, Smith and Wardwell.

NEW INTERFRATERNITY

RUSHING RULE MADE.

The Casque and Casket Fraternity has adopted a new rule which will be observed by all the fraternities in Casque and Casket. This rule went into effect, Sept. 28, 1914.

Rule: No new student shall be invited to any week day meal other than supper, with the exception of the week beginning Oct. 21st, 1914.

This rule does not apply to men rooming out of town.

COLLEGE DAYS WORTH \$200

APIECE SAYS DR. A. R. TAYLOR.

Dr. A. R. Taylor, former president of the Kansas State Normal school at Manhattan, Kas., and of the James Milliken University of Illinois, declared in chapel Wednesday that college days are worth about \$200 each. He said in answering the question, "Does a College Education pay?" "That statistics place the value of college training at \$200 a day, the high school at \$50 a day, and demonstrate that the man with high school training earns twice as much as the man without it.

Dr. Taylor had some words of advice to the freshmen who are today for the first time meeting hard intellectual competition, and told all undergraduates that if they could keep a cheerful disposition until 18 years of age the rest of life would take care of itself in this respect.

Dr. Taylor is making a tour of the east investigating the subject of college management.

Miss Helen Tilton, '15 has been called home by the serious illness of her mother.

Misses Rachel Colby, Lillian Mack, Marion Jenness, and Marion Dudley, spent the week end at their respective homes.

TO THE ALUMNI.

Dear Friends:

We expect this to be the best year in the history of the New Hampshire State College. The enrollment today is 469. One year ago the enrollment was 385. A handsome increase, is it not? Many changes and improvements in the college have already been made in anticipation of this enlarged enrollment. Just now we are earnestly endeavoring to improve The New Hampshire. We want to make this college paper a credit to the institution and a source of information and pleasure to the alumni and to the student body. *To do this we need your help,*

As you will see by this copy, the paper has been doubled in size and improved. We trust in content. It is hoped that it may faithfully reflect the college life and give an interesting account of college doings. This can only be accomplished through an increased income. Will you not assist us by promptly remitting to The New Hampshire one dollar for the current year? Your interest in your alma mater and your loyalty to her activities has not changed since you left the institution, but we need material help. We are glad to have your good wishes and your good will, but we also want your good dollar.

In the recent past The New Hampshire has been sent forward whether subscriptions were paid or not. It is found that this policy is too expensive and after this number we shall be obliged to discontinue all subscriptions except as paid for in advance. We are anxious to keep in touch with all our friends and to let them know what is happening from day to day and week to week in New Hampshire College. You believe in this policy and are anxious, I am sure, to help us make The New Hampshire the real worthy college paper it ought to be. There is just one way to insure such a condition. Send in your dollar and do it now.

Cordially yours,

E. T. FAIRCHILD, President.

NOTICE!

After this issue, The New Hampshire will be sent only to those whose subscriptions are paid to date.

BIG EXHIBIT SHOWN. Concluded from Page 1.

forage crops, seeds and many of the various dried plants themselves. One set of jars contained eight different products, all made from the same plant. Besides some samples of home mixed fertilizers, there were many tall glass cylinders filled with varying amounts of chopped grass, which showed in a graphic manner the results of experiments with varying amounts and constituents of fertilizers.

Upon a table at one end of the tent was an exhibit consisting of twenty plates of apples, each a different variety.

The Horticultural and Entomological departments had a large amount of space which they put to good use in a display of fruit tree, shade tree, and vegetable pests, and the poisons and insecticides used in their control. Spraying accessories, and devices used in protecting the trunks of young trees from winter injury by rodents were exhibited, as well as specimens of the more common butterflies and moths.

MODELS USED.

Methods used in the propagation of fruit trees were illustrated by models, as were young fruit trees of different ages.

Thirty-six of the common weeds of New Hampshire were present in glass cases, and many leaf diseases had specimen leaves illustrating them.

The center of the tent was taken up by many large pictures of college scenes and charts. A large number of recent bulletins were on a table for free distribution to those interested in the subjects dealt with.

Taken all in all, the exhibit cannot help but prove a strong advertisement for the college. It was first shown at the Rockingham Fair and will probably leave Rochester Fair to be exhibited at the Union Grange Fair at Plymouth. Its popularity is rapidly increasing and even now several requests for its use at some of the smaller fairs have had to be refused on account of lack of available funds.

DOVER LEADS WITH MANCHESTER SECOND.

An examination of the registration lists at New Hampshire college shows that in the new freshman class Dover leads with eight students, Manchester is second with six and Plymouth, Exeter, and Laconia are ties for third with five each, and Concord has four. East Jaffrey sends three two-year men and four freshmen and Maine and Connecticut each have two freshmen. New York and Vermont are also represented. The rest of the 126 freshmen come from towns widely distributed over the state. As might be expected the two-year men come almost exclusively from the country and from farming towns and the engineers come from the cities and larger manufacturing places.

