**Hard Fought Contest** Proves Ability of Team Leavitt, l. e.

SCORE 10-7

Third Consecutive Double Win for the Blue and White-"Dutch" Plays Wonderful Game-Sensational Run in Second Half

For the third time, New Hampshire's gridmen have brought home Anderson, r. e. the bacon in double amounts, as both Butler, q. b., the varsity and the freshmen were victorious last Saturday on hostile territory. The varsity took the long Andrews, r. h. b. trip into Vermont to meet the strong Norwich eleven, on the hundredth anniversary of Norwich University. They found the cadets just as strong as was expected. But the fighting spirit of the Blue and White prevailed, and Norwich was forced to give in to the tune of 10-7. The freshmen also won by a three point margin, when Posse. Head linesman: Ireland, they turned back the scrappy Man- Tufts. Time: Four 12 min. periods. chester High team. Once more, "Dutch" Connors' toe was the winning factor, as the three points scored by his drop kick were sufficient to keep the score from being tied. The Norwich team was somewhat overconfident as a result of their good showing against Dartmouth the week before. Nevertheless, that feeling was soon changed. The only man on the Norwich team who was able to gain at all, was Harold Martin the colored halfback. He was a constant source of worry to our men because of his shiftiness, but he, alone, was not enough to win the game. Norwich's touchdown, was the first score made on New Hampshire this year.

### THE GAME

ately punted, and Norwich did like- will be carried on. wise. It was at once evident that It is hoped that every student and kicks, New Hampshire rushed the ball war. to within the Norwich 30-yard line, and "Dutch" attempted a drop kick, but the strong wind blew it aside and it was Norwich's ball on their 20yard line. He also tried two more kicks in the first period but failed. One of these was from the 50-yard organized and its work is well under mark. With a few minutes left in the first quarter, he was once more the receiving end.

### CONNORS AND DAVIS STAR

Norwich had fumbled, and "Dutch" Music Department on that day. Connors had secured the ball. With Mr. Walter H. Dockham, instruca clear field he raced ninety yards for tor in voice, is a graduate of Cornell a touchdown. Hundreds Watch Contest-Freshmen Never in Danger of Losing-Fight Follows Demand to "Kiss Rope"

Several hundred people gathered on the banks of the Oyster River last Friday afternoon to watch the annal sophomore-freshman rope-pull. At the crack of the pistol the rope jumped from the water as the men strained to their task. The freshman team captained by J. A. Hollenbec, pulled in unison and soon had the sophomores out of their trenches and stubbornly fighting to stop the conquering freshmen.

However the cheers of the upper classmen urged the freshmen on and never did the class of '22 have a hope of winning. Their team swam swiftly through the river hanging at times to the slippery rope. Eleven minutes after the first signal was given an echoing shot proclaimed the freshmen

The sophomores stung by the un- Confirm Temporary Appointments of expected defeat, blocked the fast dispersing throng of freshmen with a demand to "kiss the rope." Immediately one of the unheralded generals of the victorious class called a council and the rope was rushed. The members of the Board canvassed with President Hetzel the registration figures for the present college year and the condition of the physical equipment and plans for the work of the college during the next Callahan, q. b. few months.

There is general gratification for the larger enrollment and the prospects for an exceptionally successful college year.

## A CALL FOR 80,000 CENSUS ENUMERATORS.

The Director of the Census, Hon. Sam. L. Rogers, announces that 80,-000 enumerators will be needed to take the next census. The work bewill vary, depending upon the locality and character of the district to be canvassed. The average pay per enumerator at the census of 1910 was about \$70. At this coming census it will probably be not less than \$100.

"Active, intelligent, and reliable men and women, not less than 18 years of age, are needed for this task," said Director Rogers, "and, in a sense, this is a call for volunteers. The importance of a complete and reliable census, especially in these critical times when more than ever before perhaps we need complete data regarding population, conditions, tendencies, and resources, can hardly be over-emphasized. The reorganization of the social and economic structure relations necessitated by the war must he based on accurate knowledge if we are to act wisely and deal justly with The New Hampshire College En- all classes and all interests. ### VARSITY FACES VERMONT AT BURLINGTON IN NEXT GAME.

Next Saturday the Blue and White will do its best to annex its fourth straight victory when it forces the University of Vermont at Burlington.

This will be the first game between the two institutions since 1916 when Vermont came to Central Park, Dover, and won a victory after New Hampshire had the game 9-0.

In that game Vermont came back strong in the last quarter and scored two touchdowns on a team comprised mostly of "subs."

