for about the same length of time it fell to the depth of two feet I have not Seen buch a bnow for many years it is deeper than it was in fifty two I how started both the gerls to School but when I got my arm hurt I had to keep telly at home to do the work we have two Boardens this term. Jo. Lowrence forwarded your letter to Milo. have you been promoted to first Tient. it was so stated in the Cin. Gazette but you said nothing about it in your letter and I thought probably was a mislake. I do not know how it is about Julleys I hope the report about his drenking is false it would be a futy for as talented a young man as I think he is to throw himself away in that way, we like Lieuts Mory very much for the short acquaintonce and we hope you will bend us Treut, Taskey before very long and then we will tell you how we like him. I must close Ally or Mary well fell up the balance of the sheet write often and tell as if you are right well. your Mother & Tadley

Jan. 24 th you see that it has been there days since I commeced this letter and the Gerls have not had time to write any yet so I thought I would add a few lines and Mail it for I know you would rather howe half of a letter than none. yesterday we received your note of the 16 th and was borry to learn that you have to. leave your comfortable Quarters I was in hopes you could stay there untill the hardest of the winter was over. yesterdays paper says that Burnsides has crossed the Rappahannoe and that a terrible battle is going on and that Hooker is Mortally wounded I hope it is not so, for we can't spare any more Generals very well. my orna is alittle better though it pains me very much yet it is with great difficulty that I write you my writing looks as though it was written with a lame hand but I gest you can read it. lack out for one from Mary and Ally in a few days, well you have got the position you ought to have had a year ago.