JOHN EVERETT LADD, '13 IN AGGIE DEPARTMENT.

The Animal Husbandry Department has secured the services of a former graduate, John Everett Ladd, of the Class of 1913. He is at present teaching some of the courses that were formerly taught by Prof. Eckman and Mr. Mitchell. Mr. Ladd was a member of one of the stock judging teams that represented the College at Chicago.

PROF. GROVES TO SPEAK ON PEACE AT NEWMARKET.

Prof. E. R. Groves will address members of all the Protestant churches of Newmarket, New Hampshire, October 4, the day set aside by President Wilson as "Peace Sunday." Prof. Groves will take as his subject "The Possibility of Peace."

N. H. OUTCLASSED Concluded from page 1

ended with New Hampshire's only chance to score gone

Use Forward Pass.

In the second half Thompson went back into the game in place of Huse, who had injured his ankle. This half was a repetition of the first and was marked by sensational runs and forward passes. In the final period Tufts made 75 yards on three successive forward passes.

The line up and summary:

New Hampshire	Tufts
Parker, re	le, Stankard
	le, Gore
Morrill, rt	lt, O'Donnell
Brown, rt	lt Turner

Score—Tufts, 83, New Hampshire 0. Touchdowns: Westcott 4, Parks 4, Hadley 2, Sanborn, Nellis, Stankard, Angell. Goals from touchdowns: Westcott 3, Parks 8. Umpire: Andrews, Ga'e. Referee, H. R. Bankart, Dartmouth. Linesman, Farmer, Dartmouth. Time: four 12m periods

STOCK JUDGING TEAM HAS BEEN SELECTED.

The stock judging team this year is composed of the following men: S. W. Dyer, E. H. Kelley, and S. G. Johnson. H. R. Runnals is alternate. All four men are members of the Junior Class and have had considerable practice in stock judging. Yesterday afternoon at Broekton Fair they competed with teams from Maine, Massachusetts, Connecticut, Rhode Island and Vermont. The results of the contest had not been learned up to the time of going to press. Last year New Hampshire won second place. Whether the team will go to Chicago this year has not been fully decided.

PRESIDENT FAIRCHILD SPEAKS AT THREE PLACES.

President Fairchild went to Amherst Mass., last week where he addressed the students of the Massachusetts Agricultural College at the chapel exercises.

Last Monday evening the president addressed the field meeting of the New Hampshire Federation of Women's Clubs at Bethlehem. His topic was, "The Education of All the Children of All the People."

Tuesday afternoon he spoke to the White Mountains Board of Trade at Bretton Woods.

RECEPTION AT CHURCH FOR FRESHMAN CLASS.

Among the various receptions given the freshmen was the annual affair at the church Friday evening. The new students were cordially welcomed by the Rev. F. T. Knight.

The entertainment consisted of two piano solos by Miss Brackett, '16, three readings by Miss Murphy '15, and four vocal solos by Mr. Knight '15. After the entertainment refreshments consisting of harlequin ice cream and cakes were served.

Dover, N. H.

N. H. C. ORCHESTRA HAS FIRST TRYOUT OF YEAR.

Seven Old Men Back and Many New Men Out for Positions—Bernhardt Meyer Has Been Engaged as Coach.

On Thursday evening, Sept. 24th, the New Hampshire College Orchestra held its first rehearsal and try out at the Gym. With seven old men back and as many new men trying out for positions, the prospect for the best orchestra in years seems certain. The coach this year is Bernhardt Meyer of Lawrence, leader of the Municipal Orchestra of that city. It is seldom that a college orchestra has the opportunity of securing the services of such an excellent instructor.

The old men who are back are as follows: Broggin, (leader), cornet; Weigel, violin; Blake, violin; Batchelor, violin; Ross, violin; Manter, trombone; Robinson, drums.

The new men who reported at the first rehearsal were: Frisbee, violin; J. W. Dodge, cornet; Cahalane, French horn; Baker, flute; and C. A. Bennett, cello.

FOREIGNERS TO HAVE MORE NIGHT SCHOOLS.

The college Christian association and the Y. W. C. A. plan to reorganize the night schools for newly arrived foreigners by these organizations last year at Newmarket and to establish others in other towns. One for men and one for women will be organized in Durham for the Italians here.

Students who live in Berwick, Dover and Somersworth are to start schools in their own towns. All are to be night schools and the teachers will themselves be taught by Oscar Huse, Rockingham county, Y. M. C. A. secretary.

The Newmarket schools last year were attended by Russians, Poles, Portuguese, and French. In addition to this school work for immigrants, the two associations will supply a lecturer, whenever his services are demanded, who will talk on "Work Which May Be Done For New Comers." The organizations also plan to open a reading room for students and faculty.

"Bill," Krook, '14 was a recent visitor at the college.