New Hampshire came out of the Norwich Saturday game with no serious injuries while Vermont was defeated by Columbia University in a hard fought battle at New York, by a score of 7-0.

With Vermont smarting under defeat and New Hampshire for a clean slate next Saturday's game promises to be a fast one.

### BEAUTIFUL FONT DEDICATED AT DURHAM CHURCH.

On Sunday last at morning worship the baptismal fonth, presented to the Durham church by members of the anniversary of the church, was dediment assisted in the service of dedication. In accepting the gift on behalf freshmen girls who had not yet reof the church, Mr. Dabney commented ceived them. on the splendid support of the college faculty in all worthy community enterprises. In his sermon on God in an Age of Rebuilding Mr. Dabney said in part: "Let us in this age of reracy and righteousness."

### MISS GRACE SAGE READS "ROMANCE" IN COLLEGE GYM.

On last Friday evening Miss Grace Sage, impersonator, presented "Romance" at the college gymnasium. About 200 were present and the evening was most enjoyable to all.

Miss Sage was a fine reader and her selections were appreciated. She gave the audience a humorous selection, as an encore, entitled "Mud Pies," which met with great favor.

Miss Helen Whittier, '22, Leona Colton, '21, and Clara Smith, '21, entertained with musical selections and Italian dances during the intermissions between the acts.

### FRESHMEN SCHEDULED TO PLAY ANDOVER SATURDAY.

fortune to hear the President give his opening address, will remember that he spoke of laws, both written, and unwritten. New Hampshire has one unwritten law or tradition that is worthy of the earnest consideration of every student. That is the tradition which frowns upon smoking on the campus or about the village streets.

This tradition deserves to survive. One of the noticeably fine things of our college is the fact, that ordinarily, students are never seen smoking on the campus. At some other colleges, students may be seen smoking as they cross their campus on the way to chapel. But this is in no sense a prepossessing sight. If this practice is not a reflection upon a college, it surely cannot be said to win a favorable impression from those observers who are constantly seeing it enacted.

The point involved is not a question of morals. It is more a matter of common sense and good taste. With the good or the evils of the smoking habit this article is in no way concerned. Men in the service seemed to think that cigarettes were remarkably fine things to have around. While the smoker knows that there are far less dependable and solacing friends than a good old "three B." The army life seems to have created a tendency in many, of carelessness and forgetfulness in regard to the habit of smoking. A tendency which is evident in the common inclination to smoke anywhere at any time, regardless of the desires of others.

Naturally if one possesses a scholarship it is inexpedient for him to smoke upon the campus. But this should not be the primary motive for observing the unwritten law of the institution. Each student should feel sufficient pride, or at least satisfaction, in the thought that by observing this custom, we are in one respect, superior to other colleges. He should be willing to support this tradition even if it does necessitate a bit of self denial and inconvenience.

Since the opening of college far too many students have failed to observe the traditional custom. After meal times when men are leaving the Commons, the streets look as if a Ford with a faulty carburator had passed along and left a smoke screen behind it. Much of this smoking is done thoughtlessly, perhaps from force of habit. Some of it is done by new students who may not be familiar with the ancient custom.

Let us, in the future, be more careful to observe a custom, which if it had not been worthy must not have survived so many years. Few would say that the tradition is obnoxious or harmful. Most people believe it to be a fine thing. Judging from popular sentiment, it is an excellent custom, the continuance of which will be an aid to the college which we all desire to support.

## TRUSTEES SPEAK TO STUDENT BODY

### Ask Hearty Co-operation In Their Difficult Task

PROF. J. A. TUFTS TALKS

Rapid Growth of College Noted by Outside World-Graduates Perform Meritorious Work-"Thinkers" Sought for by the Public

Prof. James A. Tufts and Hon. Eugene S. Daniell, both members of the Board of Trustees of New Hampshire College were present in chapel services held last Wednesday afernoon at the Gymnasium.

President R. D. Hetzel presided, and in his opening remarks, stated that the order of classes would have to be observed at the Common building until the present over-crowded conditions are remedied. In carrying out this plan, the seniors will be seated first, the juniors second, the sophomores third, and, if there is room enough, the freshmen next. The president urged the freshmen to be contented to await their turn and, if necessary, to accept a second table until the balance of the equipment arrives at which time the entire student body will be served together.

Dr. Hetzel then introduced as the first speaker Hon. Eugene S. Daniell. a member of the Board of Trustees, who spoke briefly to the students. He went on record as a staunch advocater of Military Training and urged all the men students to go into it with a good spirit. The speaker emphasized the fact that the men taking this training would certainly find it beneficial in later life.