**THE DRAB TAKES THE
PLACE OF THE GRAY.**

N. H. C. Cadets to Have Olive Drab Uniforms—Three Professors Judges at Rochester Fair.—Other Items.

New Hampshire College Cadet uniforms have been changed from the grey to the kahki or olive drab worn by the private in the regular United States Army. Only the new men, however, will be obliged to have them. William W. Nell, representing Jacob Reed's Sons of Philadelphia was in town taking measurements for them, Sept. 25th and 26th.

This year at Rochester Fair, New Hampshire College furnished three of the judges. Prof. Eckman had the dairy cattle to place, Mr. Stone, the beef cattle and other live stock and Prof. Rasmussen, the dairy products and canned goods.

A new order for the Freshman Handbook has been made up because of the large number of upper classmen that wish to buy them.

The new indirect lighting system in DeMeritt Hall has been highly praised by all who have seen it, and the unit ventilating system is giving universal satisfaction.

The class in Animal Husbandry 51 went to Rochester Fair, Thursday, the 24th, on an instruction trip.

'Mr. Boogaman,' a song written by Professor Richards, which appeared for the first time last year in the college song book, is now being published as a quartet selection by a Boston company.

There have been and are to be several changes made in the annual program of the Christian Association for the college year, according to President R. C. Bowden. He is interested especially in sending out a strong student deputation team throughout the state, and in doing a considerable amount of social work in Dover and in Newmarket. Another important feature is that there will be three courses given in Bible study. The association hopes to have out soon the list of its speakers for this year.

Ballard Hall is now furnishing accommodations for 25 girls, 20 of whom are freshmen, and all taking the new home economics course. The house has been remodeled and is divided into eight suites of two rooms each and eight single rooms. The rooms are furnished in the mission style and on each floor are bathrooms and shower bath.

A special meeting of the New Hampshire Union was held in the Gym, on Friday evening, Sept. 25th. Important questions concerning the Union were discussed. Dr. Fisher was present and gave his valuable advice on matters of interest.

A meeting of the Mandolin Club was held in the English class room, Wednesday, the 23rd

The social committee met Thursday, Sept. 24th, at 4 P. M., in the Modern Language room

The Girls' Glee Club had a business meeting recently in Smith Hall.

The first meeting of Alpha Zeta Fraternity was held Thursday evening, Sept. 24th.

The appearance of a new grindstone in the wood shop has added several degrees of cheerfulness to those who work there

At a meeting of the Athletic Association held directly after chapel on Sept. 23rd, William H. Blair, '16 of South Natick, Mass., was elected assistant manager of football. This followed resignation of P. S. Ward '16.

This year the wood shop is a very busy place. During the entire week there is only one hour when no classes are present. These are much different conditions from what used to exist.

**COMMITTEE WORKING FOR
GIRLS NEW REST ROOM.**

Plans to Make it Into Ideal Resting Room—Women's League Give Reception to the Girls of the Freshman Class.

The Women's League has appointed a committee of which Helen B. Thompson, Dean of Women, is chairman. The purpose of this committee is to have charge of the further decoration and furnishings of the girls' new rest room in T. Hall. It is planned to make this an ideal resting room to be used by all women students but particularly by those who live out of town and go back and forth every day.

The furnishings will be paid from funds raised by the Women's League.

On Sept. 23rd the League held its first reception in this room. The freshmen were introduced to the faculty ladies by members of the upper classes, and the afternoon was spent in an informal manner. Raspberry sherbert and lady fingers were served after which Miss Pettee, president of the League, explained the meaning of the League for the benefit of the newcomers. The meeting was largely attended by faculty ladies as well as students.

**MR. LEWIS PERKINS '71
SPEAKS AT CA' PEL.**

Undergraduates had the unusual opportunity of hearing at chapel a member of the first class which ever graduated from New Hampshire. Lewis Perkins, of the class of '71, is not only a member of the first class, but is the second oldest living graduate.

Mr. Perkins told of the first days of the school when it was an unimportant branch of Dartmouth and contrasted the college of his time with the flourishing and rapidly growing institution today.

Mr. Perkins has recently been on a tour of the Orient and visited, in China, his son, an officer in the consular service. He was particularly impressed with the Japanese steamer on which he sailed from Seattle and with the unfailing courtesy of the Japanese on ship-board and in their homes.

In China Mr. Perkins saw evidences of the revolution and visited one battlefield soon after the fighting. Lack of home life and discrimination against women he considered the weak point of the national life.

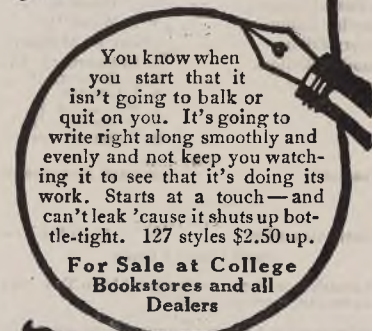

**AGRICULTURAL WORK IN
BOYS AND GIRLS CLUBS.**

L. A. Carlisle, state leader of Boys' and Girls' Agricultural Club Work in New Hampshire reports from Dunbarton that one of his boys there dug 95 bushels of potatoes from a quarter acre plot, which would give a yield of 380 bushels per acre. Several other boys got yields better than 300 bushels per acre.

There are about twenty of these boys' and girls' clubs organized at present with about 1-7 members who have planted standard sized plots. These plots vary in size with the age of the one who tills them, and contestants must keep an accurate account of expenses and receipts and exhibit with his expense book a written story on "How I Produced My Crop." Every Club member is also expected to do as much of the preparation of the seed, bed, planting, cultivating, harvesting, and marketing as it is possible and advisable for him to do. The purpose of the movement as stated in the constitution adopted by each club is as follows:

- (1) To waken an interest in the science of agriculture and in country life.
- (2) To demonstrate that farming is

"Entered as second-class matter December 1, 1913, at the post office at Dover, N. H., under the act of March 2, 1879.

DOVER, N. H., Oct. 2, 1914.

Beginning with this issue "The New Hampshire" will be published on Friday of each week instead of on Wednesday.

"The New Hampshire" Needs You. Come out and make a place on the staff. Do it for the college, for the paper and for yourself. Hand your name to the Managing Editor.

The defeat at Tufts only further emphasizes the need of active support of the team on the part of every student. Besides that loyalty to the college and its activities which we all ought to express, everyone owes this support as a duty to himself. We are all members of New Hampshire College hence we have an individual share in all the honors that it obtains. If the football team is successful, we will find it to be a definite credit and advantage to ourselves. Moreover, no ones reputation is enhanced by being a feeble supporter of a losing team. Men from Harvard, Yale and other great institutions take a great pride in belonging to colleges of such athletic prowess, and individually receive a certain measure of the popular esteem that such colleges receive. If we are ever able to feel that pride in the accomplishments of New Hampshire we have got to get out and support each year's team, on the side lines or on the field itself, to the best of our ability.

The appearance of up-to-date cement walks about the entrance to Thompson Hall and Demeritt Hall, the new engineering building, is indeed a welcome improvement. Aside from the improved appearance in the grounds which they bring about, they also make for durability, permanence, and comfort. Hereafter, therefore, when all Durham is oozing with its characteristic spring mire, these few paths will shine out brightly to the bedraggled stude, even as an oasis in the dark Sahara sheds its brilliant light of hospitality out over the trackless waste to the ambitious traveler.

The freshman handbook this year is bigger and better than ever. Every new man should read it from cover to cover and become thoroughly acquainted with every part of it. The "Freshmen Pointers" are exceptionally good and deserve serious thought.

Paul Fields, Ex '17, expects to attend a finance school in Philadelphia this year.

Miss Olive Grant, Wellesley, '16 spent the week end with Miss Murphy, '15.

Miss Florence Dudley, '16 attended the Tufts-New Hampshire game in Medford, Saturday.

THE GLEE CLUB PLANS FOR THE COMING YEAR.

Several Trips in Prospect—Three Concerts to be Given in Durham—Money Given to Bleacher Fund.

Unless all signs fail, there is every indication to believe that the coming year will be the most successful for the Glee Club since it was first organized. Twenty-six men came out last Wednesday evening for the rehearsal, more than have ever attended the first rehearsal before. There is still, however a good chance for everyone especially tenors. This applies in particular to the freshmen, on account of the forming of a freshmen quartet, as a sort of auxiliary to the college quartet. Every freshman who can sing should try out for this for it will probably prove to be a stepping stone to the college quartet.

The graduation of G. C. Bishop from the two-year course has left a vacancy in the college quartet that must be filled, thus giving a good opportunity for a tenor, or in case any transfers are made for a bass.

BIG TRIP IN FEBRUARY.

Manager Bugbee reports one big trip in prospect, probably in the February vacation. This will be the big event of the year for the club. In addition to this a number of smaller side trips are being considered.

There will be three concerts at Durham. The first will be held shortly before the Christmas vacation by the men' Glee Club alone. A lot of new music has just been received for this concert, and the men will begin work upon it at once. The second will be a joint concert by both the men's and girls' Glee Clubs. Although the date has not been definitely decided, it is expected to be sometime in the early spring. The great success of "Pinafore" has encouraged the management to consider another light opera for the third concert at commencement time. This too, will be a joint concert and the "Chimes of Normandy" will probably be the production.

A new feature is to be introduced this year in some of the concerts. This is a short sketch or farce-comedy and if successful may become a permanent thing.

DALGLISH TO DIRECT.

DalGLISH is director again and anyone who saw his efficient work in producing "Pinafore" cannot doubt that the club will have the best instruction possible.