### NEED HELP OF STUDENTS

Professor James A. Tufts of Philips-Exeter Academy, one of the oldest members of the board, was next introduced by President Hetzel. Prof. Tufts dwelt on the many things the trustees are endeavoring to do for the college. But all this would be in vain if the students failed to do their part. Mr. Tufts said that when New Hampshire College was founded, at first only the men and women of the Granite State sought what it had to give. "But now," said the speaker, we have enrolled in our various classes not only men and women from all parts of the United States, but also from the British Provinces." He said this showed the remarkable growth of the institution, and told the students that a standard has been set by the college which is attracting the attention of the outside world more and more each day. Unless something happens to mar the fair name of the school, he could see no reason why the college should not progress in the future with even greater rapidity.

### LEAD CLEAN LIVES

dents lead good lives do so when out of college. For a porter, forget it. man's career, whether good or bad, is oratory at Pittsburg, Penn. While he fight. was being shown through the building he noticed on the walls of one of the rooms several New Hampshire banners. Upon enquiring, he was informed that because the experiments were more or less of a private nature, it was the custom to have each experimentor put the pennant of his college on the walls of the room in which he worked. Not knowing that he was a trustee of the institution, the evening the freshmen girls, assembled escort told Prof. Tufts that there were in Ballard Hall like jurors in the box, none better than the men from New were read the "riot act" by the Hampshire College. The speaker asked the students to try hard to keep The traditional bells with their up the standard set by those gone presented to the freshmen (after the spoke of the world's need, at the prescollection of a quarter from each ent time, for thinkers, and quoted works." the greater institutions of country.

Chapel was brought to an end with the singing of different school songs accompanied by the college "Jazz" or-

### LOOKING BACKWARD.

The long summer vacation which for most of you has been far too fleeting, is past. The silence that during the summer months reigned in the classrooms and corridors of the college halls, is once more broken by the sound of cheery voices, and the trampling of many feet. A new year of work is ahead.

It is well at this time to pause for a moment's consideration of the summer left behind. What have you acmplished for yourselves and for others? Above all, what have you done for New Hampshire College?

Presumably many of you have worked in order to defray the expenses of the coming year. Because for many the summer months, in a sense, are a seven years of plenty in which to store up for future needs. As you toiled in a machine-shop, a store, or on a farm, you met people who questioned you about the college. You were asked how you liked the college, how long you had attended, and if you were going to return. There was your chance to help the college! How did you meet it? Did you give a good word for the college? Did you tell how it was growing? Did you tell of the possibilities, of the advantages, of all the fine things of the college life? Were you an optimist or a pessimist?

How many young people did you interest in the college? How many have entered college this fall, or are entering at some later date because of your influence? Were you a knocker" or a "booster?"

When you left college last spring, you went as a representative of the college. Every day of your vacation, somebody was watching your conduct, estimating your worth, and in this way forming through you, an opinion of New Hampshire College. How did you represent it? Were you always a college man and a gentleman? Did you drive a powerful car at sixty miles an hour through the streets of your home town? Did you steal the gate of your next door neighbor and lead the village "cut-ups" and land in the village "lock-up" on the night before the Fourth of July?

If you went down to the village store and heard some local oracle 'taking a fall out of the president," criticising the administration, or indulging in pessimistic remarks regarding the League of Nations, did you lend a pessimistic voice to aid the critical, and help enhance the general gloom caused by an over indulgence of crackerbox philosophy?

As you think of these queries which are not all superficial or irrelevant, what is your conclusion? Did you He asked the men and women of the support New Hampshire College? institution to endeavor to lead lives Are you a loyal student? ### Y. W. C. A. EXPLAINS WORK OF ITS ASSOCIATION.

The regular meeting of the Y. W. C. A. was held last Wednesday evening at 7.15, in Smith Hall parlor. It was called a "U" meeting; the members of the cabinet explained the meaning and purpose of the association, and described its work, putting the work into four divisions, with these topics: "Understanding, Unity, Unique, Universal." After the chairmen of committees had thus told of their part of the work, Miss Ora Phelps talked briefly to the girls about their responsibility and what the "U" should mean to every mem-

### H. D. BACHELOR, '03 HAS FINE RECORD

Made Enviable Reputation in Special Government Service During the War-Other Snappy Notes

H. D. Bachelor, '03, who is laboratory director of the National Carbon Sept. 3, in Berlin, N. H., to Miss Company, Cleveland Ohio, has just Daphne Mooney of Berlin. "Walt" returned from a two months' trip to Europe. Mr. Bachelor might have held a lieutenant colonel's commission in the army had he so desired but his company felt that it would be better for him to continue in special government work at their laboratories. It is said that the men working under the direction of Mr. Bachelor were the means of saving more lives than any similar group of men in the entire history of the world. The work referred to was research work to discover the best gas absorber to use in year. making gas masks. At the end of the the first four; at the end of the sec- mouth on June 30. ond it stood first and at the end of the first month it was so far ahead of all others that he was made resonsible for the entire development of a charcoal gas absorber.

Mr. Sanborn returned from fraternity feeling which existed among service men during the war will be perpetuated here in college.

## LOSES TO MASS. AGGIES.

The stock judging team from New Hampshire lost first place by a narrow margin to Massachusetts Agricultural College in a contest held at the Eastern States Exposition in Springfield, Mass., Sept. 15.

The team was composed of three men. They were Harold R. Ham, '20, of Durham, Perley I. Fitts, '20, of Etna, Arthur W. Brown, '20, of Fremont. Robert W. Hartwell, '21, of Littleton, Mass., was alternate. Asst. "Crap" Brackett, '18, was back for Prof. Clifford J. Fawcett acted as coach. These men were chosen from rally. He showed his ability at pass- the result of a tryout held here Sept.

The team covered the route to Springfield by auto. They stopped at Pittsfield and other places to look over live stock. The New Hampshire men placed nine rings of stock at the Exposition. Draft horses, fat hogs, beef cattle, milk and Shorthorn cattle were judged.,

### GIRL COMMUTERS DISCUSS FORM OF CONVOCATION.

The girl commuters held their second "get-together" meeting at the Rest Room in Smith Hall, last Thursday at 12.45 p. m. The subject for the rope-pull; Willis Day was elected discussion was, "Is the present form of convocation what the students of Lawrence Thompson was made chair- N. H. C. really need most?" Arguments were advanced both for and against it. It was a topic in which all were interested, and the discussion stimulated this interest. It is sincerely to be desired that in the fu-ELECTED CLASS PRESIDENT. ture each meeting will prove to be equally as successful.

### REORGANIZATION OF LIBRARY COMPLETE

Students Urged to Utilize Services of Library-Mr. Lewis New Librarian Courses in Library Instruction to Begin Soon

With the opening of a new college year, New Hampshire College Library wishes again to emphasize its desire to serve the college students and faculty as well as the citizens of Durham. Few libraries of its size can boast of as varied and well-selected a collection, including books of a technical nature chosen for the various courses offered, as well as recreational reading-fiction, travel, essays, poetry, etc. Students are urged to read for other purposes than merely to fill a college assignment. Read the standard magazines regularly especially those relating to current events such as Current Opinion, Independent, Literary Digest and World's Work. Read good fiction, works of travel and general literature, not hurriedly but slowly and carefully to gain all the good you can from it. By so doing you will gain a fund of general information which will form a valuable part of your college education. The college library should be a center of inspiration and help to the entire community and a means of drawing the different sections of the institution together. The librarian and assistants are glad to help whenever assistance is needed and you are urged to ask for it.

CHANGES IN STAFF

During the summer a new librarian, Willard P. Lewis, arrived to take the place made vacant by the resignation of Miss Emerson. Mr. Lewis is a graduate of Wesleyan University, Middletown, Conn., and of the State Library School at Albany, N. Y. For two years he was a student assistant in Wesleyan University Library, for one year assistant on the staff of the New York State Library, for one year librarian of the Albany, N. Y., Y. M. C. A. and for the past five years, librarian of Baylor University, Waco, Texas. Another new face in the library is that of Miss Helen Cushing, who comes from New York State Library to be cataloger in New Hampshire College library. Miss Cushing is a graduate of Acadia University and of the New York State Library School. She has served on the staff of the New York State Library for a year and a half in the reference and document sections. The other members of the staff, Miss Thompson and Miss Barstow are familiar to New Hampshire students who have been here before.

NEW PLANS Among the changes for enlarging the usefulness of the library will be noted the arrival of a new catalog case and the placing of both that and the old case in the delivery room of the library where they are readily accessible to all. The Poole, Readers' Guide, Industrial Arts and Agricultural Indexes for magazines have also on a table in the same room. In the large periodical resources of this library there is a Does the kind of work that pleases.
Try us for your Christmas photographer. Open from 8 a. m. to 6 p. m.

Agents for Kodaks and Photographic Supplies. Dealers in Wall Paper, Room Mouldings and Window Shades.