At the business meeting of the Glee Club last Wednesday night, it was voted to add \$30 to the bleacher fund, to present the orchestra with \$20, and to place \$50 in the bank as a sinking fund.

This alone proves the club worthy of the best efforts of New Hampshire men.

The following men attended the first rehearsal.

Knight (leader)	Jenkins
Bugbee, mgr.	Yeaton
Blake	Parnell
Chase	Crockett
Thomas	Richardson
Dame	Smith
Schoolecraft	Hutchinson
Sleeper	Whitecomb
Libby	Swett
	Miltimore

If Well Bred.

You will be kind.
 You will not use slang.
 You will never indulge in ill-natured gossip.

You will be scrupulous in your regard for the rights of others.

You will not forget engagements, promises or obligations of any kind.

You will not bore people by constantly talking of yourself and your affairs.

You will not sulk or feel neglected if others receive more attention than you do.

You will not have two sets of manners—one for "company" and one for home use.—"Advance."

AGRICULTURAL CLUB.
 Concluded foom page 1

attend the first one you will attend them all."

PROF. ECKMAN

Prof. Eckman spoke in behalf of the judging teams. He asked for the support of these teams by the agricultural men because they were strictly agricultural. After outlining the work of some of the teams in the past, he closed his remarks by urging all Aggie men to try out for some judging team.

PROF. FOSTER

Prof. Foster in speaking of the Forestry Department at N. H. C., urged all men not to enter this department in a half hearted manner. He showed that to succeed in this work one must be in it "heart and soul."

DIRECTOR KENDALL

Director Kendall impressed the meeting with the fact that there is no opportunity for developing an easy manner and readiness of expression like that offered by speaking at the meetings of the agricultural club. He then spoke of the various ways in which the the extension work was reaching out and doing real service to the people of the state.

MR. HAWKINS

Mr. Hawkins represented the Horticultural club. "The purpose of the club," he said, "Was not to run in opposition with the Agricultural club, but rather to cooperate with it and help it. It was started by those men in college who were especially interested in Horticulture for the purpose of holding meetings where the subject could be discussed by all, and where one might listen to Horticultural talks given by able speakers."

He urged all men who were interested to become members.

MR. WILSON

Mr. Wilson o' the Dairy Department gave some friendly advice to the freshmen concerning the formation of good and bad habits.

MR. SAWYER

Mr. Sawyer, treasurer of the club, urged the financial support of every Agricultural man in college.

Following these short talks refreshments were served.

During the evening Ward and Langley furnished music.

DATE OF POULTRY DAY

THIS YEAR IS OCT. 20TH.

There will be a poultry day here Oct. 20 under the direction of Prof. R. V. Mitchell in charge of the poultry work at the college. A large attendance of chicken fanciers and practical poultrymen is expected, and there will be lectures and demonstrations by experts. The college, which added poultry husbandry to its curriculum last year for the first time, now has nine colony houses and a poultry laboratory and a flock of 400 birds. The breeds are Rhode Island reds, white leghorns, light brahmas and barred rocks. Besides the college work Mr. Mitchell is carrying on for the experiment station extension work covering the entire state, and is in correspondence with 1000 poultry raisers of New Hampshire.

NEWS FROM THE OTHER
SCHOOLS AND COLLEGES.

M. I. T.

The granting to the Delta Kappa Phi, a local society of the Massachusetts Institute of Technology, of a charter as the Gamma Pi Chapter of the Kappa Sigma Fraternity, makes it the Kappa Sigma's 10th active chapter.

The installation and initiation has taken place, being conducted by the officers of the New England district and the Boston Alumni Chapter, assisted by active members of the various New England chapters. The new Gamma Pi Chapter starts its national existence with a membership of about 30.

The Kappa Sigma Fraternity has chapters in these New England colleges: Harvard, Dartmouth, Brown, Bowdoin, University of Maine, University of Vermont, New Hampshire State College and Massachusetts Agricultural College. —'Boston Globe.'

AMHERST.

The Amherst freshman-sophomore flag rush was declared a draw by David S. Cutter, '17, president of "Scarab."

Stripped to the waist and covered with grease, the freshmen made a strong attack, the flag being defended by Roger Perkins, '17, of Manchester, Vt., and his class mates in the centre of a crowd of 2000 people. Before the flag was captured, however, the eight-foot pole broke at the base and Perkins seized the flag and jumped to the ground.

If agreeable to both classes, another rush will be held later.

The freshmen were disappointed because they had a rope stretched between trees, over which one of them was climbing ready to drop on the flag from above.—'Boston Globe.'

DARTMOUTH.

Dartmouth began its 146th year with a slightly larger enrollment than last year.

The freshman class will number well over 400.—'Manchester Union.'

Exeter.

Trainer Connors and Capt. Rupert Radford had a squad of about 40 candidates for the track out for light work for the first time last week, Wednesday. Besides Captain Radford there are only a few of last year's championship team in school.

These are James Phelan, a sprinter; W. T. Shannon, a mile runner, and S. Potter, a high hurdler. There are several weight men playing football, these being Wilbur Kirpatrick, Richard Cleveland and O. C. Smith, besides Herbert Kempton, the broad jumper.

Captain Williams, M. B. Orr, "Tim" Walker and Clarence Jones, a quartet of fast sprinters and middle distance men, the three former being members of the National Relay Championship team, have entered Yale, as has J. C. Rolfe of Concord, who won the mile run in the Exeter-Andover meet last June.

There will be a series of cross-country runs from now on during the fall till after the football season, when active track work will start.—'Manchester Union.'

PROF. SMITH SPEAKS AT
SERVICE OF C. C. A.

"Tap Day" at Yale is referred to during the course of his talk on "The Courage of the Commonplace."

The College Christian Association listened last Sunday afternoon in the college chapel to a talk by Prof. G. C. Smith of the Economics Department on the subject, "The Courage of the Commonplace."

In developing his subject, Prof. Smith spoke of the custom at Yale called Tap Day, when the three senior societies select fifteen men apiece from the junior class; men who are considered to have made good in the highest degree. To be one of the forty-five selected from, over three hundred is to many the height of their ambition.

An instance was related of a man, the captain of the crew, who upon failing to be chosen resolved to make good in spite of his great disappointment, which was the greater from the fact that his father and grandfather had both been selected by one of the societies. His scholarship began to improve and he was graduated near the top of his class.

During the course of his talk Prof. Smith told how a man often needs a severe shock to wake him up and make a man of him. We are hero worshipers and admire the leaders. Our fault is that we lose sense of proportion. A man must make a success of small things in order to make a success of big things. The eminently successful life of Christ is an example of this and shows that the courage of the commonplace is worth more than the courage of the crisis.

HORTICULTURALISTS
TO MEET AT ANTRIM.

The next annual meeting and exhibition of the New Hampshire Horticultural society will be held at Antrim, on Oct. 21, 22 and 23. The exhibitions and meetings held by this society are each year becoming more and more state wide. In addition to approximately \$300 in cash prizes for exhibits of fruit and vegetables, the society this year has six beautiful silver trophies and many special prizes, which will be offered. The New Hampshire state grange has donated a silver cup to be offered for the best general exhibit of apples by any subordinate grange.

The program will include many of the best speakers on agricultural subjects in the east, a representative from the department of agriculture at Washington, D. C., and a world-renowned pomologist from the west. The meetings and exhibitions are free to everybody. Any person, a resident of New Hampshire, may exhibit and compete for the prizes without restriction.

Premium lists and entry blanks may be secured of the secretary-treasurer, Stanley K. Lovell, Goffstown. —'The Manchester Union.'

HERE AND THERE.

The marriage of John E. Ladd, '13 to Miss L. F. Fellows, and of Charles E. Mathes, '00 to Miss I. E. Bentson has been reported.

Mr. John H. Abbott, who is to represent the office of Farm Management, B. P. I. and the extension service of New Hampshire College as state leader of the county agricultural agents, has arrived in town to take up his new duties. Mr. Abbott is a native of Vermont, a graduate of Tufts and the University of Vermont, and comes from Purdue University, Indiana, where he has been engaged in co-operative demonstration work with the farmers of the state.

COLLEGE CLUB ROOM
UNDER NEW CONTROL.

The Student Council Takes Charge of the Rooms—New Set of Rules and Regulations—Small Fee for Billiards.

The student council will this year have charge of the college club, which has attractive rooms in the gymnasium. There will be no fees and the club rooms will be open to students, faculty members and their guests.

Following is a set of rules governing the use of the rooms:

This room is for the use of the students and the faculty of New Hampshire College and their guests.

Everyone is expected to remember that the furniture in this room belongs to New Hampshire College and deserves the same good treatment given to furniture in one's own home.

No student is allowed to eat his luncheon in this room.

RULES FOR POOL AND BILLARDS

Sitting upon the tables is positively forbidden.

Students must pay two cents per cue per game for pool and ten cents per hour per cue for billiards.

PRESIDENTS OF GIRLS'
DORMITORIES ELECTED

At a recent meeting of the girls of the dormitories Miss Coffin, '16 was elected house president of Smith Hall, and Miss Murphy, house president of Ballard Hall.

LULL IN HOSTILITIES.
WAR AT A STANDSTILL.

(Official.) There is at the present time a lull in hostilities all along the line. The tremendous victory achieved by the Freshmen host at the Battle of Pettee Block has been more than counter balanced by their overwhelming defeat at the hands of the desperate Sophomores in the Rope Pull. In this latter contest there came about almost a fatality, when the breaking of the rope temporarily deprived Captain Harriman of the use of his respiratory apparatus.