Agents for Kodaks and Photographic is hoped those interested will not fail to take advantage of. We hope in the future to build up a large pamphlet file to supplement this and also many of the Debaters Handbooks published by the Wilson Company. Plans are being made for courses in library instruction and the use of the library. In conclusion, the library would appeal to all alumni who are interested in seeing the college and library grow, to send us books, and funds for the purchase of books. What better class gift to the college than a fund for the purchase of good books in a special class such as American history, dairying, organic chemistry or electrical

> Q.—I am troubled with freckles. In fact, they are so noticeable that it is difficult to distinguish me from the freckle. Now can these be cured?

—OPHELIA.

Dear Ophelia:

engineering?

A .- To keep the freckles from showing, insert your head in a bucket containing iodin. Repeat this daily. At the end of a week, you need not worry about your freckles showing. To avoid undue comment as to your nationality and race, it would be better to go bare-footed while in public.

Jevver notice that when a girl gets her hat down over her eyes and a wad of hair over each ear, her brain also goes into eclipse?

## "STRAIGHT-FROM-THE-SHOULDER RELIGION"

Enjoyed by Doughboys Says **Returned Pastor** 

Boston-Proof conclusive that the doughboy thoroughly enjoys straightfrom-the-shoudler religion was the trend of a statement just made by Dr. Albert S. Hawkes, pastor of the Worcester, Mass., Congregational church, just returned from France.

Dr. Hawkes' assertion is based on the fact that the nine Y. M. C. A. huts in Camp Pontanazen, Brest, each with a capacity ranging from 1,200 to 2,000, are crowded to the doors on Sundays during the religious services.

"I have seen these buildings so packed," he said, "that men sat in the rafters, windows-any place they could

Dr. Hawkes was director of all musical programs connected with religious services conducted by the Y. M. C. A. at the big camp. When he began the work of organization there were only two pianists and song leader. In two months he had increased this staff to thirty accomplished musicians, soloists and song leaders, this number increasing with the demand.

In the huge auditorium with a seating capacity alone of three thousand, he declared that he has seen men, who remained after the mass-singing to hear the lecture, leave when the "movies" began. The singing was invariably met with unbounded enthu-

"It was wonderful! An inspiration! Imagine, if you can, more than three thousand full-toned, healthy, male voices ringing with the notes of a famous anthem. They sang like they fought-with every ounce of energy their American souls possessed.

"Popular songs started the program, the words flashed on the screen. The singing service ended with hymns.

"The finest speakers obtainable in France were next introduced. After a short, snappy talk soldiers were given opportunity to consult them. Hundreds of men have availed themselves of this opportunity—the last one afforded while in military service."

Speaking of the distribution of religious literature by the "Y," Dr. Hawkes said:

were wanted and appreciated demonstrated by the fact that in barracks and tents, religious publications were always found neatly arranged with other soldier effects. They were never thrown around or destroyed as were newspapers, booklets, etc., after they had been read."

He believes that this type of welfare work, about which little is known or understood, is the most remarkable and thorough of any of the multiform ways in which the "Y" served the A. E. F. The soldier loves to sing when proper facilities and good leaders are afforded, and he appreciates good speakers on religious topics.

"The significance of our work was two fold," explained the pastor. "First, it brought the Christian gospel before the soldier in a practical, heman fashion. Secondly it showed him at the close of his military career, that Y. M. C. A. stood for something else besides canteens, recreational and the various other activities to which he was accustomed at the front."

### THE WORK OF THE "Y."

Paris-(By Mail)-If it is true that armies travel on their stomachs, then the American Expeditionary Forces included literature in their diets. The Y. M. C. A. distributed more than 5,-000,000 bound volumes throughout the American units abroad during the months of the war. For a number of months more than 300,000 magazines were distributed monthly without cost to the soldier, but at an expense of \$30,000 per month.

More than 28,000,000 copies were distributed during the period of the war at a monthly cost of \$85,000. Ninety per cent of these were given away. More than 1,000,000 volumes of text books were printed or bought by the association for educational work, all of them eventually being taken over by the Army along the Y. M. C. A. educational work. A million and a half copies of "Popular Songs of the A. E. F," a 96 page song book, were printed by the "Y" and distributed free of charge to the doughboys. while \$33,000 other volumes of musical works and sheet works were given away. There was also free distribution of more than 2,000,000 pieces of religious literature.

Before the American Library Assosiation arrived in France to carry on Its enormous work the task of furnishing all literature fell upon the "Y," and at times because of difficulties attendant on shipping the association was forced to advertise in Paris papers for gifts of reading matter printed in English in order to be able to carry an its work.