(Unofficial.) A rumor, as yet unverified, has slipped by the censor concerning the quickness of wit of one of the Sophomores, generally known as "Kike" during the struggle before Pettee Block. Seeing that practically all his compatriots lay bound and that his own chances for escape were rapidly waning, he seized a diminutive freshman and lustily yelled, "Eighteen here! Eighteen here!" When half a dozen '18 men came rushing up, he thrust his captive of freshmen into their welcoming arms and made good his escape before they discovered the deception which had been practised upon them.

(Unofficial.) It is reported that three Sophomores engaged in putting up freshman posters on the tower of Thompson Hall the opening Wednesday evening of college, were temporarily incarcerated there by the locking automatically (?) of the tower door. This may explain why the mercury in the self registering thermometer located on the tower rose to such an unprecedented height on the night in question.

This is a Store of Sincerity.

According to our ideas there's a lot more to the clothing business than merely buying and selling.

We know that sincerity is a vital part of "THE GAME," sincerity in purpose, sincerity in policy, in quality and service.

We are sincere in our purpose to make this the kind of a store you will like—sincere in our policy to satisfy you—in our idea of quality—in our idea of service.

We sell the kind of merchandise that represents the same sort of sincerity we believe in ourselves.

We invite you to look at our Mackinaws and Sweaters, no bigger or better stock anywhere.

FRANK W. HANSON,

436-438 Central Avenue,

Dover, N. H.

I AM THE NEW CLERK

at Lothrop-Farnham Co.'s

And I hope I will see you often. I looked around and decided that they were more up to the minute than most any other house. They make a specialty of

Clothes and Shoes

of the better kind, and they are out for the young men's business. If I am busy when you call you will find a lot of other young fellows that will serve you well. Remember the place please, its

Lothrop-Farnham Co.

On the Square Opposite the American House.

Babies and Battleships at their births are christened. Babies are christened, by good ministers, with humble water. Battleships are christened, by dashing young women, with wine. After the christening the Battleships take to the water. There is no telling what the Babies will take to. A good many take wine—if they are boy Babies. It would be well to start Babies and Battleships off in the way they should go. Christen the Babies with wine and the Battleships with water.

The reason for christening Battleships with wine and babies with water, is that most Battleships are worth more than most Babies.

Sidney Smith, famous for his wit, was told by his physician to walk three miles each morning on an empty stomach. With perfect gravity Smith ironically asked:

"Whose?"

"The Punch Bowl."

A DIRECTORY OF ALL THE UNDERGRADUATES

A Complete List of all the Students with Their College Addresses—Cut it Out to Save for Future Reference.

For the convenience of all, "The New Hampshire" has printed below a directory of the student body. While undoubtedly there are some errors nevertheless it is as nearly a correct list as could be obtained.

DE LAVAL

CREAM SEPARATORS

are used exclusively by
98% of the World's Creameries

TEN YEARS AGO THERE WERE a dozen different makes of creamery or factory separators in use. Today over 98 per cent of the world's creameries use De Laval Separators exclusively.

IT MEANS A DIFFERENCE OF several thousand dollars a year whether a De Laval or some other make of separator is used in a creamery.

EXACTLY THE SAME DIFFERENCE exists, on a smaller scale, in the use of farm separators. Owing to the fact, however, that most farm users do not keep as

accurate records as the creamery man, or test their skim-milk with the Babcock tester, they do not appreciate just what the difference between a good and a poor separator means to them in dollars and cents.

NOW IF YOU WERE IN NEED of legal advice, you would go to a lawyer. If you were sick you would consult a doctor. If you had the toothache, you would call on a dentist. Why? Because these men are all specialists in their line and you rely upon their judgement and skill.

WHEN IT COMES TO BUYING A separator why not profit by the experience of the creameryman which qualifies him to advise you correctly? He knows which separator will give you the best service and be the most economical for you to buy. That's why 98 per cent of the world's creameries and milk dealers use the De Laval exclusively.

THERE CAN BE NO BETTER recommendation for the De Laval than the fact that the men who make the separation of milk a business use the De Laval to the practical exclusion of all other makes of cream separators.

The De Laval Separator Company

EXTENSIVE COLLECTION OF RARE AND ODD CHINA.

Prof. Charles James, the head of the chemistry department brought from England a part of his extensive collection of rare and odd pieces of china. Professor James brought back more than 50 pieces, consisting of a crescent, marked Worcester teaset dating about 1760, and a number of valuable pieces of Newhall and Swansea. He also brought one piece of a dinner set of recent origin, but interesting in that it was made especially for Professor James, and is decorated with hand-painted orchids.

THE "DOGS" ARE STILL SHOWING THEIR TEETH.

The ancient and honorable Order of the Dogs, which has from time immemorial existed in the hoary precincts of Pettee Block, performed its mystic ritual upon two aspiring candidates from the Freshman class, last week. One qualified for admission by evincing an insatiable curiosity in regard to the rites and ceremonies of the Order, while the other proved his worthiness for membership by his inability to cooperate with force of gravity in keeping his trousers turned down.

Sheep Thrive Better

(206)

While it is true that no known treatment or remedy will dislodge all the different kinds of worms that infest sheep, it is nevertheless true that SAL-VET will keep sheep in condition to thrive better, and saves hundreds that would otherwise succumb to the multiplying hordes of stomach and intestinal worms.

Mr. J. H. Leet, of Chas. Leet & Sons, Mantua, Ohio, writes: "We consider SAL-VET the salvation of the sheep in America, and we recommend its constant use to our customers, as well as to others."
Mr. Henry L. Wardwell, Springfield Center, N. Y., says of SAL-VET: "We have used SAL-VET as a preventive of worms in our flock of sheep, and have great faith in it. We keep it before them all the time, both when on pasture and when in the barn."

The Great Worm Destroyer **SAL-VET** The Great Live Stock Conditioner

is highly endorsed by nearly all sheep breeders and by thousands of general farmers and stock raisers. I guarantee SAL-VET to stop your losses from stomach and free intestinal worms or no pay—I take all the risk—let you feed it 60 days to prove my claims. You cannot afford to pass this offer by if you own or feed stock with the intention of making a profit from them.

Just Fill Out the Coupon

Look for This Label on all S A L-VET Packages. Don't be deceived by imitations. Don't buy "Sal" this or "Sal" that. Get the original genuine SAL-VET.

Prices
40 lbs., \$2.25
100 lbs., 5.00
200 lbs., 9.00
300 lbs., 13.00
500 lbs., 21.12

No orders filled for less than 40 lbs. on this 60 day trial offer. Never sold in bulk; only in Trade-Marked SAL-VET packages. Shipments for 60 days' trial are based on 1 lb. of Sal-vet for each sheep or hog, and 4 lbs. for each horse or head of cattle, as near as we can come without breaking regular-sized packages.

Tell me how many head of stock you have and I'll ship you enough SAL-VET—no money down—to feed your stock for 60 days. Simply pay the freight charges on arrival—feed the SAL-VET as directed. If it does not do all I claim I'll cancel the charge and you won't owe me one cent.

Cram, T. F.	Gamma House	Flinn, E. J.	2000 VOLUMES GIVEN TO COLLEGE LIBRARY.	
Crosby, R. F.	Rand	Gary, P. B.	The college library has received a collection of more than 2000 volumes, which formed the library of Lucien Thompson of Durham, who has in recent years made his home in Denver, Colo. Mr. Thompson was for many years secretary of the board of trustees of New Hampshire College and has written about the history of this part of the state. Many of the books in this collection were the property of Mary P. Thompson, Mr. Thompson's aunt. The books have not been cataloged and are not at present available to the general public.	
Cross, K. J.	Wentworth	Gilman, I. D.	REVISED FIGURES OF N. H. C. REGISTRATION.	
Green, S. J.	Gamma House	Gordon, C. A.	Revised figures show that New Hampshire college has made substantial gains in the number of students. Last year the total registration was 385 with a Freshman class of 110. This year the registration to date is 461, a gain of 76.	
Hall, H. M.	Gamma House	Graves, R. W.	An even more surprising gain is to be found in the entering class for the two-year course in agriculture. Last year 52 men entered. So far this year 69 men have entered. The probability is that these totals will be slightly increased, as registration has not entirely ceased.	
Harriman, S. R.	A. T. A. House	Harlow J. J.	EDITOR OF SURVEY TO TALK TO N. H. COLLEGE STUDENTS.	
Hazen, G. W.	Zeta House	Haseltine, F. L.	Edward Devine, known the country over as editor of The Survey, will talk to New Hampshire students in the gymnasium, the evening of November 14. Mr. Devine is a professor in Columbia University, New York and his address will be on some phase of practical social service.	
Jones, R. W.	A. T. A. House	Horne, G. M.	Mr. Devine comes to New Hampshire at the invitation of Prof. E. R. Groves of the department of sociology.

STUDENTS EARN MONEY IN SUMMER VACATION.

One girl has just returned to New Hampshire college for another year, having secured all necessary funds by making and selling doughnuts. She is taking the home economics course, and when she set out to make doughnuts on her return home last summer all non-collegiate competition fled the kitchens. She supplied two restaurants and one hotel all summer.

Almost every student in college worked at something in vacation. One man has come back with a gold medal awarded for saving a boy from drowning. He was a life guard. Another sat on a peak of one of the White mountains, and looked far and wide for forest fires. Another was a brakeman on a railroad, and there were book agents, bell boys, waiters, farm hands, mechanics, garage attendants, musicians and street car conductors. Many of the girls were book agents.
